HENDERSON'S
Everything for the Garden

MARCHING TO VICTORY-
via THE VICTORY GARDEN

SINCE 1847

R HENDERSON & CO., 35 Cortlandt Street, NEW YORK CITY
Henderson’s Victory Garden Collections of VEGETABLE SEEDS

These collections are made up of varieties of known merit, that have been selected in quantities for the allotted garden space, to produce a continuous supply of delicious high quality vegetables throughout the entire season. They contain well balanced percentages of green and yellow vegetables and all are high in food values. They save time and at least 25 per cent off the regular list prices of the seed.

7004 SUBURBAN VICTORY GARDEN
Collection of 24 Varieties $3.00
A Complete Vegetable Garden, 50x50 Feet

This collection is for the average size family. A Garden Guide is included with every collection so that anyone can succeed in producing quantities of vegetables.

Henderson’s Vegetable Seed Collections are delivered transportation paid anywhere in the United States.
Plan Your Garden Early this Year and Please Order Early

It is Easy to Shop by Mail. We are as Near to you as your nearest Mail Box.

Avoid later disappointment by planning your garden during your leisure moments this winter and by placing your order for your garden requirements as early as possible.

Our principal thought in the compilation of this edition of "Everything for the Garden" was to assist you in every possible way to make it easy for you to plan your garden within the comfort of your own home, where selections can be made carefully and unhurriedly.

If you are a beginner in gardening we recommend that you obtain a copy of Henderson's Garden Guide & Record described below. It gives detailed information that will be found very helpful either for planning the layout of a new property or for designing a flower or vegetable garden. It also tells how to start seedlings indoors or in a frame as well as complete cultural instructions for all the popular flowers and vegetables.

See index pages 151-152.

Before ordering, please read instructions on page 152.

Use order blanks inserted under back cover.

All orders filled promptly.

Complete Information for Planning, Building and Maintaining a Garden

This 104-page Book Tells You

How, What, When and Where to Plant

HENDERSON'S GARDEN GUIDE & RECORD

Sent without charge on every order amounting to $3.00 or over if requested. Published price 35c.

This Book answers thousands of questions about gardening. It tells how to make rose gardens, rock gardens, perennial gardens and gardens of annual flowers. In short, with this new edition, it will be possible for any garden lover to take an undeveloped piece of property and make a garden. It also gives complete cultural instructions for growing both vegetables and flowers written by experts. Size, 5 by 8½ ins., has 88 pages of text, including index. Also 16 record pages; 104 pages in all.

Marching to Victory via The Victory Garden

On that fateful Sunday morning of December 7th, 1941, America, as one man, arose to march against a treacherous foe. The millions of men who are now in the armed forces and are marching against the enemy are dependent upon the other millions at the home front to maintain the life line—and the home front is maintaining it, and is marching on with confidence and with the purposeful resolve to continue uninterruptedly till Victory is won.

It is singular that one of the most peaceful pursuits of a peace loving people becomes a valuable adjunct to the furtherance of our war effort; namely, gardening.

The call which issued forth from our Government last year to put our gardens to work, is again being issued in more emphatic tones for bigger and better gardens this year. Every red blooded American who cannot serve at the battle front, can assist materially in the war effort by making a Victory Garden. He will thus serve his country—first, by relieving the heavily taxed transportation facilities; second, by keeping himself and his family strong and healthy by the production of an abundance of vitamin laden protective food and third, by the saving in his food budget which will make it possible for him to buy more War Bonds.

Our background of almost a century of service to the Gardeners of America makes it possible for us to offer greater service this year to our country and our customers than ever before. During the past decades, we have developed new strains and improved existing strains, so that the planter can obtain maximum results in quality and quantity for his labor and efforts.

As there are likely to be curtailments in the commercial production of certain vegetables and fruits due to lack of labor and transportation facilities it is recommended that all varieties and especially those that require long hauls, be grown this season in the home garden.

Although the greatest stress this year is laid upon food production in the garden, the ornamental plantings, the lawn and the flower garden should not be neglected or sacrificed. Nothing can take the place of flowers, in the garden or in the home to raise one's spirits or build morale. While our seed stocks are now complete we advise and urge our customers to order early, as there are scarcities in some items due to the fact that American seed growers must not only produce enough to take care of our own needs but also those of our Allies.

Very truly yours,

PETER HENDERSON & CO.

January 1, 1943

That you and your family may enjoy the American Way of Life and the beauty and fruits of your Garden for many years to come.

1847 Ninety Six Years of Successful Seed Service to the Gardeners of America—1943

(Copyright, 1943, Peter Henderson & Co., New York)
It Is Easy to Make a Beautiful Lawn
Or Repair A Poor One The HENDERSON Way

FOR A NEW LAWN
1. Prepare the ground as soon as it can be worked. Spading is the first step towards a perfect lawn. Spade deep and loosen the soil thoroughly. Next, apply Henderson's Lawn Enricher. If the soil is very heavy, or on the contrary very light and sandy, add Humus (see below).
2. Rake backwards and forwards to break up clods and lumps, also to level the ground. The more the rake is used, the better will be the condition of the soil for seeding.
3. Rolling is the next step. A water-weight roller weighing about 400 pounds, is recommended. Roll in each direction, levelling the ground and smoothing out any undulations.
4. Before seedling, rake lightly to loosen the soil to a depth of about one-half inch; it is then ready for seating. When seating by hand, shake out the lawn into 10 by 10 foot squares, and allow one half pound seed for each square. Always work backwards; this allows you to inspect your work and to add a little seed here and there where needed.
5. With a HENDERSON FERTILIZER AND SEED DISTRIBUTOR (see page 132), seating will be greatly simplified, as a more even distribution of fertilizer or grass seed is obtained. When the grass has reached the height of 1½ inches, it is ready for cutting.
6. Keep the lawn moved to about 1 inch, with the Henderson Estate Mower. This allows the grass plants to spread and establish a thick, healthy turf. By seating and feeding the lawn both in spring and fall, a vigorous turf can be maintained at all times.

LAWN ENRICHER
For New and Old Lawns, Athletic Fields, Golf Courses, etc. It is Odorless, and Quickly Induces a Luxuriant Green Growth

The constant mowing of grass and removal of clippings also removes a proportion of digested plant food. Therefore, if the luxuriance of a lawn is to be maintained, it must be top dressed at least once a year.

For a new lawn a 10-lb. package is sufficient to cover an area of 200 square feet; per acre, 1,000 to 1,500 lbs. Apply broadcast with machine or by hand as evenly as possible on a quiet day and preferably just before rain. It applied during the summer, use half the quantity and water in thoroughly with a hose.

Prices:
- 5 lbs. $ .35
- 10 lbs. 1.00
- 25 lbs. 2.00
- 50 lbs. 3.25
- 100 lbs. 5.00
- 500 lbs. 22.50
- 2,000 lbs. (1 ton) 75.00

Delivered transportation paid within 150 miles of New York City.

TO REPAIR OR RENOVATE A LAWN
Give the entire lawn a thorough raking with an iron or steel tooth rake. This should be done in spring as soon as the ground is workable, to loosen the topsoil and aerate the lawn, also to remove dead grass sticks, stones, etc. Next, applyhydrated Lime at the rate of 10 pounds to 200 square feet. Lime conditions the soil and liberates food elements which the plants are otherwise unable to obtain.

A few days later, Lawn Enricher should be raked in, in the same proportion as the lime. Having thoroughly worked both of these ingredients into the ground, reseed with The Henderson Lawn Grass Seed Mixture. Seeding should be done early in spring. This will allow the grass to become well established before hot weather sets in.

Watering is an important factor, and it cannot be too strongly emphasized that after seeding—particularly if the weather is hot and dry—watering with a fine sprinkler is most essential. Do not sprinkle the lawn lightly, but allow the sprinkler to rotate slowly and thoroughly soak the ground gradually, to obtain a deep water penetration. This will produce quick germination and encourage deep root penetration. An occasional topdressing of half the above mentioned quantity of Henderson's Lawn Enricher, thoroughly watered in, during the summer will keep the lawn vigorous and healthy.

HUMUS Pulverized
Nature's Product for Enriching Lawns and Gardens

Humus is not a chemical fertilizer, but a natural organic substance consisting of deposits of decomposed vegetable matter that has been accumulating for countless ages.

Pulverized Humus is black in color, it is easy to apply, and serves many functions in the soil. It loosens heavy clayey soils, and promotes aeration. It increases the moisture-absorbing power of light, sandy soils and corrects mechanical condition of medium soils.

Pulverized Humus is absolutely odorless and is therefore very desirable for starting seedlings indoors, also for potting bulbs and other house plants.

Prices:
- 5 lbs. $ .95
- 25 lbs. 1.00
- 50 lbs. 1.50
- 100 lbs. 2.50
- 200 lbs. 5.00
- 1,000 lbs. 10.00
- 2,000 lbs. 16.00

This view shows a small section of the lawn made with "The Henderson Lawn Grass Seed," on the Estate of Dr. W. F. Jones, Fairfield, Conn., "the beautiful color of the grass, its luxuriant thickness and almost absolute freedom of weeds, is a source of pride and joy to me and my family."

The "Henderson" Lawn Grass Seed
Is Used On The Most Beautiful Lawns in America
It Produces a Carpet of Unrivalled Emerald Green and in Four Weeks from Sowing It Is Ready for Mowing

A good lawn is unquestionably the most beautiful and most essential feature of the home grounds; or of any landscape development. Nothing else can set off the architectural beauty of a building to better advantage than a well-made, well-kept lawn. A beautiful lawn is not only valuable from an aesthetic viewpoint, or because it promotes pride of ownership; but, it also has intrinsic value, actually increasing the value of the property upon which it grows.

A lawn made with THE "HENDERSON" LAWN GRASS SEED is practically permanent. Customers tell us that lawns made with this mixture twenty or more years ago are as beautiful today as when they were first made.

It should be borne in mind when considering the making of a lawn that the cost of the seed represents only a small part of the actual investment. The labor cost is usually far in excess of the cost of the seed. It is therefore false economy to save a few cents by buying a mixture of grass seeds obtained from a questionable source, only to be obliged to endure the annoyance and expense of continually repatching a weedy, irregular turf and perhaps being forced to do the entire work over again in a short time.

Henderson's celebrated Lawn Grass Seed Mixture has been thoroughly tested by a country-wide use during three-quarters of a century. It is the fruit of years of our personal experience and study, coupled with that of many of America's foremost gardeners, who steadfastly maintain and unite with us in saying that it has no superior for American conditions and the American climate. The rapidity with which it will form a deep green velvety turf, has been the delight of gardeners since its introduction. For, under ordinary conditions, the bare soil will be clothed with an emerald carpet of living green in four weeks' time.

Price of The "Henderson" Lawn Grass Seed Mixture (Delivered Transportation Paid)

1/2 lb. 35c; lb. 60c; 3 lbs. $1.75; 5 lbs. $2.75; 10 lbs. $5.50; 25 lbs. $12.50; 100 lbs. $45.00

"How To Make a Lawn," is the name of our pamphlet containing full instructions for making a new lawn, or for renovating an old one. A copy is enclosed in every package of grass seed. Also sent to customers upon request.
Henderson's Grass Seed
For all Turf Requirements
Delivered Transportation Paid in the U. S. A.

SHADY NOOK
The Ideal Grass Seed Mixture for Shaded Areas

On nearly all lawns there are unsightly bare spots under the shade of trees, which have baffled all efforts to get into Grass, but with this mixture there need be no further difficulty. It is a combination of fine, dwarf growing, evergreen varieties, which in their wild or natural state are to be found growing in the woods or other sheltered and shaded spots. Ground that has been densely shaded by trees is frequently "sour," and if the drainage is defective it is apt to be covered with moss and coarse Grasses. In such cases an application of shaked lime, at the rate of one hundred pounds to each thousand square feet, or two tons to the acre, is an excellent corrective and sweetener, but the moss should be first raked off. Sow seed at the rate of 1 lb. for 200 sq. ft.; 3 lbs. for 1,000 sq. ft.

Price, ½ lb., 40c; lb., 75c; 3 lbs., $2.20; 5 lbs., $3.50; 10 lbs., $6.50; 25 lbs., $16.00; 100 lbs., $56.00.

SPECIAL "BENT FORMULA"
It Makes Every Lawn Like a Putting Green

A combination of the finest recladded Grasses, using as a basis for this mixture the imported and domestic Bent Grasses which are so largely used in the fair Putting Greens of today.

A lawn seeded with this mixture and properly cared for will in truth make every lawn a Putting Green. On a lawn of this type, Clock Golf and other lawn games may be enjoyed played.

It is imperative in maintaining a lawn of this type, that the grass should be kept cut short and well rolled all through the season. Starvation of the grass plants is the most frequent cause of unsatisfactory lawns, and Grass needs constant small applications of fertilizer and plenty of water to maintain a perfect lawn.

We advise seeding at the rate of one pound to cover a space of 10 x 20 or 200 square feet.

Price, ½ lb., 50c; lb., 90c; 5 lbs., $4.25; 10 lbs., $8.25; 25 lbs., $20.00; 100 lbs., $75.00.

TERRACE SOD
This is a special mixture of Grasses best suited for sowing on terraces, embankments and hillsides; Grasses that produce long, strong spreading roots, thus preventing heavy rains from washing them out; that will withstand drought, thrive on shallow soils, and at the same time produce a rich, velvety-turf through the season.

Sow seed at the rate of 1 lb. for 200 sq. ft.; 3 lbs. for 1,000 sq. ft.

Price, ½ lb., 40c; lb., 75c; 3 lbs., $2.20; 5 lbs., $3.50; 10 lbs., $6.50; 25 lbs., $16.00; 100 lbs., $60.00.

The Illustration shows a lawn in front of the house of Mr. Lou Hudson, Star Island, N. Y. Referring to this lawn, Mr. Hudson said: "In comparison with other lawns in my neighborhood using other kinds of grass seed, my lawn made with The Henderson Grass Seed stood up better and is far superior to any of them."

SEASIDE
Our "Seaside" mixture will make a good turf of green on sand where the finer Grasses will not thrive, though, of course, the sand must be top-dressed with not less than 2 inches of soil before even our "Seaside" Grass Seed is sown, to enable the young Grass to get a start, after which the long roots—peculiar to the varieties we used in this mixture—drift down deeply in the sand and remain permanently self-sustaining, if attention is given to sprinkling during dry weather. Sow seed at the rate of 1 lb. for 200 sq. ft.; 3 lbs. for 1,000 sq. ft.

Price, ½ lb., 35c; lb., 60c; 3 lbs., $1.75; 5 lbs., $2.75; 10 lbs., $5.50; 25 lbs., $12.50; 100 lbs., $45.00.

SUNNY SOUTH
It is especially prepared for the South, and contains all the best Grasses that are by nature adapted for hot, dry situations. Sow seed at the rate of 1 lb., for 200 sq. ft.; 3 lbs., for 1,000 sq. ft.

Price, ½ lb., 40c; lb., 75c; 3 lbs., $2.20; 5 lbs., $3.50; 10 lbs., $6.50; 25 lbs., $15.00; 100 lbs., $55.00.

STANDARD LAWN SEED
Our Standard Mixture has proven satisfactory to many of our customers, and where low cost is important, we recommend this mixture. It is composed of fine recladded Grasses, and produces a good, quick turf. Sow at the rate of 1 pound to cover 750 square feet

Price, lb., 35c; 3 lbs., $1.00; 5 lbs., $1.65; 10 lbs., $3.25; 25 lbs., $7.75; 100 lbs., $30.00.

WHITE CLOVER
An excellent clover for lawns, makes a close, compact growth, covering the ground like a carpet. It also prevents the washing out of soil during heavy rains. Thrives well on all soils.

Price, ½ lb., 40c; 1 lb., 75c; 1 lb., $1.40; 10 lbs., $13.00.
Enjoy Sportier Sports on Turf Made With Henderson’s Grass Seed
Lawn, Athletic Field or Golf Course Grasses are delivered transportation paid in the U. S. A.

GOLF COURSE GRASS SEED MIXTURES

Mixtures of Grass Seeds that have been scientifically blended by experts in the production of turf for Golf Courses are preferred by experienced greenkeepers. They have learned that a quicker and more uniform stand of grass is obtained where a mixture is employed; also that the resulting turf possesses greater qualities of endurance.

PUTTING GREEN MIXTURE
Bent Formula

Putting Greens sown with a properly blended mixture of grasses are in most cases far superior to those on which only one variety is sown. They come into play quicker after seeding; they present a more attractive appearance from early spring to late fall; and due to the fact that the roots draw their nourishment from various depths in the soil, a more resistant and durable turf is formed.

Henderson’s Putting Green Mixture consists of a combination of Bent varieties, Chewsings Fescue and Fancy Red Top; and is conceded to be the best mixture that scientific skill, and many years of experience can produce. Sow from 75 to 100 lbs. for the average 90 x 90 ft. green.

Price, lb., $1.00; 10 lbs., $9.00; 25 lbs., $20.00; 100 lbs., $75.00.

SPECIAL MIXTURE FOR TEES

The Tees are the most abused parts of any golf course. Not only must they be able to withstand the divot taking on-slaughters of the novices, but they also are obliged to endure the excessive foot-wear of all the players. This Special Mixture composed of extremely deep rooting grasses that will stand great wear is combined with the stoloniferous types that will cover the divot scars quickly. Sow at the rate of 10 lbs. to 1,000 square feet.

Price, lb., 60c; 10 lbs., $5.50; 25 lbs., $12.50; 100 lbs., $45.00.

TOUGH TURF

For Tennis Courts, Croquet Grounds, Bowling Greens, etc.

The turf required for outdoor sports must be closely interwoven, firm, elastic, smooth, and durable to stand the wear and tear. These requirements are met in this mixture, which is composed of fibrous, deep-rooting Grasses that spread and intermingle. The seeds are blended in the proper proportions to form and maintain a tough matted sward, constantly green, even in dry weather. These varieties of Grasses, being low-growing and fine-leaved, require to be sown liberally if a playing turf is desired quickly; not less than one pound should be used for 200 square feet, or 100 to 150 lbs. per acre, although 50 per cent more may be used with advantage. Half that quantity will do for renovating. This mixture has been used with great success at the Rumson Polo Fields, also at the Forest Hills Tennis Courts, the great sport centers for Tennis, and numerous other playing fields.

Price, 1 lb., 35c; lb., 60c; 3 lbs., $1.75; 5 lbs., $2.75; 10 lbs., $5.50; 25 lbs., $12.50; 100 lbs., $45.00.

POLO FIELD MIXTURE

Used on the leading American Polo Fields

The refreshing green and the close turf which have attracted the attention of hundreds of thousands of patrons of the principal Polo Grounds of the Country were produced by this special mixture. Among others we may mention the Polo Grounds at Meadowbrook, where the famous international matches are played; Newport, Lakewood, Rockaway Hunt, Saratoga, also some of the leading Polo Fields in the West and Middle West. Sow 150 lbs. per acre.

Price, lb., 60c; 10 lbs., $5.50; 25 lbs., $12.50; 100 lbs., $45.00.

ATHLETIC FIELD MIXTURE

For Baseball, Football, Athletic Fields and Parks

Henderson’s Athletic Field Grass Seed Mixtures produce a close, compact and densely matted turf of great resiliency, though free from slipperness. The grasses are fine-leaved, deep-rooting and of an attractive, refreshing green. In Henderson’s Athletic Field Grass Seed Mixtures we have developed a mixture of grass seeds upon which we can confidently stake our reputation of over three-quarters of a century. The seed, if sown under proper conditions, will form a turf, ready for mowing, in about four weeks.

Price, lb., 60c; 10 lbs., $5.50; 25 lbs., $12.50; 100 lbs., $45.00.

The beautiful turf at Ebbets Field, Home of the Brooklyn Dodgers, was made with Henderson’s Grass Seed.

Henderson’s Superior Individual Recleaned Grasses, are offered on Page 47. We will be glad to make special mixtures when desired in accordance with the purchaser’s requirements or after his own formula. Write for quotations.
A Quint of Henderson Quality

56 UNRIVALED Wax Bush Bean
The earliest prolific Wax Podded variety
(See description, page 10)
Price, pkt., 15c; ½ lb., 30c; lb., 50c; 5 lbs., $2.00.

28 TENDERGREEN Bush Bean
(See description, page 9)
Price, pkt., 15c; ½ lb., 40c; lb., 70c;
5 lbs., $1.00; 15 lbs., $8.00.

22 HENDERSON STRINGLESS Bush Bean
(See description, page 9)
Price, pkt., 15c; ½ lb., 40c; lb., 55c;
5 lbs., $2.25; 15 lbs., $6.00.

93 GIANT WAX Pole Bean
(See description, page 12)
Price, pkt., 25c; ½ lb., 40c; lb., 75c.

273 PREMIER Cabbage
(See description, page 14)
Price, pkt., 25c; oz., $1.50
Vegetables and fruits rank high as nutritional and protective food. None can compare with those grown and picked fresh from your own garden. They are the principal sources of vitamins that are so essential to growth in children and good health and vigor at all ages. The vitamin source of meat and dairy products is also obtained from the vegetation consumed by the animals.

**NUTRITIVE FOOD VALUES OF THE POPULAR VEGETABLES AND FRUITS**

The word vegetable is derived from the Latin "vegetable" which means enlivening or animating. The enlivening effect of both vegetables and fruits to the human system is generally recognized. Doctors frequently warn us against eating too much meat or too much sweets or too much of this or that, but rarely if ever, warn us against eating too many vegetables. Great emphasis is placed by those in charge of the diet of our armed forces upon the feeding of plenty of vegetables and fruits to our soldiers.

The following chart prepared by the N. Y. State College of Home Economics, shows the approximate nutritive food values of the popular vegetables and fruits. It will be noted that the vitamin content is very high when compared with other foods.

**THE PRESERVATION OF VEGETABLES**

There are many methods now available for preserving vegetables and fruits over the winter months. Besides the storing of vegetables in the cellar and in pits outdoors, they can also be preserved by canning, quick freezing and dehydrating. Information covering the storage and canning methods will be found in Henderson's Garden Guide & Record. Bulletins on quick freezing and dehydration can be obtained through your State Agricultural Experiment Station.

---

Send for our list of Early Transplanted and Pot Grown Vegetable Plants. It is published in April.
The Vegetable Gardens of America Are a Vital Factor in the Win the War Program

On this and the following pages are offered our complete list of vegetable seeds. The varieties offered are the finest and the highest developments in their respective classes and have, by rigid tests at our trial grounds (as required by the Henderson Standard of Perfection), proven their worth to occupy space in this catalog, for the benefit and enjoyment of our customers. Many of them, originated by us during the past ninety-six years, are today household words throughout the Nation.

Notwithstanding labor shortages and transportation difficulties, our stocks are fairly complete. However, in order to avoid disappointments and delay when the planting season approaches, we urge our customers to place their orders as early as possible.

Although there have been increased costs in the production of seeds, Our Prices are the Lowest, consistent with the Quality of the Seeds we Offer.

Never before in the history of our Nation have the Gardeners of America been motivated by a more impelling opportunity to perform a worthwhile service for their country. Everywhere, individuals, civic groups, garden clubs, 4-H clubs, Boy and Girl Scouts, etc. are digging and planting in order to do their part to help win the war and preserve for generations to come American Freedom and the American Standard of Living.

Aside from the patriotic effort and the healthful food values of vegetables, the economy of home grown food must not be overlooked. One customer wrote, "The high cost of living does not worry us, because from $3.00 worth of seed plus a little healthy labor we obtained $125.00 worth of delicious vegetables." It cannot be denied, that the high quality of crisp and tender vegetables, ripened to perfection, and picked fresh from the garden cannot be purchased in a store at any price.

Last season the results of Henderson's High Quality Vegetable Seeds were displayed at Victory Garden Harvest Shows throughout the Nation. The illustration below shows a section of a prize winning group exhibited at Trenton, N. J., by the New Jersey State Hospital, Marlboro, N. J.

ASPARAGUS CULTURE—Asparagus may be grown in almost any soil or situation, but special success is attained in thoroughly enriched, deeply dug sandy loam. Beds cared for improve with age, lasting for many years. Asparagus may be grown from seed, but as it should not be cut before it is three or four years old, time is saved by buying and planting roots. For complete cultural instructions, send for pamphlet "Asparagus Culture."

GIANT WASHINGTON ROOTS

Some varieties of Asparagus seem to be afflicted with rust, but Giant Washington—developed under the auspices of the United States Agricultural Department—is declared to be peculiarly immune from this disease. The shoots are of giant size, very vigorous, straight, and what is still more important, of extra good quality. Dark green tinged with purple.

207 GIANT WASHINGTON SEED

Price: pkt., 10c; oz., 25c; ¾ lb., 75c; lb., $2.00.

ARTICHOKE

201 Large Green Globe

Early, Productive and Rustless

The best strain of this favorite French delicacy.

Price, pkt., 25c.

The culture of quality and prize-winning vegetables are given in Henderson's Garden Guide & Record (price 35c per copy); sent free on request with order amounting to $3.00 or over.
BUSH BEANS GREEN PODDED

CULTURE—Sow every two weeks from early May until August for succession crops in the latitude of New York. Further south, sow earlier; further north, later. Plant two inches deep in drills two and one-half feet apart. Plant seeds two inches apart, thin out plants to stand four inches apart. They commence bearing in six to eight weeks. 2 lbs. to 100 feet of drill.

28 TENDERGREEN (Henderson’s)

(See Color Plate, Page 6)

First in Quality—The Bean De Luxe

For those who demand quality above all else, we recommend Tendergreen. The pods are absolutely stringless and fiberless, with a delicious flavor and a melting tenderness that distinguishes them as the ultimate in quality. Tendergreen is not an erratic producer, but a dependable and prolific bearer. It is one of the earliest beans in cultivation. The vigorous plants average from 14 to 15 inches high, the stems are stout and rigid, the foliage is heavy, glossy, and attractive. The pods are deep, rich green in color, extremely brittle, perfectly round, and 6 to 6 1/4 inches long.

Price, pkt., 15c; 1/2 lb., 40c; 1 lb., 70c; 5 lbs., $3.00; 15 lbs., $7.50.

1 BOUNTIFUL (Henderson’s)

Flat, Green-Podded, Stringless

Introduced by us thirty years ago, this superior, stringless bush bean is in greater demand today than any other variety in cultivation. The plant is very vigorous, almost immune from disease, hardy, early and prolific. It bears rich green pods, of immense size, thick, broad, extra long, very uniform in shape, solid, meaty, and of high quality, melting tender and having a delicious flavor exclusively their own. The pods are stringless and entirely free from any tough, membranous lining when young, and this tender "snap brittle" quality is retained even into maturity.

Price, pkt., 15c; 1/2 lb., 30c; 1 lb., 50c; 5 lbs., $2.00; 15 lbs., $5.25.

10 DWARF HORTICULTURAL or CRANBERRY

Useful either as snap beans or for shelling green.

Price, pkt., 10c; 1/2 lb., 25c; 1 lb., 50c; 5 lbs., $2.00; 15 lbs., $5.25.

14 FRENCH HORTICULTURAL

Produces 7-inch pods generously splashed with brilliant red or carmine. Used as a snap bean or for shelling green.

Price, pkt., 15c; 1/2 lb., 30c; 1 lb., 55c; 5 lbs., $2.25.

18 GIANT STRINGLESS

Pods meaty, round, brittle and stringless. Prolific cropper.

Price, pkt., 10c; 1/2 lb., 30c; 1 lb., 50c; 5 lbs., $2.00; 15 lbs., $5.25.

21 THE PRINCE (FORCING)

Pods often measure 10 to 12 inches. Good flavor, stringless in early stages.

Price, pkt., 25c; 1/2 lb., 55c; 1 lb., $1.00; 5 lbs., $4.50.

26 REFUGEE STRINGLESS

The young pods are fine for canning and pickling whole. A popular late variety.

Price, pkt., 10c; 1/2 lb., 30c; 1 lb., 50c; 5 lbs., $2.00; 15 lbs., $5.25.

27 STRINGLESS BLACK VALENTINE

Matures early and produces large crops. A great improvement on the old popular Black Valentine.

Price, pkt., 10c; 1/2 lb., 30c; 1 lb., 50c; 5 lbs., $2.00; 15 lbs., $5.25.

SHELL BEANS (OR BAKING VARIETY)

Grown mostly as dried beans for winter use. Culture same as Green-pod Bush Beans, but shell beans are left on the vine until pods are matured. Vines are then cut and allowed to dry before threshing. 1 lb., to 100 feet of drill.

31 WHITE MARROW

A large, plump bean of high quality; productive on good soil.

Price, pkt., 10c; 1/2 lb., 35c; 1 lb., $1.60.

Vegetable Seeds are delivered Transportation Paid in the U. S.
44 GOLDEN AGE (Henderson's)
The Superlative Quality Wax Bean

We have named this supreme product of the horticultural art "Golden Age," because we believe its advent is an achievement in the science of plant breeding. Besides being absolutely stringless, it is remarkable for its rust-resisting and disease-resisting qualities. The plants are vigorous in growth, and bear heavy crops of transparent, tender, golden, waxy pods, delightful to the eye, and ready to pick in 45 days from the planting of the seed.

Price, pkt., 15c; 1/2 lb., 30c; lb., 50c; 5 lbs., $2.00; 15 lbs., $5.25.

57 TOP NOTCH GOLDEN WAX
An improved Golden Wax. This variety is stringless. Pods are a clear golden yellow, 5 inches long, of excellent quality and a good canning variety. Ready for picking in about 50 days.

Price, pkt., 10c; 1/2 lb., 30c; lb., 50c; 5 lbs., $2.00; 15 lbs., $5.25.

55 SURE CROP STRINGLESS
Clear Amber, Stringless Pods. Ideal for the Home or Market Garden

Strong Grower, Dependable Cropper

The beautiful amber pods average 6 to 6 1/2 inches long. They are straight and brittle, stringless and of excellent flavor. The plants are large and robust, and produce excellent crops. This variety is an established favorite in all sections of the country where beans are grown.

Price, pkt., 10c; 1/2 lb., 30c; lb., 50c; 5 lbs., $2.00; 15 lbs., $5.25.

56 Unrivaled
Earliest Wax Podded Variety Grown

Very Prolific. See Color Plate Page 6

It is above all else the earliest Wax Bean within our knowledge. We have found it two days earlier than any other in our trials, which alone renders it extremely valuable. The color develops very early in the growth of the pods, which remain tender for a long period. The flavor is excellent, and both plant and pod are free from rust and blight.

Price, pkt., 15c; 1/2 lb., 30c; lb., 50c; 5 lbs., $2.00.

35 BLACK WAX (Henderson's Improved)

One of the oldest varieties grown, which has been so greatly improved that it compares favorably with newer sorts. It is very early, enormously productive and of fine quality.

Price, pkt., 10c; 1/2 lb., 30c; lb., 50c; 5 lbs., $2.00; 15 lbs., $5.25.

54 ROUND POD KIDNEY WAX (Brittle Wax)

An early stringless wax variety. Pods waxy pale yellow, 5 1/2 to 6 inches long, round, very fleshy, brittle, entirely stringless and of excellent quality. Suitable for putting up in jars for winter use.

Price, pkt., 10c; 1/2 lb., 30c; lb., 50c; 5 lbs., $2.00; 15 lbs., $5.25.

33 EDIBLE SOY BEAN (Bansei)

National attention has been focused on these beans, and everyone is eager to grow them. This variety has produced excellent crops in different sections of the country. Green or dry, the beans are delicious, and an excellent source of vitamins A, B and G. It is early and productive. The plants grow 24 inches high, and are covered with pods. They do not require support. Beans are ready for use 96 days from sowing.

Price, pkt., 10c; 1/2 lb., 30c; lb., 50c.

The Henderson Garden Fertilizer (See Page 146) contains all the food elements required to produce good crops of Beans.
BUSH LIMA BEANS

*CULTURE*—These dwarf or bush forms of pole Limas come into bearing much earlier and do not require poles or other support to climb on; and they continue in bearing for weeks. Being more tender than Dwarf Snap Beans, the seed cannot be planted as early. Plants about the middle to latter part of May around New York. The rows should be two and one-half feet apart, the seed sown edgewise in the drills six inches apart and covered one inch. They commence bearing in from twelve to fifteen weeks, according to the earliness of the variety. Do not brush against bean foliage when wet. 1 lb. to 100 ft. of drill

69 EARLY GIANT (Henderson's)

True Bush, Enormous Pods and Beans

(See Color Plate, Page 22.)

This variety is the best possible Bush Lima Bean, possessing every quality so long known and esteemed in the older pole varieties, and can be grown as easily as any Snap Bean. It is the earliest of the large bush sorts.

The strong, rugged plants of true bush form, 1½ feet in height, are of healthy, sturdy, upright growth, requiring neither poles nor stakes—and bear from July until frost almost unbelievable quantities of 5- to 6-inch pods, each containing usually four large, thick beans, averaging as large as those of the large pole Limas, and whether used green or cured, they are of superb quality—tender, rich and buttery, the true Lima flavor.

In the green state their tender freshness is maintained beyond the ordinary, accounted for by the pods being unusually fleshy and thick and the foliage luxuriant and sheltering.

Price, pkt., 15c; ½ lb., 30c; lb., 55c; 5 lbs., $2.25; 15 lbs., $6.00.

72 FORDHOOK

A Favorite with the Home and Market Grower

One of the best known and most widely grown Limas in cultivation. It is an extremely heavy cropper, just a few days later than our Early Giant. The bush, which grows stiffly erect about 16 to 20 inches high, holds the broad, plump pods well above the ground so that they do not become beaten or discolored by wind or rain. The pods usually contain from 3 to 5 large plump beans of excellent quality. This variety is equally as valuable for the home gardener as for the market grower.

Price, pkt., 15c; ½ lb., 30c; lb., 55c; 5 lbs., $2.25; 15 lbs., $6.00.

75 "HENDERSON"

The Original "Baby" Lima Bean

It produces a continuous crop from the time it comes into bearing (it is fit for the table in the latitude of New York the middle of July) until frost, and, being enormously productive, a very small patch will keep a family supplied with this splendid vegetable through the season. The plant forms a compact bush about 18 inches high. The Beans are the size of the Sieva or small Lima, and of delicious quality.

Price, pkt., 10c; ½ lb., 25c; lb., 45c; 5 lbs., $1.75; 15 lbs., $4.50.

78 "IMPROVED HENDERSON"

Yields Continuously from Early Summer to Frost—Suitable for all Sections, North and South

The original Bush Lima Bean, the "Henderson," was defective in size, and though because of its extreme earliness, thousands of our customers were enabled to grow Lima Beans where none had grown before, the defect remained until the introduction of the "Improved Henderson," which is at least 50 per cent. larger than the original. Though a day or two later, it is still ten days earlier than other bush forms, and weeks earlier than any of the pole varieties, yet retaining all the remarkable qualities of its predecessor.

It grows as freely and is just as dependable in the North as in the South; in fact, it is suitable for all sections. The quality is excellent, possessing the rich, buttery flavor common to all Limas.

Price, pkt., 10c; ½ lb., 30c; lb., 50c; 5 lbs., $2.25; 15 lbs., $6.00.

64 BABY FORDHOOK

This new variety is a cross between Henderson "Baby" Lima and Fordhook. The plants are of bush or dwarf habit, reaching a height of about 14 inches, and produce a large number of pods that measure about 2½ inches, containing 3 to 4 beans. The beans are about the same size as Henderson "Baby" Lima but about twice as thick, thus giving them a somewhat oval appearance. Quality and flavor excellent. Matures in approximately 74 days.

Price, pkt., 25c; ½ lb., 40c; lb., 70c; 5 lbs., $3.00

PETER HENDERSON & CO., 35 Cortlandt St., New York, N. Y.
POLE LIMA BEANS

POLE LIMA BEANS are grown in hills three feet apart, in rows four feet apart, but being very tender, the seeds should not be planted until the ground has warmed up, about two weeks later than other beans, or in the latter part of May around New York.

85 LEVIATHAN (Henderson’s) The Earliest Pole Lima Bean Grown

Many growers prefer the pole varieties of Limas. These are later than the bush sorts, and in some localities there is difficulty in maturing the crop. In Northern States, or where by reason of continued cool nights the growth is less rapid, Leviathan will be found admirably adapted.

The plant is strong and takes to the poles more readily than any other sort. It is fully a week earlier than any other pole variety, therefore can be grown successfully where other sorts would be caught by frosts of early autumn. It is a prodigious cropper, producing its pods in large clusters, well filled with large, fleshy Beans, pale green in color, of a rich, buttery flavor.

Price, pkt., 15c; ½ lb., 30c; lb., 55c; 5 lbs., $2.25.

90 IDEAL (Henderson’s) Of Gigantic Size. Tenderness and Flavor Superb

The vine does not differ materially from that of the ordinary pole varieties. Its chief distinction lies in the size of the pods, which hang in wonderful profusion on the vines. The average yield is greater than in any other variety.

Though a little later than our early Leviathan, it is just as early as the ordinary pole varieties and continues to produce enormous crops until frost.

Price, pkt., 15c; ½ lb., 30c; lb., 55c; 5 lbs., $2.25.

POLE BEANS

CULTURE OF POLE BEANS

— These are planted about the middle of May, in hills from three to four feet apart. From five to six seeds are planted in each hill, about two inches deep. Rough color, or similar poles seven or eight feet long should be used for Pole Beans to climb on. 2 lbs. to 150 hills. 30 lbs. to the acre in hills.

93 GIANT WAX (See Color Plate, Page 6) Truly a Giant, Bears Pods 8 to 10 in. Long

Since its introduction in 1932, Giant Wax has won many admirers. It is a show bean par excellence, as it develops beautiful, unblemished, flat pods 8 to 10 inches long and clear amber yellow in color.

The plant is vigorous, tall and very resistant to disease. The giant pods are produced in abundance over a long period. Notwithstanding its large size, the bean is of fine texture, free from string in the young stages, very brittle and tender. As an exhibition bean it excels all others.

Price, pkt., 25c; ½ lb., 40c; lb., 75c.

96 OLD HOMESTEAD or Kentucky Wonder

This most popular, green-podded snap Pole Bean is a marvel of continued productiveness and is ten days earlier than any other green-podded Pole Bean. First pickings may be made in the latitude of New York early in July, and the vine will continue to produce in abundance until frost.

The pods hang in great clusters from the top to the bottom of the vine and can be gathered by the handful; they are very large, 6 to 8 inches in length, stringless, plump, meltingly tender and of superb flavor.

Price, pkt., 10c; ½ lb., 30c; lb., 50c; 5 lbs., $2.00.

98 SCARLET RUNNER

A 10-foot ornamental vine for shade, with dazzling scarlet flowers. Pick pods when half grown for use as “snap.”

Price, pkt., 10c; ½ lb., 30c; lb., 55c.

Aphis, Bean Beetles and other insects that attack Bush and Pole Beans can readily be controlled by spraying with Henderson’s Stabilized Rotenone described on page 144.
BEETS

HENDERSON'S SELECT

CULTURE—1 oz. to 50 feet of drill; 5 lbs. to the acre in drills.

The best soil for Beets is light, and enriched the year before with well-rotted manure. For early, sow in spring, as soon as the ground is fit to work, in drills about one foot apart and one inch deep. For main crop sow the first week in May, and for winter use, sow in June or July. These dates are for the latitude of New York. South, sow earlier; north, later. When the seedlings have attained four leaves, thin out to four inches. Our booklet, "Garden Culture of Root Crops," is forwarded free on request. It describes the culture of Beets.

212 CROSBY'S EGYPTIAN Henderson's Selected Strain.

The largest of the very early sorts. It is very quick to attain size. The shape is a little flat, but very uniform. The tops are small, and the whole plant grows easily and quickly. The flesh is somewhat lighter in color than usual, but it is very attractive.

Price, pkt., 10c; oz., 30c; ½ lb., 90c; lb., $2.50.

214 DETROIT DARK RED

Probably the best of the larger sorts. It succeeds equally well at all seasons, and is one of the best to sow in early spring, to succeed the extra early and medium crop sorts. It may be sown about August 1st (in the vicinity of New York) for a crop to store for winter. The flesh is solid, always tender, of good flavor and excellent color.

Price, pkt., 10c; oz., 35c; ½ lb., 95c; lb., $2.75.

216 EARLY BLOOD TURNIP (Henderson's)

Very attractive in appearance, the roots being smooth and uniform, and the color—deep blood red. The flesh is tender and sweet, and it is an excellent variety for canning. This variety should be sown for a late crop on account of its quickness in maturing. For winter storage it is unexcelled.

Price, pkt., 10c; oz., 30c; ½ lb., 90c; lb., $2.50.

219 EARLY WONDER

Early Wonder matures two weeks earlier than most other varieties and is very highly recommended for summer sowing; it can also be planted later in the season than any other kind for the last crop of the year. The skin is deep red and the flesh dark in color, fine grained and particularly tender and sweet.

Price, pkt., 10c; oz., 30c; ½ lb., 90c; lb., $2.50.

226 EXTRA EARLY EGYPTIAN

When sown in the open ground in favorable weather, the roots may be pulled for table use in July, at which time they are the size of a small apple, and their flavor is at its best. The root grows almost entirely out of the ground, to which it is held by a slender tap-root. The skin is very smooth; violet-red in color; flesh of a dark blood color.

Price, pkt., 10c; oz., 30c; ½ lb., 90c; lb., $2.50.

227 GOOD FOR ALL (Baby Detroit Dark Red)

Because of the small size of its roots even when fully matured, it is especially fine for canning and pickling whole. Tops small and uniform. Roots smooth, very even in size, almost globular in shape, very small slender tap root. The skin is dark red and the flesh deep crimson, fine grained, tender and sweet.

Price, pkt., 10c; oz., 30c; ½ lb., 90c; lb., $2.50.

231 OVAL GEM (Henderson's) (See Color Plate, Page 22)

It is oval in shape, slightly receding toward the base; it is extremely smooth and uniform, medium in size—just the right size for the home garden as well as for making an attractive bunch for marketing. The foliage is small, bronze-green in color. The beets are dark red, slightly ringed; when cooked (which, by the way, requires less time than the ordinary sorts), the rings disappear, turning the entire beet to the color of a glowing ruby.

Price, pkt., 20c; oz., 50c; ½ lb., $1.50.

238 WINTER KEEPER

An exceptionally fine, large, solid beet with good keeping qualities and good flavor. It has a short, thick, tapering root and the quality is just as good after being stored all winter as when dug.

Price, pkt., 10c; oz., 30c; ½ lb., 90c; lb., $2.50.

239 BEET Succession Collection

Price, Coll. 3 pkts., 25c; 1 oz. each, 80c.
BRUSSELS SPROUTS

242 LONG ISLAND STRAIN

(See Color Plate, Page 22.)

This is a fine strain of Sprouts, grown extensively for the New York market, where they bring a good price, especially during the winter. The plants produce a large crop.

Price, pt. 25c; oz., 90c; oz., $1.75.

245 DALKEITH (Henderson’s)

A very excellent selection of this estimable vegetable. Sown in June in the latitude of New York, it produces an abundant crop of Sprouts—solid, succulent and delicious—in the fall and early winter.

Price, pt. 20c; oz., $1.50.

CABBAGE

CULTURE—For earliest crop, start sowing in February, cover seed one-half inch. Transplant in April, eighteen inches apart in rows and two feet between rows. For late crop start seeds in May or June outdoors in

good, rich soil and transplant in July.

254 CHARLESTON WAKEFIELD

(Henderson’s)
The pointed-head Cabbages are of excellent quality, quite free from the coarse rankness so commonly associated with Cabbage. Henderson’s Charleston Wakefield is larger, but fully equal in quality to any of our class and admirably suited to succeed the very early sorts.

Price, pkt., 10c; oz., 60c; 3 lb., $1.75.

261 GREEN ACRE (NEW)

Best described as a Green Golden Acre. The plants are very uniform, compact, and have fewer outer leaves. The heads are slightly larger than Golden Acre and require a few days longer to mature. The outstanding feature of Green Acre is the green color of the leaves, especially the inner leaves which make up the head. This characteristic is very desirable because the green color gives the heads a very fresh appearance over a long period of time.

Price, pkt., 25c.

269 GOLDEN ACRE

Golden Acre Cabbage is an early round-headed variety resembling Early Market in shape and type, but is smaller. It is also eight to ten days earlier than that well-known variety. It will remain on the field for a long time without bursting.

Price, pkt., 15c; oz., 90c; 1 lb., $2.75.

259 EARLYKROP (Henderson’s)

One of the earliest round-headed Cabbages on the market. It finishes with the Earliest Wakefield type; but unlike that type, it remains in perfect condition on the field for a long time without bursting or bolting to seed. This is a very desirable quality for the home gardener who wants his crop to extend over a long period of time.

Price, pkt., 10c; oz., 90c; 3 lb., $2.75.

267 RESISTANT COPENHAGEN MARKET

(Early)

This “yellows” resistant strain matures about the same time as our ordinary Copenhagen Market, and the heads are about the same size. Where “yellows” is prevalent, growers may depend on the variety to produce an early crop of excellent round heads.

Price, pkt., 15c; oz., $1.00; 1 lb., $3.00.

263 MARION MARKET

(Second Early)

One of the first resistant strains to be developed, Marion Market has proven very remunerative to the growers because of its dependability and heavy yields, even on yellows infected soil. The plants and heads are larger than Copenhagen Market.

Price, pkt., 15c; oz., 90c; 3 lb., $2.75.

275 RESISTANT GOLDEN ACRE

(Extra Early)

This strain has proven highly resistant to “yellows” and has made it possible for growers to produce a good crop of early Cabbage in many areas infested with this disease. The heads closely resemble our strain of regular Golden Acre, but mature a day or two later.

Price, pkt., 15c; oz., $1.00; 3 lb., $3.00.

277 WISCONSIN HOLLANDER

No. 8 (Late)

This is a “yellows” resistant strain of the Danish Ballhead type. An excellent late variety for storage and shipping. The plants are large and very hardy. The heads are large, practically round and solid.

Price, pkt., 15c; oz., $1.00; 3 lb., $3.00.

The culture of Broccoli and Brussels Sprouts is given in our Cabbage pamphlet, sent free on request.
CABBAGE

SECOND EARLY or SUMMER VARIETIES

274 SUCCESSION (Henderson's)

The Most Celebrated Second-Early Variety
The heads become solid long before they are fully grown, so that heads of satisfactory size may be cut long before it is at its best. It is so finely bred, so free from coarse veining of the leaves, that in addition to its reliability and sure cropping quality, it possesses all the fine qualities of the very best earlier varieties. Succession Cabbage is much sought after, and much seed is offered as "Succession" which is spurious. True stock can only be obtained direct from us.
Price, pkt., 10c; oz., 75c; ¼ lb., $2.00.

LATE VARIETIES

252 AUTUMN KING (Henderson's)

Enormous Solid Heads—Often 20 to 30 lbs. Each
We say without hesitation that it is the finest late Cabbage in this country today, entirely distinct, and the best keeper; it produces enormous solid heads of that desirable sea-green shade.
It produces a greater weight of crop per acre than any other variety, from the fact that it develops very few outer leaves and goes all to head.
A distinct feature of the Autumn King is the peculiarly crimped leaves, which not only add to its appearance, but enable it to be distinguished anywhere.
Price, pkt., 15c; oz., 75c; ¼ lb., $2.00.

258 DANISH BALL HEAD (Henderson's)

This short stem type is popular on account of the great solidity and weight of the heads; it is a strong, vigorous grower, producing large, round, compact heads, almost as hard as iron, weighing, when trimmed, fully one-fourth more than any other Cabbage of equal size; in consequence, it keeps in condition until spring.
Price, pkt., 15c; oz., $1.00; ¼ lb., $3.00.

268 LATE FLAT DUTCH (Henderson's Selected)

It produces very large, round, flattened heads, very uniform, is firm and hard, a reliable header even under unfavorable conditions, and is one of the best late fall and winter-keeping Cabbages.
Price, pkt., 10c; oz., 60c; ¼ lb., $1.75.

RED VARIETIES

270 MAMMOTH ROCK RED

A large-growing, select strain, producing very solid heads, weighing 10 to 12 lbs. each; color, intense dark red.
Price, pkt., 15c; oz., $1.25; ¼ lb., $3.75.

279 RED ACRE

Uniform early red variety resembling Copenhagen Market in every respect except color. The heads are round, solid, deep red in color and mature with Copenhagen Market. The most desirable early red variety we have ever seen.
Price, pkt., 25c; oz., $1.35; ¼ lb., $4.00.

SAVOY VARIETIES

250 AMERICAN DRUMHEAD

The Savoy Cabbages differ from all other in the peculiar crumpled character of the leaves. Although excellent at any season of its growth, the Savoy Cabbage is never at its best until touched by frost.
Price, pkt., 10c; oz., $1.00; ¼ lb., $3.00.

271 PERFECTION (Henderson's)

The head is medium in size, and the leaves are so distinctly and deeply crumpled as to give it almost a mossy appearance. Its flavor is sweet and delicious, and it is positively the tenderest cabbage in existence.
Price, pkt., 25c; oz., $1.25.

CHINESE CABBAGE

Chinese Cabbage is a fine vegetable when cooked like other cabbage, but it is delicious when used as a salad
This is one of the most valuable vegetables for the Victory Garden; it is a heavy yielder and the plant is rich in valuable and healthful minerals.

257 CHI-HI-LI—also called CELERY CABBAGE

This variety is the most popular of any of the Chinese types and very dependable in heading. The heads are 18 to 20 inches in length, 3 to 4 inches thick at the base, and taper slightly near the top or tip. They are very solid, well blanched, crisp, and of a delicious flavor.
Price, pkt.: 15c; oz., 75c; ¼ lb., $2.25

Our leaflet, "The Culture of Cabbage," sent free with orders, gives complete cultural instructions on all varieties of cabbage.
CARROTS

CULTURE—Prefers a deep, mellow soil. Sow seed in April for an early, or in July for a fall crop. Sow seed half an inch deep in rows twelve inches apart. Thin out to three inches apart. If their growth is checked, carrots split and become rooty. To avoid this, water them thoroughly during a drought. Make successive plantings so as to insure a constant supply all summer. Seed may be sown from early spring to as late as August 15th.

HENDERSON'S SELECTION OF SUPERIOR TABLE Varieties

292 CORELESS (Henderson’s) (See Color Plate, page 22.)

The Most Popular of all Home Garden Carrots

Its beautiful appearance alone wins favor for it wherever grown. Besides, its coreless, rich red-orange flesh possesses a sweet, melting tenderness that appeals even to those who otherwise are not fond of carrots. The shape is cylindrical, stump-rooted, about 6 inches long. It is clean skinned, smooth and very early.

Price, pkt., 15c; oz., 75c; ½ lb., $2.25.

289 CALIFORNIA BUNCHING

Grown extensively in California for shipment to the Eastern markets. It is an excellent variety for the home gardener, because of its attractive appearance and high quality. The roots are about 8 inches long, slightly tapered, and at maturity practically cylindrical and stump-rooted. The skin is smooth, deep orange in color. The flesh is of fine grain, and exceptionally sweet.

Price, pkt., 10c; oz., 60c; ½ lb., $2.00.

290 CHANTENAY

A popular favorite for its rich orange-red color, its fine grained flesh, its superb flavor. Fully developed, it averages 6 inches in length, is broad at the neck and narrows gradually to a rounded, blunt base.

In the latitude of New York, it may be sown in the later part of April for an early crop, and from the 1st to the 20th of June for the main crop.

Price, pkt., 10c; oz., 60c; ½ lb., $2.00.

300 HALF-LONG RED STUMP-ROOTED (NANTES)

A shapely, stump-rooted variety, of medium size, and one of the best for private gardens for summer use; medium early.

Price, pkt., 15c; oz., 75c; ½ lb., $2.25.

307 SUPREME HALF LONG

This new variety is an improved, more slender, coreless type of Danvers with shorter tops. The roots are 6 to 7 inches long, about 2 inches in diameter at the shoulder and taper to a blunt tip. The skin is smooth, and of an excellent deep color. The flesh is reddish orange, tender, and of splendid flavor. The core is small and of the same color as the flesh.

Price, pkt., 10c; oz., 60c; ½ lb., $2.00.

309 RED CORE CHANTENAY

We feel confident that the popularity of this strain will outlast that of the old Chantenay, because in this type, the core has been practically bred out. The color is also deeper and richer which gives the beautifully-shaped roots an even more attractive appearance. In all other respects it possesses the fine qualities of its parent, Chantenay.

Price, pkt., 10c; oz., 65c; ½ lb., $2.00.

310 TENDERSWEET (Henderson’s)

(See Color Plate, page 22)

The Sweetest, Tenderest and Hardiest Carrot Grown

An outstanding sort for the home gardener because it represents quality at its zenith. It is a favorite with the market grower because its beautiful orange-red color and attractive appearance sells it on sight. The plant is distinct; the leaf-stalks dark purplish-green. The roots when fully matured average from 8 to 10 inches long. They taper slightly from shoulder to a blunt end.

Price, pkt., 15c; oz., 60c; ½ lb., $2.00.

294 DANVERS (Henderson’s Selected Half-Long)

A dependable, handsome, half-long cylindrical, stump-rooted Carrot of a rich dark-orange color; it grows to a large size, is smooth, and the flesh is very close in texture with very little core. It is a first-class Carrot for all soils, and has yielded 25 to 30 tons per acre, with the smallest length of root of any now grown. It is more easily harvested than the longer types, and is excellent to store for winter, for stock or table use.

Price, pkt., 10c; oz., 60c; ½ lb., $2.00.

SUPREME HALF LONG

Carrots are one of the most important members of the Vegetable Garden group. Besides furnishing us with the price-less carrot which is so important in maintaining good health, it is also rich in iron and other minerals. Aim to have an adequate supply throughout the entire season by planting the Succession Collection.

312 CARROT Succession Collection

Half long Nantes, Chantenay, Danvers. Price, Coll. 3 pkts., $1.75; 1 oz. each, $1.15.
CAULIFLOWER

Although Cauliflower may be grown as easily as Cabbage, we urge those who are not familiar with its cultivation to ask for our free pamphlet, "Cultivation of the Cauliflower."

1 oz. will produce about 3,000 plants

Henderson's Famous Cauliflower

323 SNOWBALL (Henderson's)
Incomparably the Best for Spring or Fall Crops. An Excellent Forcer. It Has Won More Prizes Than Any Other Variety in Cultivation.

The Genuine Is Obtainable Only Direct From Us

Beyond all question, Henderson’s Snowball is the one perfect Cauliflower for the American gardener. In most sections of the United States the best and most satisfactory crop is grown from seed sown outdoors about May 20th and transplanted during July, so that the plants make their best growth during the cooler months. For this crop, Henderson’s Snowball is unsurpassed.

Henderson’s Snowball Cauliflower, grown from seed sown under glass in February and transplanted after frost, will produce perfect heads of snowy whiteness in the open ground by June 1st. There is none to equal it in value for forcing under glass for a winter crop, for which it is especially adapted by reason of its compact, upright habit, quick growth, and sure-heading quality. For all purposes and at all seasons it has become indispensable, owing to its reliability in heading, its strong, vigorous habit, and the whiteness of its perfectly formed flowers. It is, without doubt, the ideal Cauliflower, perfect in size, in reliability, in color, and in quality.

Price, pkt., 35c; ½ oz., $2.75; oz., $5.00.

327 SUPER SNOWBALL
This is an extra early strain of the Snowball type. Besides being extra early, the heads of “flowers” mature with greater uniformity, making it possible to harvest a large percentage of the crop in the first cutting.

The plants are vigorous and strong. The leaves, especially the inner ones are well folded or curled over the heads. The heads are large, uniform in size, deep, and solid. They mature early and many times the entire crop is harvested before any heads of the later types are ready. One of the most profitable varieties for market.

Price, pkt., 35c; ½ oz., $3.25; oz., $6.00.

322 PRIMOSNOW (Henderson’s)
The Earliest Quality Cauliflower Ever Offered

This is an ideal type. It possesses many of the characteristics of our famous Snowball—good form, good size, great depth, and above all, a beautiful snow-white, firm head free from ripeness or leafiness. The plant is sturdy; the foliage of fine conformation, the inner leaves being incurved, give ample protection to the developing flower. Primosnow is the earliest high-quality cauliflower that has ever been developed. It is ready to cut fully 8 to 10 days before Snowball.

Price, pkt., 50c; ½ oz., $3.50; oz., $6.50.

326 SNOW KING (Henderson’s)
Produces Fine Medium-Sized Heads on Poor Land Where Tender Varieties Fail

It is now possible for the small garden owner to grow excellent Cauliflower even in back yards and small gardens where soil conditions are none too good. Snow King possesses many valuable characteristics, one of the most important of these is its Hardiness. It is also a winner because of its Earliness.

Snow King will also be enjoyed because of its delicious flavor, its creamy whiteness, and prove to be an invaluable addition to the dietary because of its high vitamin content. The very dark green leaves, shorter than those of most Cauliflowers, are strongly ribbed, which is a sure indication of the hardness of the plant, and its ability to survive very trying conditions. They curl in at the top, thus protecting the young heads.

Price, pkt., 25c.

328 WHITE ROCK
This is an ideal mid-season variety. In season it is not quite as early as Primosnow, but is earlier than Snowball. The plant is exceptionally vigorous and produces a large, pure white head of superb quality.

Price, pkt., 25c; ½ oz., $2.75; oz., $5.00.

Beware of imitations. We have always controlled Henderson’s Snowball Cauliflower and unless the seed is bought directly from us you do not get the genuine, as we do not supply it to dealers.

PETER HENDERSON & CO., 35 Cortlandt Street, New York, N. Y.
339 GOLDEN PLUME (Henderson's)

The First Early Celery Par Excellence

Henderson's Golden Plume Celery is absolutely the earliest maturing celery grown. It is large, vigorous, and appears to be immune to blight and rust. We highly recommend it to the home gardener on account of its ease of culture—it requires no banking—for its attractive appearance, which when fully matured is most inviting; the foliage is creamy yellow, and the stalks creamy white, becoming almost white at the base. It is entirely devoid of any ribs or fibrous, and it is brittle, tender and deliciously flavored. Its exquisiteness, vigor, freedom from disease, large size, attractive appearance, and high quality commend it to all growers.

Price, pkt., 25c; oz., $2.50; ½ lb., $7.50.

342 GOLDEN SELF-BLANCHING (Henderson's)

Stalks Thick, Crisp and Brittle. Waxen Yellow. Very Early.

An excellent variety of French origin. It is very early, blanches quickly and its rich color makes it quite attractive. The habit of the plant is short and stocky; the stalks are broad, thick, very solid, crisp and brittle; the quality is superb, tender and free from stringiness; flavor rich and delightful. It develops a large heart quite early in its growth, which makes the greater part of the plant edible. It is fit for use early in September.

Price, pkt., 15c; oz., $1.50; ½ lb., $4.50.

343 MASTERPIECE

An early, easy blanching variety of superior quality and flavor. This new variety possesses the high quality and richness of flavor of the late green varieties but matures as early as most of the self-blanching strains now in use. Plants are compact and grow 24 to 26 inches tall. Stalks 8 to 9 inches to the first joint, very thick, with rounded edges and almost entirely free from strings. An outstanding variety highly recommended for growers desiring a high quality celery.

Price, pkt., 25c; 5 pkts., $1.00; oz., $4.00.

345 SUPREME GOLDEN

This is an outstanding new strain of the Golden Self-Blanching type. The plants are vigorous, compact, with large, well-developed hearts, and are slightly taller than Golden Self-Blanching. The stalks are broad, fairly thick, and the width of the stalk extends well up to the first joint. The plants mature early and are easily blanched to a clear, creamy white.

Price, pkt., 25c; 5 pkts., $1.00; oz., $3.00.

350 PERFECTED WHITE PLUME (Henderson's)

It is a perfect white grower. When the stalks are drawn together when the plant is three-fourths grown and the soil drawn to or pressed around the plant it will soon be fit for use, as the stalk portions of the inner leaves and the heart are white naturally. At maturity the plant is highly ornamental, its ample white heart and variegated leaves present a beautiful appearance, and the delicate flavor of its crisp, succulent stalks is unequalled.

Price, pkt., 10c; oz., 70c; ½ lb., $2.00.

SECOND-EARLY VARIETIES

332 EASY BLANCHING (Henderson's)

A Favorite Second-Early Variety

Emphatically Distinctive from Any Other Sort. The Easiest and Quickest to Blanch. Exceeds All Late Sorts in Quality.

It blanches earlier and quicker than any of this class. It is the long-keeping variety grown if put away green, excelling in this respect every other sort. It has proved to be among the most valuable additions that we have made to the vegetable gardens of the world.

So easily is it grown that the amateur can produce Celery equal in quality to that which formerly could be grown only by skilled men equipped with years of experience. The plant is of medium height, of great vigor—having thick, rather than broad, stalks, with shallow ribs. The leaves are slightly crinkled, distinguishing it from any other variety. Its quality is superb. The stalks are tender and brittle, and the flavor extremely spicy and aromatic.

Price, pkt., 15c; oz., $1.50; ½ lb., $4.50.

349 PRIZEHEART HENDERSON'S (NEW)

This is one of the most desirable early green varieties we have ever seen. It matures fully as early as Easy Blanching. The plants possess exceptional vigor and average about 23 inches in height. An added advantage of this new variety is that the plants are very full hearted. The stalks are about 9 inches to the first joint, rather broad, thick and quite smooth. Henderson's Prizeheart, although a green variety, blanches readily and the color of the remaining is a slight tinge on the outer stalks. The stems are very crisp and free from strings. The quality of this new variety is remarkable.

Price, pkt., 25c; 5 pkts., $1.00; oz., $5.00.

LATE VARIETIES

347 UTAH (Golden Crisp or Salt Lake)

This celery originated near Salt Lake City and has long been famous in that region because of its very agreeable nutty flavor. It became known to Easterners through being served, wrapped up daintily, on the Pullman Dining Cars. It blanches much more quickly than the ordinary green winter sorts and keeps well for winter use.

Price, pkt., 25c; oz., $1.25; ½ lb., $4.00.

348 WINTER QUEEN (Henderson's)

Winter Queen is a fine selection of Henderson's Golden Dwarf, and has all the qualities which made it popular, plus a larger and fuller heart. It is an excellent variety for a late crop and is very hardy.

Price, pkt., 10c; oz., 90c; ½ lb., $2.50.

336 GIANT PASCAL

A desirable, long-keeping, green winter Celery; robust, healthy stock about 2 feet high, making broad, thick, stringless stalks and large heart. It is one of the finest stem celery's. The stalks are extremely brittle, stringless and crisp. Flavor unsurpassingly rich and nutty.

Price, pkt., 10c; oz., $1.00; ½ lb., $3.00.

CELERIAC TURNIP-ROOTED CELERY

CULTIVATION—Sow the latter part of April, covering seeds one-quarter of an inch. Thin out to about one inch apart in the row and transplant into rows one and one-half feet apart and six inches apart in a row.

358 SNOWBALL (Henderson's)

It is a delicious vegetable of easy culture. The seed should be sown outdoors early in spring and the plants grown like any ordinary root crop. It requires no banking or blanching. The smooth, round, turnip-like roots average three inches across, the flesh is snowy-white, and it has the flavor of a delicious nutty celery. Celeriac may be served in a great number of ways. It is greatly relished in salads and soups.

Price, pkt., 15c; oz., $1.00.

CHICORY

365 LARGE-ROOTED. The "Barbe de Capucin" of the French. It is very easy to grow and is also used in summer as greens.

Price, pkt., 25c; oz., $1.00; ½ lb., $3.00.

367 WITLOOF. Called also "French Endive."

Price, pkt., 25c; oz., $1.00; ½ lb., $3.00.
SWEET CORN

CULTURE—Sweet or Sugar Corn may be either planted one inch deep in rows three or four feet apart, and the seeds placed about eight inches apart in the rows, or planted in hills at distances of three or four feet each way, according to the size of the variety grown. The taller the variety, or the richer the soil, the greater should be the distance apart. We make our first plantings in this vicinity about the middle of May and plant every two or three weeks until the last week in July. In more southerly latitudes planting is begun earlier and continued later. The earliest varieties are ready for the table in eight or nine weeks from planting and the latest varieties in from eleven to twelve weeks. 1 lb. for 150 hills; 10 to 15 lbs. per acre.

HYBRID VARIETIES

Exceptionally Vigorous and Resistant to Stewart's Disease

138 SUNLITE. (See Color Plate, Page 21)

The Earliest Yellow Hybrid Sweet Corn

The open armed welcome accorded the new hybrid and disease resistant varieties of Sweet Corn, is destined to reach a climax with this, the newest member of the hybrid family. Sunlite, after exhaustive trials, has proven its position at the head of the list, by its earliness, its productivity, and the uniform high quality of its ears. These average from 7 to 7½ inches, with 10 to 12 rows of perfectly formed, pale yellow kernels that bespeak a luscious richness and unparalleled sweetness possessed by few other varieties. The plant is of medium height and vigorous. As it matures in about 70 days, it will enjoy widespread popularity because this makes it a quick money crop for the market grower and, by the same token, a favorite of the home gardener.

Price, pkt., 20c; ½ lb., 45c; lb., 80c; 5 lbs., $3.50.

128 MARCROSS (See Color Plate, Page 21)

This extra early yellow hybrid is strongly resistant to bacterial diseases. When planted at the same time as Golden Cross Bantam, Marcross will be ready for use about ten days earlier. The ears are practically as long as the ears of Golden Cross Bantam and have 10 to 14 rows of kernels. The quality is superb.

Price, pkt., 20c; ½ lb., 40c; lb., 75c; 5 lbs., $3.25.

111 CARMELO CROSS

A new hybrid of the Marcross type but 3 to 4 days later in maturity and especially recommended in New England and the North-eastern states. The plants resemble Marcross in size and vigor. The ears are 7½ to 8 inches in length, well filled with 12 to 14 rows of deep yellow kernels. An ideal variety to come in between Marcross and Golden Cross Bantam. This allows the home gardener to enjoy delicious Sweet Corn through the entire growing season, enabling the Corn to be gathered at the moment of perfection and cooked just when wanted. The inviting deep yellow color, together with its tantalizing aroma, make this Corn a very appetizing dish. Matures in approximately 79 days.

Price, pkt., 20c; ½ lb., 40c; lb., 75c; 5 lbs., $3.25.

Why Plant Hybrid Varieties of Sweet Corn?

126 HYBRID EVERGREEN

The Hybrid varieties of Sweet Corn are the result of a long line of scientific experiments and the varieties now offered are exceptionally vigorous and resistant to the dreaded Stewart's Disease, otherwise known as bacterial wilt. The seed of Hybrid Sweet Corn is produced each year by crossing; consequently home saved seed will not produce satisfactory results. Our stocks are the finest obtainable.

Our leaflet, "The Cultivation of Sweet Corn," gives complete instructions for growing. Sent free on request when ordering.

Why Plant Hybrid Varieties of Sweet Corn? 126 HYBRID EVERGREEN

The popularity enjoyed by Stowells Evergreen over a long period of years, and in all sections of the country, has actuated our plant hybridizers in the development of a hybrid strain so resistant to disease that it can be successfully grown in sections where Stewart's disease is prevalent. Hybrid Evergreen is exceptionally vigorous and productive. The delicious snow white ears are about 8½ inches long, with 16 to 18 rows of kernels which are fairly deep. It matures in about 96 days.

Price, pkt., 15c; ½ lb., 40c; lb., 75c; 5 lbs., $3.25.

Hybrid Sweet Corn "IOANA"
119 GOLDEN BANTAM
(See Color Plate, Page Opposite.)

Small Ear of Remarkable Flavor
Golden Bantam is a dwarf, medium early variety of exceptionally good quality and reliability. It has become one of the most popular varieties in our list.

Price, pkt., 15c; ½ lb., 25c; lb., 45c; 5 lbs., $1.75.

122 GOLDEN SUNSHINE

The value of this variety lies in the fact that it matures several days in advance of other corn.

The ears are very compact, about the same size as Golden Bantam, but more refined in appearance, having from 10 to 12 rows of grains. It is a very rapid grower.

Price, pkt., 10c; ½ lb., 25c; lb., 45c; 5 lbs., $1.75.

116 METROPOLITAN (Henderson’s)

The pure white ears are from 8 to 9 inches long and all set low. They are 10 to 12 rowed, well filled to the tip with large, deep grains, which are very tender. It is not merely sweet, but possesses that exquisite richness so well known in the larger and later sorts.

Price, pkt., 10c; ½ lb., 25c; lb., 45c; 5 lbs., $1.75.

130 STOWELL’S EVERGREEN

The Best Late Variety
Long recognized everywhere as a standard variety, both for home use and market, and is a general favorite. The ears are of a large size, grains deep, exceptionally tender and sugary, and have the advantage of remaining longer in the green state than any other. Our stock has been carefully grown and selected.

Price, pkt., 10c; ½ lb., 25c; lb., 45c; 5 lbs., $1.75.

121 GOLDEN ROD (Henderson’s)

The result of a cross between Stowell’s Evergreen and Golden Bantam. Plants are 6 to 7 feet high, and bear on each stalk, at a convenient height, two ears packed with delicious golden grains of appetizing flavor.

Price, pkt., 15c; ½ lb., 25c; lb., 45c; 5 lbs., $1.75.

107 COUNTRY GENTLEMAN (Henderson’s)

The Most Delicious Sweet Corn in the World—Plump, Pearly-white, Milky Kernels, Fairly Melting in the Mouth.

This corn has become justly famous all over the United States and in some foreign countries as well. It is at once the delight of the epicure and a luxury within the reach of everybody.

It is of nectar-like sweetness, luscious, tender and milky, and remains “in the milk” longer than other Sweet Corn. The ears measure 9 to 10 inches in length, and the plant is very prolific, often producing three ears to a stalk. It is a slow-maturing variety and arrives at full perfection just in time to succeed the earlier varieties.

Price, pkt., 10c; ½ lb., 25c; lb., 45c; 5 lbs., $1.75.

109 CONTINUITY COLLECTION OF SWEET CORN

Seeds of the entire collection should be planted at one time, otherwise the succession will be broken.

Golden Bantam for Early.
Country Gentleman for Mid-Season.
Stowell’s Evergreen for Late.

HENDERSON’S FAMOUS
White Sweet Corn
COUNTRY GENTLEMAN

123 GOLDEN COUNTRY GENTLEMAN

It Delights Both Eye and Palate.
Its appearance is most inviting—the color being a glistening glowing, golden yellow.

The ears are not quite as large as white Country Gentleman but the remarkable depth of kernel characterizing the original variety is fully retained in the new, as well as the ball-shaped ends of the kernels. It matures a few days earlier than the white.

Price, pkt., 15c; ½ lb., 30c; lb., 50c; 5 lbs., $2.00.

6645 GOLDEN HULLESS

Kernels rich golden yellow pointed ripe ears 3½ to 4 inches long, thick, blocky. Kernels large and white with a tinge of cream when popped.

Price, pkt., 10c; lb., 35c; 5 lbs., $1.50.

105 CREAM-O-GOLD
(See Color Plate, Opposite.)

The Sweetest, Tenderest and Daintiest Sweet Corn. Introduced by Us in 1937 as X-100.

A vegetable de luxe. The ideal for which we have striven—a sweet corn of such refinement that it must appeal to the most fastidious.

Its luscious sweetness is the result of many years of breeding; its unusual tenderness is due to the gosamer-like casing of the kernels; its daintiness to the pencil-like thickness of the cob; its attractive appearance to its creamy yellow color.

The plants are very uniform, about 5½ feet high. Many stalks produce two full-sized ears of 8 to 10 rows of kernels that are about 8 to 9 inches long.

Price, pkt., 25c; ½ lb., 60c; lb., $1.00; 5 lbs., $4.50.

131 GOLDEN COUNTRY CRESS (Henderson’s)

A very different variety with strongly nipped in all points. A tender, milky yellow, white in center, a very attractive and delicious variety.

Price, pkt., 10c; ½ lb., 25c; lb., 45c; 5 lbs., $1.75.

6643 Golden Mushroom

The kernels when popped are very large, tender, and have a rich battery color and delicious flavor.

Price, pkt., 15c; lb., 45c; 5 lbs., $1.50.

6640 Extra Curled

Crisp, pungent leaves used as a condiment and for garnishing.

Price, pkt., 10c; oz., 20c; ½ lb., 45c; lb., $1.25.
SWEET CORN AT ITS BEST

For other varieties see pages 19 and 20

128 MARCROSS
This extra early yellow hybrid is strongly resistant to bacterial diseases. When planted at the same time as Golden Cross Bantam, Marcross will be ready for use about ten days earlier. The ears are practically as long as the ears of Golden Cross Bantam and have 10 to 14 rows of kernels. The quality is superb.
Price, pkt., 20c; ½ lb., 40c; lb., 75c; 5 lbs., $3.25.

119 GOLDEN BANTAM
Golden Bantam is a dwarf, medium early variety of exceptionally good quality and reliability. It has become one of the most popular varieties in our list.
It may be planted to advantage in hills 3 feet apart each way. If in rows, they should be 12 feet apart and the plants singly at 12 inches apart.
Price, pkt., 15c; ½ lb., 25c; lb., 45c; 5 lbs., $1.75.

125 GOLDEN CROSS BANTAM
It is with great satisfaction that we offer this variety because it is not susceptible to the prevalent bacterial diseases.
The ears of Golden Cross Bantam are larger than its prototype Golden Bantam. It matures about four days later than Golden Bantam, but it is quite equal to it in quality.
Price, pkt., 20c; ½ lb., 40c; lb., 75c; 5 lbs., $3.35.

138 SUNLITE
Has proven its position at the head of the list, by its earliness, its productivity, and uniform high quality. Ears average from 7 to 8 inches, with 10 to 12 rows of perfectly formed, pale yellow kernels that bespeak a luscious richness and unparalleled sweetness. The plant is of medium height and vigorous; it matures in about 70 days.
Price, pkt., 20c; ½ lb., 45c; lb., 80c; 5 lbs., $3.50.

105 CREAM-O-GOLD
The Sweetest, Tenderest, and Daintiest Sweet Corn. Introduced by us in 1937 as X-100.
It is a vegetable de luxe, the ideal for which we have striven—a sweet corn of such refinement that it must appeal to the most fastidious. Its luscious sweetness is the result of many years of breeding; its unusual tenderness is due to the gossamer-like casing of the kernels; its daintiness to the pencil-like thickness of the cob; its attractive appearance to its creamy yellow color. The plants are very uniform, about 5½ feet high. Many stalks produce two full-sized ears of 8 to 10 rows of kernels that are about 8 to 9 inches long. It matures in 88 days.
Price, pkt., 25c; ½ lb., 60c; lb., $1.00; 5 lbs., $4.50.
231 Oval Gem Beet
It is oval in shape, extremely smooth, and uniform, medium in size. The foliage is small, bronze green. The beets are dark red, the color of a glowing ruby.
Price, pkt., 20c; oz., 50c; ¼ lb., $1.50.

292 Coreless Carrot—
Its beautiful appearance alone wins favor for it wherever grown. Besides, its coreless, rich red-orange flesh possesses a sweet, melting tenderness that appeals even to those who otherwise are not fond of carrots. The shape is cylindrical, stump-rooted, about 6 inches long. It is clean skinned, smooth and very early.
Price, pkt., 15c; oz., 75c; ¼ lb., $2.25.

310 Tendersweet Carrot
It represents quality at its zenith, beautiful orange-red in color. Its flavor is temptingly sweet and delicious.
Price, pkt., 15c; oz., 60c; ¼ lb., $2.00.

69 Early Giant Bush Lima Bean—
The best of the Bush Limas both in size of pods and beans, also in fine quality and earliest of the large bush sorts. (See description on page 11.)
Price, pkt., 15c; ½ lb., 30c; lb., 55c; 5 lbs., 82.25; 15 lbs., $6.00.

241 Riviera Broccoli
A delicious vegetable. For an early crop sow seed in cold frame, transplant in open ground after frosts. For late crop sow in open ground in early summer. (See description on page 14.)
Price, pkt., 25c; ½ oz., 90c; oz., $1.75.
400 THE HENDERSON BUSH

The Ideal Garden Cucumber for its Quality, Attractiveness and Compact Growth Shown in Colors on Back Cover.

More than ten years of breeding and selection were required to produce this, the ideal garden cucumber. It is entirely distinct from any other variety in cultivation and, notwithstanding the fact that its husky, compact growth places it at the head of all other home garden varieties, it is at the same time pre-eminent for quality.

The plant is so attractive that it would not be out of place in the ornamental garden. It is very compact, rarely over 18 inches in diameter. The foliage is somewhat crumpled and cup shaped, deep rich green in color. The dark green fruits when fully developed average seven inches long and about three inches in diameter; they are practically seedless. The flesh is crisp, sparkling white, exceptionally solid, and the flavor is delicious. Owing to the almost entire absence of a seed cavity, it is better suited for slicing for salads. It can be sliced thinner than any others, and it imparts a delightful, tantalizing flavor that will add zest to the simplest meal or the most sumptuous banquet.

Price, Pkt., 50c.

416 THE HENDERSON

Rich deep green color—Extra Early—Prolific

It is early, prolific and produces a continuous crop of uniformly large and symmetrical fruits of an intensely rich, deep green color, faintly marked with light yellowish shading toward the tip. It runs very close to type, bearing practically no misshapen fruit or fruits. It is ideal for slicing; the flesh is compact, fine grained, sparkling white and of most refreshing and delightful flavor. The vines are vigorous, healthy and mildew-proof, maintaining their luxuriance and bearing abundantly from the earliest to the latest season.

Price, pkt., 10c; oz., 30c; ½ lb., 90c; lb., $2.25.

393 A. & C.

One of the Most Popular Varieties Grown

This new white spine variety has proven very popular. The plants make a strong, vigorous and healthy growth, and produce a heavy crop of excellent, fancy grade fruits. The fruits are smooth and symmetrical, dark green, 8 to 9 inches long, 1 ½ to 2 inches in diameter, and well rounded at the ends.

Price, pkt., 10c; oz., 30c; ½ lb., $1.20; lb., $3.50.

415 STRAIGHT EIGHT

A Beautiful Streamlined Variety

It is early and very productive. The fruits are 8 to 9 inches long, and about 1 ½ inches in diameter, well rounded at the ends, uniformly cylindrical in shape and when ready for use, deep green in color, free from stripping. The flesh is tender, crisp and of fine flavor. A highly desirable variety.

Price, pkt., 10c; oz., 35c; ½ lb., $1.20; lb., $3.50.

391 CHINESE

Bears Over a Long Season—Unique Long Fruits, Fine for Salads

The fruits are long and slender, often measuring 13 inches in length. It is extra good for slicing and for pickles, the flesh being crisp and tender. An important quality of this Chinese variety is its disease-resisting power, not being at all subject to blight and fungus diseases. It keeps on bearing fruits much longer than any variety of Cucumber.

Price, pkt., 25c; 5 pkts., $1.00.

392 COOL AND CRISP (Henderson's)

Firm and Crisp—Bears the Whole Season

An extremely early, exceedingly prolific and continuous-bearing variety; a very distinct and attractive selection of the old White Spine class; the shape is unique, rather longer than most sorts, tapering at each end, slightly ridged throughout, with but few "knobs." The color is a beautiful dark green, shading off a little toward blossom end.

Price, pkt., 10c; oz., 30c; ½ lb., 90c; lb., $2.25.

402 EXTRA EARLY GREEN PROLIFIC

An early strain of the Green Prolific type but far more productive; the best pickling variety grown.

Price, pkt., 10c; oz., 30c; ½ lb., 90c; lb., $2.25.

411 LONGFELLOW

On account of the vigorous habit of this variety it is less subject to plant diseases than any other sort. It produces fruits 12 to 14 inches long, of a beautiful dark olive green color, which when picked at the proper stage of growth come near, both in quality and appearance, to the cucumbers grown under glass.

Price, pkt., 15c; oz., 40c; ½ lb., $1.20; lb., $3.50.

413 NATIONAL PICKLING

The wonderful solidity of this cucumber will appeal to all who are fond of pickles, as it is just as firm after pickling as before. It is early maturing, very productive and uniform in shape and color.

Price, pkt., 15c; oz., 35c; ½ lb., $1.00; lb., $3.00.

412 LONG GREEN

It is the best variety used for big yellow mustard pickles.

Price, pkt., 10c; oz., 40c; ½ lb., $1.20; lb., $3.50.

HENDERSON'S GAR- DEN FERTILIZER

(See page 146)

Contains all of the plant food elements required to promote a healthy, vigorous growth of vegetables. This is of special importance when growing fast maturing crops like Cucumbers.

Our leaflet, "Cucumber Culture," tells you how to grow prize-winning fruits in your own garden—sent free on request when ordering.
Egg Plant  
**CULTURE**—Sow seed one-half inch deep in hooped or greenhouse in March or April; when an inch high, put in two or three-inch pots. Plant out, late in May.

451 New Hampshire Hybrid  
Particularly well adapted to the Northern States where the growing season is too short to mature the standard varieties. The plants are of a rather spreading habit of growth, and produce a large number of fruits which are oval in shape, and of a dark purple color. The fruits, although somewhat smaller than Black Beauty, are large enough for market purposes. They are ready for use much earlier than Black Beauty and other standard varieties. Because of its earliness and productiveness, New Hampshire Hybrid is an ideal variety for home use, or Northern markets.

Price, pkt., 25c; 5 pkts., $1.00.

450 New York Spineless Improved (Henderson’s)  
The plant is of low growth with a vigorous branching habit, strong enough to support its massive and shapely rich purple fruits, and compact enough to economize space. It is very prolific, the plants usually bearing 8 to 10 immense fruits of superb quality before being killed by frost.

Price, pkt., 10c; oz., 75c; 1/4 lb., $2.25.

452 Fort Myers Market  
A productive high bush variety. Plants vigorous and upright in growth, holding the fruits well off the ground. The fruits are nearly egg shaped, 9 to 10 inches long, 3 1/2 to 6 1/2 inches in diameter, and somewhat broader at the blossom end. Color deep purplish black with a high gloss. Especially well suited to Florida and an ideal shipping variety.

Price, pkt., 15c; oz., 85c; 1/4 lb., $2.50.

446 Black Beauty  
An early variety, handsome, large and of great merit; a prolific producer of uniformly large, purple-black fruits of fine quality, developing with great rapidity and ready about two weeks earlier than other large sorts.

Price, pkt., 15c; oz., 85c; 1/4 lb., $2.50.

Deep Heart Endive  
**ENDIVE**—Sow during March or April in hooped or cold-frame; cover seed 1/4 inch, transplant 1 foot apart in open ground in April or May. For late crop sow in June and July and transplant 1 foot apart each way. 1 oz. for 3,000 plants.

454 Deep Heart Fringed  
This variety is an entirely new type of Endive developed from Full Hearted Batavian, but is entirely distinct from that variety. The plants are of more upright growth than other varieties; the outer leaves turn upward thus reducing the possibility of injury from bottom roots. The leaves resemble Green Curled in color, but are broader, although the leaf margins are as deep cut and curled. The hearts are well filled and closely packed with numerous well blanched fine leaves. The plants of Deep Heart Fringed often reach a diameter of about 12 inches, and a depth of 7 inches or more.

Price, pkt., 10c; oz., 35c; 1/4 lb., $1.00; lb., $3.00.

453 Broad-Leaved Batavian  
(Escarole)  
Has broad, fleshy leaves, forming a large heart; makes excellent winter salad. It is also boiled as “greens.”

Price, pkt., 10c; oz., 30c; 1/4 lb., 80c; lb., $2.00.

459 Green Curled “Chicoree Frisée” of the French  
Green Curled is the best for general use, and is easily blanched by covering the full-grown plants with boards or pieces of slate. Good results come from early spring sowing and even better when treated as a fall crop. Make successive sowings during the fall.

Price, pkt., 10c; oz., 30c; 1/4 lb., 80c; lb., $2.00.

Dandelion  
436 Italian (Cicatrixi Catalana). Sometimes called Asparagus Chicory.  
Resembles Common Dandelion, but its leaves are more upright.

Price, pkt., 25c; oz., $1.25.

437 Improved Thick Leaved.  
Upright habit; broad, heavy curled leaves.

Price, pkt., 15c; oz., $1.50.

Florence Fennel  
967 The Popular Italian Finocchio.  
It makes an excellent salad and is also boiled for use as a vegetable. The flavor is sweet, spicy and very distinct. It should be sown between July 15th and August 1st.

Price, pkt., 15c; oz., 60c; 1/4 lb., $1.80.

Kale  
**CULTURE**—If wanted for use in late fall or early winter, sow one-half inch deep early in June and transplant middle of July, 2 feet apart in rows 2 feet apart. If needed for spring use, sow in April. 1 oz. for 2,000 plants or 150 feet drill.

464 Dwarf Curled or Blue Scotch  
Henderson’s Special Selected Dwarf.

Largely grown for supplying “greens” during the fall, winter and spring; also used small, like spinach; also useful in garnishing. The plants are hardy above zero; frost improves the quality. The leaves are very large, deeply curled and fringed, and of that desirable rich bluish green color; the plants are of very dwarf, even growth, the leaves hugging the ground, so that they are not broken off by heavy, wet snow.

Price, pkt., 10c; oz., 35c; 1/4 lb., $1.00; lb., $3.00.

469 Siberian.  
Green, curly leaves; tender and of delicate flavor.

Price, pkt., 10c; oz., 35c; 1/4 lb., $1.00; lb., $2.75.

Kohl-Rabi  
**CULTURE**—Seeds may be sown in the hooped or cold-frame during February or March and plants set out 1 foot apart in rows 2 feet apart in April or May.  
Or sowings may be made in the open ground where the plants are to grow in April or May and for fall use in July. Cover the seeds 1/4 inch. 1 oz. for 2,000 plants.

473 Early Short-Leaved White Vienna  
A singular variety of Cabbage with a Turnip-like bulb which forms immediately above the ground. It is extremely tender and partakes of the flavor of both Turnip and Cabbage. The bulbs are large enough to be eaten in from 10 to 12 weeks from sowing, and as they are more tender and delicately flavored before full maturity, it is advisable to make successive sowings.

Price, pkt., 15c; oz., 90c; 1/4 lb., $2.75.
LEEK

**CULTURE**—Sow early in April or May, in drills 18 inches apart; cover the seed ¼ inch deep; the plants should be thinned to stand 4 to 6 inches apart in the row, or for very early, the seed may be sown in coldframe or hoisted in February or March and transplanted when large enough as deep as possible without covering the center leaves, that the neck may be blanched. 1 oz. will sow 100 feet of drill.

480 LARGE

**AMERICAN FLAG**

The Finest for American Gardens

The Leek is closely allied to the Onion. The entire lower portion of the plant is used, which is smooth, solid, and generally the same thickness throughout. It is boiled whole, or used in soups. **American Flag** is the best variety for general use and is largely grown for fall and early winter use. It is of quick, strong growth, producing long stems of uniform shape and size, averaging 2 inches through by 10 inches long, blanching beautifully white, and of fine, mild flavor.

*Price, pkt., 20c; ½ oz., 90c; oz., $1.75.*

482 **MUSSELBURGH**

This is the best variety for winter and spring use, being very hardy; it keeps well when earthed up. It is of slower growth than American Flag, making immense, stocky stems about 3 inches through by 6 to 8 inches long. The leaves are broad and flat, and little injured by snow; they recover their fresh green color quickly in spring.

*Price, pkt., 20c; ½ oz., 90c; oz., $1.75.*

———

LETTUCE

**HEADING CULTURE**—For early crops, start the end of February in a coldframe or indoors in a seed box as a sunny window. Cover the seed not over one-eighth of an inch. Seedlings should be ready for setting outdoors in April. Set the plants one foot apart in rows eighteen inches apart. Seed may also be sown during April or May. For a Fall crop, sow seed during the month of August.

**LETTUCE VARIETIES**

America's Most Popular Lettuce

Delightful to the Eye—Crisp, Crystal White, Appetizing and Zestful

520 **NEW YORK (Henderson's)** or California **"ICEBERG"**

**The King of Main Crop Head Lettuce.** It produces immense heads, often 10 and 12 inches across, and weighing enormously. The interior is beautifully blanched, white, crisp, tender and delicious, being absolutely free from any trace of bitterness.

It is a very large, robust-growing variety, rooting deeply, resisting hot, dry weather, very slow to run to seed and a sure header under most trying conditions. The outer color is of a distinct apple green.

As a standard main summer crop, hot weather Lettuce, it is in every way desirable and has no equal, but it is not recommended for forcing.

*Price, pkt., 15c; oz., 40c; ¼ lb., $1.20; lb., $3.50.*

517 **NEW YORK NO. 12**

This is a selection from Henderson's New York, but has the added advantage of being earlier and more uniform in maturity. The heads are large, solid, crisp and of excellent quality.

*Price, pkt., 15c; oz., 40c; ¼ lb., $1.20; lb., $3.50.*

511 **IMPERIAL NO. 44**

This new "Iceberg" type was developed by the late Dr. L. C. Jagger of the U.S. Department of Agriculture. Its value as a good reliable heading variety was fully demonstrated by actual field tests throughout the East. The heads are large, hard, well-formed and uniform in size.

*Price, pkt., 15c; oz., 40c; ¼ lb., $1.20; lb., $3.50.*

515 **IMPERIAL NO. 847**

This new black seeded New York Type produces excellent crops in average garden soil. The heads mature with remarkable uniformity. The plants are medium large. The large round heads are very solid and pleasingly crisp.

*Price, pkt., 15c; oz., 40c; ¼ lb., $1.20; lb., $3.50.*

516 **MAY KING**

This early butter-head variety of Lettuce is very well suited for the first outdoor planting. The heads are of a medium size and very compact in form, being very tightly wrapped. The hearts are creamy yellow in color, very tender and crisp, and of excellent flavor.

*Price, pkt., 10c; oz., 35c; ¼ lb., $1.00; lb., $3.00.*

It has recently been discovered that the vitamin content of lettuce becomes materially reduced after it has lain on the dealer's counter for several days and has become wilted. Enjoy healthful, zestful lettuce at its best by growing a continuous supply in your own garden. Our leaflet tells you how.
LETTUCE

CULTURE—The culture of the Leaf and Romaine varieties is similar to that recommended on the preceding page. In connection with the Romaine or Cos Lettuce, it is a common practice to tie the leaves together when the plants have almost attained their full growth, in order to blanch the heart and inner leaves properly.

HEADING VARIETIES

492 BIG BOSTON (Henderson's)

This popular variety may be sown outdoors for early summer or fall use—sown in frames for spring, and forced cool for winter use. The large creamy white heads are packed with blanched sweet tender leaves.

Price, pkt., 10c; oz., 35c; ¼ lb., $1.00; lb., $3.00.

529 SPECIAL WHITE BOSTON

This white-headed strain is similar to Big Boston in size and shape, but the outer foliage is bright green without the red or bronze tinge. The heads mature a little earlier than the older types.

Price, pkt., 10c; oz., 35c; ¼ lb., $1.00; lb., $3.00.

518 MIGNONETTE (Henderson's)

A gem of a lettuce for home gardens and the best for early spring use. The heads are small, deliciously sweet flavored, with a creamy white melt-in-your-mouth appearance. Mignonette is extremely hardy, and very slow to go to seed.

Price, pkt., 15c; oz., 40c; ¼ lb., $1.20; lb., $3.50.

499 EARLY BUTTERNUT (Henderson's)

This popular "Butter-head" is fine for forcing. It is one of the earliest maturing varieties. Our tests show it to be immune to mildew and other fungus diseases that attack lettuce in frames. The compact creamy white heads also mature rapidly in the open ground.

Price, pkt., 20c; oz., 60c; ¼ lb., $1.50.

527 TENDERHEAD (Henderson’s)

This variety is well adapted for the home garden. The heads are small and compact, with few outer leaves. The plants may be set close together, and thus produce more heads in a small area than would any ordinary variety. The plants grow rapidly and produce solid, well formed heads much earlier than the standard varieties. Tenderhead is slow to run to seed, even in hot weather. Its delicious flavor, and the tender texture of the outer leaves, as well as the heart, make this variety of outstanding high quality.

Price, pkt., 15c; oz., 50c; ¼ lb., $1.25; lb., $3.75.

522 SALAMANDER (Henderson’s Perfected)

Salamander is one of the few varieties that will head well during hot weather. It will grow equally well as an earlier crop, but is excelled by others for fall use. It forms a good-sized, compact head, creamy-white in color, and has all the rich flavor of the "butter" Lettuce.

Price, pkt., 10c; oz., 35c; ¼ lb., $1.00; lb., $3.00.

LEAF VARIETIES

508 GRAND RAPIDS (Henderson’s)

Indoors or Out, the Easiest of All to Grow

This is probably the best of the loose-leaved varieties. It forms no head but produces an abundant crop of pale green leaves, slightly but closely crumpled, which, even when old, retain their characteristic sweetness and brittleness.

Price, pkt., 10c; oz., 30c; ¼ lb., 90c; lb., $2.50.

510 GRAND RAPIDS U. S. NO. 1

This new strain of Grand Rapids is definitely superior both for forcing and outdoor culture. The plants are vigorous and a little larger than the regular strain, exceptionally uniform and well curled. The best strain for greenhouse use.

Price, pkt., 10c; oz., 35c; ¼ lb., $1.00; lb., $3.00.

496 BLACK SEEDED SIMPSON

The plants form large, loose masses of curly and crumpled; yellow-green leaves, which are very tender, crisp and delicious; it stands the summer heat splendidly and is practically everbearing for as the leaves are picked, new leaves will grow.

Price, pkt., 10c; oz., 25c; ¼ lb., 75c; lb., $2.25.

ROMAINE or COS VARIETIES

503 CRISPYCOS (Henderson’s)

Its great recommendation is that it does not readily run to seed, and also that it is one of the best varieties for an early crop under glass. "Crispycos" is a very fine lettuce of good green color with broad leaves, folding well in at the top, and producing hearts crisp and sweet.

Price, pkt., 20c; oz., 50c; ¼ lb., $1.50.

526 TRIANON COS (Henderson’s)

The long, spoon-shaped leaves form oval-shaped heads. Romaine Lettuce may be used to advantage where the heading varieties do not succeed, as almost the entire plant is tender and palatable.

Price, pkt., 15c; oz., 30c; ¼ lb., 90c; lb., $2.50.
MUSKMELON
or Cantaloupe

GREEN FLESHED VARIETIES

557 ROCKY FORD (Henderson’s)
Earliest Strain—Beautiful Appearance—Delightful Flavor
This newer type is more rounded, the rib less prominent, and
the outer surface of the fruit is densely covered with delicate
lace-like netting. The quality and rich aromatic flavor have
also been greatly improved. The flesh is green, with a sugges-
tion of pink at the seed cavity, which is peculiarly attractive.
It is beautiful in appearance, delightful in flavor, and a general
favorite with all.
Price, pkt., 10c; oz., 35c; ¼ lb., $1.00; lb., $3.00.

542 HONEYDEW
The flesh of this variety is green, verging on creamy yellow in
color, thick and succulent, with a very small seed cavity.
Price, pkt., 15c; oz., 35c; ¼ lb., $1.00; lb., $3.00.

ORANGE and SALMON FLESHED VARIETIES

549 GLOBE O' GOLD
Beautiful Flesh—Enormous Crops
The vines are exceptionally vigorous, and produce an enormous
yield over a long period. The fruits are nearly round and entirely
tree from ribbing. As they mature they turn pale golden yellow,
and are covered with a fine netting. The seed cavity is small, the
flesh very thick, fine textured, and a beautiful deep orange in
color. It is edible to the rind, sweet, and of excellent flavor. A
recommended mid-season variety.
Price, pkt., 20c; oz., 50c; ¼ lb., $1.50; lb., $4.50.

552 PRIDE OF WISCONSIN
The thick flesh, and excellent flavor of this
variety should make it a great favorite. The
fruits are of medium size, grayish green in
color, heavily netted, almost round, but
inclined to be somewhat blunt at the ends.
The flesh is deep salmon, fine grained and
sweet.
Price, pkt., 15c; oz., 35c;
¼ lb., $1.00; lb., $3.25.

536 BENDER’S
SURPRISE
This variety in many locali-
ties is now one of the most
popular melons grown. Fruits
large, round to oval in shape,
distinctly ribbed and well
netted. The flesh is thick,
deep salmon color, very sweet
and of superior quality.
Price, pkt., 15c; oz., 35c;
¼ lb., $1.00; lb., $3.00.

ORANGE AND SALMON FLESHED VARIETIES

540 HEARTS OF GOLD
A Good Variety for the Home Garden. Tempting in Color
Delicious in Flavor
The Melons are medium in size, but present a fine appearance, the
rind being very firm and closely netted, each vein appearing as if
highly embossed on the surface. The flesh is a rich, deep orange-
scarlet in color, very fine grained and deliciously sweet.
Price, pkt., 10c; oz., 35c; ¼ lb., $1.00; lb., $3.00.

546 HALE’S BEST
A salmon-fleshed type similar to Rocky Ford. It is oval in shape,
slightly ribbed, well netted and grows larger than ordinary Rocky
Ford. Hale’s Best is also several days earlier in ripening, is very
attractive in appearance, and the thick, salmon-colored flesh is
exceedingly sweet in flavor.
Price, pkt., 10c; oz., 35c; ¼ lb., $1.00; lb., $3.00.

548 HONEY ROCK
A variety of recent introduction. The melons are perfectly
round, of medium size, skin light yellow when ripe. Flesh, rich
salmon of the very finest quality; a valuable acquisition for the
home garden.
Price, pkt., 15c; oz., 35c; ¼ lb., $1.00; lb., $3.00.

550 DELICIOUS
The earliest large melon in existence. The fruits are somewhat
smaller and several days earlier than Bender’s Surprise, but the
shape and color closely resemble that well known variety. Flesh
deep salmon colored, firm, and deliciously sweet.
An excellent melon for the home garden.
Price, pkt., 15c; oz., 35c; ¼ lb., $1.00; lb., $3.00.

554 PERFECTED PERFECTO
Remarkably Thick-Fleshed—Exquisite Flavor
We feel confident that this variety will achieve
great popularity for its attractiveness and superb
flavor. The medium-sized, oval-shaped fruits are finely netted, which in itself
gives them an attractive appearance; but, when they are halved, and dis-
close their beautiful salmon-colored flesh, their appeal is irresistible, and they
actually taste better than they look. The flesh is thick, of a fine, cus-
tard-like texture; the seed cavity is the
smallest found in melons of this type.
All who enjoy fine flavored melons will welcome the "Perfected Perfecto"
because they can depend upon its uni-
form quality.
Price, pkt., 10c; oz., 35c; ¼ lb., $1.00; lb., $3.00.

Our Leaflet, “How To Grow Best Muskmelons,” including spraying, etc., is sent Free to customers if requested.
WATERMELON

CULTURE—Watermelons thrive best in warm latitudes, although in warm, sandy soils in the latitude of New York fine crops are often obtained. Cultivate exactly as for Mushmelons. Hills should be eight feet apart. One oz. for 30 hills.

567 COLE'S EARLY
North Rivals South With Cole's Early
If you have failed with other sorts you can succeed with Cole's Early. It is the best variety for the family garden and good in every respect, producing a liberal crop of Melons 12 inches long and 9 inches in diameter, of delicious quality. The deep red, fine-grained flesh ripens from heart to rind, while its rich color and luscious flavor satisfies the most exacting taste.

Price, pkt., 10c; oz., 25c; ½ lb., 60c; lb., $1.50.

565 CITRON
Red seeded. Small, round fruits, for preserves only.

Price, pkt., 10c; oz., 25c; ½ lb., 60c; lb., $1.50.

573 KLECKLEY'S SWEET
An oval-shaped variety, with dark green skin and thin rind. The bright scarlet flesh is extremely sweet.

Price, pkt., 10c; oz., 25c; ½ lb., 60c; lb., $1.50.

575 EARLY KANSAS
A recent introduction of outstanding merit. The fruits are large and produced early. The skin is dark green with lighter green stripes. The flesh is bright red and of fine quality.

Price, pkt., 10c; oz., 25c; ½ lb., 75c; lb., $1.75.

577 NORTHERN SWEET
A variety developed in Minnesota particularly desirable in localities where the growing season is short. The fruits are oval, 10 inches by 9 inches and weigh about 12 lbs. The skin is green with narrow stripes of a darker green. The flesh is dark pink in color and of good quality.

Price, pkt., 10c; oz., 25c; ½ lb., 75c; lb., $1.75.

580 STONE MOUNTAIN
A large Melon, nearly round but somewhat blunt at the ends. The color is solid dark green with faintly indicated broad ribs. A wonderful Melon for the private garden. The flesh is bright scarlet, very small seeds; flavor delightful.

Price, pkt., 10c; oz., 25c; ½ lb., 60c; lb., $1.50.

581 TOM WATSON
Long oval shape, thin but tough rind; bright scarlet flesh; excellent quality.

Price, pkt., 10c; oz., 25c; ½ lb., 60c; lb., $1.50.

MUSHROOM SPAWN

6771 PURE CULTURE Bottle
Spawn (Pure White)

This spawn is made in bottles under absolutely sterile conditions, so that spores of other fungi, many of them poisonous, insect eggs, weed seeds and all other extraneous matter is excluded. One carton of this spawn equals 5 bricks of ordinary spawn and will spawn an area of about 40 square feet. We include full instructions with the spawn.

Price per carton, $1.25; 5 cartons, $6.00; 10 cartons, $11.50.

Our pamphlet, "Mushroom Culture," sent free on request.

OKRA or Gumbo

597 LONG GREEN. One of the most popular varieties. It is a vigorous grower, plants ranging from 2 ½ to 3 feet high, produce long, tender pods in abundance.

Price, pkt., 10c; oz., 20c; ½ lb., 45c; lb., $1.00.

595 DWARF PROLIFIC. Of dwarf, stocky growth, very early and prolific.

Price, pkt., 10c; oz., 20c; ½ lb., 45c; lb., $1.00.

599 WHITE VELVET. The pods are long, smooth, greenish-white.

Price, pkt., 10c; oz., 20c; ½ lb., 45c; lb., $1.00.

MUSTARD

566 FORDHOOK FANCY. The ordinary Mustard Plant is usually eaten as a salad only; but Fordhook Fancy is used cooked like Spinach, as well as eaten raw.

Price, pkt., 10c; oz., 25c; ½ lb., 75c; lb., $2.00.

587 GIANT SOUTHERN CURLED. A favorite in the South, where it is grown in the fall for spring salad.

Price, pkt., 10c; oz., 25c; ½ lb., 75c; lb., $2.00.

803 MUSTARD SPINACH
An Entirely New Vegetable Recently Introduced
It has a most delicious flavor peculiarly its own, and combines in itself the qualities of both Spinach and Mustard. It makes an excellent spinach grown in the same way, and it has the advantage over any other plant used for greens, because it is ready for the table in from three to three and one-half weeks from planting the seed.

A continuous supply for the table may be had by making successive sowings, because it flourishes during hot weather, as well as in moderate periods when ordinary varieties of spinach fail to grow.

Chemical analysis shows this plant to have abundant protein, mineral matter, lime and iron.

Price, pkt., 10c; oz., 25c; ½ lb., 75c; lb., $2.00.

The preparation of the soil for the vegetable garden—starting the seed—cultivation and storing are all fully covered in our Garden Guide and Record. Sent free on request with an order of $3.00 or over, or sold at 35¢ per copy.

Our leaflet, "Melon Culture," tells how to grow Watermelons to perfection; free on request with orders.

SEND FOR OUR LIST OF POT-GROWN AND TRANSPLANTED VEGETABLE PLANTS.

READY IN APRIL.
The hardier varieties of vegetable plants, like Broccoli, Cabbage, Cauliflower and Lettuce are ready for delivery after April 1st.
The more tender sorts, like Egg Plants, Peppers and Tomatoes, after May 1st.
**Onion**

The popularity of the Sweet Spanish Onions is due entirely to their mild, sweet flavor. Many people who ordinarily cannot eat onions, relish the Sweet Spanish types. They are ideal for the delectable French-fried onions. For best results, start the seed in a cold frame and transplant the seedlings when ground is ready.

**Henderson’s Two Popular Sweet Spanish Varieties**

**612 ESPANOLA**

_The Handsomest and Mildest Large Onion in the World_  

Spanish Onions may be grown in any locality where onions will grow, but ideal conditions for their best development are found in locations having a warm, long season, deep, rich, well-tilled soil, and an available water supply in case of drought. Under such conditions great crops of ideal Spanish Onions are produced; bulbs that will measure 4 to 6½ inches in diameter, and weigh up to 2½ lbs. each, equal in every respect to the imported onions.

When transplanting the seedlings see that they are placed 6 inches apart to give the long roots ample feeding ground and encourage rapidity of growth.

An experienced onion grower gives this brief description of Espanola: “Bulbs extremely large, almost globular in shape; neck and root disc small and fine; skin light yellow; interior fine-grained, and flavor mild; foliage distinctive, a deep green with glossy surface rendering Espanola practically immune from fungoid diseases.”

Price, pkt, 15c; oz., $1.00; ½ lb., $3.00

**610 BARCELONA**

_A Spanish, Keeping Onion, Sparkling White, Mild Flavor_  

We have named this novelty Barcelona because it is a selection obtained from our famous onion, Espanola, although it is pure silvery-white in color, instead of pale golden-yellow, like its parent. It is also more of a true globe shape. The outer skin is silver-white and the inside is sparkling white, of fine texture, mild flavor and delicate tenderness.

In sections where there is a long, warm season and on soil that is well tilled and rich, Barcelona will attain almost as large a size as its parent Espanola.

The Espanola and the Barcelona onions are very popular; are in all respects equal to the imported. They also keep fairly well for winter use but not quite equal in keeping qualities to the Southport Globes or Danvers.

Price, pkt., 15c; oz., $1.00; ½ lb., $3.00

**607 HARDY BUNCHING**

An excellent “scallion” variety for spring or fall sowing, hardy enough to winter in the open ground. Seed sown in July or August will produce scallions the following spring, earlier even than they could be grown from onion sets. The plants will not form bulbs, but they produce long, smooth, pure white stems of perfect flavor and tenderness.

Price, pkt., 15c; oz., $1.00; ½ lb., $3.00.

**623 LARGE RED WETHERSFIELD**

This is a general favorite everywhere, and is largely grown both for market and private use. It shapes up very quickly, insuring a good supply during the growing season, while its keeping quality is equal to the best. The exterior color is dark, glossy red, and the flesh is faintly tinged with the same color.

Price, pkt., 15c; oz., $1.00; ½ lb., $3.00.

**629 YELLOW GLOBE DANVERS**

There is a considerable variation in the shape of this variety—shapes that vary from flat to deep oval. We have consistently adhered to the original type, which, but for a slight depression from top to bottom, is a perfect sphere. The matter of tops has had close attention, and are so bred that at maturity they disappear entirely, leaving the bulbs quite without neck, clean, solid and good throughout.

Price, pkt., 10c; oz., $1.00; ½ lb., $3.00.

It’s easy to grow high quality onions in your garden by following the instructions given in our leaflet, “Onion Culture”—sent free on request when ordering.
CULTURE—One oz. for 100 ft. of drill; five to six lbs. in drills for an acre. For an early crop, seed may be sown in cold-frames in February or March, transplanting when large enough to handle in April or May. Regular open-ground sowing should be made about the latter part of April or early May in latitude of New York, in soil that has been manured the previous year. Sow about one-half inch deep in rows one foot apart, and then thin out to three inches apart in the rows.

Clean cultivation and a regular weekly or bi-weekly spraying with Henderson’s Nicotine Spray or Tartar Emetic (see pages 144 and 145) will control Thrip or white blast, which is quite prevalent some seasons, and thus insure healthy, perfectly formed bulbs.

617 SOUTHPORT RED GLOBE

The outer skin is a rich purplish-red, and the flesh is faintly tinged with the same color. It is a little stronger than the white and yellow, and preferred by many for this reason.

Price, pkt., 15c; oz., $1.00; ½ lb., $3.00.

619 SOUTHPORT WHITE GLOBE

This is perhaps the best Onion of all for family use, for, while it is similar in some respects to the other Southport GLOBES, it is more attractive in appearance. The flesh when cooked is of a rich, milky color, tender and of delicious flavor, and when eaten raw is the mildest of the three.

Price, pkt., 15c; oz., $1.00; ½ lb., $3.00.

621 SOUTHPORT YELLOW GLOBE

The very best strain of yellow Onion, the exterior color does not extend to the flesh, as in the red variety. It is mild in flavor and may be grown by anyone where Onions will grow, and is probably the best of all for general use.

Price, pkt., 15c; oz., $1.00; ½ lb., $3.00.

662 COLLECTION OF Famous Globe Onions

Southport White
Southport Red
Southport Yellow

(See descriptions above)

Price, Coll. of 3 pkts., 35c; 1 oz. each, 25c.

Scallions, those welcome and greatly relished young, green onions, are obtained early in spring by planting onion sets as soon as the frost is out of the ground.

It’s easy to grow high quality onions in your garden by following the instructions given in our leaflet “Onion Culture”—sent free on request when ordering.

627 WHITE PORTUGAL or Silver Skin

The best Onion for general use during the spring, summer and autumn. We do not esteem it so highly for winter use, as it is excelled by other sorts for keeping purposes.

There are none that yield more delicious “scallions,” or young plants for salad purposes, none which are more suited to boiling during the growing season, and none so generally esteemed for their mild, delightful flavor.

Small bulbs left in the row at the end of the season may be used for pickles.

Price, pkt., 10c; oz., $1.00; ½ lb., $3.00.

608 EARLY YELLOW GLOBE

An excellent heavy yielding early variety, possessing exceptionally good keeping qualities. The bulbs are globe shaped, deep yellow in color, and under favorable conditions mature 10 days to 2 weeks earlier than Southport Yellow Globe.

Price, pkt., 10c; oz., $1.00; ½ lb., $3.00.

ONION SETS

In private gardens, growing Onions from sets saves much labor, the crop is sure to grow, and is ready for use weeks in advance of that grown from seed. 1 Qt. to 40 Pt. of Drill.

641 Potato Onion Sets. Early and of rapid growth; excellent for pulling green.

Price, qt., 60c; 4 qts., $2.25; peck, $4.00.

643 Shallots. The small bulb keeps for a year.

Price, qt., 80c; 4 qts., $3.00.

645 Garlic Sets. Esteemed in cookery.

Price, lb., 60c.
PARSLEY  

CULTURE — The germination of Parsley seed is very slow, taking about three to four weeks. Sow seed in rows one foot apart, covering seed one-half inch. Thin out the plants to stand two inches apart.

653 EMERALD (Henderson’s)  
A distinct variety of robust growth, freely furnished with short-stemmed leaves, very finely cut and most beautifully curled, making a compact and extremely graceful plant. Most varieties of parsley are dark green; but, as its name implies, Emerald is brilliant emerald-green in color and therefore highly esteemed for decorative and garnishing purposes.

Price, pkt., 10c; oz., 25c; ¼ lb., 65c; lb., $2.00.

655 EXTRA DOUBLE CURLED  
A popular, fine dwarf, beautifully curled sort.

Price, pkt., 10c; oz., 25c; ¼ lb., 65c; lb., $1.75.

659 HAMBURG or Turnip Rooted  
The fleshy roots of this kind resemble small Parsnips. Used for flavoring soups, stews, etc.

Price, pkt., 10c; oz., 25c; ¼ lb., 60c; lb., $1.75.

661 PLAIN or Italian  
The leaves are not curled; plant very hardy.

Price, pkt., 10c; oz., 25c; ¼ lb., 60c; lb., $1.75.

PARSNIP  

CULTURE—Sow seed in rows two feet apart as soon as ground is in condition in spring. Cover seed one-half inch.

664 ALL AMERICAN  
This newer variety is in great demand in many localities because of its white, smooth appearance. The roots are somewhat more slender than Hollow Crown, and exceptionally free from side roots.

Price, pkt., 10c; oz., 30c; ¼ lb., 90c; lb., $2.25.

667 HOLLOW CROWN (Henderson’s)  
Our selection of this highly esteemed variety is surely the best for the private garden. We have discarded the types with slim, long roots that invariably break in digging and offer only a shawly, heavy-shouldered strain with its greatest girth at the crown and gradually tapering to a small root.

For winter use lay the roots horizontally in small boxes packed with ordinary garden soil and store them in some convenient place outdoors, away from snow or rain. Frost improves their quality.

Price, pkt., 10c; oz., 30c; ¼ lb., 90c; lb., $2.25.

Last Date for Sowing the Following Varieties of Vegetable Seeds in the Latitude of New York

Asparagus Roots, Plant Early Spring and up to Nov. 15th.

Beans, Lima, June 5th.
Beans, Dwarf or Bush, until Aug. 1st.
Beans, Early Crop, until Aug. 5th.
Broccoli, up to June 15th.
Brussels Sprouts, up to June (in seed bed).

Spinach, Sept. 10th.
Swiss Chard, Aug. 1st.
Turnip, Aug. 20th.

Henderson’s Garden Guide & Record is America’s authority for information concerning the production of high-quality vegetables in the Home Garden. It tells not only how to grow vegetables to perfection, but also when to gather them and how to can them. Price 35¢ or sent on request with orders amounting to $3.00 or more.

1847-1943. Ninety-six years of successful Seed Service. PETER HENDERSON CO., 35 Cortlandt Street, New York, N. Y.
Like many delicately flavored vegetables, Garden Peas should be cooked and served immediately or at least within a few hours after they are gathered. Therefore, in order to enjoy these tempting and delicious morsels to the utmost, they should be grown in your own garden, and the selection of varieties made from the following list. Our offering cannot be surpassed for Quality.

177 MAMMOTH PODDED EXTRA EARLY

The Largest Extra Early Pea Grown

Shown in colors on page 39

The largest podded first early variety in existence. It belongs to the hardy semi-smooth or dimpled seeded group, thus making it possible to plant the seeds as soon as the ground can be prepared in the spring. The vines are medium heavy, deep green, about 3 feet in height, and produce a good crop. The pods are dark green, about 4 inches long, fairly broad, round, blunt ended, and contain 7 large, medium light green peas. Here is a variety that possesses all of the desirable characteristics of the late varieties in addition to its extreme earliness.

Price, pkt., 15c; 1/2 lb., 25c; lb., 45c; 5 lbs., $1.75; 15 lbs., $4.50.

178 EARLY DELICIOUS

An Extra Early, Extra Hardy and Extra Fine Flavored Table Pea

An extra early variety of outstanding merit. The vines grow about 2 feet high and produce an enormous crop. The pods are 3 to 1/4 inches long, straight, pointed, dark green, and contain 7 to 8 deep green peas of good quality. In season Early Delicious is ready practically as soon as First-of-All, and has the added advantage of being more productive, larger podded, and above all, of much higher quality. The seed is semi-smooth, or dimpled and for this reason can be planted earlier than is possible for the wrinkled varieties.

Crop failure.

174 LITTLE MARVEL

An Improved Early Dwarf Variety

This is the most prolific of the Early Dwarf Garden Peas, and we especially recommend it to the home gardener. It is a decided improvement on the Wonder class because the pods—always borne in pairs—mature much earlier than Nott's Excelsior. The vines grow about eighteen inches high and both vine and pod are in color an extremely dark green.

Price, pkt., 15c; 1/2 lb., 30c; lb., 50c; 5 lbs., $2.00; 15 lbs., $5.25.

171 LAXTONIAN

Shown in colors on page 39

A Grand Early Marrow Dwarf Pea

It is a vigorous and dependable grower, and very prolific. Height, 18 inches.

The pods are not only large, but are always well filled with Peas of great size and remarkably good quality. The crop is ready for use about a week later than the earliest sorts.

Price, pkt., 15c; 1/4 lb., 30c; lb., 50c; 5 lbs., $2.00; 15 lbs., $5.25.

167 IMPROVED MELTING MARROW

Equal in size and rich "melting marrow" flavor to the best of the later sorts. The pods are very large and are produced in abundance. They are always bountifully filled with very large Peas of a rich, inviting green color of perfect flavor. It is one of the earliest to care for. Vines 18 inches high.

Price, pkt., 15c; 1/4 lb., 30c; lb., 50c; 5 lbs., $2.00; 15 lbs., $5.25.

191 THOMAS LAXTON

An excellent, early wrinkled marrow variety. Height, 3 feet. Pods are medium to large. Produces strong vines, which bear heavy crops.

Price, pkt., 10c; 1/4 lb., 30c; lb., 50c; 5 lbs., $2.00; 15 lbs., $5.25.

179 NOTT'S EXCELSIOR

The pods are of good size, produced liberally, and are well filled with excellent Peas of perfect quality. The plant is among the smallest, very rarely exceeding 15 inches in height, and is easily grown.

Price, pkt., 10c; 1/4 lb., 30c; lb., 50c; 5 lbs., $2.00; 15 lbs., $5.25.

186 PROSPERITY

(Henderson's)

The Largest Highly Flavored Pea Grown

It is very gratifying to the grower to be able to supply the table with such delicious Peas as early as the first week in June.

The immense size of the pods borne in such great profusion and so liberally filled, insures a bountiful supply at all times.

The vines are three feet high, the pods are borne singly and freely from top to bottom of the vine and contain from six to ten Peas of delicious quality, large and rich in flavor.

Price, pkt., 15c; 1/4 lb., 30c; lb., 50c; 5 lbs., $2.00; 15 lbs., $5.25.

172 LAXTON'S PROGRESS

See illustration on following page

The earliest of the sweet large-podded varieties. Our experience is that in the latitude of New York, Laxton’s Progress is four days earlier than Laxtonian, heretofore considered the earliest large-podded pea.

Price, pkt., 10c; 1/4 lb., 30c; lb., 50c; 5 lbs., $2.00; 15 lbs., $5.25.
157 DWARF ALDERMAN
Possesses Outstanding Qualifications

The Henderson standard of perfection set up by our founder many years ago has proven to be a barrier to many inferior vegetable introductions. To pass this barrier an item must possess outstanding qualifications. Our tests of Dwarf Alderman have not only let down the bars for it, but have aroused our enthusiasm to such an extent that we feel confident it will prove its value wherever grown. Possessing the rugged constitution of the tall-growing late varieties, it reaches a height of only 20 inches, but is correspondingly sturdy and bushy. The pods, which are borne in profusion, average 4½ inches long; they are dark green and pointed. The pods invariably contain 7 to 8 large rich-green peas of an exceptional quality; they are sweet and delicious. For a main crop garden pea, it has no superior.

Price, pkt., 15c; ½ lb., 30c; lb., 50c; 5 lbs., $2.00; 15 lbs., $5.25.

158 DWARF TELEPHONE

A robust growing variety; the haulm is strong and bears an abundance of pods about 3 inches in length, tightly filled with 8 to 9 dark green wrinkled peas of the finest quality. Immensely valuable to both the home gardener and commercial growers for its productivity and ease of cultivation. The plants average from 1½ to 2 feet high.

Price, pkt., 15c; ½ lb., 30c; lb., 50c; 5 lbs., $2.00; 15 lbs., $5.25.

Garden Peas, like most fast maturing vegetable crops, require an uninterrupted supply of plant food during their active growing and bearing period. There is no better plant food obtainable than THE HENDERSON GARDEN FERTILIZER listed and described on page 146. It contains all the elements required for healthy plant growth.
PEPPER CULTURE—Sow one-half inch deep in hilled, greenhouse or warm window in March or April. When one inch high, transplant into two-inch pots and plant out late in May or early June in rich soil in rows two and one-half feet apart in the row. Cultivate frequently throughout the season to keep the soil mellow and free from weeds.

677 CHINESE GIANT
This monstrous fruiting variety averages 12 to 15 inches in circumference, and, notwithstanding its immense size, it is very early and prolific; the stocky, well-branched plants, about 2 feet high, carry so many peppers that in places they seem bunched together. The flesh is tender, mild and sweet.
Price, pkt., 15c; oz., 90c; ½ lb., $2.50.

676 CALIFORNIA WONDER
See Color Plate Page 39.
Thick Flesh, Sweet, Crisp, Tender
Fruits of California Wonder often weigh half a pound to one pound each, and there is no doubt that this is the "meatiest" pepper ever introduced. The flavor is so mild, delicious and free from pungency that it may be eaten just like an apple.
Price, pkt., 25c; oz., $1.00; ½ lb., $3.00.

684 KING OF THE NORTH
The fruits are of much the same shape as Ruby King, but the flesh is thicker, and exceptionally sweet. The fruits are dark green, turning to an attractive deep scarlet color as they ripen. The plants are somewhat branching, and of medium size, and in the North produce a large crop of ripe fruits earlier than other varieties.
Price, pkt., 15c; oz., 90c; ½ lb., $2.50.

697 WORLD BEATER
World Beater produces fruits in clusters. The peppers are first dark green in color and change to a very brilliant scarlet when ripe.
Price, pkt., 10c; oz., 75c; ¼ lb., $2.25.

693 RUBY KING
Ruby King is held in high estimation by market gardeners and is equally valuable for the home gardener. The plants, which are vigorous, grow to a height of about two feet, and are clothed with rich, dark green foliage. The fruits average about five inches long by three inches in diameter and are usually three lobed; the color is a pleasing deep green, which turns to a glowing, ruby red when ripe.
The flesh is exceedingly thick, sweet and mild.
Price, pkt., 10c; oz., 75c; ¼ lb., $2.00.

690 EARLY WONDER
An early type of California Wonder. The plants are vigorous, somewhat spreading in growth. They produce an enormous crop of fruit, starting to bear early in the season and continuing over a long period. The fruits are somewhat smaller than California Wonder, but they have the fine "meaty" quality of that variety.
Price, pkt., 25c; oz., $1.25; ½ lb., $3.75.

698 WINDSOR A
An extra early variety from Connecticut's Agricultural Experiment Station, particularly desirable for the North. The plants are upright, sturdy and huge croppers. Fruits 4½ to 5 inches long, 3 to 3½ inches at the crown, somewhat tapered, deep green, turning bright scarlet when ripe. Flesh, very thick and sweet.
Price, pkt., 25c; oz., $1.00; ½ lb., $3.00.

682 HUNGARIAN WAX (Hot)
An early, very productive hot variety. Fruits 6 to 7 inches long, about 1½ inches at the crown, tapering to a hooked point. Color, waxy pale-yellow, turning to orange and then to bright red at maturity.
Price, pkt., 25c; oz., $1.25; ½ lb., $3.75.
POTATOES FOR CULTURE, etc.—Send for our pamphlet, “Garden Culture of Root Crops.” A sack is 2½ bushels or 165 lbs. net weight. We do not ship potatoes C.O.D. Purchaser Pays Transportation Charges.

Selected Maine Grown Obtainable from March 1 to May 1

GREEN MOUNTAIN (Improved)
A Dependable Main Crop. Winter Keeper.
A reliable medium late potato that is so popular in some sections it has superseded all other main crop varieties. It seems to thrive in all soils and in all localities, making heavy, healthy vines, and yielding big crops of large, smooth, white skinned tubers of handsome flattish oval form. It cooks white, dry and mealy, and well, and is not liable to scab or decay.
Price peck, $1.50; bushel, $5.50; $10.00 sack of 165 lbs. net weight.

SEBAGO
This is a new variety, medium sized and matures medium early, is white skinned, smooth, shallow eyed. Round Tubers, blight resistant and a good cropper. Keeps well when stored for winter use.
Price peck, $1.50; bushel, $5.50; $10.00 sack of 165 lbs. net weight.

RUSSET (Early)
A heavy cropper and a distinct type, skin is netted. Round to oblong shaped, flesh white and good flavored. The foliage is heavy and blight resistant.
Price peck, $1.50; bushel, $5.50; $10.00 sack of 165 lbs. net weight.

WARBA
This type is earlier than Cobbler by 10 days and has yielded more on all types of soil. The quality is very good, white skin and flesh, round with pink eyes, keeps well and is resistant to Mosaic on account of heavy foliage which spreads and lays flat on ground. One of the new types only lately introduced.
Price, peck, $1.75; bushel, $6.00; $11.00 per sack of 165 lbs. net weight.

EARLY OHIO. Extra-early, maturing about two weeks before the Early Rose; almost round; flesh solid, cooks dry and mealy.
Price, peck, $1.50; bushel, $5.50; $10.00 per sack of 165 lbs. net weight.

SIR WALTER RALEIGH. It produces an extremely large crop of round, slightly flattened tubers, smooth, white skinned, and very attractive in appearance.
Its good quality is greatly improved when stored in a cool, dry cellar.
Price, peck, $1.50; bushel, $5.50; $10.00 sack of 165 lbs. net weight.

SPAULDING ROSE No. 4. Handsome red potato, somewhat flat, a little later than the regular Early Rose but usually a better cropper.
Price, peck, $1.50; bushel, $5.50; $10.00 sack of 165 lbs. net weight.

UNCLE SAM. The tubers are oval shaped, with light russet skin, very even in outline and with shallow eyes.
Price, peck, $1.50; bushel, $5.50; $10.00 sack of 165 lbs. net weight.

Purchaser Pays Transportation Charges On Potatoes.

IRISH COBBLER

PUMPKIN CULTURE.—Sow late in May in the latitude of New York, in very rich soil, cover the seed one inch. When grown alone the hills should be eight feet apart each way. 1 oz. for 30 hills.

703 LARGE CHEESE (Original Strain)
The most popular variety, either for pies or table use. The shape may be described as flat, round. The skin is creamy yellow in color, and the flesh is deep orange, of fine quality and very tender. Large Cheese is a splendid keeping variety.
Price, pkt., 10c; oz., 25c; ½ lb., 65c; lb., $1.50.

705 CONNECTICUT FIELD. A productive reddish-orange colored field pumpkin, the inside flesh is orange yellow. It is solid, fine-grained and slightly ribbed. This variety is grown extensively for canning purposes, also for stock feeding.
Price, pkt., 10c; oz., 25c; ¼ lb., 45c; lb., $1.00.

709 SUGAR. A handsome and productive small Pumpkin, 10 to 12 inches in diameter, round-flattened, skin orange, flesh deep yellow, fine grained and very sweet.
Price, pkt., 10c; oz., 25c; ¼ lb., 50c; lb., $1.50.

711 WINTER LUXURY. A superior pie Pumpkin, small but enormously productive and an excellent keeper; shape slightly oval, about 10 inches in diameter; color, golden russet.
Price, pkt., 10c; oz., 25c; ¼ lb., 60c; lb., $1.50.

SEMESAN BEL. It controls diseases of seed potatoes, producing sprouts of healthy vigor, from which grow increased yields of clean, healthy plants and tubers. lb., $1.65; 5 lbs., $7.15.
RADISH
CULTURE—Radishes thrive best in a sandy, loamy soil, and to have a continuous supply for the table sow as early in the spring as possible and at intervals of ten days thereafter. Where the summers are very hot, sow until the fifteenth of May and then omit until August. Then make three sowings at intervals during that month. Radishes are divided into three classes—spring, summer and winter kinds, and all kinds should be used in a garden. Radishes are fit for the table in 25 to 40 days from sowing in the open ground. For extra early crop sow seed in hot bed in February. One ounce for each 100 ft. of row.

EARLY ROUND VARIETIES

756 EARLY SCARLET GLOBE
The best of the forcing varieties and the best of its class for outdoor culture; one of the most attractive radishes grown. The roots are a little longer than round, the skin intense scarlet in color, with tiny thread-like roots. It is very early, oval-shaped, and has very small tops.
Price, pkt., 10c; oz., 25c; ¼ lb., 65c; lb., $1.50.

722 CRIMSON GIANT (Early)
This variety grows to 5 and often 6 inches in circumference, weighing up to 1 oz. per root, but notwithstanding its immense size, does not get hollow or pithy, but keeps in condition for a long time. The flesh remains sparkling white, solid, crisp and juicy and it is of the mildest flavor.
Price, pkt., 10c; oz., 25c; ¼ lb., 65c; lb., $1.50.

724 EARLY ROUND DARK RED
The darkest colored of the round red varieties and an excellent sort for family use. The roots are round, the top medium in size. Inside, pure white, crisp and tender.
Price, pkt., 10c; oz., 25c; ¼ lb., 65c; lb., $1.50.

733 GLOWING BALL
This variety is the brightest colored and most attractive in appearance of the round or turnip shaped types. The roots are practically ball shaped. The skin is a glowing scarlet red; the flesh is white, exceptionally solid and crisp, and of excellent quality.
Price, pkt., 10c; oz., 30c; ¼ lb., 80c; lb., $2.00.

757 SPARKLER
Shown in Colors Page 39.
Brilliant scarlet with a very pronounced white tip. It wins by appearance alone. But to this must also be added its sparkling white, solid, crisp flesh and mild sweet flavor. It is desirable both for forcing and garden culture. Foliage small.
Price, pkt., 10c; oz., 25c; ¼ lb., 65c; lb., $1.50.

767 HENDERSON'S COLLECTION OF FOUR RADISHES
Radishes add such a sprightly piquancy to a meal, that they should be served at all times. By making the first sowing in a cold frame and then continuing with succession sowings up to September they may be enjoyed throughout the entire season. There is nothing more tasty during the summer than chilled, glistening white slices of Icicle.
Early Round Dark Red
White Tipped Early Scarlet Turnip
French Breakfast
Icicle
Price, pkt. each 4 varieties, 30c.

726 SCARLET TURNIP (Early)
The popular standard variety and one of the best table radishes, being highly esteemed for its mild flavor. The skin is bright scarlet in color and the flesh snow white. Medium size and a rapid grower.
Price, pkt., 10c; oz., 25c; ¼ lb., 65c; lb., $1.50.

728 WHITE-TIPPED EARLY SCARLET TURNIP
Unsurpassed as a table Radish where, by reason of the strong contrasting colors of the root, it makes a most attractive appearance. The flesh is crisp, white and tender, and extremely mild.
Price, pkt., 10c; oz., 25c; ¼ lb., 65c; lb., $1.50.

OVAL-SHAPED VARIETIES

730 FRENCH BREAKFAST
This is a favorite oval-shaped bright scarlet Radish, with white tip. It is extremely attractive and very early.
Price, pkt., 10c; oz., 25c; ¼ lb., 65c; lb., $1.50.

760 WHITE-TIPPED ROCKET
The color is deep rose, tipped white at the base. The flavor is deliciously mild.
Price, pkt., 10c; oz., 25c; ¼ lb., 70c; lb., $1.75.

EARLY LONG VARIETIES

734 ICICLE
The leading long white radish, and one of the earliest; tender, juicy and of agreeable snappy flavor. When fully matured it reaches a length of 6 inches. It is pure white, and has a translucent and appetizing appearance.
Price, pkt., 10c; oz., 25c; ¼ lb., 70c; lb., $1.75.

740 LONG WHITE VIENNA, or Lady Finger
Tapering, about 4 inches long and pure white, mild and tender; matures in about 25 days.
Price, pkt., 10c; oz., 25c; ¼ lb., 65c; lb., $1.50.
RHUBARB  CULTURE—Sow in April, in drills a foot apart, covering the seed three-quarters of an inch, thinning out to about ten to twelve inches apart in rows when a few inches high. The following Spring transplant into deep, rich soil, about three feet apart each way. One oz. to 500 feet.

770 ST. MARTIN'S. This variety is famous in many countries, being much esteemed wherever grown. The stalks are large and red, and exceedingly juicy, rich and spicy.
Price, pkt., 20c; oz., 60c; ½ lb., $1.75.

SORREL
795 Broad-Leafed French. Large, pale green leaves of mild, acid flavor, esteemed as salad, cooked as "greens," etc.
Price, pkt., 15c; oz., 60c.

SALSIFY or Oyster Plant
780 Mammoth Sandwich Island
Salsify is one of the best of our root vegetables, and is rapidly increasing in popularity. Cooked in any form, Salsify is wholesome, appetizing and nutritious. Its peculiar oyster-like flavor is most apparent when sliced and fried; it may also be served and eaten as Asparagus. It is one of the best remedies for various forms of indigestion. Most of its medicinal value is contained in the milk, which exudes from the skin.
Price, pkt., 10c; oz., 35c; ½ lb., $1.00; lb., $3.00

SPINACH

CULTURE—Sow thinly in rows 12 to 15 inches apart, covering the seed about one-half inch; thin the plants to four inches apart in the row. The main crop is sown in August and September. It is sometimes covered up in cold localities with straw or salt meadow hay during the winter, but in sheltered fields there is no necessity for covering. For summer use it may be sown at intervals of two or three weeks, from April to June. Spinach develops best and is most tender and succulent when grown in rich soil and in cool weather; during the summer it often bolts to seed. 1 oz. for 100 feet.

802 LONG SEASON (Henderson's)
The Best for Sowing in Spring and Summer for a Successional Supply
The development of a type showing a marked long-standing character has given us Henderson’s Long Season Spinach, removing the only obstacle to its general cultivation, so that there is now nothing to hinder the least experienced from enjoying this wholesome vegetable throughout the entire season. The plants are very hardy. Seed sown in September will produce small plants, which, with a slight covering of loose, dry material, will be available for use very early in the spring.
The plant is small, with rich, lustrous green leaves. These are short, broad, very thick, and of so great substance that it loses bulk in cooking less than any other sort. The flavor is unequalled.
Price, pkt., 10c; oz., 30c; ½ lb., 80c; lb., $2.00.

805 LONG-STANDING SAVOY
This variety stands heat much longer than most varieties before running to seed. This is a great advantage.
Price, pkt., 10c; oz., 30c; ½ lb., 80c; lb., $2.00.

806 NEW ZEALAND
The Cut and Come Again Spinach. Yields Continuously from Early Summer to Late Fall
Is a valuable addition to the summer supply of edible greens, the beneficial effects of which are so well known that it is needless to add further comment. During the hot summer months, when ordinary Spinach bolts and goes to seed, the New Zealand Spinach is at its best. It thrives on almost any soil and withstands drought wonderfully well.
The plant is bushy in form, and produces quantities of succulent, rich green leaves of a delightful flavor. As the tops are cut off, side shoots develop and in a few days another crop may be cut. For an early crop, start the seed indoors during March and transplant the seedlings to the open ground after danger from frost.
Price, pkt., 10c; oz., 35c; ½ lb., $1.00; lb., $3.00.

Fill Your Salad Bowl from the Home Garden
The recent popularity of the Salad Bowl is not entirely due to the fact that its vitamin-laden, blood purifying ingredients make it one of the most healthful of all foods, but also because it possesses a piquancy, a zest giving, teasing, tantalizing, appetizing, provoking stimulus, that merits for it a place of honor at every meal.
**SQUASH**

**SUMMER VARIETIES**

829 EARLY PROLIFIC STRAIGHTNECK. (See Color Plate Opposite)

Outstanding for earliness, heavy yield, and uniformity in size and shape of fruits. The plants and fruits are somewhat smaller than Giant Straightneck but a great many more fruits are produced per plant. The fruits are smoother and lighter yellow than the Giant type.

Price, pkt., 15c; oz., 30c; 1/4 lb., 90c; lb., $2.75.

846 BLACK ZUCCHINI. A very desirable bush type of Italian Vegetable Marrow. Fruits cylindrical in shape and of a dark green color, which turns darker as the fruits grow, until at maturity the color is so dark green that it gives the appearance of black. The mature fruits measure 12 to 15 inches long, 4 to 5 inches in diameter.

Price, pkt., 10c; oz., 30c; 1/4 lb., 90c; lb., $2.50.

821 COCOZELLE or Italian Vegetable Marrow. Smooth dark green fruits which when mature become marbled with yellow. Fruits are best when 6 to 8 inches long.

Price, pkt., 10c; oz., 30c; 1/4 lb., 90c; lb., $2.50.

834 LONG ISLAND WHITE BUSH (Henderson’s). This is an improved White Bush. It is just as early, more prolific and the Squashes are much larger, and have less prominent scallops. The plants are the true bush habit.

Price, pkt., 10c; oz., 25c; 1/4 lb., 75c; lb., $1.75.

839 STRAIGHT NECK is much easier to prepare for cooking than its parent variety, the old Mammoth Crookneck. It is similar in color and flavor.

Price, pkt., 10c; oz., 25c; 1/4 lb., 75c; lb., $1.75.

840 VEGETABLE MARROW BUSH. A favorite English variety, bearing freely oblong, dull yellow fruits 10 to 15 inches in length.

Price, pkt., 10c; oz., 35c; 1/4 lb., 90c; lb., $2.50.

842 WHITE BUSH SCALLOPED. The white “Patty Pan” or “Cymling” creamy-white skin, fine quality, free cropper.

Price, pkt., 10c; oz., 25c; 1/4 lb., 60c; lb., $1.75.

844 YELLOW BUSH Summer Crookneck. A bush variety, early and prolific.

Price, pkt., 10c; oz., 25c; 1/4 lb., 60c; lb., $1.75.

**AUTUMN AND WINTER VARIETIES**

818 ACORN or Table Queen. A very dark green squash about 6 or 7 inches long and 4 inches in diameter.

Price, pkt., 10c; oz., 30c; 1/4 lb., 90c; lb., $2.50.

819 BLUE HUBBARD. The squashes are light bluish gray in color, and the flesh is very fine-grained, dry and tasty.

Price, pkt., 10c; oz., 30c; 1/4 lb., 90c; lb., $2.50.

822 DELICATA (Henderson’s). This beautiful Squash is orange-yellow and striped with dark green on the outside. Delicata is the earliest of any Vine Squash and the most prolific (about 9 inches long).

Price, pkt., 15c; oz., 35c; 1/4 lb., $1.00; lb., $3.50.

824 BUTTERCUP. A recent introduction of outstanding quality. The fruits are medium small, averaging 3 to 5 pounds in weight, and are flattened in shape. The skin color is dark green with an occasional narrow stripe of silvery white. The blossom end is marked with a prominent “button.” The flesh is yellow, exceptionally thick, dry, sweet, and entirely free from stringiness.

Price, pkt., 15c; oz., 40c; 1/4 lb., $1.20; lb., $3.50.

826 GOLDEN HUBBARD. Similar to the old Hubbard, excepting the skin is of a rich orange red.

Price, pkt., 10c; oz., 30c; 1/4 lb., 90c; lb., $2.50.

830 HUBBARD. Very productive, yielding large, heavy Squashes of dark blush-green color. It is an excellent keeper.

Price, pkt., 10c; oz., 30c; 1/4 lb., 90c; lb., $2.50.

832 LARGE WARTED HUBBARD. It is named on account of its more roughened than usual “warty” surface of the fruits; heavy warts indicate a hard shell, and the harder the shell the better the Squash will keep.

Price, pkt., 10c; oz., 30c; 1/4 lb., 90c; lb., $2.50.

Henderson’s Guide and Record (sent on request with orders of $3.00 or over, or sold at 35c per copy) tells how to store Pumpkins and Squash for use during the winter months.

**SWISS CHARD**

The Cut and Come Again Vegetable

Let the plants suffer from lack of water. The leaves may be gathered during summer and fall. Do not to 75 feet of drill.

233 FORDHOO KE GIANT

The leaves are rich dark green, very large, curled or savoyed, of thick texture and quite tender, making excellent boiling greens. The white stems or midribs make a fine dish prepared like Asparagus.

Price, pkt., 15c; oz., 35c; 1/4 lb., $1.00; lb., $2.50.

235 GREEN PLUME (Henderson’s)

The Spinach-Leaved and Asparagus-Ribbed Variety

The leaf is almost identical with that of the Spinach plant, and is as dark a green in color. It is a much darker green than any other variety of Swiss Chard, and it is also much more tender. The midribs too are edible and tender, white and attractive.

Price, pkt., 15c; oz., 35c; 1/4 lb., $1.00; lb., $2.50.

234 LUCULLUS Crumpled-Leaved

This is quite distinct from the old and well-known variety. The leaf stems are rounder, very thick and fleshy. The whole plant is taller and the leaves, instead of being smooth, are deeply and closely crumpled, similar to a Savoy Cabbage. It is very tasty and palatable, and preferred by many in place of Spinach.

This variety is much sought after by those who prefer the rib of the leaf, as it is more strongly developed than in the old variety.

Price, pkt., 10c; oz., 35c; 1/4 lb., $1.00; lb., $2.50.

The National Bureau of Health and Welfare says, "America Needs Us Strong." You can dig health and strength from your Victory Garden. Make one this year.

Outstanding Vegetable Achievements

Introduced by Peter Henderson & Co. 903 RICHMEAT Almost Seedless Practically Coreless

Shown in Colors on Opposite Page

The Largest and Best Flavored Scarlet Tomato

Unparalleled in the history of tomato breeding—Richmeat now stands supreme as the World's Quality Tomato, as well as the largest and meatiest. Among the remarkable characteristics of this variety, are the vigorousness of its growth and its drought-resisting qualities, the latter fact having been fully proven by its behavior in drought stricken sections of the country during that unforgettable summer of 1934 when Richmeat continued producing luscious fruits after all other varieties had withered away.

The fruits are rich scarlet in color, very large and meaty; fruits weighing up to three pounds are not unusual. They are round-oval slightly flattened in shape, and it is a very shy seeder as no distinct seed cells are produced, but on the contrary it develops a solid mass of rich, firm pulp. Its flavor is deliciously sweet and free from acidity.

When setting out plants of Richmeat, it is recommended to space them farther apart than ordinary varieties, on account of its vigorous habit; also the yield and size of the fruits will be increased if some of the superfluous foliage is pruned away.

Richmeat is a main crop variety, and its bearing season covers a long period. We heartily recommend it to home gardeners and roadside stand producers, who cater to a quality trade.

Price, pkt., 25c; 5 pkts., $1.00.

Henderson's TOMATO 882 CRYSTAL WHITE A STARTLING Novelty

Shown in Colors on Back Cover

Pure Alabaster White as Tempting and as Delicious as it is Beautiful

With the development of this, the latest and most startling vegetable novelty that has been introduced in many years, we have completed the object of our aim and labors, which date back to the introduction of Henderson's Golden Ponderosa in 1914.

Crystal White possesses all of the merits and qualifications that have made Golden Ponderosa increasingly popular since its introduction. The character of its growth is quite similar in many respects to that variety. It is just as vigorous, and develops into a large sized plant with a plentiful supply of foliage, like a typical Ponderosa. The fruit is produced as freely and it is by far the most attractive that has ever been originated. The color is a lovely alabaster white that appeals to all who see it. There is no trace of red in this variety.

The firmness of Crystal White is due to its meatiness, which quality also characterizes its desirability for slicing. Its flavor is all that can be desired; a mild full richness which appeals to all. Furthermore, it is possible with this variety, for people who are allergic to tomato poisoning, to enjoy Tomatoes to their hearts desire, without any ill effects. This is due to the fact that it contains less acid than any other variety.

Crystal White possesses eye appeal to a degree that will insure its popularity wherever grown. When served sliced either alone or in combination with a red variety such as Richmeat, its tempting appearance will instantly arouse fagged or jaded appetites. The present vogue of white table arrangements finds a worthy and valuable ally in this new fruit. A salad composed of frosty white slices of Crystal White with a background of other white salads, will prove to be a masterpiece of culinary temptation.

Supply of seed limited.

Price, pkt., 25c; 5 packets, $1.00.

900 PONDEROSA Henderson's

For Years the Best and Most Popular in the American Garden—Produces Fruits Magnificent in Size—Delicious in Flavor

From its first appearance it gripped and held the admiration of all who grew it, and each recurring season sees thousands more added to the number of its appreciative admirers who have sent us testimonial in such numbers that if we printed them they would monopolize a quarter of the pages of the catalog.

There are two kinds of solid tomatoes. One derives its solidity from a thick-fleshed outer wall and a tough skin, and this is eagerly sought by the shipper. The solidity of Ponderosa is different. A serious defect in many sorts is the hard, core-like character of the cell walls, which frequently remain green and hard long after the other parts of the fruit are ripe.

We have succeeded so thoroughly in modifying, developing, and enlarging these cell walls in Henderson's Ponderosa that they have almost filled the seed cavities, which in less carefully bred strains contain only seed and watery pulp.

The original, highly bred and selected type of Ponderosa can only be secured direct from us, as we do not supply dealers. Spurious and uncared-for stocks will be disappointing.

Price, pkt., 15c; 2 pkts., 25c; oz., $1.25; ½ lb., $3.75.

Henderson's Famous Ponderosa is one of the most popular juice tomatoes grown. Be sure to can a generous supply for use this winter. Include a quantity of juice made from Golden Ponderosa and The Orange for variety.

876 BEEFHEART (Red)

A Home Garden Tomato of Superior Excellence

Shown in Colors on Opposite Page

Customers who grew it say that they have never grown a tomato that was more beautiful, more meaty, or better flavored. It is not uncommon to see the vines carrying fruits weighing two pounds each.

The color is brilliant scarlet and the skin is so smooth as to give the fruits a polished appearance. The solidity and weight of this variety are derived not from a thick-fleshed outer wall and tough skin, but, like our famous Ponderosa, the seed cavities have given way to a solid mass of meaty, succulent flesh, so that the fruit is practically seedless. The plant is vigorous and bears large crops of beautiful fruit.

Price, pkt., 25c; 5 pkts., $1.00; ½ oz., $2.00; oz., $3.50.

888 THE FRUIT TOMATO

Shown in Colors on Opposite Page

Solid, Meaty, Sweet, Delicious Flavor

Almost Seedless

At last we have developed a tomato that can be placed in the class of fruit, as its delicious, sweet flavor and solid meaty texture make it possible to eat it at any time as one would eat a peach.

Practically free from acidity and seeds, it makes a most delicious and appetizing morsel, whether eaten raw between meals, as a dessert, or prepared in any of the standard methods.

Vigorous in growth, disease-resistant, bearing great clusters of sweet, luscious, beautifully formed, deep pink tomatoes, this great addition to the list of table delicacies will soon be known and grown throughout the world.

Price, pkt., 25c; 5 pkts., $1.00; ½ oz., $2.00; oz., $3.50.
HENDRISON'S WORLD FAMOUS TOMATOES
Famous for Quality — Famous for the Home Garden
Famous as Prize Winners in Exhibition Halls Throughout the Country
(Shown in Colors on Page 3 of Cover)

915 WINSALL
HENDRISON'S PRIZE TOMATO
WINSALL WINS EVERYWHERE

The outstanding merits of HENDRISON'S WINSALL Tomato are its remarkably vigorous and disease-resistant growth, its uniformly round form, its large size, and the delicious flavor of its firm flesh. HENDRISON'S WINSALL is about five days later than Ponderosa in maturing its first fruits, but its second fruits seem to ripen more rapidly than do the fruits of Ponderosa. The coloring is indeed perfection, the bright pinkish red extending close up to the stem ends. HENDRISON'S WINSALL is very meaty, the entire fruit being edible, tender and delicious, and remarkable for an almost entire absence of seeds. It is far more uniform in both size and conformation than the popular Ponderosa, and eclipses it in productivity.

Picked just before the stem-end is entirely red, and spread on a low table, stem-end down, in a cool basement, it ripens in a day or two to as near perfection as could possibly be. WINSALL Tomato is very vigorous in growth. Therefore it is unnecessary to prune away some of the superfluous foliage to admit light and air to the flowers and assist pollination. A dense mass of leaves and vines overshadowing the blossoms will cause them to fail, and fail to produce fruit.

Price, pkt., 25c; 5 pkts., $1.00; ½ oz., $2.00; oz., $3.50.

889 GOLDEN PONDEROSA (Special Strain)
A yellow Tomato that has color alone to distinguish it is not entirely novel. Many such varieties have been introduced, but, having failed to gain popularity owing either to lack of flavor or some other essential, have disappeared from cultivation. GOLDEN PONDEROSA is equal in every respect to its parent the red Ponderosa, possessing all the qualities that have made our Ponderosa a household word throughout the land, and, in addition, has the striking color which compels instant attention. It originated as a "Sport" from red Ponderosa and comes remarkably true; but some parti-colored fruits may be expected.

For salad purposes it presents an attractive and inviting appearance.

Price, pkt., 25c; 5 pkts., $1.00; ½ oz., $1.50; oz., $2.50.

896 THE ORANGE
A Real Deep-Orange Colored Tomato of Appetizing Appearance
- The vines are vigorous and free from disease; and the fruits are very large, almost equaling in size our famous Ponderosa. The outside color is a beautiful orange blush, and the inside color, a deep golden orange. There are very few seeds. The flavor is very good, mild and delicious; quite different from the yellow varieties which usually contain considerable acid.

It makes a most attractive dish when sliced and served with the red varieties. All our customers should try the Orange Tomato this year.

Price, pkt., 25c; 5 pkts., $1.00; ½ oz., $2.00; oz., $3.50.

901 RUTGERS
Produces an Abundance of Beautiful Uniform Fruit Ideal for the Home Garden, Market and Canning

This new variety developed by the New Jersey Agricultural Experiment Station produces a sturdy plant with thick stem and an abundance of foliage to protect the fruits from sun-scutch. The fruits are large and similar in shape to Marglobe but ripen earlier and are of a bright scarlet color. The flesh is firm and red throughout which makes it an ideal canning and juice tomato.

Price, pkt., 15c; oz., 90c; ¼ lb., $2.50.

912 YELLOW BEEFHEART
Beautiful in Form and Color. Excellent for Salads

This new yellow variety of our Beefheart type, will appeal to Tomato growers desiring a yellow colored variety. The plant is very vigorous and produces an enormous crop. The fruits are the same shape as Beefheart, but the skin and flesh are a rich deep yellow. The solidity of the flesh is caused by the lack of distinct seed cells, and in this respect is identical to the Red Beefheart. The quality and flavor are exceptionally fine, and due to the low acidity, it is very sweet.

Pkt., 25c; 5 pkts., $1.00.

RUTGERS TOMATO. Note the Perfect Uniformity of the Fruit
CULTURE.—The seed should be sown about \( \frac{1}{2} \) inch deep during March or early April in a hobed, greenhouse, or window of a room, where a night temperature of not less than 60 degrees is kept. When the plants are about two inches high, they should be set out three inches apart in boxes three inches deep, or potted into three-inch pots, allowing a single plant to a pot. They are sometimes shifted a second time into larger pots, by which process the plants are rendered more sturdy and branching. About the middle of May in this latitude, the plants may be set in the open ground.

885 EARLIANA

This is still the best extra early Tomato for the family garden, as it bears a very heavy crop quite early in the season. It has excellent flavor and is remarkably solid.
Price, pkt., 10c; oz., 90c; \( \frac{1}{4} \) lb., $2.50.

877 Bonny Best

Large Size Tomatoes Bright Scarlet in Color

Bonny Best is decidedly the "best" in its class. It is almost as early as Earliana; and is a larger tomato, and a heavier cropper. The fruits are deep scarlet in color, very smooth, perfectly round, solid and meaty. Bonny Best is also an excellent variety for the canner, as it yields from 12 to 15 tons to the acre.
Price, pkt., 10c; oz., 90c; \( \frac{1}{4} \) lb., $2.50.

878 Break O' Day

A Solid Extra Early Variety—Disease Resistant

It is a cross between Marglobe and another variety, not as yet introduced to commerce. It is greatly disease-resistant and is the same shape, color and size as Marglobe but much more solid; and to crown all is 10 to 12 days earlier in ripening. This means that Break O’ Day will ripen along with Bonny Best and the other extra early tomatoes, but excels them in size, solidity and seedlessness.
Price, pkt., 10c; oz., 90c; \( \frac{1}{4} \) lb., $2.50.

894 Marglobe

Resists Rust and Wilt

Almost round; of large size, and bright red color. It is one of the most productive tomatoes in cultivation. Marglobe is early and continues bearing over a long period of time. It possesses a delicious flavor, it is attractive and it is immune to wilt.
Price, pkt., 15c; oz., 90c; \( \frac{1}{4} \) lb., $2.50.

899 Large Red Pear (New)

Plants vigorous, exceptionally productive producing ripe fruits fairly early in the season, and continuing until frost. Fruits resemble a Bartlett pear in shape, measuring 3 to 3\( \frac{1}{2} \) inches long, and average 2 inches in diameter at the base. Solid bright scarlet in color. The flesh is very firm, meaty, with few seeds and free from well defined seed cavities. The quality and flavor are excellent, with a minimum of acidity.
Price, pkt., 25c; 5 pkt., $1.00.

905 The Pritchard or Scarlet Topper

For its disease resistant qualities, it supersedes all others. The vines are very sturdy in growth—shorter than the Marglobe—and they produce the heaviest crops of any of its class.
Unlike other early varieties, Scarlet Topper continues to bear long after the other sorts have ceased. The fruits are large, from 3 to 3\( \frac{1}{2} \) inches in diameter, and perfectly globe shaped.
Price, pkt., 10c; oz., 75c; \( \frac{1}{4} \) lb., $2.00.

906 Stone

One of the popular main crop varieties. The plant is a strong grower, is very prolific and produces a crop of large, smooth fruits almost round in shape, very deep and slightly flattened at base and top.
Price, pkt., 10c; oz., 75c; \( \frac{1}{4} \) lb., $2.00.

Henderson’s Leaflet, "Tomatoes, How to Grow Them" gives the latest and most advanced methods for the production of fancy fruit in your own garden. Sent gratis on request with orders.
SMALL FRUITING TOMATOES

892 POMODORO, ITALIAN LARGE RED PLUM
A beautiful bright red plum-shaped tomato. It is the most delicious and attractive salad tomato ever introduced. It contains practically no acid and possesses a delicate flavor so much desired in salads. Large Red Plum is one of the best varieties in cultivation for making the delicious tomato preserve, and it is also ideal for dehydrating. It is one of the most prolific tomatoes we have ever grown, beginning early in the season and continuing uninterruptedly up to frost. The fruits are the size of a good-sized plum and are borne in clusters of six or more.

Price, pkt. 15c; 5 pkts., $1.00.

902 RED CHERRY. Bears clusters of bright red fruits the size of a Cherry.
Price, pkt., 15c; oz., 90c.

904 RED, PEAR-SHAPED. Produces bright red, pear-shaped fruits.
Price, pkt., 15c; oz., 90c.

908 STRAWBERRY, Winter Cherry or “Husk” Tomato. Low spreading plants, yellow fruits half an inch in diameter surrounded by a husk. Used for preserving.
Price, pkt., 15c; oz., 90c.

914 YELLOW PLUM. Oval-shaped yellow fruits 2 inches in diameter.
Price, pkt., 15c; oz., $1.25.

Forcing Tomato

886 COMET. This variety is used almost entirely for greenhouse and trellis growing. The plants make a vigorous growth and produce an enormous crop. The fruits are medium to small in size, very smooth, almost round and bright scarlet in color.
Price, pkt. 25c; 5 pkts., $1.00.

TURNIP

CULTURE—Sow the early varieties in April or May in drills from fifteen to eighteen inches apart, and thin out from four to six inches in the rows. For a succession sow at two-week intervals until the last week in May for early crop, and in July or August for fall crop, at which season they grow best. One oz. to 150 feet of drill.

WHITE FLESHED VARIETIES

921 EARLY WHITE GLOBE
This is a white globe shaped turnip. The flesh is white, fine grained, and of excellent quality. The foliage or tops are erect and vigorous, which makes this variety one of the best for “turnip greens.”
Price, pkt., 10c; oz., 25c; ¼ lb., 80c; lb., $2.25.

922 EARLY WHITE MILAN
An extra early variety of rapid growth with entirely white roots and very small leaves.
Price, pkt., 10c; oz., 25c; ¼ lb., 60c; lb., $1.75.

930 PURPLE TOP WHITE GLOBE
A large, globe-shaped variety. The upper surface of the bulb is reddish purple, the lower part is white. It has a small, smooth root and medium-sized tops. The flesh is pure white, crisp, very fine and is one of the best sorts to store for winter. Recommended for fall crop.
Price, pkt., 10c; oz., 20c; ¼ lb., 45c; lb., $1.25.

Yellow-Fleshed Varieties

926 GOLDEN BALL or “Orange Jelly”
A very distinct variety, and the finest yellow-fleshed sort for family use. It grows a very shapely bulb, medium in size, almost round, very smooth, and quite free from side roots. The skin is pale yellow, the flesh deep yellow throughout, and so fine in texture as to earn the name “Orange Jelly.” Sown in July it gives a very satisfactory crop in early fall, and can be stored and used during the winter.
Price, pkt., 10c; oz., 25c; ¼ lb., 60c; lb., $1.75.

940 YELLOW GLOBE
A yellow-fleshed, globe-shaped variety, of large size; a splendid winter-keeper; excellent for both table and stock.
Price, pkt., 10c; oz., 25c; ¼ lb., 60c; lb., $1.75.

The Garden Culture of Root Crops tells how to grow Turnips, etc., to perfection. Sent free on request with orders.
950 IMPROVED LONG ISLAND RUTA BAGA (Henderson’s)

Long Island Improved has been bred from the American Purple Top, over which it is a great improvement. It is much larger, has no neck, and is a remarkably good keeper; the flesh is rich yellow, and of fine quality. Price, pkt., 10c; oz., 30c; $3 lb., 80c; lb., $2.50.

945 EARLY CORTLANDT (Henderson’s)

The Earliest Ruta Baga

A very fine early Ruta Baga. The roots are almost round, smooth; with small tops and practically no neck. The flesh is of a beautiful creamy yellow color, of fine texture and mild flavor. Besides being early, it has good keeping qualities.

Price, pkt., 10c; oz., 30c; $3 lb., 80c; lb., $2.50.

949 RIVERHEAD, L. I., Strain

The Long Island Ruta Bagas have established a nation-wide reputation for their high quality; so, when an improvement appears in this type, it can be accepted at once as an outstanding and extraordinary sort. For many years, it has been the object of growers of this valuable vegetable to obtain a type that would be finer in texture and flavor. In other words, to grow a Ruta Baga, that would create a greater appeal for table use. We believe that the Riverhead strain will supply that appeal. It is very refined in appearance, smooth and clean, medium in size, globular in shape with small top growth and no indication of a neck. Its flavor is sweet and delicious; as desirable for the home garden as it will be for the market grower.

Price, pkt., 10c; oz., 30c; $3 lb., 80c; lb., $2.50.

947 SLITTER’S PERFECTION

White Flesh—Finest Quality and Sweetest Ruta Baga.

A white fleshed variety of the Macomber type. The flavor and sweetness so far surpass other varieties, that we consider this new strain an outstanding vegetable for fall and winter use. The roots will remain in fine condition all winter when properly stored. The roots are large, smooth, nearly round, neckless, white with a greenish tinge at the crown. The flesh is white, firm, fine grained and very sweet.

Price, pkt., 10c; oz., 35c; $5 lb., $1.00; lb., $3.00.

Our Pamphlet, “Garden Culture of Root Crops,” tells how to grow Turnip and Ruta Baga. Sent free on request when ordering.
HENDERSON’S AGRICULTURAL SEEDS

High Quality Strains for Better Crops

HAY AND PERMANENT PASTURE

Special Grass Seed Mixture

Produces Wonderful Hay Crops and Pasture, Maintaining Its Cropping Qualities Twenty Years or More

It has been fully demonstrated by the careful trials conducted by the Agricultural Experiment Stations in various parts of the country that good pasturage, and good hay crops can be best secured by sowing Grass seeds in mixtures. Pastures seeded naturally are always found to contain many varieties of Grasses growing and flourishing side by side without detriment to each other, and attaining their maximum of growth at different periods of the year. It is to this notable characteristic that such pastures furnish continually an abundant bite, when meadows and pastures composed of but a few varieties are brown and bare.

This mixture is made up of native and acclimated foreign Grasses thoroughly blended, and improved upon during trials under widely varied conditions, soils and localities for several years until practically perfect, our aim being to produce, under the extremes of the American climate, a permanent, dense and deep-rooting turf that would yield year after year the maximum quantity of foliage. These Grasses are of superior quality, inviting, sweet and nourishing.

In preparing these Mixtures, the greatest care is exercised in selecting such varieties as are suited to the soil to be sown and are likely to realize the object in view. Therefore, a description of the soil, whether Light, Medium or Heavy, and climate, and if with or without a grain crop, should accompany each order. Sow 40 lbs. per acre.

Price, lb., 50c; 10 lbs., $4.00; 25 lbs., $9.00; 100 lbs., $32.50; transportation paid.

PERMANENT PASTURE Special Grass Seed Mixture

There is no more important part of a farm than a good pasture, and that can be obtained only by the use of the proper Grasses, varieties that have different root formations and different habits and season of growth, in order to maintain a rich, close turf throughout the entire season. Timothy alone should never be used for pasture because it will not stand tramping, and soon runs out when heavily pastured and at best is short-lived, as compared with the permanent Grasses used in our Special Mixtures. These Mixtures contain over a dozen of the best permanent Grasses, both American-grown and imported. All are permanent, and when once established will last indefinitely, if the fertility of the soil is kept up by occasional top-dressing. Sow 40 lbs. per acre.

Price, lb., 50c; 10 lbs., $4.00; 25 lbs., $9.00; 100 lbs., $32.50; transportation paid.

CORNELL FORMULAS

For HAY and PASTURE or PASTURE ONLY

Formulas are according to specifications. Write for prices.

PERMANENT HAY Special Grass Seed Mixture

Although the most widely cultivated Hay Grass in the United States is Timothy, or a mixture of Timothy and Clover, and while they answer the purposes admirably on farms where the soil is suitable and where the usual three and four years’ rotation is carried on, yet there are many Grasses which will yield more profitable returns.

An acre of Henderson’s Special Grass Mixture for Permanent Hay will yield double the quantity of an acre of Timothy and Clover, and the farmer whose land is sown with a proper mixture of Permanent Grasses, requiring only an occasional top-dressing of manure or fertilizer to maintain heavy cropping qualities for twenty years or more, avoids the expense of the yearly plowing, and cultivating necessary in rotation cropping. Sow 40 lbs. per acre.

Price, lb., 50c; 10 lbs., $4.00; 25 lbs., $9.00; 100 lbs., $32.50; transportation paid.

WOODLAND PASTURES Special Grass Seed Mixture

It will make a closer and more even pasture than Orchard Grass alone. An excellent ground cover for orchards. Sow 40 lbs. per acre.

Price, lb., 60c; 10 lbs., $5.00; 25 lbs., $11.25; 100 lbs., $40.00; transportation paid.

MIXED PERMANENT CLOVERS

Do not omit to sow Clovers with the Grasses, as they add to the yield of hay and pasture, collect atmospheric nitrogen and store it in the root nodules, assist the growth of the Grasses and are of benefit to subsequent crops. Permanent Clovers, on account of their greater weight, should be sown separately but at the same time as the Grasses. This Mixed Clover comprises White, Mammoth Perennial or Cow Grass, Alsike, etc. Sow 10 lbs. per acre.

Price, lb., 65c; 10 lbs., $6.00; 25 lbs., $13.75; 100 lbs., $50.00. (Purchaser pays transportation charges on clovers)

Full directions for sowing enclosed in every bag. In ordering, state whether for Light Soils, Heavy Soils or Medium.

46
Henderson's Superior Recleaned Grasses

For Pasture, Hay, Turf on Golf Courses, Athletic Fields, etc.

Cleared at the source of production, and recleaned in our own warehouses with the most modern seed-cleaning machinery in America. They are then analyzed and tested by us, and verified by check tests at State and Government Stations.

Henderson's Individual Recleaned Grasses are therefore Unequaled for Purity and Germination.

Better turf is obtained in most cases if a mixture of grass seed is sown. We will be glad to make special mixtures when desired, in accordance with the purchaser's requirements or after his own formulas.

AWNLESS BROME GRASS (Bromus Inermis). Will produce heavy crops in dry sections and on poor soils when other grasses perish. It is one of the hardest grasses and succeeds in a wide range of temperature. Price, lb., 65c; 10 lbs., $6.00; 25 lbs., $13.75; 100 lbs., $50.00.

BENT, ASTORIA (Agrostis Capillaris). This variety differs from Rhode Island Bent in that it is an underground creeper, usually by rhizomes. It gives a dense, reinforced sod of a pleasing green color. Price, lb., $1.50; 10 lbs., $13.50; 25 lbs., $32.50; 100 lbs., $125.00.

BENT, COLONIAL (Agrostis Tenua). Leaf-blades very narrow and flat; dark green; slightly creeping habit and makes a fine turf for putting greens. It succeeds on all well drained soils. Price, lb., $1.75; 10 lbs., $16.00; 25 lbs., $37.50; 100 lbs., $150.00.

BENT, RHODE ISLAND (Agrostis Tenua). Distinguished by its dwarf habit, shorter and narrow leaves and its peculiar open panicle, which do not become closed when mature. Thrives well on acid soils. Produces only short stolons or runners; makes a very fine dark green turf. Price, lb., $1.50; 10 lbs., $13.50; 25 lbs., $32.50; 100 lbs., $125.00.

BENT, SEASIDE (Agrostis Maritima). This was first identified in Oregon, and has been offered by others under a special trade name. It is a hardy creeping variety, forming a close mat-like sward and is very desirable for putting greens. Does well in moist situations, making a rapid growth; blades are almost as narrow as true creeping bent. Price, lb., $1.50; 10 lbs., $13.50; 25 lbs., $32.50; 100 lbs., $125.00.

BENT, VELVET (Agrostis Canina). This is one of the finest types of Dwarf Grasses used for Putting Greens and Lawns. It is of light green color and does well on acid soils and in the shade. Price—on application.

BERMUDA GRASS (Cynodon Dactylon). Most valuable grass for the southern coast. It is of dwarf habit with long creeping stems, rooting at the joint and covering the ground with a matting of fine turf. Price, lb., 90c; 10 lbs., $8.50; 25 lbs., $20.00; 100 lbs., $75.00.

BLUE GRASS, ANNUAL (Poa Annua). Dwarf-growing type of grass that appears in lawns early in spring. Reseeds itself close to ground. Price, lb., $1.25; 10 lbs., $10.00.

BLUE GRASS, CANADA (Poa Compressa). A very hardy perennial grass with creeping root-stocks. It grows on the poorest and driest soils—sandy, gravelly, or clayey, standing severe wetness or drought. Price, lb., 65c; 10 lbs., $6.00; 25 lbs., $13.75; 100 lbs., $50.00.

BLUE GRASS, KENTUCKY (Poa Pratensis). It is a true perennial, lasting indefinitely and improving every year. Kentucky Blue Grass has creeping underground stems; leaf blades very narrow; color a deep, vivid green. It is one of the very best grasses for Fairways in the North and succeeds well on all good soils, especially where lime is used. Price, lb., 60c; 10 lbs., $5.50; 25 lbs., $12.50; 100 lbs., $48.00.

CARPET GRASS. This type of grass is used only in the South as it will not thrive where the temperature goes lower than 15 degrees. Very valuable for pasture and does well on poor, sandy soil. It spreads rapidly and will make favorable hay and has high feeding quality. Sow 15 lbs. per acre, broadcast. Price, lb., 65c; 10 lbs., $6.00; 25 lbs., $13.75; 100 lbs., $50.00.

CRESTED DOG'S TAIL (Cynoglossum Crinitum). Should enter in moderate quantity in pasture and lawn mixtures. Price, lb., 75c; 10 lbs., $7.00; 25 lbs., $16.25; 100 lbs., $60.00.

FESCUE, CHEWING'S NEW ZEALAND (Festuca Cheyngii). Imported from New Zealand is now recognized as one of the leading grasses for Putting Greens and Fairways. Makes a fine, compact turf of a dark green color. Price, lb., 90c; 10 lbs., $8.50; 25 lbs., $22.00; 100 lbs., $80.00.

FESCUE, CREEPING RED (Festuca Rubra). This is the true creeping variety thriving well on poor soils and especially adapted for shaded locations. Price, lb., $1.25; 10 lbs., $11.50; 25 lbs., $25.00.

FESCUE, MEADOW (Festuca Pratensis). This grass is also called English Blue Grass, and in the South, Randall's Grass; flat and bright green. Grows to a height of 30 inches when left uncut. For wet soils few grasses are equal to Meadow Fescue. Price, lb., 65c; 10 lbs., $6.00; 25 lbs., $14.00; 100 lbs., $55.00.

FESCUE, TALL MEADOW (Festuca Elytrigia). Early, nutritive and productive in pastures on wet or clay soils. Price, lb., 75c; 10 lbs., $7.00; 25 lbs., $16.25.

ORCHARD GRASS (Dactylis Glomerata). A valuable grass in mixtures either for pasture or hay. Price, lb., 70c; 10 lbs., $6.50; 25 lbs., $16.00; 100 lbs., $60.00.

RED TOP FANCY (Agrostis Palustris). Superfine. It is a perennial grass with a creeping habit of growth; leaf blades narrow. Red Top is a remarkable grass, accommodating itself to a variety of soils and conditions. It grows well on wet land. It is strongly drought-resistant and flourishes on soils so very poor in lime that most other grasses fail. Price, lb., 45c; 10 lbs., $4.25; 25 lbs., $10.00; 100 lbs., $35.00.

REED CANARY GRASS. (Phalaris Arundinacea). This grass does well on soil that is poor and wet. It possesses good feeding value. Price, lb., $1.60; 10 lbs., $9.00; 25 lbs., $20.00; 100 lbs., $75.00.

RYE, DOMESTIC. A mixture of Italian and English grown in the United States. It produces an abundance of remarkably fine foliage, tillers out close to the ground and soon forms a compact sward. After being cut it grows up in a very short time and remains bright and green throughout the season. It is also a good variety for hay if cut when in blossom, as it is then most nutritious; if cut much later it becomes woody. Sow (if alone) 7.5 lbs. per acre. Price, lb., 30c; 10 lbs., $2.50; 25 lbs., $5.50; 100 lbs., $20.00.

RYE, ITALIAN (Lolium Italica). Like Perennial Rye Grass, it is a rapid grower and is treated as an annual. It is used largely in the South to sow over the Bermuda sod as soon as it turns brown. Price, lb., 45c; 10 lbs., $4.00; 25 lbs., $9.00; 100 lbs., $30.00.

RYE GRASS, PERENNIAL (Lolium Perenne). This variety used in a mixture is an excellent "nurse" grass where a quick turf is desired. It produces a verdant growth four or five weeks after sowing. Price, lb., 45c; 10 lbs., $4.00; 25 lbs., $9.00; 100 lbs., $30.00.

SUDAN GRASS (Sorghum). A valuable forage plant introduced from Egypt, similar in appearance to Johnson Grass but makes a finer hay. Sow 20 lbs. per acre. Price, lb., 30c; 10 lbs., $2.50; 25 lbs., $4.50; 100 lbs., $15.00.

SWEET VERNAL, TRUE PERENNIAL (Anthoxanthum Odoratum). Emits an agreeable odor. which it imparts to the hay. Price, lb., $2.00.

TALL MEADOW OAT (Avena Elytrigia). Of rapid growth, recommended for sowing and hay mixtures. Price, lb., 65c; 10 lbs., $6.00; 25 lbs., $12.75; 100 lbs., $50.00.

TIMOTHY (Phleum Pratense). This luxuriant in moist, loamy soils, and sometimes, in favorable situations, attains a height of 4 feet; even on light soils it yields fair crops. It is exceedingly nutritious, particularly when ripe, but as it is then very hard and pithy, it is better to cut it soon after flowering. It then makes magnificent hay. Sow (if alone) 25 lbs. per acre. Price, lb., 30c; 10 lbs., $2.50; 25 lbs., $4.50; 100 lbs., $15.00.

YARROW (Achillea Millefolium). Used to a great extent on Tees. It is a deep-rooting perennial and withstands drought. Sow alone, or with grass mixtures. Price, lb., $2.50.

Write for prices on larger quantities.

Henderson's Grass Seeds are Delivered Transportation Paid in the U. S. A.

47
CLOVER—HENDERSON'S SUPERIOR

Natural Soil Improvers—Unexcelled for Stock Feeding

All Clovers have the power to gather Nitrogen from the air, and store it in the form of nodules on the roots; thereby providing rich food for crops of cereals, etc., which follow. Thus they save the cost of expensive commercial fertilizers, and the labor of loading and spreading farm yard manure. The long roots of Clover penetrate deeply into the soil, improve its drainage, and increase the capacity for holding moisture. When sown under, Clover crops add humus to the soil, and further improve its mechanical condition. Purchaser Pays Transportation Charges on Clovers.

MEDIUM RED (Trifolium pratense)

Common or Medium Clover, June Clover

Red Clover according to locality is a biennial or short-lived perennial. It grows one to two feet in height making two or three tons of cured hay per acre. Clover hay is very nutritious; all stock fed on it require less grain; chopped and steamed it is a good substitute for green food for all classes of stock. As pasture all animals thrive on it, particularly cattle, sheep and pigs. In Northern States Red Clover is usually sown in the spring, the earlier the better. If grown alone, use 12 to 14 pounds per acre if broadcasted and cover not over half an inch deep. Red Clover may be seeded with a number of different grasses as Timothy, Orchard Grass or Tall Out Grass, but usually it is grown with Timothy, 8 to 10 pounds of Clover and 20 pounds of Timothy seed being sown per acre. A very satisfactory combination is 5 pounds of Red Clover, 3 pounds of Alkali Clover, 20 pounds of Timothy and 5 pounds of Fancy Red Top per acre. This makes a fine quality of merchantable hay and the field does not run out so soon as Clover and Timothy alone.

Price, lbs., 70c; 10 lbs., $6.50; 25 lbs., $15.00; 100 lbs., $55.00.

MAMMOTH or PEA VINE RED (Trifolium pratense)

DOMESTIC GROWN

Quite distinct from the common Red Clover, being of larger and coarser growth and not so trenchant. Wherever for which the latter is entirely unsuited. It lasts longer and is two to three weeks later than common Red Clover. Of very robust growth, yields a hay stalk strong and solid; valuable for reclaiming exhausted lands. Sow (if alone) about 12 lbs. per acre.

Price, lbs., 70c; 10 lbs., $6.50; 25 lbs., $15.00; 100 lbs., $55.00.

ALSIKE OR HYBRID SWEDISH CLOVER (Trifolium hybridum)

The blossoms are pinkish white. It is a perennial and one of the hardiest of all Clovers, thriving particularly well in cool and cold climates and stands freezing well, but also adapts itself to most climates where Clovers grow, and will grow in moister soil than Red Clover; in fact, has produced splendid crops under irrigation. The plants attain a height of two to three feet; stems and leaves, though smaller than those of Red Clover, are much more numerous, making a hay of fine texture. Alkali frequently produces good crops on soils on which Red Clover will not grow. We strongly advise those who have not tried it to sow Alkali 2 to 3 lbs. per acre to improve its soils, or to prepare poor soils where it is difficult to get other crops to grow. Sow 10 lbs. to acre.

Price, lbs., 35c; 10 lbs., $3.25; 25 lbs., $7.00; 100 lbs., $25.00.

RED ORANGE (Lespedeza)

This strain is an improvement on the ordinary Japanese, ripens earlier, makes a larger growth and a heavy crop. Sow 15 lbs. per acre.

Price, lbs., 35c; 10 lbs., $3.00; 25 lbs., $6.00; 100 lbs., $20.00.

LADINO

This type of Clover is used in pasture mixtures with success and is hardier than Alfalfa. Can be used for cattle and for poultry.

Sow 8 lbs. per acre.

Price, lbs., $1.75; 10 lbs., $15.00.

ALFALFA or LUCERNE (Medicago sativa)

YIELDS GOOD CROPS IN ALL SECTIONS OF THE UNITED STATES. EFFICIENT SOIL-ENRICHER AND HAY-PRODUCER.

NORTHERN GROWN DOMESTIC

It needs one season to become established, after which it yields enormous crops annually for many years. 3 or 4 cuttings per season, aggregating 4 to 6 tons cured hay per acre, are harvested, according to conditions and locality. It does well on all good, rich soils (except heavy clay), if well drained, or overlying a pervious subsoil or a subsoil of gravelly composition. Alfalfa is one of the best cover crops for orchards. Our strain of seed is grown in far Northern regions, where plants have to endure extreme cold and still thrive in those high altitudes. Our experience—and that of our customers—has shown that such seed is undoubtedly the best for the North and Eastern States. Before offering this seed to our customers for sale, it is thoroughly reselected by the most modern seed cleaning machinery. By this process we separate the sound, perfect seeds from all rubbish and light, imperfect seeds. Sow in the Northern States during June, July or August, and in the Southern States from 70 to 100 lbs. of seed per acre, if broadcasted, 25 to 30 lbs. if drilled. In the South sow in February or September.

Price, lbs., 75c; 10 lbs., $7.25; 25 lbs., $17.50; 100 lbs., $65.00.

GRIMM—THE HARDESTY ALFALFA KNOWN

DOMESTIC

By careful experimentation Grimm Alalfa was found to be far superior to common kinds in withstanding unfavorable winters. The Grimm Alalfa seed not only endures extremely low temperatures, but it can be cut with greater safety in the fall, and will bear more abuse when growing on sandy, or any other, than any other forage plant. Grimm Alalfa has larger crows, and a more spreading root system than the ordinary Alalfa. It is also claimed that it will yield from ten to fifteen per cent more than any other variety, and will start and remain green in unusual cold weather, where the ordinary sort was tried unsuccessfully. One of the characteristics of the Grimm Alalfa is that см, it is that some of the plants produce peculiar greenish-yellow flowers. The seed is high priced and it is rather hard to get the genuine article. Sow 30 lbs. per acre.

Price, lbs., 90c; 10 lbs., $8.50; 25 lbs., $20.00; 100 lbs., $75.00.

“Legume Aid” Pays Big Dividends

Inoculation or nitrogen fixation is crop insurance for larger yields of Alfalfa and Clover. Legume Aid contains billions of bacteria living in a base which has sufficient moisture and charge of suitable soil environment for the preservation of the organisms. Offered in dated containers, insuring fresh seed.

Price 1/4 bushel size, 30c; 1 bushel size, 80c; 2 1/4 bushel size, $1.00, postpaid. State when ordering if wanted for Alfalfa or Clover.

We are always glad to advise with our Farmer Friends—There are 96 Years of Accumulated Experience back of our advice.
OATS, HENDERSON’S

SELECTED VARIETIES
OF SUPREME QUALITY

IMPORTANT. A change of Seed Oats is necessary and the seed should be renewed at least every second or third year.
Oats grown on the same soil year after year deteriorate rapidly and soon become light, chaffy and unprofitable.

CLYDESDALE

The Most Popular High-Grade White Oat

Since we introduced this Grand Oat it has steadily and deservedly gained in popularity, and today it is the most popular High Grade White Oat in the United States. The ultimate financial benefit accruing to the American farmers by the annual distribution of several thousand bushels of Clydesdale Oat cannot be overestimated. These Oats weigh considerably more per measure bushel than any other variety, so that the produce is worth for seed purposes at least double the market value of ordinary Oats. No other Oat can show such a record—75 to 100 bushels per acre, and double the usual quantity of straw. Another most important advantage of Clydesdale Oat to the farmer is the fact that they have been thoroughly cleaned by the latest and most improved machinery, and are absolutely free from weed seeds. Sow 3 bushels per acre.

Price, peck, 90c; Standard bushel of 32 lbs., $2.25; 10-bushel lots, per bushel, $2.15; 100-bushel lots, per bushel, $2.10.

LONG’S WHITE TARTAR

Vigorous Constitution Immense Yilder Very Early

The earliest, heaviest and most prolific domestic-grown Side Oat in cultivation. It is suitable for all soils; of robust and vigorous constitution, is remarkably early and an immense cropper; the straw is long and stout, stands up well and does not readily lodge or twist. The heads measure from 8 to 10 1/2 inches, and the kernels, are of immense size, thick, plump and heavy; it is undoubtedly the heaviest cropping domestic white Oat ever offered.

Planted alongside some of the older varieties, it usually yields more than double the number of bushels per acre of any of the other sorts; 100 bushels per acre may be expected of it under good conditions.

Its extreme earliness, great length and strength of straw, thick, plump grains and the heavy yields it is capable of producing give Long’s White Tartar all the necessary qualifications which go to make an ideal Oat. Sow 3 bushels per acre.

Price, peck, 90c; bushels of 32 lbs., $2.75; 10-bushel lots, per bushel, $2.65; 100-bushel lots, per bushel, $2.55.

STORM KING

This is a side oat. The true white tartarian. The average weight of the grain is 40 lbs. Sow 3 bushels per acre.

Price, peck, 90c; bushel of 32 lbs., $2.75; 10-bushel lots, per bushel, $2.65; 100 bushel lots, per bushel, $2.55.

CORNELLIAN

Small Gray Oat with a very thin hull which gives a high feeding value. A heavy yielder, especially in New York State. We have a true stock free from impurities. Sow 3 bushels per acre.

Price, peck, 90c; bushel of 32 lbs., $2.50; 10-bushel lots, per bushel, $2.40; 100 bushel lots, per bushel, $2.30.

For Greater Yields Treat All Cereal
Seed With New Improved “Ceresan”

To control destructive smuts; improve your yield of OATS, WHEAT and BARLEY. Recommended by N. Y. STATE Colleges.

1 pound treats 32 Bushels. Price, 1 lb., 80c; 5 lbs., $3.40.

The Purchaser Pays Transportation Charges on Farm Seeds, Except Where Noted.
FIELD CORN, NEW AND STANDARD VARIETIES OF HIGH YIELD

Hybrid Varieties

With the introduction of the Hybrid Strains of Field Corn, there has come a distinct advance in agricultural efficiency. Besides possessing distinct disease resistant qualities, they have proven their superiority in out-yielding other standard sorts by as much as from 15 to 30%. Our tests of the varieties which we are offering here, have proven them to be outstanding.

U. S. No. 13 HYBRID DENT
Matures in 115 Days

At our Trial Grounds at Red Bank, N. J., this new hybrid has proven itself to be an outstanding variety. The plant is vigorous, medium in height and very uniform in growth. The foliage is rich green, and abundant. It is extremely productive—a large proportion of the stalks bearing two ears.

The ears are large, 16 to 18 rowed, deep grained and bright golden yellow in color. As it matures fully within 115 days, it can be grown successfully over a large area and in sections where the older, long season types of dent corn do not succeed. As an ensilage corn U. S. No. 13 Hybrid will prove to be a winner.

Price, qt., 60c; ½ peck, $1.40; 1 peck, $2.50; bushel, $8.00.

U. S. No. 65 HYBRID DENT
100 to 105 Days

This is the earliest of all Hybrid Dent Corn. It is medium tall stiff stalk and low eared. The ears are medium sized 16 to 18 rowed and yields are fair in consideration of short season but in most cases is sure to ripen.

Price, qt., 60c; ½ peck, $1.40; 1 peck, $2.50; bushel, $8.00.

CORNELL No. 29-3 HYBRID DENT

This variety was developed for ensilage on high elevations, and husking use on lower elevations. It is from inbreds of Cornell 11, Bloody Butcher, Onondaga White Cap, and Lucas Favorite.

The kernels lack uniformity of color and range from white to deep red and ripen in 110 days.

Grows tall and somewhat more leafy; matures as early as Cornell No 11. Has a stronger root system than the open pollinated varieties and therefore, less trouble with lodging. Can be used both for ensilage and husking. This variety has become popular throughout New York State and vicinity during the past few years.

Price, qt., 60c; ½ peck, $1.40; peck, $2.50; bushel, $8.00.

SEMESAN JR. IMPROVED
Corn—disinfectant. Protects seed against rotting, increases germination, controls blight. 4 oz., 30c; lb., 75c; 5 lbs., $3.00; 25 lbs., $12.50.

CORNELL NO. 11 YELLOW DENT
Matures in 110 Days

This variety has been recommended by institutions in New York State where it has been grown extensively with the best results, has a long ear and heavy stalk, which give it a valuable place for ensilage.

This type does well in New York, New Jersey and Connecticut.

Price, qt., 60c; ½ peck, $1.00; 1 peck, $1.75; bushel, $5.50.
FIELD CORN

Standard Dent Varieties

EARLY GOLDEN ORANGE DENT
A 90 to 100 Day Variety. Long Desired by the Northern Farmer.
Henderson's Early Golden Dent Corn is the most desirable colored corn we have ever seen, and when shelled makes the prettiest picture ever presented to the eye of the farmer. It is at least ten to fifteen days earlier than any other dent variety, maturing in about ninety to one hundred normal corn days and specially adapted for short seasons of the northern latitudes.

The stalks are about 10 to 12 feet high, very strong and rank. The ears grow eight to eleven feet long and contain 14 to 18 rows of kernels on a red cob. The grains are deep and solid, making it very hard in the bin and a wonderful shelter. The ears for shelling were all selected by hand and the seed is in first-class merchantable condition.

Price, qt., 50c; peck, $1.50; bushel, $4.50.

LANCASTER SURE CROP YELLOW DENT
105 Day Variety.
One of the best varieties for cribbing and also silage. The fodder is very tall, leafy, and withstands drought, develops the ear early, the kernels are long and narrow, fills out to the ends and shells out very satisfactorily. It is a sure cropper and will mature when other dent varieties fail.

Price, qt., 45c; peck, $1.30; bushel, $3.75.

EXTRA EARLY YELLOW 90 DAY
It yields 80 to 100 bushels of shelled Corn per acre and can be shelled and grown earlier than any other variety. It is especially adapted to Northern conditions (cool nights and short summers), and under favorable conditions the yield is immense. The ears are eight-rowed, remarkably long, frequently measuring 15 inches and over, of a rich amber color, thickly set with large, broad kernels. The stalks are medium height.

In ordinary seasons it will mature in ninety days, and can be shelled and ground for feed earlier than any other large-yielding variety. It is especially valuable in sections where Corn cannot be planted before the middle of June.

Price, qt., 45c; peck, $1.30; bushel, $3.75.

KING PHILIP

COPPERY-RED. Very early. Usually matures three months after planting. Ears large sized and handsome. 10 to 12 inches long. Matures in 90 days.

Price, qt., 50c; peck, $1.50; bushel, $4.00.

LARGE WHITE

Valuable for ensilage in the Northern states as well as for the grain.

Handsome ears, large well-filled kernels, fine quality. Matures in 90 days.

Price, qt., 50c; peck, $1.50; bushel, $4.00.

SOW CORN for FODDER and ENSLAGE
Sow broadcast 2 bushels; in drills, 1 bushel per acre.

SOUTHERN HORSE TOOTH. Grows to a large size, is very leafy and well adapted for ensilage. Large quantities of this corn are sold by feed and other stores which usually result in disappointment to the farmer. There is no corn seed more difficult to cure or keep properly, and much of it is kiln-dried, while large quantities have been stored in elevators and gone through a sweating process which has destroyed the germ. The stock we offer is carefully selected, sun-dried and of high germination.

Price, qt., 45c; peck, $1.30; bushel, $3.75.

EVERGREEN SWEET FODDER. Fodder grown from the Evergreen Sweet Corn is superior in quality to that of the ordinary field varieties, being richer, sweeter and more digestible. The best plan is to sow in rows 24 to 30 inches apart, using one bushel of Corn per acre.

Price, qt., 40c; peck, $1.25; bushel, $3.50.

Sorghums Etc. For Feed

DOURA YELLOW BRANCHING. (Yellow Milo Maize.) Earlier than the normal Branching and of taller growth, often attaining a height of 9 to 12 feet, but it does not stand out quite as much from the ground although it branches out from the joints.

Price, lb., 30c; 10 lbs., $2.50; 25 lbs., $5.00; 100 lbs., $15.00.

Sorghum or SUGAR CANE. Of great value for cutting green and feeding green during hot weather in summer, when pastures are apt to be burned up. Being a tropical plant, it makes its best growth during just such weather, and cattle, horses and sheep relish it, and it may be fed to them with safety. Sow in drills, 10 to 12 lbs. per acre; broadcast 20 to 25 lbs. per acre. Should be cut when about 2 feet high, and will yield several such cuttings. Earlier than the orange and may be grown even in Northern States. Cured in the same way as a heavy crop of Clover, it makes an excellent quality of hay.

EARLY AMBER. Price, lb., 30c; 10 lbs., $2.50; 25 lbs., $5.00; 100 lbs., $15.00.

EARLY ORANGE. Produces a larger and heavier growth than the Amber but is later.

Price, lb., 30c; 10 lbs., $2.50; 25 lbs., $5.00; 100 lbs., $15.00.

BROOM CORN

EVERGREEN. Entirely free from all crooked brush, and remains strictly green, consequently always commands the highest market price.

Price, lb., 35c; 10 lbs., $3.00; 25 lbs., $5.50; 100 lbs., $20.00.

KAFFIR CORN

WHITE. Excellent fodder plant green or dried, and the grain is valuable for feeding poultry.

Price, lb., 30c; 10 lbs., $2.50; 25 lbs., $5.00; 100 lbs., $15.00.

EXTRA EARLY YELLOW FLINT
MILLET
Selected Varieties

Millets deserve greater recognition on account of their adaptability to various soils. Their chief importance is as dry weather, summer catch crops, and are of great value to succeed crops that fail, such as Corn, etc., or for planting on newly broken land. Also for the Silo and Cutting Green in the Northern and New England States.

BARNYARD (Panicum Cruz-Galli Major)

Entirely distinct from any other Millet, grows tall and produces an enormous crop. It grows 6 to 8 feet high, stands remarkably well notwithstanding its great height, and yields from 10 to 12 tons green fodder per acre. When cured it makes an excellent quality of hay, and its feeding value is far superior to Corn fodder. It is much relished by all kinds of stock, whether green or cured. If to be made into hay, cure as you would a heavy crop of Clover.

This Millet does not endure drought well, except it be sown early in retentive soil, and it is not adapted to the Southern States; but north of Washington, D. C., and especially for good, rich soils, we confidently recommend its general cultivation. It will produce a fair second cutting, if sown early in May, and cut when in blossom. It may be sown from the middle of May to the 1st of July, broadcast, at the rate of 15 lbs. per acre, but it is better to sow in drills, 12 to 18 inches apart, using 10 to 12 lbs. per acre, and hoed between the rows to keep down all weeds until the plant attains a height of 12 to 18 inches, when its rapid growth will smother all weeds.

Price, lb., 30c; 10 lbs., $2.00; 25 lbs., $3.50; 100 lbs., $10.00.

GOLDEN (Northern Grown)

This variety is considerably larger than Hungarian and yields a much heavier crop, but is later and not so quick growing, consequently cannot be sown much after the fourth of July in this latitude. To maintain its heavy cropping character, seed of this variety needs to be specially cultivated.

Our seed is specially grown and selected, and will produce nearly double the crop obtained from seed not so grown. Sow 50 lbs. per acre.

Price, lb., 30c; 10 lbs., $2.00; 25 lbs., $3.50; 100 lbs., $10.00.

HUNGARIAN

Is the quickest of catch crops for hay, and as it may be sown any time during the summer months up to the middle of August, it is invaluable for overcoming a shortage of the regular hay crop, being fairly drought resistant. Sow 50 lbs. per acre.

Price, lb., 30c; 10 lbs., $2.00; 25 lbs., $3.50; 100 lbs., $10.00.

PEARL (Pennisetum Spicatum)

This has been cultivated in the Southern States, under the names of African Cane, Egyptian Millet, Cattail Millet and Horse Millet. It grows with tropical luxuriance in strong, loamy soil. Is not so hardy as the other varieties, and succeeds best in latitudes south of New York. Sow in drills, 5 to 6 lbs. per acre; if broadcast, 8 lbs. per acre.

Price, lb., 30c; 10 lbs., $2.50; 25 lbs., $5.50; 50 lbs., $10.00; 100 lbs., $15.00.

GOLDEN MILLET

BARLEY—BEARDED

Should be grown more than it is. The straw makes excellent rough feed for all kinds of stock. It is also one of the best grains with which to sow down to grass in spring. Barley meal is also good food for all domestic animals and nearly equals Corn in feeding value. To produce large crops of Barley, the soil should be well prepared to receive the seed. It should be made fine, firm and fertile.

Barley is a good crop to follow Corn grown on Clover sod, as the land is then in prime condition. Harrow and roll well after seeding. The crop should be harvested before it is too ripe, if a white berry is wanted. Sow 2½ bushels per acre broadcast and 1½ to 2 bushels per acre if drilled.

ALPHA. A two-rowed variety heavy cropper, used extensively in Eastern States with success.

Price, peck, $1.00; bushel (48 lbs.), $3.25;

ODERBRUCKER. This is a stiff-strawed, heavy yielding, six-rowed, bearded variety, plump kernels.

It has nearly double the amount of protein found in many other varieties; this makes it a valuable feeding Barley, which is an important consideration with the leading farmers who are now appreciating more and more the value of Barley as a feed for all kinds of stock, horses as well as cattle.

Price, peck, $1.00; bushel (48 lbs.), $3.25;

TRUE DWARF ESSEX RAPE

Provides Perfect Pasture and is greatly Relished by all Stock

There are several varieties of Rape, but care should be taken to procure the Dwarf Essex, or English, as it is sometimes called. In Northern states it should be sown from April to end of August for fall pasturing, but as it thrives best in cool weather, it should not be sown in the Southern states until September or October for winter pasture. In the latitude of New York it should be sown in drills or broadcasted in April, or in July or August. Its fattening properties are probably twice as good as those of Clover, and for sheep the feeding value of Rape excels all other plants we know of. Sow 4 lbs. per acre broadcast, or 2 to 3 lbs. in drills.

Price, lb., 35c; 10 lbs., $3.00; 25 lbs., $6.25; 100 lbs., $20.00.
SOY or SOJA BEANS

A plant of manifold uses. The plants are invaluable as a green manure, also for forage and pasture, silage, etc. The beans are used in many ways, both for human and stock consumption. The oil derived from the beans has hundreds of industrial uses. It is, therefore, little wonder that the cultivation of Soy Beans is growing by leaps and bounds throughout the United States.

Soy Beans grow successfully in practically all soils, and succeed well in all locations where corn thrives well. The varieties offered below are among the most popular in cultivation.

A great Soil Enricher, gathering nitrogen from the air. Produces enormous crops as far North as Canada. Ripening Seed as far North as Massachusetts. Especially Valuable in combination with Japanese Millet and Fodder Corn for Ensilage, supplying the albuminoids or flesh-forming food.

Planted in rows 2½ feet apart, 6 to 8 plants to the foot of row, requiring 50 pounds per acre, they yield 15 to 20 tons per acre of fodder, very rich in flesh formers. For green feed, use from time of blossoming till pods are well filled; for the silo, cut as soon as most of the pods are well filled, and cut into 3½-inch to 2½-inch lengths.

EARLY WILSON BLACK. This variety has proved its earliness and value in the Northern States by not only producing large fodder crops, but ripening the seed as far North as Massachusetts. The grain is the richest vegetable substance known, and when ground and fed to cattle gives a milk richer and better than if fed other meal.

Price, lb., 40c; 10 lbs., $2.00; 50 lbs., $5.00; 100 lbs., $8.50.

MAMMOTH YELLOW. This variety was developed and has been tested in the East and South with very satisfactory results. Grows well on very poor soils, easily reaching a height of three feet in eight weeks after sowing, in the latitude of New York. This is an excellent variety for green manuring, and will also make good hay and ensilage. Under ordinary growing conditions, the beans will mature well before frost sets in. Plant 50 pounds to the acre.

Price, lb., 40c; 10 lbs., $2.00; 50 lbs., $5.00; 100 lbs., $8.50.

MIXED SOY BEANS. In mixture Soy Beans are considered to be one of the most valuable of all cover crops. It tends to distribute the air gathered nitrogen over a wider range of depths in the soil and provides a great mass of organic material for plowing under. It grows quickly and is effective in keeping down weeds in unused soil. Plant at the rate of 2 pounds per 1,000 square feet or 50 pounds to the acre.

Price, lb., 40c; 10 lbs., $1.75; 50 lbs., $4.25; 100 lbs., $8.00.

EDIBLE SOY BEANS see page 10.

COW PEAS (VIGNA CATIANG)

Cow Peas are the great leguminous crop of our Southern States, where they play the same important role in rotation farming that Clovers and Canada Peas do in the North.

Cow Peas are more tender than Canada or Field Peas and should not be sown until Corn-planting time. Cow Peas, being of very rapid growth during the warm weather, can be sown as late as the middle of July with reasonable assurance of a profitable crop, either for harvesting or plowing under.

The early varieties are quite extensively and successfully grown for forage and soilings as far north as Massachusetts, but so far north the crop may not ripen seeds. As a soil renewer and enricher Cow Peas are very valuable, as they collect nitrogen from the air in large quantities and fix it in the soil, thus adding this expensive element of fertilizer to the land without cost, and leaving it richer and in better condition for the future crop. Cow Peas grow on all soils from the stiffest clays to porous sands, barren uplands and alluvial bottoms. The feeding value is high, whether as green forage, cured hay or silage, being especially rich in blood, bone and muscle-forming material. For green-manuring day land, the crop should be turned under green. On sandy soil, already too light, the vines should decay on the surface and then be turned under. Sow 100 lbs. per acre.

MIXED COW PEAS. Extra-early maturing in about 60 days, specially adapted for planting in the North for Green Manure.

Price, lb., 35c; 10 lbs., $2.50; 50 lbs., $6.00; 100 lbs., $10.00.

Purchaser pays Transportation Charges.

Prices subject to change without notice.

CANADA FIELD PEAS

There is no crop of greater value than Field Peas. Whether for fodder, in mixture with Oats, sown at the rate of 100 lbs. of Peas and 1 bushel of Oats per acre, or the Peas sown alone at the rate of 150 lbs. per acre for plowing under. Peas have the power of extracting nitrogen from the air and fixing it in the soil. Sown alone for fodder or in combination with Oats for hay, or as a crop to plow under for green manure, they are unsurpassed.

Price, lb., 35c; 10 lbs., $2.50; 50 lbs., $6.00; 100 lbs., $10.00.

BUCKWHEAT

Yields Double Very Early, Makes the Finest Flour

The seed we offer is grown from the largest type. The kernels are at least twice the size of any other variety and of a shape peculiar and distinct from all others. The color is also most distinct, being of a rich dark shade of brown. There is always a good market for the grain as it is in demand for all purposes. For beer it is of the greatest value and for this purpose has displaced all other varieties.

An excellent plan is to sow Crimson Clover along with Buckwheat, especially when put in late from middle of July to first of August. They come up together, but the Buckwheat is the stronger grower and the Crimson Clover makes but little showing until the Buckwheat is removed. If frost should kill the Buckwheat before ripe, it may be left as a protection, the dead Buckwheat being just the sort of mulching and protection needed by the Clover.

Price, lb., 30c; 10 lbs., $2.50; 50 lbs., $3.75; 100 lbs., $7.00.
Miscellaneous Agricultural Seeds

MANGEL WURZEL or STOCK BEETS

Mangels are the most important of all root crops for feeding, and form the best winter feed for cattle and hogs. They increase the flow of milk when fed to milch cows and yield enormous crops, as much as 50 tons having been grown on one acre. They may be grown in any part of the American continent on fairly good farm land; all that is necessary is good cultivation. The best soil for Mangels is loose, friable loam and deep plowing. Follow the plow with a subsoil plow, and the crop will more than repay the extra trouble. The soil should be well enriched, and the seed sown in May in drills 24 inches apart in light soils, and 30 inches apart in strong, rich land; thin out the plants with a hoe to 9 inches apart in the former and 12 inches apart in the latter. 6 to 8 lbs. of seed are used per acre if sown with a drill, or double that quantity Broadcast. Cultivate with a horse hoe.

COLOSSAL LONG RED

This is a distinctly fine breed of this popular Mangel. The roots are smooth and regular, of the largest size and blood-red color. The quality is exceedingly nutritious, and in all respects this variety is most distinct and valuable.

Price, 1/4 lb. 75c; lb. $2.00.

GOLDEN TANKARD

The roots are handsome in shape with deep orange colored skin. The flesh is bright golden-yellow, and in this respect differs from most other varieties, which cut white. Sheep have a preference for this sort over other Mangels; it is said that they will pick out every piece of Golden Tankard before touching others. It yields under the best cultivation 75 tons per acre.

Price, 1/4 lb. 75c; lb. $2.00.

DANISH SLUDSTRUP

Highly recommended. Color reddish-yellow of Giant Intermediate type. It has great feeding value for cattle and hogs, heavy yielder.

Price, 1/4 lb. 75c; lb. $2.00.

SUGAR BEETS

VILMORIN'S IMPROVED WHITE. A greatly improved variety of Sugar Beet obtained by over 20 years' continued and systematic selection. The proportion of sugar in the roots, under ordinary circumstances, amounts to 18 to 20 per cent while in other varieties the usual average is 12 to 15 per cent. Has yielded 30 tons and over per acre, and is unequalled for feeding cows and young stock.

Price, 1/4 lb. 75c; lb. $2.00.

BEGGAR WEED (Desmodium tortuosum)

A leguminous annual plant growing, according to soils and conditions, 3 to 7 feet high. It is highly esteemed where known in our Southern States as a forage and soil renovating crop.

Price, lb. $1.25; 10 lbs. $10.00.

BIRD SEED, Fancy

CANARY SEED

Re-cleaned.

Price, lb. 30c; 10 lbs. $2.50; 25 lbs. $5.00; 100 lbs. $18.00.

“WILD BIRD SEED” MIXTURE

Feed your feathered friends during the winter when food is scarce with this mixture.

Price, lb. 20c; 10 lbs. $1.75; 25 lbs. $3.75; 100 lbs. $12.00.

MAMMOTH RUSSIAN SUNFLOWER

Highly valued as an excellent and cheap food for fowl. It is the best Egg-Producing Food known. It can be raised cheaper than Corn. Four pounds of seed will plant one acre.

Price, lb. 30c; 10 lbs. $2.50; 25 lbs. $4.50; 100 lbs. $16.00.

SHALLU or EGYPTIAN WHEAT

Heads are similar to Broom Corn, very large yields of grain and fodder. Excellent feed for Cattle, Chickens, etc. Sow 3 lbs. per acre.

Price, lb. 30c; 10 lbs. $2.75; 25 lbs. $5.00; 100 lbs. $18.00.

TEOSINTE

Rosa Luxuriens

The plant resembles Corn, but is more leafy and tills enormously. After cutting it grows again with remarkably rapidity. Those having only a small amount of land on which it is desired to produce the maximum amount of forage should sow Teosinte. Plant in drills, 6 to 8 lbs. per acre.

Price, lb. $1.25; 10 lbs. $10.00.

54
A Page of Vital Interest to Every Farmer and Gardener

This page is of vital interest to every garden owner, as well as to every farmer, because good tillage on large or small farms is the base upon which all success in raising crops is built. It is a problem of long-term benefit, yet one that is simple to understand and put into practice. A combination of either Wheat or Rye and Vetch is excellent.

SUPERIOR SEED WHEAT Sow 1½ Bushels per acre

It is grown especially for seed purposes from the choicest selected cross-bred and pedigreed strains, and relabeled at our warehouses which are equipped with modern seed-testing machinery. This enables us to supply direct the farmer with high-grade and heavy seed, at lowest possible prices, when quality is considered. The variety offered is the best of the Spring Wheats, yield well, and the milling qualities of the grain surpass the best of the Winter varieties. Spring Wheat is also a satisfactory crop to sow along with Grass seed.

MARQUIS—Spring Wheat

This famous variety is of Canadian origin and was bred by crossing Red File and Hard Calcutta, and acclimated Wheat from India. It retains the frost-resistant qualities of Red File and also the extreme earliness of Hard Calcutta. Marquis Wheat is almost ten days earlier than any other variety and matures—as several farmers put it—in time to avoid rust, smut, or drouth. As to productivity, many growers report 52 and more bushels per acre, but a five-year average at Brandon Experiment Station was found to be 44 bushels per acre. Milling tests show that this Wheat contains a greater quantity of gluten, is a better color, is better dressed, and is heavier in weight than any other Spring Wheat. Our stock was raised in the far north, and is early, hardy and productive. We strongly recommend our customers to try Marquis Wheat this year.

Price, peck, $1.25; bushel (60 lbs.), $4.25.

WINTER SEED WHEAT

For illustrations and descriptions of varieties of Winter Wheat see "Henderson's Fall Wheat Circular" issued in August. We offer the leading varieties. We can also take orders now for delivery from the harvest of 1941 at prices ruling at time of shipment.

RYE—Sow 1½ bushels per acre

SELECTED SPRING RYE

A variety produced by planting Winter Rye in the spring for several years, and selecting the seed until the type is fixed. It is an excellent "catch-crop" where Fall sown grain has been winter-killed, and also for fodder.

Price, peck, $1.10; bushel (56 lbs.), $3.50.

ROSEN

A remarkably heavy cropping Rye, having in fair tests outyielded many other varieties both in straw and grain. The heads average six inches in length and are filled from end to end with plump medium-sized grains.

Price, qt., 30c; ½ peck, 60c; peck, $1.60; bushel, $3.50.

WINTER

Grown for green manuring and putting the soil in a healthy condition, also for green early fodder.

Price, qt., 30c; ½ peck, 60c; peck, 30c; bushel, $2.50.

For Greater Yields

Treat All Cereal Seed

With New Improved "Ceresan"

To control destructive smuts; improve your yield of OATS, WHEAT and BARLEY. Recommended by N. Y. STATE Colleges.

1 pound treats 32 Bushels.

Price, 1 lb., 50c; 5 lbs., $3.40.

The Purchaser Pays Transportation Charges on Farm Seeds, Except Where Noted.
America’s Fairest 
Flower Seed Debutantes 
for 1943

MANY ARE ALL-AMERICA AWARD WINNERS
Nowhere in the world can better strains of Flower Seeds be found
for American Gardens than those offered in this catalog.
They are grown, selected and tested under the most
scientific methods.

ASTER, VICTORY GIANTS (A) (Honorable Mention)
1220 Similar to California Giants in huge size and luxurious long petalage. They
make a delightful light-colored mixture, with no reds, but with lavenders, blues and whites predominating. Stems are strong and straight and
growth is vigorous. Highly prized for their earliness. Crown flowers 5 inches
across; plants are sturdy and grow 3 feet tall
Pet., 25c

COSMOS, SEMI-D Double ORANGE RUFFLES (A)
20298 Vivid and intense golden orange, the two or three extra rows of petals lend
an airy butterfly-like beauty to the richly colored large blossoms. Very free
blooming. Orange Ruffles comes into flower ten days earlier than Orange Flare. The three to four foot plants remain in bloom about six weeks
without attention or almost indefinitely if the older flowers are removed
Pet., 25c

MARIGOLD, GOLDEN BEDDER (A) (Bronze Medal)
2705 At our trial grounds at Red Bank, N. J., this new Marigold began blooming
before any other variety, and continued throughout the season. The plants grow
into symmetrical mounds about one foot high, and are covered with golden orange
flowers. The formation of the flower is more radicul. It has a fairly double crest
in the center, which is surrounded with outer guard petals, giving it a distinct ap-
pearance. It lends itself admirably as a cut flower.
Pet., 25c

ZINNIA, FANTASY MELODY (A)
4689 Melody brings a new color not only to the Zinnia group, but a distinctly new shade
in Zinnias as a whole. A rich orchid lavender, the color is most intriguing, particularly in
flower arrangements. The medium sized flowers have finely curled and twisted petals,
light and dainty in appearance. The two and a half foot plants are very free blooming,
starting flowering early and give a wealth of bloom throughout the season
Pet., 25c

MARIGOLD, SUNKIST (A) (Silver Medal)
2723A Developed as an orange-colored sport from last year’s winner, Butterball. It is a
dwarf, compact, very early, continuous blooming, double flowered variety. It
comes practically true, 6 to 12 inches tall, and the many attractive flowers are to 1 1/2 inches
across. Grand for bedding, edging and pot-culture.
Pet., 25c

PETUNIA, ALL-DOUBLE, AMERICA (A) (Silver Medal)
3322 The first all-double Petunia to be produced in America. America is the all-double
type, of medium size, carnation-flowered, and mauve-pink in color. Petunia America is a
hybridana, an abundant bloomer from early summer to frost, for bedding and cutting.
It is uniform and true. Height 10 to 12 inches
Pet., 50c

PETUNIA, IGLOO (A) (Bronze Medal)
3298 Igloo is just about the most reckless blooming, white hybridana compacta so far
developed. Plants are very uniform and compact growing, 12 to 15 inches tall. The small, 1 1/2 inch,
creamy white single flowers with yellowish throats cover the plants in a sheet of bloom from early to
late in the season. Excellent for beds or borders.
Pet., 25c

VIOLA, BLUE ELF (P)
4532 A whimsically beautiful viola. The 3 inch plants are covered with blossoms that average 3/4
inch in diameter.
The upper petals are deep-violet blue; the lower
petals are light-violet blue with a gold eye and
black lines radiating from the center. The foliage
is small and dark green.
It is a perennial, but best treated as an annual.
March sow seed produces flowers in June and
flowering will continue as late as August.
Blue Elf is ideal for rock gardens, dial shady
places, window boxes, moist low bed effects, and
to edging borders. As a cut flower, it makes a
dainty effect in shallow vases
Pet., 25c

Henderson’s American Beauty Coll. of New Verbenas (A)

Shown in Colors on Page 58

4521 Special Offer: The Collection of six packets $1.00

Plate No. 1. 4491 Lavender Glory. A glorious color not
hitherto known in Verbenas—a true lav-
ender, with cream white eye.

2. 4514 Spectrum Red. This magnificent Ver-
benas is brighter than any other Verbenas
yet introduced, having no eye.

Plate No. 3. 4492 Beauty of Oxford Hybrids. The giant
hybrid, the florets measure over 1 inch in
diameter. The color shades from clear
rose-pink to rose-red.

4. 4487 Brilliant. Rich, deep, flame-rose with
white eye, which helps to bring out the
brilliant color.

Price of above named varieties, per 1000 seeds, 75c; pkt., 25c

Explanation of the letters following the various species of flower seeds: (A) Annual, (P) Perennial, (CA) Climbing Annual, (CP) Climbing Perennial. Cultural directions printed on back of seed packets.
NIEREMBERGIA, PURPLE ROBE—Bronze Medal

3055 A new and welcome addition to our annual bedding plants, which bids fair to achieve great popularity for its rich violet-blue, dainty cup-shaped flowers. The plant develops into a small mound, about 6 inches high. It blooms over a long period, and is ideal for bordering beds of Petunias or other annual flowers. It is particularly impressive when grown in conjunction with either white or silver blue Petunias.

Pkt., 35c

NEW PETUNIA

Glamour

PETUNIA, GLAMOUR—Honorable Mention

3241 Truly one of the loveliest Petunias we have ever grown. The flowers range from 4 to 5 inches across; they are artistically waved and ruffled, and the color is a beautiful salmon rose with golden brown veining on the white throat. Brilliant in the garden and glorious under artificial light. It is continuously in bloom and is the object of much admiration wherever grown. The plant attains a height of from 15 to 18 inches. Pkt., 50c

Henderson's Famous

Asters (A)

Vitalized Strains of Regal Splendor

With these new vitalized strains the old time popularity of the Chian Asters is being revived particularly in view of the fact that the modern improved strains are far superior to the old types. Asters of such beauty and size as were not dreamed of a decade ago, are now being grown by lovers of these graceful and colorful flowers throughout the country.

GIANT SUNSHINE

The Daintiest and Most Graceful Aster Grown: an Ideal Cut Flower

There is no doubt that the Sunshine Aster is a distinct acquisition to floriculture. The colors are surprisingly beautiful, chiefly be cause of the strongly contrasting, disc-like centers with the surrounding aurea of petals. The ensemble presents an airy, lace-like effect different to any other Aster. The flowers average 3 to 4 inches in diameter.

1455 Mixed Colors. This mixture contains a lovely range of harmonious colors which cannot be surpassed for summer cut flowers.

1,000 seeds, 40c; Pkt. 15c

1452 Blue, 1453 Pink, 1454 White, 1457 Violet

Price of above, Pkt. 15c; Per 1,000 seeds, 60c.

1461 Collection one pocket each of the above four separate colors 50c

GIANTS OF CALIFORNIA

A Majestic Recurved Aster of Perfect Form. Vigorous Growth. Fine Stems

We take pleasure in recommending this truly grand Aster as being the best in its class ever offered to garden lovers. It is a combination of the well-known Comet or Ostrich Plume type of flower, with long-branching stems and sturdy habit of growth. Careful selection has perfected the type and we recommend them strongly both for cutting and bedding.

1330 Mixed Colors. A superb mixture of majestic long-stemmed flowers in every color found in Asters

1,000 seeds, 75c; Pkt. 15c

1325 Light Blue, 1325A Crimson, 1226A Pure Pink, 1327 Dark Purple, 1328 Deep Rose, 1329 White

Price of above, Pkt. 15c; Per 1,000 seeds, 75c.

1331 Collection, one pocket each of the above separate six colors 75c

New Yellow Aster

AURORA GOLDEN SHEAF (With-Resistant)

1221 The deepest colored yellow Aster yet offered. The flowers are fully double, with an attractive crest-like center

Pkt. 15c; Per 1,000 seeds, 75c

Popular Red Aster

HEART OF FRANCE (With-Resistant)

1306 The best pure red ever introduced. Heart of France opens red as the purest ruby and retains its beauty to the very end. The stems are long and strong and have a few laterals. The branching plants bloom early in the season and open with the midseason varieties.

Pkt. 15c; Per 1,000 seeds, 75c
Henderson's Famous Asters

Unequaled for Perfection of Flowers and Vigor of Plants

Just when summer is beginning to merge into autumn and the floral bloom in the garden is diminishing, along comes the Queenly Annual China Aster to make up the deficiency and renew the attractiveness of the garden.

**WILT-RESISTANT ASTER SEED**—Through the use of wilt-resistant seed, success may be had where the soil is infected with wilt fungus, where it has been impossible to grow perfect flowering plants. It is not claimed, however, to be free from Aster “yellows” and other Aster diseases or insect pests.

**Invincible (Wilt-Resistant)**

Shown in Colors on Opposite Page

“They are Royally Grand.” Largest and Most Beautiful Asters.

1361 Collection of Henderson’s Invincible Asters. 1 packet each of the eight separate colors ............................................................................................................ $1.00

A superior race in every way. The plants are wilt resistant of very robust, branching growth, about 2 feet or more high, producing, on long stems, massive Chrysanthemum-like flowers of perfect form, exceedingly double to the very center. The petals are thick, durable, and the flowers last long in perfection. They are continuous bloomers from summer until frost. When grown in masses in garden borders, or grouped in beds, their effect is gay and enlivening. When well grown the flowers average 3½ inches across; 4-inch flowers are quite common and it is grown for cut flowers, the side branches pruned, allowing a plant to carry not over 8 flowers, one flower to a stem, they may measure up to 5 inches across.

Henderson’s Invincible Asters are consistent prize winners at Flower Shows throughout the country.

1360 Mixed Colors. A superb blend in a harmonious range of colors. Per 1000 seeds, 60c; pkt., 15c

1342 Carmine-rose. Bright rosy-carmine.
1346 Deep Blue. Bright indigo-blue.
1348 Deep Pink. Lively, warm rose-pink.
1352 Lavender. Charming silvery-lavender.
1354 Pearl-pink. Exquisite shell pink.
1358 Pure White. Purest snow-white.

Price of above, per 1000 seeds, 75c; pkt., 15c

**“QUEEN OF THE EARLIES” (Wilt-Resistant)**

(Queen of the Market.) Valuable on account of their extreme earliness for cutting; plants 18 inches high; medium-sized double flowers on long stems.

1398 Crimson 1406 Rose-pink
1402 Dark Blue 1408 White
1404 Lavender 1410 Mixed Colors

Price of above, per 1000 seeds, 50c; pkt., 10c

1411 Collection of above five separate colors ........................................... 40c

**SEMPLE’S LONG-STEMMED (Wilt-Resistant)**

Flowers are large, very double and borne on long stems. They begin blooming about the first of September. Plants are strong growers, ½ to 2 feet high.

1438 Crimson 1446 Purple
1442 Lavender 1448 White
1444 Shell-pink 1450 Mixed Colors

Price of above, per 1000 seeds, 50c; pkt., 10c

1451 Collection, one packet each of above five separate colors .................................................. 40c

**LARGE-FLOWERING HARDY (Perennial)**

These “Michaelmas Daisies” form large, bushy clumps, ½ to 2 feet high, covered with clusters of large, single flowers during late summer months.

1470 Mixed Colors. New, large-flowering hybrids. Pkt., 25c

**Giant Comet (Wilt-Resistant)**

ALSO KNOWN AS ASTERMUM, CREGO AND OSTRICH PLUME

1281 Collection. One packet each of the seven separate colors .................................................. 50c

These truly grand Asters win enthusiastic admiration from all who see them. They are a highly developed American type and are far superior to imported strains. The flowers are of immense size, 4 to 5 and often 6 inches across, composed of long, wavy, twisted petals, gracefully formed into loose, yet densely double, half globes, equaling some of the finer Ostrich Plume Chrysanthemums. The plants, of luxuriant branching growth, attain a height of 18 inches to 2 feet, each plant bearing from 20 to 30 of these magnificent flowers on very long stems, which gives them an added value for cutting and vases.

1280 Mixed Colors. Masses of tall, shaggy flowers in a most artistic combination of colors. Per 1000 seeds, 50c; pkt., 10c

1264 Azure-blue 1274 Shell-pink
1266 Crimson 1276 Violet-purple
1268 Lavender 1278 White

Price of above, per 1000 seeds, 60c; pkt., 10c
ANNUAL FLOWER SEEDS

These complete the cycle of their existence, growing from seed to seed in one year. Many sorts require to be sown in some sheltered situation such as a greenhouse, cold frame, or window box about a month before they may be planted outdoors. This is necessary not only on account of their tenderness, but also because they need more time for development, and by sowing thus early the growing season is proportionately prolonged. Others may be sown where they are to stand, in which case they require careful attention for the first few weeks.

While there is no class of plants that will survive better under rigorous conditions, yet in order to achieve the best results they should be planted where they can obtain ample sunlight, may be easily watered, and, in case of early frost, may be quickly protected.

A continuity of bloom may be secured by occasional sowings of many sorts. In the latitude of New York these sowings may be made as late as June 15th.

Biennial Flower Seeds. These grow from seed the first year, then flower and die the following year. Some are grown as annuals.

PERENNIAL FLOWER SEEDS

The great charm of Perennials lies in their permanence. Once established, they are a constant source of pleasure, and among the most interesting plants in our gardens, presenting a variety of size, form and color so great as to fit them for almost every conceivable purpose in the garden. Some may be made to thrive under most unkind conditions, while others require skilful cultivation.

A very large proportion of the Perennial plants that may be grown from seed have great value as cut flowers, particularly so because of their great substance, which enables them to stand up well long after cutting.

Notwithstanding their individual charm, they are most effective when planted in a mixed border, where by arranging them according to height, color and season of flowering, an attractive display may be had from the earliest days of spring all through the summer, and even after the first frosts herald the approach of winter.

Perennials are generally raised from seed sown from early spring to about August 1st, in the latitude of New York. They stated thus, they make it possible to plant in a permanent situation early enough in the fall to winter safely.

Cultural instructions are printed on the back of all packets. When ordering ask for booklet "Henderson's Flowers for American Gardens" for full details.
Henderson's Tested Flower Seeds for American Gardens

Comprising the outstanding offerings of the World's Leading Flower Breeders, as well as those of Our Own Origination. All flower seeds offered have merited a place in this catalog after they proved their worth as desirable subjects for American Gardens at our Testing Grounds at Red Bank, N. J.

Suitable material can be found here for practically all types of gardens, as well as special strains of flowers for the competitive grower. Henderson's strains are always in evidence in the Blue Ribbon class wherever flowers are exhibited.

They are arranged in alphabetical order for your convenience. Explanation of the letters following the various species of flower seeds:

(A) Annual (D) Perennial (CA) Climbing Annual (CP) Climbing Perennial (B) Biennial (TP) Tender Perennial

ACROCLINIUM
Everlasting Daisy (A)

1024 Sensation Giants. This garden cut flower is a superior winner—this new strain produces flowers half again larger than any existing strain, and grows 6 to 8 inches taller. Each flower is full double and will average a good 3 inches across. Its colors range from medium rose to light pink shades. Pickled in the bud and hung up to dry, they will last indefinitely.

Per 1000 seeds, 75c; pkt., 25c

1022 Double Hybrids. See page 80. Fine flowers on 12 to 18-inch stems. These are borne freely over a long flowering period. The range of color is most remarkable, being shades of salmon, pink, cerise and white. Mixed colors.

Per 1000 seeds, 50c; pkt., 10c

AGERATUM, Floss Flower (A)

Flower freely all season from spring-sown seed. Splendid for bedding, edgings or pots. Combines well with Tagetes or French Marigolds for blue and gold effects.

1032 Little Dorrit Blue. Height, 5 to 6 inches. Per 1000 seeds, 25c; pkt., 10c

1034 Little Dorrit White. Height, 5 to 6 inches. Per 1000 seeds, 25c; pkt., 10c

1035A Fairy Pink. A most valuable, deep rose-colored variety from Mexico. It belongs to the Star type, and is valuable for pot-culture, as well as for growing outdoors.

Per 1000 seeds, $1.00; pkt., 25c

1036 Blue Perfection. Large heads of deep amethyst-blue flowers; plant value is even greater growth; about 8 inches high.

Per 1000 seeds, 25c; pkt., 10c

1037 Dwarf Blue Cap. Flowers, large and compact, rich blue. The foliage is small, so the effect is that of a solid mass of flowers; height, 6 inches. Per 1000 seeds, 40c; pkt., 15c

1038 Blue Star. A tiny and compact variety, only 4 to 5 inches high; densely covered with light blue flowers. Per 1000 seeds, 60c; pkt., 15c

1042 Midget Blue. The dainty little plants grow 2 to 3 inches high. They are covered with true blue flowers. The foliage is appositely fine and exquisitely delicate. The plants are uniformly dwarf and true to color. Ageratum Midget Blue won a silver medal in the All-American Trials.

Per 1000 seeds, $1.00; pkt., 25c
Antirrhinum

SNAPDRAGON (A)

The modern varieties of Snapdragon are most beautiful. The individual florets are much larger than the older types and the colors are superb. The Giant Strain is an ideal subject for border planting, and combines well with Delphinium, Annual Larkspur, or Stocks. The Dwarf Type is excellent for bedding purposes. They are all exceptionally fine for cutting.

Henderson's ROYAL Collection

Giant Flowering Antirrhinum

(Antirrhinum Maximum Grandiflorum)

Shown in Colors on Page 78

With these new rust proof strains that were developed at the University of California, successful results may be enjoyed, where ordinary snapdragons have failed. The flowers average about twice the size, and under favorable conditions will produce well set spikes of flowers two to three feet long.

Although perennial in the South, they do splendidly when grown as annuals in the North: spring sown seed produces flowering plants by July, which continue to bloom in increasing profusion until frost. They are magnificent for flower arrangements.

DWARF HYACINTH FLOWERED (Rust Proof)

Antirrhinums have been more rapidly improved than any other garden flower, and are grown everywhere. The Hyacinth flowered are a great improvement over the ordinary dwarf sorts. The great size and perfect form of the individual bloom combined with ideal symmetry of the spike are its main characteristics. A beautiful variety for beds or borders; height, 1 foot. Seed is sown in the open ground in May to flower in July, but a better way is to start seeds indoors in March and transplant outdoors when ready.

Brief Cultural Instructions are Printed on the back of all Packets. When ordering ask for booklet "Henderson's Flowers for American Gardens" for full cultural details.
Arabis Rock Cross (P)
1173 Alpine. A fine, dwarf, hardy perennial, largely used for rock gardens. Flowers pure white, blooming early in the spring.
Per 1000 seeds, 75c; pkt., 25c

ARCTOTIS. Blue Eye Daisy (A)
1175 Grandis. Pearly white flowers on long stems well above the foliage. The petals are white on the upper surface and pale lilac on reverse, and in the center of the flower is a light blue disc surrounded with white stamens and a narrow golden band, which contrast beautifully with the blue disc and the stamens. Very good for cutting. Height about 2 feet.
Per 1000 seeds, 35c; pkt., 10c

ARGEMONE. Prickly Poppy (A)
1182 Hybrido Grandifloro. These new "Prickly Poppies" form branching plants about 3 feet high and 18 inches across. The large, single, Poppy-like flowers are white, cream, primrose and yellow, borne freely all summer long. The thistle-like foliage is of a grayish-green with silvery ribs.
Per 500 seeds, 25c; pkt., 10c

Armeria, Thrift, Sea Pink (P)
Compact plants with moss-like foliage, flowers borne on globe-like heads.
1190 Formosa. Rose flowers; height, 1½ ft.
Per 1000 seeds, 75c; pkt., 15c

ASPARAGUS. Ornamental (TP)
1202 Plumsosus Nomes, Greenhouse climber with fern-like foliage.
Per 100 seeds, 50c; pkt., 25c
1205 Sprengeri. Decorative perennial for pots, vases, etc.; drooping chintz-like fronds 4 feet long.
Per 100 seeds, 25c; pkt., 10c

BALLOON VINE (A)
1486 Rapid climber, 10 to 15 feet, white flowers followed by balloon-like pods.
Per oz., 35c; pkt., 10c

BAPTISIA, False Indigo (P)
1504 Australis. Forms bushes 3 to 4 feet high, dark green foliage, spikes of dark blue pea-shaped flowers, blooms in July.
Per 1000 seeds, 50c; pkt., 15c

BARTONIA. Golden (A)
1506 Aurea. It produces large single golden-yellow flowers with a metallic luster. A large cluster of yellow stamens adds to the effectiveness of the blossoms. They measure 3 inches across, and are borne all summer long, on bushy plants about 1 foot high.
Per 500 seeds, 25c; pkt., 10c

Balsam, Double
Lovely Lady Slipper (A)
These are the most perfect in form and largest flowers yet developed in this old garden favorite; height, 1½ to 2 feet.
1490 Galoth. Mixed colors. A new type of robust growth, throwing up a main stem 4 feet high, the lower half of which carries several candelabra-like side branches, all bearing large double flowers.
1492 The King. Glowing fiery-scarlet, large, full double flowers.
1494 The Queen. Deep rose-pink, large, double flowers; exquisite.
1496 White Perfection. Large double white flowers.
1500 Extra Choice, Double Mixed. Containing many colors, spotted, blotched, striped, etc.
Price of above, per 500 seeds, 25c; pkt., 10c

Begonia, Everblooming
Fibrous-Rooted Varieties (TP)
Thriving equally well in partially shaded or sunny locations, flowering through summer and fall. As pot plants for winter flowering they are also superb; easily grown from seed sown early indoors.

The Most Beautiful of all Pink Begonias
1516 Prime Donna. Splendid bushy plants, 10 inches high by 15 inches across. The flowers are unusually large, 1 to 1½ inches in diameter, and of charming rose color shading to carmine in center.
Price per 1000 seeds, $1.50; pkt., 25c

1511 Erfordia. Rosy-carmine flowers; free bloomer.
Price per 1000 seeds, $1.50; pkt., 25c

1512 Christmas Cheer. Bright crimson scarlet, a fine sort for pot culture.
Price per 1000 seeds, $1.50; pkt., 25c

1515 Ille de France. Considered the finest pure white variety with yellow stamens, foliage light green, flowers ½ in. across, height 1 foot.
Price per 1000 seeds, $1.50; pkt., 25c

1518 Vernon. Fine bedding and pot plant, 6 inches high; blood-red flowers in profusion.
Price per 1000 seeds, $1.50; pkt., 25c

HENDERSON'S SPECIAL MIXED FLOWER SEEDS
4740 A flower garden may be made in any out-of-the-way place by broadcasting and raking in, at the rate of 1 oz. per 100 square feet, mixed with sand or dry soil to secure even distribution.
Price, oz., 25c; ¼ lb., 75c; lb., $2.50

"An encyclopedia of flower culture boiled down to vast pocket size," describes our booklet, "Henderson's Flowers for American Gardens," sent free on request.
Calendula

SCOTCH MARIGOLD (A)

Calendulas are bushy plants 1 foot high by 1 foot in diameter. Large, literally covered with large showy double flowers. Our seed has been saved from most perfect flowers in shape, size, depth and color.

1588 Campfire. (Sensation) Brilliant orange flowers.

1589 Chrysantha. Sunshine. The petals are long and wide, drooping in the same manner as some Chrysantherums, giving the large double flowers a globular outline. The color is a clear buttercup yellow and it is an ideal cutting flower.

1590 Chrysantha Orange Sunshine. (See Color Plate, page 77.)

1592 Lemon King. Large, double flowers of lemon-yellow.

1594 Meteor. Bright yellow, striped orange through the center of each petal.

1596 Orange King. Large, double flowers of intense golden-orange.

1597 Orange Shaggy. This is a very distinct new breed in Calendulas. The petals are long and deeply fringed or lacinated. The color is a deep orange shaded to a slightly lighter orange in the center of the bloom, giving the flower a delightful twofold effect. Well grown, has long stems. Plants about 18 inches high.

1598 Redio. This is a recent introduction from Europe. The true Redio form is a medium sized orange-yellow, with fringed or petticoat petals curled and twisted.

Price of each, per ½ oz., 40c; pkt., 10c

1597A YELLOW SHAGGY

Yellow Shaggy has the deepest flower heads of all Calendulas. Flowers are so deep that they are globular, or ball-shaped, 3 in. across. The petals are fringed and deeply cut at the ends, giving the flowers a very shaggy and artistic appearance.

The center of the flowers is a bright clear yellow with a lighter yellow center, which is nearly covered by the mass of petals. Flowers are borne on very long stems and their form makes them excellent keepers. Plants grow 1½ ft. tall and are valuable for beds, borders and cutting.

Price per ¼ oz., 50c; pkt., 15c

BRACHYCOME, Swan River Daisy (A)

(Shown in Colors on Page 79)

1540 Iberidifolia is a compact bush, 8 inches high; single, blue or white flowers. It is very suitable for beds or borders, as it blooms most of the summer. As a pretty pot plant for the house it is very desirable. Mixed Colors.

Price of seeds, 35c; pkt., 10c

CALCEOLARIA (TP)

1580 Large-flowering Spotted Varieties, Mixed. Gorgeous plants for growing in greenhouse and conservatories. Flowers are borne in the greatest profusion through spring and summer; colors: yellow, maroon, white, etc., spaced and bloomed in the most unique fashion; 1½ ft. high...............

Pkt., 50c

CALLIOPSIS

LARGE-FLOWERING (A)

One of the showiest garden annuals. These new large-flowering sorts are great improvements; the plants form little bushes about 10 inches high by 1 foot across and are a perfect mass of bloom from early summer until frost. The flowers average nearly 2 inches across, and range through yellow, golden and crimson, usually with a garden eye.

1603 Semi-Double Gold Crest. The color is rich golden yellow with a reddish brown zone and comes with a double row of maroon petals. The stems are long, ideal for cutting.

1604 Golden King. Large golden blossoms, with dark eyes.

1605 Golden Crown. Plants about 2 feet in height. The flowers are large and of perfect symmetrical form. The color, rich golden yellow, with a shining maroon central zone.

1606 Drummondii or "Golden Wave." Compact, bushy plants, covered with golden blossoms 2 inches across, with small dark center.

1610 King, Mixed Colors.

Price of each, per ¼ oz., 25c; pkt., 10c

Campanula

CANTERBURY BELLS or Bell-Flowers

No hardy garden or perennial border is complete without a representative group of Campanulas.

CALYCANTHEMA, Cup and Saucer (B)
The "Cup and Saucer" varieties are biennials flowering the second year from seed, producing beautiful single flowers 3 inches in length, sunsets 3 to 4 inches across. The plants form perfect pyramids of bloom for weeks during the early summer. (The seed should be sown every year for flowering the next year.)

1622 Blue.

1628 White.

1624 Rose.

1630 Mixed.

Price of each, per 1000 seeds, 50c; pkt., 15c

MEDIA, Canterbury Bells (B)

Very ornamental garden plants of easiest culture, flowering the second season from seed; hardy biennial (reminiscent to be sown every year for flowering the next year). 2½ feet high, producing large, bell-shaped flowers of exquisite colors.

1662 Single Blue

1666 Single White

1664 Single Rose

1670 Single Mixed

Price of each, per 1000 seeds, 50c; pkt., 15c

Henderson's Garden Guide & Record (Price, 35c or sent on request no charge with purchases amounting to $3.00 or over), gives complete cultural instructions and suggested uses for all the flower seeds listed in this catalogue.
Carnation

CHABAUD’S GIANT FLOWERING (A)
(See Color Plate, Page 78)

These creations of a French “Carnationist” surpass all the race in richness and variety of coloring, and are surprisingly beautiful. Now we have varieties flowering continuously after six months from sowing. Plants upright, bearing double blossoms, all perfuming the air with their sweetness.

Seed should be sown in the spring in the greenhouse, hot-bed or light window of dwelling house, in shallow boxes (2 inches deep) of light soil. Where the temperature will average 55 deg. When the seedlings are 2 inches high, plant them in the open ground, where they will form flowering clumps for the fall and winter.

1740 Chabaud’s Fancy. Mixed Colors.
There is no other strain of Carnations grown from seed that can compare to these. Our mixture contains a fascinating array of delicate tints and rich colors. Per 500 seeds, 60c; pkt., 25c

COLLECTION OF FIVE COLORS
1732 Dark Red 1735 Pink 1737 White
1733 Flesh 1738 Yellow
Price of the above, per 500 seeds, 75c
25c per packet
1741 Collection of 5 Varieties
1 packet, each $1.00

MARGUERITE, Giant Flowering (A)
The flowers often measure 2 inches across and are usually very double. Most of them have lovely fringed petals and are delightfully fragrant. Seed sown in the spring will produce luxuriant plants that will be continuously full of bloom from August until killed by severe frosts, or seeds may be sown during the summer for the winter-flowering plants.

1750 Mixed Colors.
Per 500 seeds, 50c; pkt., 15c

HARDY GARDEN (P)
Seed sown in spring will produce large clumps that will stand out over winter and bloom the following summer and fall. All very double.
1756 Prof Malmgren. A true brick red. Vienna Carnation, early and profuse flowering. Per 500 seeds, $1.00; pkt., 25c
1760 Finest Double Mixed. Extra fine strain. Per 500 seeds, $1.00; pkt., 25c

Celsia (A)

Among the showiest of our annual garden flowers. They are very effective when massed in the foreground of shrubs or evergreens, also for background planting in flower borders. The dwarf varieties are excellent for bedding.

CHILDSD, Chinese Wool Flower
1772 This unique type forms large globular heads like balls of wool chenille and of rich, bright red color. The plants, 2 to 3 feet in height, branch freely, each branch terminating with a flower-head. It continues in flower from early summer until frost.

Per 1000 seeds, 50c; pkt., 10c

ROYAL VELVET
1774 For cutting and garden use, this two-foot plant produces a large centre head and numerous large, long-stemmed cockscombs of a rich ruby red. Combs are borne erect and foliage is bronzy green with reddish margin. Very striking, flowers on symmetrical plants.

Per 1000 seeds, 75c; pkt., 25c

CRISTATA. Crested Cockscomb
Very popular annuals of easy culture, producing large, ornamental, comb-like heads, resembling ruffled chenille, they are prized for summer flower beds, and make fine pot plants. Height, 12 to 18 inches.

1776 Cardinal. Bright scarlet.
1778 Crimson King. Blood-red.
1790 Wine-rose
Per 1000 seeds, 50c; pkt., 10c

1792 PYRAMIDALIS “Flame of Fire.” They grow 18 to 20 inches high, with perfect pyramidal form carrying a large blaze-like colored plume on the top. They are very branching and each branch bears a plume.

Per 1000 seeds, 40c; pkt., 15c

PLUMOSA or Plumed Cockscomb
A superior type of Celsia Plumosa, forming pyramidal branching plants. 3½ feet high, and bearing large, conical, pluming heads. The plants present a showy appearance in the summer garden, lasting in bloom until frost. They are also very handsome grown in pots.

1794 Crimson Plumed
1796 Golden Plumed
1800 Mixed Plumed.
(Thompson’s Magnifica)
Price of above, per 1000 seeds, 50c; pkt., 10c

Cultural directions printed on back of seed packets. Explanation of the letters following the various species of flower seeds: (A) Annual. (P) Perennial. (CP) Climbing Perennial. (CA) Climbing Annual. (B) Biennial. (TP) Tender Perennial.
Chrysanthemum

ANNUAL VARIETIES

These improved varieties form bushy, compact, oval plants about 18 inches high, are of easy cultivation, and flower most abundantly during the summer; very showy garden annuals and fine for cutting, as the stems are still and long and they keep fresh for a long time.

SINGLE ANNUAL—PAINTED DAISY

(Shown in colors on page 79)

1890 One of the loveliest and showiest of the daisy-like flowers in cultivation. It contains a wonderful range of colors from pure white with yellow center through all the pink and rose tones, to deep mahogany-red. We offer mixed colors only.

Price per 1000 seeds, 50c; pkt., 15c

DOUBLE VARIETIES

1863 Golden Crown. A strong grower making vigorous plants three to four feet in height, foliage silver green with bright double yellow quilled petals.

Price per 500 seeds, 50c; pkt., 15c

1870 Mixed Double Annual Varieties.

Price per 500 seeds, 25c; pkt., 10c

PERENNIAL VARIETIES

1896 Shasta Daisy. This produces magnificent, pure white flowers 4 inches across, on stems 1½ to 2 feet in length. The plants, 2 to 2½ feet in height, flower in profusion.

Per 1000 seeds, 50c; pkt., 15c

1898 Shasta Daisy “Conqueror.” This is the largest flowering type that has yet been developed. This variety cannot be surpassed for its free blooming qualities or size of flowers.

Per 1000 seeds, 75c; pkt., 25c

1899 Shasta Daisy (Giant Double White). Forms unusual and beautifully shaped flowers with laciniate, curled and quilled petals. The flowers are all large and carried on long wiry stems. Per 500 seeds, $1.25; pkt., 25c

Early Flowering Hardy Chrysanthemum

SEPTEMBER JEWELS

A RECENT NOVELTY

1907 The most important advance made in Chrysanthemums since the introduction of the Korean Hybrids. They are of the utmost interest to all gardeners who delight in growing hardy Chrysanthemums from seed.

September Jewels are hybrids of Rubellum and exhibit the parent’s early blooming characteristic and winter hardiness. The plants start blooming early in September from seed sown in early spring and continue to give a magnificent display until the middle of October. They develop into well-rounded plants from 1 to 2 feet tall simply covered with masses of blooms which are resistant to light frost.

The large Daisy-like flowers show a distinct tendency toward a double row of ray petals. They measure from 2 to 3 inches in diameter and are as desirable for cutting as for garden display.

The range of colors is indescribably beautiful, tending toward the more delicate tones, yet with sufficient of the more rugged shades to give a rich color balance.

Popular and Colorful Late Flowering Hardy Chrysanthemums

1905 Korean Hybrids. Ours is the same strain of seed from which many of the popular named varieties of Korean Chrysanthemums have originated. These form bushy plants, flowering in the late fall. The flowers are single, in a great range of color. Seed sown indoors in the early spring produces blooms in the fall.

Mixed Colors

Per 1000 seeds, $1.25; pkt., 25c

There are few flowers that lend themselves so admirably for flower arrangements, as the single forms of Chrysanthemums. At the Fall Show of the New York Horticultural Society, many of the prize-winning table arrangements were made with Single Chrysanthemums.

IMPERIALS, Sweet Sultan

See Color Plate, page 78.

These giant-flowering “Sultans” produce long-stemmed, exquisitely fringed fragrant blossoms 3 to 4 inches across, of graceful effect. The colors vary, some having centers of a different color, as violet with white center, etc. The plants are of the easiest culture, flowering freely in the garden the first summer from seed sown in the spring. They are of strong, bushy form, 2 to 3½ feet high.

1838 Chameleon. Bright yellow flowers.

1842 Favorite. Brilliant, rose.

1844 Grasiosa. Deep lilac.

1846 Morgorite. Satiny-white flowers.

1850 Mixed Colors.

Price of above, per 500 seeds, 25c; pkt., 10c

1851 Collection of the above 6 separate colors... 50c

WHITE-LEAVED, Daisy Miller (P)

Extensively used for ribbon beds, edgings.

1832 Condiddissimo. Compact plants, silvery leaves; 1 foot... Per 500 seeds, 75c; pkt., 15c

1834 Gymnocarpa. Graceful arching silver-gray leaves; 1½ feet.

Per 500 seeds, 50c; pkt., 10c

Dwarf, Dark Blue Cornflower Jubilee Gem.

Centauraea (A)

1812 American Hollyh. Bushy annual, 30 inches high; large flowers 6 inches across, of lavender-blue; fragrant

1825 CYANUS, Cornflower, Bachelor’s Button, Ragged Sailor

1818 Jubilee Gem. The Popular Dwarf, Dark Blue Cornflower. A dwarf variety making a compact plant literally covered with flowers. It has foliage distinct from all other Cornflowers, forming a tufted mass of vivid green, contrasting well with the dark, double blue flowers. The plant is about 12 inches in height.

Per ½ oz., 50c; pkt., 15c

1824 Double Cormine.

1825 Double Blue. A very old favorite garden annual, flowering freely in almost any situation. Height, 2 to 3 feet; largely used for cut flowers.

1826 Double Mouve.

1827 Double Rose. An exceptionally fine strain of deep rose pink.

1828 Double Purple.

1829 Double White.

1830 Cyanus, Double, Mixed Colors. Produces large globular heads of flowers filled up to the center with florets.

Price of above, per ½ oz., 25c; pkt., 10c

1831 Collection of above 6 separate colors... 50c

68
Clarkia Elegans

ROCKY MOUNTAIN GARLAND (A)

For the decorations few flowers are more satisfactory. If the sprays are cut before all the buds have opened, they will last for a long time, or until all the buds have developed into bloom.

1944 Queen Mary. Lovely, rose-carmine flowers; very double.

1946 Scarlet Queen. Double rose-orange flowers developing to intense orange-scarlet.

1949 White Queen. Beautiful pure white; flowers very double.

1950 Double Mixed. Including many sorts.

Price of above, per 1000 seeds, 25c; pkt., 10c

1951 Collection. One packet each of the four named varieties. 30c

CERASTIUM. Snow in Summer (P)

1858 Tomentosum. White foliage and a profusion of small white flowers. Very pretty as an edging plant. Per 500 seeds, 50c; pkt., 25c

CHEIRANTHUS. Siberian Wallflower (P)

1859 Allioni Golden Bedder. Deep golden yellow, the individual flowers are large and sweetly scented. Height, 1½ feet. Per 1000 seeds, 50c; pkt., 15c

1860 Allioni. Bright orange-colored flowers, with dark green foliage; a splendid plant for rock gardens. Per 1000 seeds, 25c; pkt., 10c

CINERARIA HYBRIDA (TP)

Magnificent plants for spring decoration in the conservatory or window garden. The flowers cover the plant with a sheet of bloom. Colors: White, blue, violet and crimson shades.

1920 Large-flowering. Choiceest Mixed Pkt., 50c

Cleome

SPIDER FLOWER (A)

1963 Pink Queen—Silver Medal. Winner 1942 All America Selections. The old type was never very popular due to the displeasing magenta tones in the flowers. The New Pink Queen, on the contrary, produces large flowers of a delightful and refreshing soft pink color. The plant attains a height of about 3 feet. Pink Queen is an ideal plant for mass planting in the foreground of shrubbery, or for background planting in flower borders.

Pkt., 25c

1965 Gigantea Rosa. The feathery petals and long stamens give the flowers the appearance of an Orchid. Sow seed in May and when the seedlings are 3 or 4 inches high, thin out to stand 2 feet apart. The plants grow very rapidly and attain a height of from 3 to 5 feet. Recommended as a honey plant for bees.

Per oz., 40c; pkt., 10c

1966 Golden Cleome. A true Cleome of giant size, growing to 7 feet, and spectacular when in full bloom. It branches in free fashion and each branch ends in an ever-extending raceme of airy spidery blossom of a golden hue.

Pkt., 25c

CLEMATIS PANICULATA (P)

The Fragrant Fleecy White Virgin's Bower

1957 This lovely sweet-scented climber is one of the most satisfactory hardy vines in cultivation. It is fairly rapid in growth and attains a height of about 12 feet. The foliage is bright green, glossy and abundant. During August and September, the entire plant is covered with delightful clusters of fragrant, snow-white flowers. The plant is perfectly hardy, and vigorous, and is never attacked by insects.

Pkt., 25c

Cobaea Scandans

Cathedral Bells (A)

Elegant, rapid-growing climbers, attaining a height of 10 to 20 feet. Particularly desirable for covering arbors, walls, etc. Flowers large and bell-shaped.

1917 Blue

1968 White

Price of above, per 100 seeds, 50c; pkt., 15c

COREOPSIS (P)

These long-lasting flowers are simply perfect, measuring 3 inches and over in diameter, and are borne on stalks 15 to 18 inches in length.

1992 El Derado. Color, brilliant golden-yellow. This variety, although a hardy perennial, will flower the same season from seed sown early; compact, bushy plants, about 2 feet high.

Per 1000 seeds, 50c; pkt., 10c

1993 New Double. This semi-double form of this hardy perennial is proving to be very popular. Color, bright yellow.

Per 500 seeds, 50c; pkt., 15c

1994 Harvest Moon. It flowers the first season from seed sown early, producing immense, long-stemmed, rich yellow flowers, shaded with orange and flowering in profusion.

Per 1000 seeds, 50c; pkt., 10c

1995 Mayfield Giant. Is of Australian origin and the best yet introduced. The color is intense yellow.

Per 500 seeds, 50c; pkt., 15c

CUPHEA FIRELY (A)

2032 It develops into an attractive compact plant averaging about 10 inches in height, and when in bloom is covered with small delicately fiery cerise-red flowers. It is a welcome addition to the garden as a border or edging plant. It will also prove of value in the rock garden for supplying spots of brilliant color during the summer months.

Per 500 seeds, 50c; pkt., 15c

CYCLAMEN. See page 95

Cypress Vine (A)

Pretty vines, growing to a height of 10 to 15 feet, with delicate lichen-like foliage and dainty star-shaped flowers.

2056 Scarlet. 2058 White. 2060 Mixed Colors.

Price of above, per 500 seeds, 25c; pkt., 10c

CARDINAL CLIMBER

or

Scarlet Queen Cypress Vine (A)

2052 The fringed foliage forms an effective background for the brilliant scarlet tubular flowers, 1 to 1½ inches across. It grows about 10 feet high, being literally bespangled with flowers from July until late fall. The seed should be soaked in warm water before sowing.

Per 100 seeds, 25c; pkt., 10c
**Cosmos (A)**

**DOUBLE SENSATION (New)**

2016 An extra early, double form of the popular Sensation Cosmos. Two forms of double flowers are found in this new strain—the regular double created and the newer and novel fluted types—and both will average between 4½ and 5 inches across. Mixed Colors. Per 500 seeds, 75c; pkt., 25c

**“SENSATION” EARLY SINGLE FLOWERING**

This beautiful new variety produces flowers about 4 inches in diameter and blooms in about ten weeks after the seed is sown. It will prove a great acquisition as a cut flower. The plants attain a height of from 3 to 4 feet.

2018 A "Pinkie," Clear Rose Pink.
2018 Mixed Colors.

Price of above, per 500 seeds, 50c; pkt., 15c

2018 D Collection of above 3 varieties 35c

**ORANGE FLARE—Early Kondyke**

2029 The color is the same vivid orange of the ordinary Kondyke, but it flowers in less than 3 months from seed.

Per 500 seeds, 25c; pkt., 10c

**YELLOW FLARE—Silver Medal**

2029A A lovely and worthy companion flower to the popular Orange Flare Cosmos. It is quite similar in habit, but it is our opinion that the color is far more effective, being a bright golden yellow.

Per 500 seeds, 50c; pkt., 25c

**MIDSUMMER, Large Early Flowering**

The flowers average 3 inches across; the plants forming compact bushes only 4 feet high. Blooms from June to frost.

Price of above, per 500 seeds, 25c; pkt., 10c

**DOUBLE CRESTED, Early Flowering**

A distinct type, having double centers, with a row of guard petals around the base. It is a highly decorative garden and cut flower.

2011 Crested Crimson King.
2012 Crested Pink Beauty.
2013 Crested White Queen.
2014 Mixed.

Price of above, per 500 seeds, 50c; pkt., 15c

---

**Dahlia (A)**

Dahlias may be grown and flowered the same season if the seed is sown indoors or in a hothouse from February to March. Tubers are developed during the summer which should be dug in fall.

2005 Cactus-flowered, Double, Mixed Colors. Saved from choicest varieties.

2007 Caithness Hybrids. Very distinct plants 18 inches high, covered with charming single flow- ers. Mixed Colors. Per 500 seeds, $1.00; pkt., 25c

2007 New Double Giant-flowering Decorative. Flowers often 7 to 8 inches in diameter. Mixed Colors. Per 250 seeds, $1.00; pkt., 25c

2007 Miniature Hybrids. The plants average 2½ feet high and the flowers about 3 inches in diameter. Our hybrids will produce various interesting types, semi-double, double, cactus, etc. Seed started indoors or in a frame during February and March will produce flowering plants the same season.

Mixed Colors. Per 250 seeds, $1.00; pkt., 25c

2008 Single Giant Perfection, Mixed. Immense single flowers of various colors, including many striped and spotted sorts.

Per 500 seeds, 75c; pkt., 15c

**Delphinium (P)**

**HARDY LARKSPUR**

**Dahlias FROM SEED (A)**

2084 Chinesis, Blue Butterfly. A beautiful blue variety of compact growth. This is a perennial but blooms the first year if sown early. Height, 18 inches. Per 1000 seeds, 50c; pkt., 15c

2085 Belladonna Fanny Stormont. A greatly improved variety of the Belladonna Larkspur; it retains the early blooming habit and the light, azure blue color, but the flowers are much larger, and rise from 4 to 6 feet high; the upper 2 to 3 feet form a huge branching raceme of rich, well-placed flowers.

Per 1000 seeds, 60c; pkt., 25c

2087 Formosum. The color is deep blue with a white center. The branching plants grow from 2 to 3 feet high. Per 1000 seeds, 50c; pkt., 15c

2090 Giant Single and Double Hybrids. A splendid race of these popular hardy, garden plants. The blossoms are of immense size, single and double, borne on towering spike from 2 to 3 feet of their length. The colors are white, lavender, blue, azure, indigo and purple, several shades being blended in some of the varieties. The plants grow from 4 to 6 feet in height.

Mixed Colors. Per 1000 seeds, 1.00; pkt., 25c

2100 Single, Fine Mixed Colors. Per 1000 seeds, 50c; pkt., 10c

2102 Wreath Mums. Their graceful spheric spikes are rapidly bringing them to the front as the most popular flower for cutting or the garden. The mixture contains all the colors in Delphiniums Per 1000 seeds, $1.00; pkt., 25c

---

**Cynoglossum**

**CHINESE FORGET-ME-NOT (A)**

2051 Amabile Blue. A fine border plant, growing 18 inches high, producing sprays of bright blue flowers which bloom all summer.

Per 500 seeds, 25c; pkt., 10c

2051 A Amabile Pink

Per 500 seeds, 50c; pkt., 15c

2051 B Firmament. A welcome new dwarf type 15 to 18 inches tall and bushy, of rich blue color, always in garden demand, and should prove most popular.

Per 500 seeds, 60c; pkt., 25c

**Delphiniums Are Easily Grown From Seed**

The modern Delphiniums are unquestionably the most majestic of all garden flowers. Many lovely garden pictures can be produced by combining them with other plants, as, for instance, the Hardy Lilies listed on page 103. Delphinium seed may be sown over an extended period of time. Some growers prefer to start their seeds in flats during the month of February. This permits transplanting the seedlings to the garden in late spring, and frequently a small flower spike is obtained before winter sets in. The following year they develop in all their glory. Many gardeners start the seed in a small outdoor seed bed in April. Good results are also obtained by sowing the seed in a cold frame during the months of July and August.

**Cup and Saucer**

2091 V Lavender Pastel Shades. Color range from Clear Lavender to Lilac Lavender with contrasting white bees. Individual florets 2½ to 3 inches in diameter.

2092 V Light Blue Shades. Color range from light to medium blue, with white, fawn and black bees. Individual florets 2 to 2½ inches.

2093 V Dark Blue Shades. Color range from medium to dark blue, with white and dark bees for contrast. Individual florets 2 to 2½ inches in diameter.

2094 V Guinea Group. Light pink lavender self with white bee. Individual florets 2½ to 3 inches in diameter, large spikes, excellent branching habits. For cut flowers and show purposes.

Price of above, per 500 seeds, $2.00; pkt., 50c

2101 All Colors Mixed. The colors range from pure glistening white through myriad shades of rose and tones of lavender and blue.

Per 500 seeds, $1.50; pkt., 35c

**DELPHINIUM HYBRIDS NEW PACIFIC STRAIN**

This is the Vetterle & Reinhold strain which is now universally accepted as the finest strain of Hybrid Delphiniums in cultivation. It produces not only huge individual flowers and spikes which have been bred for balance and grace, as well as for color, but it also possesses a vigorous midwinter resisting constitution.

2091 V Lavender Pastel Shades. Color range from Clear Lavender to Lilac Lavender with contrasting white bees. Individual florets 2½ to 3 inches in diameter.

2092 V Light Blue Shades. Color range from light to medium blue, with white, fawn and black bees. Individual florets 2 to 2½ inches.

2093 V Dark Blue Shades. Color range from medium to dark blue, with white and dark bees for contrast. Individual florets 2 to 2½ inches in diameter.

2094 V Guinea Group. Light pink lavender self with white bee. Individual florets 2½ to 3 inches in diameter, large spikes, excellent branching habits. For cut flowers and show purposes.

Price of above, per 500 seeds, $2.00; pkt., 50c

2101 All Colors Mixed. The colors range from pure glistening white through myriad shades of rose and tones of lavender and blue.

Per 500 seeds, $1.50; pkt., 35c
Digitalis

Foxglove Glossinia-Flowered (B)

These are very hardy, easy to grow and produce freely spikes 4 to 5 feet high, furnished with large flowers of various colors, including white, cream, rose, red and other shades all of which have throat markings, spots and blotches of purple, maroon, etc. They require protection during the winter months.

2170 Mixed Colors. (Glossinoides) Price per 1000 seeds, 50c; pkt., 15c

California Poppy

ESCHSCHOLTZIA (A)

Flower profusely until late in the autumn, making them invaluable for bedding.

2214 Crimson King. The best of the red-flowering varieties. Bright crimson; interior, carmine.

2220 California, Double Mixed. White, yellow and orange.

2222 Golden West. Flowers of immense size. The colors are intense and shining yellows, some with orange blotches. Price of above, per 1000 seeds, 40c; pkt., 10c

2230 California, Single, Mixed. Orange, white, yellow, etc.

2232 New Hybrid. This new type is very erect and bears extra large flowers of tints and shades never before seen. They include soft pink, scarlet, chrome yellow, coppery red, shades of claret, royal purple, crimson, pink and orange-scarlet. Mixed Colors. Per 1000 seeds, 50c; pkt., 15c

2242 Tuft-like foliage, with blue daisy-like flowers 4½ inch across. Easily grown.

African Daisy

DIMORPHOTHECA (A)

2185 Golden African. (D. Aurantiflora.) A showy, branching plant; about 12 inches high. The single, daisy-like blossoms, 2½ inches in diameter, are orange, with a dark-colored disk, zoned black; flowers very early in sunny situations.

2186 Hybrid African Daisies. In color from white to red and tints of sulphur lemon and golden-yellow, orange, reddish-yellow salmon shades. Mixed Colors. Per 500 seeds, 40c; pkt., 10c

2187 White Beauty. Of compact habit, growing about 8 or 10 inches. The flowers of pure white with blue zone are very attractive.

2188 Ecklonis (White African Daisy). The flowers are white with a dark blue center, reverse side of petals lavender. A fine sort for garden and greenhouse culture.

DOLICHOS, Hyacinth Bean (A)

Annual climbers of rapid growth, 10 feet high, with Wisconsin-like clusters of flowers.

2192 Giant Crimson. Bluish, deepening with age to dark red.

2193 Giant White.

ERIGERON, Midsummer Daisy (P)

2205 Speciosus. A beautiful, hardy perennial border plant, having single, daisy-like flowers. Color: light lavender, yellow center...

EUPHORBIA (A)

2237 Heterophylla or Annual Poinsettia. The leaves are glossy green, turning to scarlet.

FELICIA BERGERIANA (King Fisher Daisy) (Queen of the Pio)
Gaillardia

BLANKET FLOWER

Perennial Varieties
One of our most dependable summer flowering perennials valuable in the border and for cut- ing. The flowers are often 3 to 4 inches across. 
2250 Giant Hardy Hybrid, Mixed Colors. 
For 500 seeds, 50c; pkt., 15c
2252 Grandiflora Portulaca Hybrids. This superb strain bears flowers of very large size, bronze- red with the characteristic golden-tipped petals. A splendid cut flower; also fine for perenni- al borders. 
2253 Breezes. This is the Gaillardia glorified. All coarseness and stiffness has been bred out. The flowers are deep, rich red, on strong stems about 18 inches high. Fine for cutting.
2254 Burgundy. The shining wine-red flowers (about 2 1/2 inches in diameter) are produced on long stems by bushy plants 2 1/2 feet high. They flower from June until the Autumn, and if sown in March blooms will appear the same year.

Price of above, per 500 seeds, 75c; pkt., 25c

Annual Varieties
Very showy garden annuals, 1 to 2 feet high. Grown in masses they are especially effective; large flowers, 2 to 3 inches across, produced from early summer until frost, unsuited for cutting. 
2255 Lorenziana, or Double-Flowering. Large, round heads composed of numerous florets of crimson, scarlet, lemon-orange, etc.
2260 Mixed Single Varieties.
Price of above, per 500 seeds, 25c; pkt., 10c

GERANIUM—Giant Flowering Hybrid (TP)
The colors include scarlet, crimson, rose, salmon, pink, white and the new auriole types. These stand hot sun, and, although perennials, they will flower for the same season. One seed is sown indoors early in the spring; 12 to 18 inches high.
2285 Single Giant-Flowering Hybrids. Mixed Colors ............................................. Pkt., 25c

GERBERA. Transvaal Daisy (TP)
They are half hardy perennials, usually grown as greenhouse plants. The daisy-like blossoms 3 to 4 inches across, being borne on 12 to 18-inch stems, are unsurpassed as cut flowers.
2270 Adae's New Hybrids. A French strain of incomparable delicacy and richness, in which an infinity of tints, from pure white through yellow, orange, salmon, rose, cerise and ruby red to violet are represented.
Per 100 seeds, 75c; pkt., 25c

GEUM (P)
Geums are hardy perennials, producing dwarf tufted plants, from which rise graceful stems, 2 feet high, bearing beautiful double flowers, which remain free from insects throughout the entire summer. They are also valuable for cut flowers.
2286 Lady Stratheden. Fine, double yellow.
2287 Gold Queen. The beautiful, double, orange flowers are borne freely throughout the entire summer. Excellent for cut flowers.
2288 Mrs. Bradshaw. Beautiful, double, crimson-scarlet flowers.
Price of above, per 500 seeds, 75c; pkt., 25c

Globe Amaranth (A)
The flowers are useful for dried winter bouquets; 2 feet high.
2290 Mixed Colors.
2291 Rubra. Purplish-red.
Price of above, per 500 seeds, 25c; pkt., 10c

GODETIA (A)

Satin Flower

Showy garden annuals of compact growth, about 1 foot high, bearing flowers 3 to 4 inches across, of exquisite colors and shades that glis- ten in the sunlight like satin.
2309 Charmig. The color is a glowing, deep, satiny pink. It is an ideal bedding plant and attains a height of about 18 inches.
2312 Crimson Glow. Intense, crimson.
2313 Gorgeous. The most freely flowering of all the Godetias. It grows about 1 foot high and bears large, satiny crimson flowers.
2315 Sybil Sherwood. Glorious shade of bright salmon-pink, softened by an edging of white.
2316 White Pearl. Large, white flowers.
2320 Finest Mixed Varieties.
Price of above, per 1000 seeds, 50c; pkt., 10c
2321 Collection of Godetia, 5 varieties .......................... 40c

Ornamental Gourds (A)

Favorite annual climbers, of rapid growth, immune from insect pests, 20 to 30 feet. Greatly in demand for children's gardens.

Gourd Crown of Thorns

2336 This is considered one of the most curi- ous varieties, sometimes known as the Holy or Sugar Bowl Gourd. The fruit is ivory white, bowl shaped, having ten prongs ex- tending from the ridges or angles; the shell is hard and durable; the prongs are hollow when inside fiber dries away ........ Pkt., 25c

2332 African Pipe Gourd. This produces the Or- namental Gourds from which are made the African Calabash pipe. A leaflet "Directions for Growing and Pipe Making" sent free on request.
2333 Giant Bottle Shaped. (Chinese water bottle.)
2334 Chinese Loofa. (Dishrag Gourd.) The fib- rous interior can be used as a sponge.
2335 Ripper-shelled. (Dried Calabash.)
2337 Hercules' Club. Green fruit, 2 to 5 feet long.
2338 Julius "Keb Kerrie." To the bell-like base, 4 inches in diameter, is attached stem 2 feet long.
2342 Mock Orange. Golden orange.
2344 Powder Horn. Green Fruit.
2347 Spoon. Small, yellow with green.
2348 Turk's Turban. Red, lower portion green, striped white.
2349 Nest Egg. White egg-like fruits.
2350 Mixed Ornamental Varieties.
Price of above, per oz., 40c; pkt., 10c
2351 Collection of above 12 varieties Ornamental Gourds ................................... $1.00

The First Gourd Book

This publication is based upon long experi- ence in gourd-gardening and is designed to aid the amateur in the cultivation, harvest- ing, curing, arrangements, exhibiting, etc.
Price, 50c

Gypsophila

Baby's Breath

Perennial Varieties
2362 Double-flowering. (G. paniculata fl. pt.) A new type bearing in profusion double white flowers which last long in perfection; 60 per cent come double, the balance single.
Per 1000 seeds, 75c; pkt., 25c

2364 Paniculata. A favorite hardy perennial. The feathery foliage and white flowers are largely used in making bouquets.
Per 1000 seeds, 50c; pkt., 10c

Annual Varieties
2366 "Paris Market." A pretty garden annual, of great value for bouquets, etc. This improved large-flowering variety of G. elegans forms branching plants about 2 feet high, cover- ing a summer long with clusters of snow-white flowers half an inch across.
Per oz., 60c; 1000 seeds, 25c; pkt., 10c
Hollyhocks

Annual Varieties

2450 Henderson's Ever-Blooming Hollyhocks. These annual Hollyhocks flower the first season from seed. The plants from early sow, then set out in May commence blooming in July and August, and then flower until frost. Some plants produce densely double flowers without guards, others with guard petals; there are semi-doubles with Aconitum-flowered centers, etc., and maroon pink, crimson, canary-yellow, cerise, white, scarlet, apricot, wine-red, etc. Combination Mixture.

Per 500 seeds, 50c; per pkt. (about 50 seeds), 15c

2452 Indian Spring. Actually blooming in 5 months from seed, with secondary blooms developing on side shoots after main flowering stem is cut away. This species has semi-double to double fringed flowers in shades of pink, on 4 to 5 foot plants the first season

Biennial Varieties

HENDERSON'S EXTRA CHOICE DOUBLE HOLLYHOCK They are old inhabitants of our gardens, but are now improved in doubleness and enlarged in size, under our special culture and hybridization. Hardy biennials—short-lived perennials. 3 to 8 feet high. The seed we offer has been saved from an unirated collection.

2421 Canary-yellow
2427 Maroon
2426 Lavender
2424 Crimson

Price, any of above, per 500 seeds, 50c; pkt., 10c

2440 Mixed. From named varieties
Per 500 seeds, 50c; pkt., 10c
2441 Collection of Double Hardy Hollyhock Seeds. 7 separate colors. 50c
2455 Single Flowering, Mixed Colors. Per 500 seeds, 25c; pkt., 10c
2462 Imperator. A new type of this hardy garden favorite, bearing flowers 5 inches across, with elegantly fringed and fringed outer petals, the center forming a double rossette 2 inches across. The colors are rose, cerise, salmon, cream and yellow. Mixed Colors.

Per 500 seeds, 75c; pkt., 25c

Helenium

"Everlasting or Strawflower" (A)

(Shown in Colors A, Page 74)
The dried flowers lend themselves admirably for table adornment or for making up ornamental baskets. When wanted for this purpose the flowers should be cut when about half open, remove foliage, tie in bunches, hang flowers heads down in a warm dark place until dry. Plants grow 2 to 3 feet high.

2382 Finch
2383 Golden Bell
2384 Rose Queen
2385 Salmon Queen
2386 Silver Bell
2388 Violet Queen

Price of above, per 1000 seeds, 25c; pkt., 10c
2391 Collection of above 6 varieties, 1 pkt. each, 50c

Everlasting Flowers are extremely popular for Basket arrangements and interior decorations during the winter months. They are all easily grown from seed and are attractive subjects in the garden. Among outstanding varieties are included the Acrocliniums (see page 83), Globe Amaranth (see page 77), Honesty (next column), Physalis or Chinese Lantern Plant (see page 85) and Statice, the Graceful Sea Lavender (see page 88).

Heliotrope (A)

HEUCHERA (P) 259 to 5000. Grows about 18 inches tall, foliage dwarf and compact, above which rise graceful flower spikes of coral red. A splendid plant for rock gardens and borders.

Per 500 seeds, 75c; pkt., 25c

HIBISCUS, Marsh Mallow (P) These form bushes about 4 feet high, bearing immense bowl-like flowers, often 6 inches across. 2407 Giant Crimson. This variety has brilliant dark red flowers. Per 25c
2408 Giant Yellow. Yellow, garnet throat. Per 25c

"HONESTY" (B) 2468 Lunaria Biennis. Especially useful in shady, damp places; the flowers of purple, crimson or white are followed by silvery transparent seed pods; prized for winter bouquets; height, 2 feet. Mixed Colors

Per 500 seeds, 25c; pkt., 10c

Hunnamannia

Giant Poppies or Bush Eschscholtzia (A) 2478 Sunlite. The bright, canary yellow flowers are like those of California Poppies except that they are more crinkled, and of greater substance. The leaves are glaucous and thick, but finely cut. The plants grow two feet tall and bloom in September and October.

Hunnamannias are handsome garden subjects under any conditions. Sown in a bed with Nigella (see page 82) they offer a pleasing contrast. The flowers are good keepers when cut in the bud, lasting a week. They are attractive combined with Baby's Breath.

As with all the Poppies, Hunnamannia seedlings do not transplant readily except just after germinating and then taken with a ball of soil. It is best to sow the seed in May where the plants are to grow, thinning them to 8 to 10 inches apart. If early results are desired, start the plants in small pots. Plants withstand drought and prefer full sunlight.

Per 1000 seeds, 75c; pkt., 25c

Kochia (A)

MEXICAN FIRE PLANT or SUMMER CYPRUS 2542 Tricophyta. It is easily grown from seed, forming oval bushes 2 to 2½ feet high, densely clothed with small, feathery, light-green foliage, deepening in color until the whole plant assumes a fiery crimson hue.

Per 1000 seeds, 25c; pkt., 10c
Henderson’s Red, White & Blue Group
OF NEW IMPROVED MORNING GLORIES
(Shown in colors on Page 58)

Start the day right with a thrilling smile from the World’s most beautiful Morning Glories. In this group we have combined the three most beautiful Morning Glories (Ipomoea) in cultivation. They are all of easy culture and flower throughout the entire summer.

2527 Henderson’s Red Greater Glory “Sunrise”. The flamboyant beauty of this new variety wins the instant admiration of all who see it. The flowers are fully four to five inches across and fire borne in profusion covering the entire plant. They are brilliant Crimson in color and extremely showy. Per 100 seeds 50c; pkt., 25c

The Loveliest White Morning Glory. Ipomoea Pearly Gates.

2503 This new variety of Ipomoea received the most votes of any of the 1942 candidates for All-American Honors. It is a sport of the popular Clark’s Early Heavenly Blue Ipomoea, and is a grand companion to it. The flowers are large, averaging about 4 inches across, and are pure white with creamy shading in the throat. Unlike most other varieties of Ipomoea, this one has a tendency to keep on blooming throughout the entire day. It attains a height of about 12 feet, and its foliage is extremely luxuriant. Per 100 seeds, 50c; pkt., 25c

2498 Clark’s Earliest Heavenly Blue Morning Glory. This is the earliest flowering variety, making a sparse growth of foliage, heavily covered with sky-blue flowers, with a golden throat. Seed should be sown in the late Spring in a dry, sandy location or can be started early indoors and seedlings transplanted. For covering a fence or trellis it is ideal. Per 200 seeds, 50c; pkt. 15c

2521 Special offer: one packet each of Red, White and Blue Morning Glories, 50c.

HENDERSON’S NEW IPOMOES
GREATER GLORIES (A)
Largest and Most Beautiful Morning Glories

The selection, segregation, and hybridization of thousands of the most desirable and most beautiful flowers obtained from the finest strains of Imperial Hybrid Ipomoeas, over a period of six years, resulted in the development of a great number of hybrids, many of which possessed outstanding characteristics. Through the process of elimination, the six varieties offered here were finally chosen as the most representative, and the most beautiful of the group.

Besides producing a luxuriant growth, which during the course of the season attains a height of from 15 to 20 feet, the plants are extremely free blooming, and as is unusual with other varieties of Ipomoea, the flowers, which range from four to five inches in diameter, are developed over the entire plant, beginning about a foot from the ground.

The plants are clothed from top to bottom with attractive three-lobed leaves, which adds much to their beauty. Henderson’s Greater Glories are among the most desirable annual vines that may grace the Gardens of America. Wherever plant material is required for drapes or for screening purposes, nothing finer could be desired. For garden enclosures, they will make a wall of living beauty that will be a joy throughout the summer. They can be used for covering fences of every description, also stone walls, dead trees, poles, etc.

2523 Blue Skies. Light Blue.
2524 Gleaming Star. Red with White Edge. 
2525 Pink Cloud. Shell Pink. 
2526 Purple Glow. Purple.
2527 Sunset. Crimson.
2528 Silvery Moon. White.
2530 Mixed Colors.

Price, per 100 seeds, 50c; per packet, 25c

Per 500 seeds, 25c; pkt., 10c

LANTANA (P)
2560 Rapid-growing, constant-blooming, tender perennial plants for pot culture in the winter or garden decoration in the summer; clusters of flowers, orange, white, pink, etc.; 2 to 3 feet. Mixed Colors. Per 500 seeds, 25c; pkt., 10c

LATHYRUS, Everlasting Peas (P)
These climb 6 to 8 feet high when trained on a trellis; the flowers are borne in large clusters. Splendid for cutting.

2607 Latifolius Red.
2608 Latifolius White Pearl.
2610 Latifolius Mixed Colors.

Price of above, per 1/2 oz., 50c; pkt., 15c

(Note: To hasten germination, we advise soaking the seed of Ipomoea overnight in warm water before planting.)
GIAN SPIRE

The size of both spike and flower has been increased by hybridizing, and shades of color produced not known before. Besides this, the branching habit of the plant has been intensified and more lateral flowers thrown out from the crown stems. They are of easy culture and thrive best in a sunny location.

2590 Giant Spire Mixed. A superb blend that contains many tints and shades not found in named sorts.

TALL-BRANCHING (Consolida Candelabrum fl. pl.)
Grow 2 to 3 feet tall and bears flower spikes on long stems of exceptional value for cutting. The spikes are of varied shades of red, blue, white, etc. They are of easy culture, keeping up a bright display until cut down by frost.

2572 Carmine
2573 Dark Blue
2575 Light Blue
2577 Rose
2579 White
2580 Mixed Colors

Price of above, per 1000 seeds, 25¢; pkt., 10c

2581 Collection of Branching Larkspur. One packet of each above 5 varieties 40c

Linaria

Annual Varieties

2627 Marocana "Fairy Bouquet." The plants, not more than 8 inches high, are very compact and bear much larger flowers than the type; in many distinct colors, such as rose, yellow, pink, lavender, carmine, red, violet, white and salmon. Mixed Colors. Per 1000 seeds, 50¢; pkt., 15c

2628 Marocana Hybrids Escalier Mixed. Each flower has a long, Columnine-like spur, the colors ranging through crimson and gold, pink, mauve, light blue, chamois and rose. Height from 12 to 18 inches. Mixed Colors. Per 1000 seeds, 25¢; pkt., 10c

LAVATERA, "Sunset" (A)

2618 Rosso Splendens. These richly colored rose-pink flowers may be cut on stems 2 feet or more in height. The flowers are borne throughout the summer and fall, making Lavatera "Sunset" very desirable for beds on the lawn or as border plants. The plants form branching, compact bushes 2 to 2½ feet high, well furnished with bronze-green foliage. Per 500 seeds, 40¢; pkt., 15c

LEPTOSYNE (A)

2619 Golden Rosette. The flowers are of perfect rosette form. The color is bright butter yellow and the blooms are produced in great profusion. As a cut flower the plants are excellent. This may be raised by sowing early in boxes or it may be sown in open ground. It blooms throughout the summer. Height, 18 inches. Pkt., 15c

2621 Stillmanii. A fine variety for cutting. Golden yellow flowers; early flowering; height, 1½ feet. Pkt., 15c

LIATRIS, Gay Feather (P)

2622 Highly desirable for the border. The plants grow 3 feet high and produce long spikes of rose-purple flowers from July to September. The flowers are much in demand for cutting purposes. Pkt., 25c

LOBELIA

Bedding Varieties (A)

(L. erinus Compacta.) Forms compact bushes about 6 inches high, which are sheeted with bloom throughout the season. Highly desirable for edgings and garden decoration, as well as for pot culture.

2634 Crystal Palace Compacta. Deep blue. Per 1000 seeds, 25¢; pkt., 15c

2640 Mixed Colors. Per 1000 seeds, 25¢; pkt., 15c

HARDY VARIETY (P)

They are one of the few flowering plants that thrive in shady situations; 2 to 4 feet.

2645 Cardinals. (Cardinal Flower.) Intense scarlet. Per 500 seeds, 75¢; pkt., 25c

Lupinus

Annual Varieties

HARTWEGGI GIANT

2659 A new, improved strain, 3 to 4 feet tall and having the base branching habit, with 4 to 6 spikes to a plant. Colors include dark blue, rose and white. Easily and quickly grown from seed. Mixed Colors. Per ½ oz., 50c; pkt., 15c

Henderson's Selected

They are fine for mixed borders. Plants attain a height of about 2 feet, are of robust, branching habit, and covered with pea-shaped flowers for most of their length.

2660 Annual Lupinus. Mixed. Per ½ oz., 50c; pkt., 15c

2661 Blue. Bright azur-blue. Per ½ oz., 50c; pkt., 15c

2662 Lavender. Delicate lavender. Per ½ oz., 50c; pkt., 15c

2664 Pink. Charming salmon-pink. Per ½ oz., 50c; pkt., 15c

2667 White. Pure white flowers. Per ½ oz., 50c; pkt., 10c

2669 Collection of 4 varieties for 30c

Perennial Varieties

Hardy Hybrids

2670 Showy, hardy perennial growing 3 to 4 feet in height, producing during summer long racemes of Pea-like flowers. Mixed Colors. Per ½ oz., 50c; pkt., 15c

RUSSELL'S LUPINS (P) Awarded a Gold Medal by the Royal Horticultural Society 2672 In this strain the colors are rich and varied, ranging through all the shades and tones of red, orange and deep yellow, as well as many intermediate tints and shades. The sharply spikes are borne clear above the foliage and are often from 3 to 3½ feet in length. To obtain the highest possible germination from seed, it should be chipped before sowing. This is easily done by holding the seed firmly between the finger and thumb, and with a sharp knife in the other hand penetrating the skin or shell, to allow moisture to penetrate into the kernel. Mixed Colors. Per 100 seeds, 75c; pkt., 25c

LYCHNIS, Lamp Flower

2675 Chalcedoniana. The scarlet Lychnis, an old garden favorite, bearing heads of bright scarlet flowers; very hardy; 3 to 4 feet. Per 1000 seeds, 25¢; pkt., 10c

MACHAERANTHUS, Taboka Daisy

2680 Tamocentralis. A blue flowered annual blooming right through the heat of summer. The flowers, ½ inches across, are of daisy form, having long narrow light blue petals with a small golden center. Height, 18 inches. (Shown in colors, page 60.). Per 500 seeds, 50c; pkt., 25c

MALLOW

2700 Dwarf, Large-Flowering. These grow about 2 feet in height and bear throughout the summer months large, saucer-shaped flowers of white, rose or crimson. Mixed Colors. Per 500 seeds, 40¢; pkt., 10c

Explanation of the letters following the various species of flower seeds:

(TP) Tender Perennial

Cultural directions printed on back of seed packets

75
Marigold (A)

There are few flowers that have responded so freely to the will of the plant hybridizers as the Marigold. The original types were coarse and possessed an unpleasant pungent odor. The first distinct change manifested itself in the Guinea Gold variety, and since its introduction some ten or more years ago, a number of outstanding lovely sorts have been developed. The African varieties are large flowering, and the French, small flowering sorts.

AFRICAN

AMERICAN BEAUTY

2702 This lovely in-curved type so startlingly new has created a sensation in hybrids. This new strain is identical in form of flower to a lovely incurved Chrysanthemum. The plants are very floriferous and the stems are good and strong. The flowers are of Mixed Colors. Per 1000 seeds, 40c; pkt., 15c.

GOLDSMITH

2704 The blooms remind you of the giant Incurved Chrysanthemums. They are, however, somewhat smaller, and their coloration is more brilliant. The rich golden-orange blooms are from 4 to 5 inches across. The plants, which grow 18 inches high, produce 8 to 12 stems of perfect cutting length. Per 1000 seeds, 40c; pkt., 15c.

GOLDEN BEDDER—All America Bronze Medal Winner

(Shown in colors on page 57)

2705 At our trial grounds at Red Bank, N. J., this new Marigold was outstanding for the earliness of its flowering period. It begins blooming before any other variety, and continues throughout the season. The plants grow into symmetrical mounds about one foot high, and are covered with golden orange flowers. The sensation of the flower is most artistic; it has a fairly double crest in the center, which is surrounded with outer guard petals, giving it a distinct appearance. It lends itself admirably as a cut flower.

Per 1000 seeds, 25c; pkt., 10c.

YELLOW SUPREME

2712 A beautiful double Carnation flowered variety, color, rich primrose yellow; odorless; grows to 2 to 3 feet high. A splendid companion for Marigold Guinea Gold.

Per 1000 seeds, 25c; pkt., 10c.

"CROWN OF GOLD"

2714 A variety with a Chrysanthemum-like top or crown surrounded by a collar of big, broad petals of the same color—bright golden-orange. The plants grow from 2 feet high. It does not have a strong odor. Per 1000 seeds, 40c; pkt., 15c.

GUINEA GOLD

2715 A distinct type of graceful pyramidal habit, growing 2 to 2½ feet high, and producing 30 to 40 flowers, 2 to 2½ inches across of brilliant shade of orange flushed with gold. This new variety produces practically 100% semi-double.

Per 1000 seeds, 40c; pkt., 15c.

GOLDEN EAGLET

2716 The name selected for this new Marigold is in honor of the Girl Scouts of America. A pure deep golden orange carnation flowered Marigold, more brilliant and lovelier than any variety hitherto produced. The flowers are over 3 inches in diameter, perfectly double, with broad loosely arranged petals. The plant attains a height of over 2 feet, and the flowers possess a pleasing scent.

Per 1000 seeds, 40c; pkt., 15c.

EARLY SUNRISE

2718 A very early flowering dwarf strain of Dixie Sunshine, true and distinct. Growing about 24 inches tall and bushy; foliage is yellowish-green 2 to 2½ inches incurred petaloid; lemon or sulphur flowers and freely produced.

Per 1000 seeds, 40c; pkt., 15c.

MARIGOLD GIGANTEA SUNSET GIANTS

(See L. on opposite page)

2720 They are loosely formed, very full centered with broad, heavy petals gracefully overlapping to make a flower of great depth 5 inches or more across. Sunset Giants is a mixture ranging through golden orange, deep golden yellow, light yellow, lemon yellow, and delightful new shade of primrose. Height, 3½ to 4 feet.

Per 1000 seeds, 40c; pkt., 15c.

PRIDE OF THE GARDEN

The Popular Old Fashioned Marigold

Produces densely double flowers 2 to 3 inches across for 2 to 3 feet. The plants form dense bushes 2 to 3 feet high. For garden display during the summer and autumn months nothing can surpass them.

2727 Lemon-yellow.

2728 Golden-orange.

2730 Mixed Colors.

Price of above, per 1000 seeds, 25c; pkt., 10c.

"An encyclopedia of flower culture boiled down to vest-pocket size," describes our booklet, "Henderson's Flowers for American Gardens." sent free on request.

Henderson's Summer Flowering Collection of Daisies

4785 Special Offer: one packet each 8 varieties $1.00

The offering of this collection was inspired by the interest manifested by the many thousands of enthusiastic people who saw the Henderson Daisy Hill (a section of which is shown below) exhibited by us at the 1940 International Flower Show at the Grand Central Palace, New York.

Daisies are among the most appealing of all flowers. They produce flowers in the greatest profusion over a long period of time. They require no pampering; they thrive on all soils, and simply luxuriate on rich soil.

Their grace and gaiety adds much to the garden picture, and their fine wiry stems and keeping qualities make them ideal for cutting for table arrangements and other decorative work. Cultural directions are printed on the seed packets.

Henderson's
Glorious Collection
of
New and Improved Petunias

3381 Special Offer: one packet each of six varieties $1.50

Key to Nos. on Color Plate

1 FLUFFY RUFFLES, A Modern Giant Single Fringed Variety
3378 This beautiful variety bears large flowers 3 to 4 inches in diameter, embracing many beautiful colors: crimson, pink, lavender, white, mottled, etc. Many of the flowers have yellow throats, while others are deeply lined and netted on a white, pink or lavender ground. The flowers are beautifully ruffled, frilled and fringed. Price per 1000 seeds, $1.00; pkt., 25c

2 GLOW, Hybrida Nana Compacta
3297 The dazzling carmine red of the flowers and the dwarf, bushy growth makes this Petunia an item of rare beauty. The flowers are borne in great profusion. Price per 1000 seeds, $1.00; pkt., 25c

3 FIRST LADY, Hybrida Nana Compacta
3296 Silver Medal, 1941 All-America Selection. This is the clearest of pinks—a distinctly new shade of light pink. The flowers measure 2½ inches across, and are borne in great profusion on the dwarf, bushy plants. The flowering season is particularly long. Price per 1000 seeds, $1.00; pkt., 25c

4 SILVER BLUE, Hybrida Nana Erecta
3299 One of the loveliest delicate blue Petunias in cultivation. The fine dwarf compact plants are covered all summer with the lovely light blue blossoms. Price per 1000 seeds, $1.00; pkt., 25c

5 CREAM STAR, Hybrida Nana Compacta
3293 A beautiful variety, producing star-shaped flowers of soft creamy white. Extremely free flowering. Fine, compact, bushy habit. Price per 1000 seeds, $1.00; pkt., 25c

6 NEW PETUNIA GLAMOUR (Shown in colors on page 57)
Awarded Honorable Mention by 1942 All-America Committee
3341 This is one of the loveliest Petunias we have ever grown. The flowers range from four to five inches across, they are artistically waved and ruffled, and the color is a beautiful salmon rose with golden brown veining on the white throat; brilliant in the garden and glorious under artificial light. It is continuously in bloom and is the object of much admiration wherever grown. The plant attains a height of from 15 to 18 inches. Price per 1000 seeds, $1.50; pkt., 50c

See Page 83
Marvel of Peru

FOUR O'CLOCK (A)

Of bushy habit, 2 feet high, bearing throughout
the summer large flowers of white, yellow,
crimson or scarlet, the flowers remain closed
until about 4 o'clock in the afternoon.
2750 Mixed Colors ......... Per oz., .35 pkt., 10c

MATRICARIA, Double Feverfew (A)

2765 Snowball. Forth garden plants, bearing
snow-white flowers in dense clusters, almost
covering the oval plants with bloom;
height, 8 inches. Very desirable for bedding
and fine for cutting.
2767 Tom Thumb Double Yellow. A dwarf bushy
plant about 8 inches high and covered through-
out the summer with miniature golden balls.
Price of above, per 1000 seeds, 75c; pkt., 10c

MESEMBRYANTHEMUM, Figmarigold (A)

2779 Cineraria. An ideal plant for rockeries,
edgings and crevices between stones, etc.;
flowers are crimson, white, rose, yellow; con-
tinuous bloomer; height, 8 inches. An ex-
ceptionally good cut flower, making a fine
arrangement.
Per 1000 seeds, $1.00; pkt., 25c

MIGNONETTE, Reseda Odorata (A)

2782 Allen's Defence. A splendid variety for
 greenhouse culture; long spikes of flowers.
Per 1000 seeds, 25c; pkt., 10c
2786 Odorata Large-Flowering. The popular, frag-
rant garden annual
Per oz., .40c; pkt., 10c
2788 Macket Perfection. Produces broad spikes
of flowers on strong stems, of con-
tinuous-blooming habit. Fine for either garden or pot culture.
Per 1000 seeds, 25c; pkt., 10c
2791 Golden Goliath. The flowers are a deep
golden-yellow in color, with spikes of immense
size, bearing blossom both in color and size any
golden variety yet introduced.
Per 1000 seeds, 50c; pkt., 15c
2792 Red Goliath. The spikes are immense, 6
 to 8 inches long by 2½ inches in diameter, and
are filled with giant fire-red flowers ½ inch
across. The fragrance is delightfully rich and
powerful.
Per 1000 seeds, 50c; pkt., 15c
2794 White Goliath. The double white-flowering
counterpart of the splendid "Red Goliath," of-
fered above
Per 1000 seeds, 50c; pkt., 15c

MINA LOBATA (CA)

2825 Adopted for verandas, etc. The flowers,
on an inch across, are borne in large clusters;
color, blood-red, changing to orange. Height, 18
to 20 feet
Pkt., 15c

MOMORDICA, Balsam Apple (CA)

2832 Balsamina. Annual climber; 15 feet; bear-
ing ornamental orange-colored fruits with red
interiors
Per oz., .75c; pkt., 10c

MYOSOTIS, Forget-Me-Not (P)

APLESTRIS ERECTA, BLUE SPIRE

2840 This variety, about 12 inches high, up-
right and symmetrical in growth, bears flowers of a
vivid blue, deeper yet brighter than indigo,
and produces a marvelous display during the
spring and early summer months
Pkt., 25c
2852 "Blue Eyes." A robust-growing variety of
fine constitution, exceedingly free-flowering and
bears its bright blue flowers well on the top. It
is 12 inches high, upright and compact in growth;
each plant making a bouquet of Forget-Me-Nots.
Pkt., 25c

3002 "Golden Globe." This bears large, double,
sweet-scented, golden-yellow flowers that made
the reputation of the Gleam, but the habit of the
plant is quite different. Instead of being a semi-
runner, it forms an almost perfect globe.
3008 Dwarf Double Gem Mixture. Compact plants
of various colors, bearing good-sized, sweet-
scented double flowers. Mixed Colors.
3012 Golden Gleam. The flowers are borne on
erect, stiff, 6-inch stems. When fully developed,
the plant sends out short runners, also bearing
numerous flowers, which add to the usefulness
of the plant for the window box or as a pot plant.
The long stems lend themselves admirably to
the cut-flower use, and the flowers emit a delightful
fragrance.
3013 Orange Gleam. The color is a deep, glow-
ing orange-scarlet; the sweet scent is very pro-
nounced.
3014 Scarlet Gleam. Dazzling in color; delight-
fully sweet-scented.
3018 Glorious Gleam Hybrids, Finest Mixed. The
color range includes an assortment of brilliant
shades of golden yellow, orange, scarlet, crimson
and many spotted varieties.
Price of above, oz., 25c; pkt., 10c

Climbing. Henderson's Giant-Flowering
2942 California. Enormous flowers of rich crim-
son-maroon, having a deeply fringed throat.
2944 Moonlight. Lovely creamy-white.
2945 Red Spurred. Large flowers of different col-
ors, blotched, spotted, red-edged, etc.
2946 Ruby-rose. Ruby-rose, shading into lighter
and darker tints.
2947 Salmon Queen. Rich glowing salmon color.
2948 Sunlight. Pure rich butter-yellow.
2949 Twilight. Chamois-yellow, shaded salmon-
or, and splashed scarlet.
Price of above, oz., 25c; pkt., 10c
2950 Giant-Flowering Climbing Nasturtiums. Mixed
Colors.
Pkt., 10c; oz., 20c; ¼ lb., 60c; lb., $2.00
2951 Henderson's Collection of Eight Giant-Flower-
ing Climbing Nasturtiums: 1 packet each, 60c

Tom Thumb. Dwarf Giant-Flowering
2993 Golden Gate. Immense flowers of rich
golden-orange.
2994 Gorgeous. Grand flowers of glowing sal-
mony-apricot.
2995 Kaleidoscope. The flowers vary in color on
a single plant.
2996 King of the Reds. Giant flowers of brilliant
crimson-scarlet.
2997 Mariposa. Yellow with terra-cotta blotches and
red veins.
2998 Rainbow. Canary, splashed and shaded carmines and rose.
Price of above, oz., 25c; pkt., 10c
3000 Giant-Flowering Tom Thumb. Mixed Colors.
Pkt., 10c; oz., 20c; ¼ lb., 60c; lb., $2.00
3001 Collection of Six Giant-Flowering Tom
Thumb Nasturtiums: 1 packet each, 50c

The Henderson Garden Fertilizer (See Page 146) contains all the food elements required to produce beautiful annual or perennial flowers.
Nemesia (A)

One of the most colorful of all annual flowers. Struemoa Suttori. These are the varieties of Nemesia which caused quite a sensation when exhibited by us at the International Flower Show held at Grand Central Palace, New York, last April.

Nemesia can be grown at various seasons of the year; in the spring and winter for greenhouse decoration, and pot plants, and for summer beds and borders outdoors. For this purpose, seeds must be sown in cold frames in March and transplanted to the open ground in May. Height, 12 to 15 inches.

3023 Blue. 3024 Pink 3026 White 3023 Orange 3025 Scarlet 3028 Mixed Colors

Price of any of the above, pkt., 15c

3030 Triumph Hybrids. The plants grow 6 to 8 inches high, in bushy form, and bear myriads of brilliantly colored flowers; cream, orange, yellow, crimson, rose, scarlet, etc., tipped with other colors. Mixed Colors

Price of any of the above, pkt., 15c

NEMOPHILA, California Blue-Bell (A)

3040 Splendid annuals, about 1 foot high, for garden decoration; clusters of bright-colored flowers in shades of blue, white and violet, odorless, dotted, etc., borne freely, all summer long if grown in a rather cool, partially shaded situation. Mixed Colors

Per 1000 seeds, 25c; pkt., 10c

Nicotiana

Flowering Tobacco (A)

3045 Affilis. The popular, free-flowing variety; fragrant, star-shaped, white flowers; annual; 3 feet high.

Per 1000 seeds, 25c; pkt., 10c

3046 "Crimson Bedder." The Nicotiana affilis has not been found suitable for bedding purposes. This novelty being of dwarf habit, not exceeding 12 inches in height, is very suitable for bedding. The flowers are a rich, deep crimson and freely produced, using them to be fluted, not unlike "tillied" velvet. The flowers are of unusual substance and borne on strong stems well above the foliage.

Per 1000 seeds, 50c; pkt., 15c

3047 Crimson King. Dark, velvety crimson red.

Per 1000 seeds, 40c; pkt., 10c

3050 Affilis Hybrids. Provide continuous display through summer and autumn, flowering in a few weeks from seed sowing. The plants, of branching, bushy habit, 2 to 3 feet high, carry the flowers in clusters, measuring 1½ to 2 inches across, and are very fragrant. Purple, white, dark red, red, light red, salmon, violet, rose and pink. Mixed Colors

Per 1000 seeds, 25c; pkt., 10c

Nierembergia (A)

3054 Hippomaneum. We can cordially recommend this beautiful little plant. Not more than 4 to 6 inches high, it forms a cushion of elegant light green foliage from which emerge single saucer shaped flowers of a delicate lavender hue, 1 to 1½ inches across, adorned with a clear yellow eye. Of highly ornamental effect, we are sure that it will prove a gem as a pot plant and also suitable for borders and edgings; the bloom is very profuse and of a long-lasting character.

Per 1000 seeds, 75c; pkt., 25c

3055 Purple Rose—Bronze Medal. All America Award. A new and welcome addition which bids fair to achieve great popularity for its rich violet-blue, dainty cup-shaped flowers. The plant develops into a small mound, about 6 inches high.

Per 1000 seeds, 1.00; pkt., 35c

Nigella, Love-in-a-Mist (A)

In the finely cut, fern-like green foliage nestling large, double flowers of light blue or white, the charming effect having suggested the popular name of "Love-in-a-Mist." 12 to 15 inches high.

3056 Miss Jekyll, Blue, Large, double, light blue. 3060 Domascena. Double Mixed. The tall type.

Price of above, per ½ oz., 25c; pkt., 10c

Henderson's Special Mixed Flower Seeds

4740 A garden may be made in any out-of-the-way place by broadcasting and raking in at the rate of 1 oz. per 100 square feet, mixed with sand or dry soil to secure even distribution. Price, oz., 25c; ½ lb., 75c; lb., $2.50; postpaid

Henderson's New and Improved Pansies (P)

To raise spring-sow Pansies, sow seed thinly in cold frame in March, transplant when the weather is favorable and the plants are of sufficient size.

Or sow in February in window box at temperature of 65 degrees. When large enough, transplant 2 inches apart, and open ground later.

How to Grow Pansies," our booklet on culture, is sent free to all applicants.

CORONATION GOLD

(Award of Merit All-American Selections)

3108 The most beautiful Yellow Pansy ever originated. The flowers are very large, clear rich golden yellow in color and possess a delightful spicy fragrance. The upper petals are attractively ruffled, which makes it undoubtedly one of the most valuable Pansies for cut flower purposes ever developed. Although a perennial, it is a popular annual, and is an ideal variety for the garden, and we believe will prove one of the outstanding Pansies for greenhouse culture.

Per 1000 seeds, $1.50; pkt., 25c

Henderson's Giant Ruffled

The broad petals seem to be "gathered" to the stem, giving them a bunchy and ruffled effect, not unlike "tillied" velvet. The flowers are of unusual substance and borne on strong stems well above the foliage.

Per 1000 seeds, $1.00; pkt., 25c

SWISS GIANT or Roggli's Hybrids

These varieties were raised by a Pansy Specialist in Switzerland and has created a decided sensation in horticultural circles.

The plants are very robust, and the very large flowers of heavy texture are carried on strong stems well above the leaves.

3172 Mixed Colors.

Per 1000 seeds, $1.50; pkt., 25c

TRIMARDEAU, Henderson's Giant

The popular variety for beds and borders.

Years of selection have evolved this superior type. The plants are of robust growth, deep-rooting, and drought-withstanding. The flowers have size, substance, form and a large range of color.

3240 Mixed Colors.

Per oz., 5¢; 1000 seeds, 75c; pkt., 15c

OENOTHERA, Evening Primrose (B)

Fine for mixed borders. Grows in branching form, 2 feet in height, and produces freely large, attractive yellow flowers. They open every evening and last well into the following day.

3071 Lom账onkiana... Per 1000 seeds, 25c; pkt., 10c

PENTSTEMON (P)

This should be grown as an annual, as they are then a valuable addition to beds and borders in summer.

3285 "Senseation." A Giant Gloxinia-flowered variety, rose-purple, about 2 feet high, carry flowers 2 inches across from July until frost. The colors and markings are varied from pink to scarlet and maroon, all blotched and veined with other colors.

Mixed Colors... pkt., 15c
Henderson’s
Select Petunias (A)
The Gayest and Most Free-blooming of Annual Flowers

The Petunia is a plant of many uses. It thrives as well on the seashore as on high mountainous altitudes; it adapts itself to formal or informal gardens, and can be used in the perennial border or rock garden to produce spots of color during the summer months. The Petunia combines well with most garden flowers, and a garden composed entirely of Petunias is indeed a gladsome thing.

**SINGLE DWARF, COMPACT BEDDING**

Dense, bushy little plants, about 8 to 12 inches high; the flowers, while not large, in their profusion fairly hide the plants.

- **3292** Celestial Rose. Deep rose with white throat; dwarf and compact. An improved type of Rose of Heaven. **Per 1000 seeds, 75c; pkt., 15c**
- **3299** Ladybird. A dwarf compact, very deep rose-colored variety. The plants are uniform and blooms of compact form and varying size give the effect of profusion. **Per 1000 seeds, 1.00; pkt., 25c**
- **3301A** Martha Washington. Flowers ruffled pink veined, wise red colors. **Per 1000 seeds, 1.00; pkt., 25c**
- **3304** Norma. Velvety-blue, with white center. **Per 1000 seeds, 60c; pkt., 15c**
- **3305 Periwinkle.** The color is a delightful shade of pastel blue. The flowers are large and the plant is compact. **Per 1000 seeds, 1.00; pkt., 25c**
- **3306 Rosy Morn or Pink Mound.** Rosy-pink with white throat, very popular. **Per 1000 seeds, 60c; pkt., 15c**
- **3307 Rose of Heaven.** A fine bedding sort, color brilliant rose. **Per 1000 seeds, 60c; pkt., 15c**
- **3307F** Johnson Supreme. Flowers light salmon, white throat, continuous bloomer; height, 1 foot. **Per 1000 seeds, 1.00; pkt., 25c**
- **3308 Snowball.** White flowers. Tinted blush. **Per 1000 seeds, 60c; pkt., 15c**
- **3310 Compacta, Mixed Colors.** Per 50 seeds, 50c; pkt., 10c

**BEDDING. Single Striped and Blotched. Large-Flowering**

The strain of seed we herewith offer is our very finest selection from this type of Petunia, producing large, single flowers; height, 1 foot. **3370 Mixed Colors.**

- Per oz., $2.50; 1/2 oz., 75c; pkt., 10c

**FLUFFY RUFFLES. A Modern Giant Single Fringed Variety**

- **3375** This beautiful variety bears large flowers 3 to 4 inches in diameter, embracing many beautiful colors: crimson, pink, lavender, white, mottled, etc. Many of the flowers have yellow throats, while others are deeply lined and netted on a white, pink or lavender ground. The flowers are beautifully ruffled, frilled and fringed. **Mixed Colors.**

- **Price per 1000 seeds, 1.00; pkt., 25c**

**GLOW, Hybrida Nana Compacta**

- **3397** The dazzling carmine red of the flowers and the dwarf, bushy growth makes this Petunia an item of rare beauty. The flowers are borne in great profusion. **Price per 1000 seeds, 1.00; pkt., 25c**

**FIRST LADY, Hybrida Nana Compacta**

- **3296 Silver Medal, 1941 All-America Selections. This is the clearest of pinks—a distinctly new shade of light pink. The flowers measure 3 1/2 inches across, and are borne in great profusion on the dwarf, bushy plants. The flowering season is particularly long.**

- **Price per 1000 seeds, 1.00; pkt., 25c**

**SILVER BLUE, Hybrida Nana Erecta**

- **3389** One of the loveliest delicate blue Petunias in cultivation. The fine dwarf compact plants are covered all summer with the lovely light blue blossoms. **Price per 1000 seeds, 1.00; pkt., 25c**

**CREAM STAR, Hybrida Nana Compacta**

- **3293** A beautiful variety; producing star-shaped flowers of soft creamy white. Extremely free flowering. Fine, compact, bushy habit. **Price per 1000 seeds, 1.00; pkt., 25c**

**NEW PETUNIA GLAMOUR (Shown in colors on page 80)**

- **Awarded Honorable Mention by 1942 All-America Committee**

- **3341** This is one of the loveliest Petunias we have ever grown. The flowers range from four to five inches across, they are artistically waved and ruffled, and the color is a beautiful salmon rose with golden brown veining on the white throat; brilliant in the garden and glorious under artificial light. It is continuously in bloom and is the object of much admiration wherever grown. The plant attains a height of from 15 to 18 inches. **Per pkt., 50c**

**GIANT SINGLE**

**Our strain is of incomparable beauty and size. Most of the flowers are exquisitely ruffled or fringed on the edges, and all are of enormous dimensions, 4 to 5 inches across.**

- **3332 Aurora.** Rose-pink, veined crimson. **Price per 1000 seeds, 1.50; pkt., 25c**
- **3333 Coerulea.** Fringed light blue flowers. **Price per 1000 seeds, 1.50; pkt., 25c**
- **3335 Elks Pride.** A large flowering and profuse blooming variety, color Elks Purple; a very desirable sort. **Price per 1000 seeds, 1.50; pkt., 25c**
- **3337 Flaming Velvet.** Brilliant velvety scarlet. **Price per 1000 seeds, 1.50; pkt., 25c**

**The Most Beautiful of All White Petunias SNOWSTORM**

- **3350** A beautiful large flowering pads-edged pure white variety, very free flowering, and we consider it the best, pure white sort for bedding or pot culture. **Per 1000 seeds, 1.50; pkt., 25c**

**SILVER BLUE, Hybrida Nana Erecta**

- **3389** One of the loveliest delicate blue Petunias in cultivation. The fine dwarf compact plants are covered all summer with the lovely light blue blossoms. **Price per 1000 seeds, 1.50; pkt., 25c**

**CREAM STAR, Hybrida Nana Compacta**

- **3293** A beautiful variety; producing star-shaped flowers of soft creamy white. Extremely free flowering. Fine, compact, bushy habit. **Price per 1000 seeds, 1.50; pkt., 25c**

**NEW PETUNIA GLAMOUR (Shown in colors on page 80)**

- **Awarded Honorable Mention by 1942 All-America Committee**

**3341** This is one of the loveliest Petunias we have ever grown. The flowers range from four to five inches across, they are artistically waved and ruffled, and the color is a beautiful salmon rose with golden brown veining on the white throat; brilliant in the garden and glorious under artificial light. It is continuously in bloom and is the object of much admiration wherever grown. The plant attains a height of from 15 to 18 inches. **Per pkt., 50c**

**NEW DWARF CALIFORNIA**

**Glorious Collection of New and Improved Petunias (Shown in Colors on Page 80)**

- **3381 Special Offer: one packet each of six varieties $1.50**

Petunias
Newest and Most Improved Varieties

Many lovely combinations can be produced with the various types of Petunias. They blend splendidly with Ageratum, Antirrhinum, Begonias, Centaurea Cyanus and Centaurea Imperialis, Heliotrope, Annual Larkspur, Nemesis, Phlox, and others. The seed of all but the double varieties may be sown directly in the open ground after danger from frost is over. Double Petunias should be started indoors during the early spring months.

DOUBLE VARIETIES

“GIANTS OF CALIFORNIA”, Double
These are as large as Hollyhocks and very double. The edges are fringed, petals flushed and crinkled, intensifying and varying the colors with high lights and dark shadows. They come in a variety of colors—sells, blotched, veined, margined, etc.; in short, these Double Petunias are unsurpassed by any other strain.

NOTE—This strain of Double-flowering Petunias does not produce seed. The pollen from the doubles is transferred to the chosen singles which produce seed, so only about one-third of the flowers will be double and these in the seeding stage are always the weaklings of the batch and are the ones to be transplanted.

ALL-DoubLe VictorIous
Dwarf Giant Flowering Fringed
These have attained great popularity, producing practically 100% double flowers; the plants grow about 12 inches high and are recommended particularly for pot plants.

APPLE BLOSSOM

3324 Ideal dwarf plants with large fringed flowers of pleasing apple blossom pink. It is extremely popular and can be depended upon to come true and double from seed......... Pkt., 50c

MINIATURE or GEM VARIETIES

3303 Pink Gem. It forms a compact plant 5 to 6 inches high, smothered with deep pink blooms. Fine for window boxes, pots, rock gardens and for bedding.

3301 Rose Gem. It is the rich deep rose that has made Petunia Rose of Heaven so popular. The plant is 5 to 6 inches high and smothered with blooms about 2 inches in diameter.

339A Violet Gem. This variety is a true miniature in every respect. The plants are neat, dwarf and compact—the blooms are just the size you would expect to find on this type of plant. The rich violet-blue blooms are so plentiful that they all hide the deep, dark green foliage. The plants maintain their dwarf and compact miniature form surprisingly well all season.

Price of each of above named varieties, per 1000 seeds, $1.00; pkt., 25c

HYBRIDA. HOLLYWOOD STAR

337A Distinctive novelty with 5-pointed, star-shaped flowers of rose-pink with creamy-yellow throats. Leaves are narrow and elongated, plants bushy, erect, growing taller toward the end of season. Early blooming and prolific all season. Per 1000 seeds, $1.00; pkt., 25c

BETSY ROSS

3331A A giant flowered variety producing 100% of double flowering plants, which are remarkably uniform in habit; this mixture contains a fine assortment of brilliant and fancy colors. Pkt., 50c

“TRIUMPHANT” All Double Giant Fringed
3331 We offer seeds direct from the producer, who claims they will grow 100% double flowering plants. Beautiful colors, such as crimson, brilliant rose, velvety purple, violet, white, creamy yellow, variegated, etc. Mixed Colors. Pkt., 50c

3330 Pink Gem. It forms a compact plant 5 to 6 inches high, smothered with deep pink blooms. Fine for window boxes, pots, rock gardens and for bedding.

3301 Rose Gem. It is the rich deep rose that has made Petunia Rose of Heaven so popular. The plant is 5 to 6 inches high and smothered with blooms about 2 inches in diameter.

339A Violet Gem. This variety is a true miniature in every respect. The plants are neat, dwarf and compact—the blooms are just the size you would expect to find on this type of plant. The rich violet-blue blooms are so plentiful that they all hide the deep, dark green foliage. The plants maintain their dwarf and compact miniature form surprisingly well all season.

Price of each of above named varieties, per 1000 seeds, $1.00; pkt., 25c

BETSY ROSS

3331A A giant flowered variety producing 100% of double flowering plants, which are remarkably uniform in habit; this mixture contains a fine assortment of brilliant and fancy colors. Pkt., 50c

“TRIUMPHANT” All Double Giant Fringed
3331 We offer seeds direct from the producer, who claims they will grow 100% double flowering plants. Beautiful colors, such as crimson, brilliant rose, velvety purple, violet, white, creamy yellow, variegated, etc. Mixed Colors. Pkt., 50c
Phlox Annual Varieties

DRUMMONDI
For beds nothing can surpass these beautiful annuals. Separate colors, planted in separate beds, or the scarlet or pink surrounded by the white, or planted in designs, will form a floral picture. They produce immense trusses of large, brilliant flowers throughout the summer; 1½ feet high.

3382 Alba. White.
3383 Brilliant Rose. Pink and rose.
3384 Chamois Rose. Salmon-pink, orange eye.
3385 Cocinea. Brilliant scarlet.
3387 Isabellina. Yellow, garnet eye.
3388 Lilac.
3389 Splendens. Dazzling scarlet with large, white eye.
3390 Mixed Colors.
Price of above, per 1000 seeds, 75c; pkt., 15c
3391 'Brilliant' Collection, 1 pkt. each of the above 7 varieties ................................... 75c

GIGANTEA ART SHADES
3396 It has a wonderful range of color in soft art shades. The colors range as follows, salmon with white eye, soft rose with white eye, light blue with white eye, light mauve with cream eye, etc. Per 1000 seeds, 75c; pkt., 15c

3397 Salmon Glory. This huge flowered variety has soft but rich salmon-pink florets with wide, creamy-white eyes. A grand variety for bedding and cutting. Per 1000 seeds, $1.00; pkt., 25c

3398 Red Glory. This lovely new Phlox is derived from a parentage of consistent Award Winners, beginning with the Gigantea Art shades, which won the Silver Medal in 1935. Red Glory makes a fine proportioned plant, slightly over 1 foot high. The flowers are brilliant red, with a white eye, producing a sharp contrast that tends to add sparkle and brilliance to the flower. It is a constant bloomer, and should prove to be a valuable addition to the garden. Per 1000 seeds, $1.00; pkt., 25c

DRUMMONDI Dwarf
A very desirable dwarf variety, growing 6 inches high; fine for edgings and borders.

3405 Fireball. Bears a profusion of small, scarlet flowers that are borne from early summer till late fall. Per 1000 seeds, 75c; pkt., 15c
3406 Snowball. Counterpart of the above with pure white flowers. Per 1000 seeds, 75c; pkt., 15c

PHYSOSTEGIA, False Dragonhead (P)
3418 Virginica. This stately, hardy plant grows between 4 and 5 feet high, and is covered during the summer with pale lilac-colored tubular flowers .............................................. Pkt., 10c

Physalis Chinese Lantern Plant (P)
3415 Franchetii. Has come into favor for the decorative value of its orange-scarlet lantern-shaped pods. Although a perennial, the pods are produced the same year from spring-sown seed. Height, 2 feet. Per 500 seeds, 50c; pkt., 15c

Platycodon Chinese Bell Flower (P)
Hardy perennial, bearing large, broad, bell-shaped white or blue flowers; fine for garden decoration; 1½ feet.

3420 Grandiflora. Mixed Colors.
Per 1000 seeds, 75c; pkt., 25c
3425 Morilesii. (Wahlenbergia grandiflora nana.) Very handsome variety, forming dense, little round bushes about 12 inches high and bearing bell-shaped flowers about 3 inches across of white and varying shades of blue, lavender and purple. Mixed Colors. Per 1000 seeds, $1.00; pkt., 25c

DOUBLE POPPIES in accordance with a ruling of the Federal Narcotics Department, it is illegal to cultivate any varieties of Poppies from which opiates may be extracted. These include Double Carnation Flowered, Giant Double, etc.

Poppy Henderson's Selected Annual Varieties

AMERICAN LEGION
3464 An improved variety of Flanders Poppy; color brilliant orange-scarlet. Per 1000 seeds, 25c; oz., 75c; pkt., 10c

ENGLISH SCARLET FIELD
3465 The famous Scarlet Poppy of the English fields . . . . Per 1000 seeds, 25c; oz., 75c; pkt., 10c

SHIRLEY, Henderson's Extra Select
The flowers are fluted and crinkled, resembling crumpled satin. The plants are about 12 inches high, well branched, and continue in bloom for weeks. Seed must be sown where the plants are to grow, as they will not stand transplanting.

3470 Mixed Colors.
Per 1000 seeds, 25c; oz., 75c; pkt., 10c

PHLOX DRUMMONDI—Always Gay and Brilliant

PHYTOLACCA American Grown

85
Perfumed Poppy

PERENNIAL VARIETIES

ICELAND (Papaver nudicorne)
These dwarf Poppies bloom the first season from spring-sown seed. The fragrant, crushed-satin-like flowers are produced from the beginning of June to October; fine for cutting.

3480 Mixed Colors.
3481 Sunbeam. Contains many new colors, including straw, cream, and many rose tints.
Mixed Colors.

Price of above, per 1000 seeds, 60c; pkt., 15c

3481A Yellow Wonder (Nudicorne Amurensis). A giant flowering variety, strong grower, blooms rich yellow. Per 1000 seeds, 75c; pkt., 15c.

ORIENTAL Hardy Giant (Papaver Orientale)
Among hardy perennials these hold an unrivaled position for gorgeous effectiveness in gardens and hardy borders. Height, 1 to 3 feet. Flowers immense, often 6 inches or more across. They are also grand, cut in bud state, for vases. The seed should be sown in the open ground in June or July in order to bloom the following summer.

3490 Oriental Hybrids. Mixed Colors. Per 1000 seeds, 60c; pkt., 15c.

Portulaca

Rose Moss or Sun Plant (A)
For low beds and masses of color, from spring until frost, they are indispensable; colors range through innumerable shades of red, yellow, pink striped, white, etc.

3500 Double. Mixed Colors. The flowers are like little roses. Per 1000 seeds, 75c; pkt., 25c.
3510 Single. Mixed Colors. Per 1000 seeds, 50c; pkt., 15c.

Primula Primrose (TP)

3525 Oboconica Gigantea. These “Ever-flowering Primroses” are favorite pot plants for the house, producing flowers measuring 1½ inches across. Several colors in mixture; white, crimson, rose, violet, lilac, pink-eyed sort, etc.
Mixed Colors. Pkt., 25c.

NEW ORIENTAL POPPY, SALMON SHADES
3488 This is a new hybrid strain of the popular Hardy Perennial Oriental Poppy, which is extremely vigorous in growth. Under favorable conditions, the flower stems attain a height of from 3 to 3½ feet. The flowers also are very large, ranging from 5 to 6 inches in diameter. The color range is most pleasing. Many flowers are pure salmon and others produce lovely salmon tints. The plant is perfectly hardy and blooms over an extended period, from early summer to early autumn. Pkt., 25c.

Pyrethrum

Persian Daisy (P)
Hardy, herbaceous plants, with large single or double flowers, 3 to 4 inches across, of rose, flesh, pink, white, lavender, crimson, etc., with yellow center; freely borne on stems about 1½ feet high. They remain in bloom for a long time. They are now very popular as cut flowers.

3560 Hybrida, Single, Large-Flowering. Mixed Colors. Per 1000 seeds, 75c; pkt., 25c.
3552 Aureum, Yellow-leaved Golden Feather. This is also a perennial variety, but is usually grown as an annual. Dwarf plants about 8 inches high, used for ribbon and carpet bedding; foliage of bright yellow. Per 1000 seeds, 25c; pkt., 10c.

Ricinus

Castor Oil Plant (A)
3572 Borboniensis. Immense green foliage; 15 ft.
Per oz., 35c; pkt., 10c.
3580 Mixed Varieties.
Per lb., $2.50; oz., 25c; pkt., 10c.
3585 Zanzibariensis (Mixed). Leaves green, brown or purplish. Per oz., 35c; pkt., 10c.

Rudbeckia. Kelvedon Star (A)
3592 This is a rampant grower, reaching 3 feet in height. sowings should be made indoors in February and seedlings planted out during second week of May; by July it will fill in the bed and flower till cut down by frost. The flowers have brown central discs, with mahogany zone on petals of deep golden yellow. Pkt., 25c.
Salpiglossis

EMPEROR (A)

Painted Tongue

The immense, Petunia-like flowers are borne on sturdy, branching plants, 24 inches in height. The colors are intricately netted, penciled and veined with golden-yellow or other colors and flower profusely during the summer. They have excellent keeping qualities as cut flowers.

3610 Mixed Colors. This mixture is an inspiration to those who are artistically minded. It is a marvelous blend of richest crimson and gold, with shades of royal purple and royal violet, etc. All are exquisitely penciled and marbled.

Per 1000 seeds, 40c; pkt., 10c

3602 Light Blue. Veined gold. See L page 77

3603 Bright Crimson. Mixed with shades of royal purple.

3604 Golden-Yellow. With shades of royal violet.

3605 Lilac. Veined gold.

3607 Pink.

3608 Purple-Violet. Veined gold.

Price of above, per 1000 seeds, 50c; pkt., 10c

3611 Collection of above, 6 separate colors. 50c

NEW DWARF GIANT FLOWERING

All the plants are bushy and compact in growth, growing to a height of 30 inches, which is about 8 inches shorter than the spreading Emperor type. No vigor has been lost in shortening the plants, and they will survive a hot summer and outlast the old strain. The flowers are formed in a group or cluster at the head of each plant. They considerbly surpass other sorts in size and color combination. This strain is excellent for bedding and cutting purposes.

3612 Red Star. Wide red stripes spread star-like from a golden yellow throat. The ground color is light chamois. This color combination is entirely new in Salpiglossis.

3614 Blue and Silver. Here is an entirely new Salpiglossis color. Instead of the usual gold markings, this fine novelty sets off its deep mid-blue color with silver veins. Every flower is glistening gold at the base of its throat. And this seems to enhance the shimmering markings of the open face.

3616 Velvety Violet. The flowers are a solid deep violet right to the base of the throat, and they have such a fine texture that they show a velvet sheen.

3617 Mixed Colors.

Price for any of above—per pkt., 25c

The Popular Blue Salvia

3631 Farinacea Blue Bedder. The plants grow from 4 to 5 feet tall, having long spikes of light-blue flowers. Seed sown indoors in February will bloom in August. This is quite distinct from Salvia Splendens.

Per 1000 seeds, $1.00; pkt., 15c

Scabiosa (A)

Mourning Bride or Pincushion Flower

Annual Varieties

These varieties of Maximia Plena represent an improved type of this old garden favorite; the flowers are continuous until frost. They measure 6 to 8 inches in circumference, are double clear to the center, and have long stems. Their delicate fragrance make them favorites in the garden or for cutting purposes.

3650 Mixed Colors. A pleasing array of harmonious colors. Lovely in combination in beds or in the hardy border for summer flowers.

Per 500 seeds, 40c; pkt., 15c

3642 Azure Fairy. Light blue.

3643 Cerise. Lovely cerise-red.

3644 Cattleya. The color is a rich rosy lilac of the beautiful orchid tone.

3645 Lavleness. Soft, delicate salmon-rose.

3646 Golden Yellow.

3647 Royal Purple.

3648 Snowball. Pure white.

Price of above, per 500 seeds, 50c; pkt., 10c

3651 Collection of above 7 separate varieties 60c

BLUE MOON—

3652 Large deep lavender-blue flowers, wiry, basil branching, erectly held stems. This is of the bee-hive shape, deep and wide, covered with petals and without the pincushion tops.

Per 500 seeds, 75c; pkt., 15c

PEACE

3654 Peace is pure white without the slightest tinge of pink or make. The flowers are 1½ to 2 inches across, of perfect form, almost spherical in shape. The sturdy plants grow 2 ft. in length.

Per 500 seeds, 75c; pkt., 15c

Perennial Varieties

Scabiosa is one of the most desirable of the hardy plants for cutting purposes.

3658 Caulcosia Alba. A pure white variety; counterpart of the Perfecta; the flowers measure 3 to 4 ins. across.

Per 500 seeds, 75c; pkt., 25c

3657 Caulcosia Perfecta. Forms dense, spreading plants 2 to 3 feet high. The semi-double flowers, 3 to 4 inches across, are poised on stalks 1½ to 2 feet long, making them of exceptional value for cutting. Color a beautiful lilac-blue, shading to deep blue.

Per 500 seeds, 75c; pkt., 15c

3657A Isaac House Giants Hybrids. A greatly improved type of Caulcosia; colors light dark blue and various mauve and lilac shades. Mixed Colors. . . . Per 500 seeds, $1.00; pkt., 25c

3658 Japanaca. A new variety, 2½ to 3 feet in height and branching; elegant light green foliage. Flowers 2 to 2½ inches across on long, wiry stems 15 to 20 inches in length. Color, mauve or lavender-blue. The plant flowers from the end of June until late in autumn.

Per 500 seeds, 50c; pkt., 10c
**Schizanthus (A)**

*Butterfly Flower or Poorman's Orchid*

Our strains are valuable for pots and decoration. In the garden sow the seed directly outdoors late in spring where the plants are to grow, as they do not transplant readily. The plants begin blooming in about two months' time. The Schizanthus is a superb cut-flower. Arranged in a vase, it resembles sprays of orchids and keeps in splendid condition for a week or more.

3670 Dr. Goddard's Giant Flowering Hybrids. A super strain, robust and bushy, 1 1/2 to 2 feet in height, with bright green, fern-like foliage. The flowers measure from 1 to 1 1/2 inches across. The light varieties, white, pink, buff-rose or yellow, have marked centers. The darkest sorts are of purple, mauve or red, marbled by a deep tone of the ground color. **Mixed Colors.**

Per 1000 seeds, 75c; pkt., 25c

3675 Wisetonensis Hybrids, Large-flowering. **Mixed Colors.** Beautiful colors and combinations in great variety. Per 1000 seeds, 75c; pkt., 25c

**SAMILAX (TP)**

3685 Charming, tender climber for greenhouse or window gardens; the foliage and stems are of a pleasing light green; very graceful. Excellent for decoration. **Per 500 seeds, 50c; pkt., 10c**

**Star of Texas**

*Xanthesma Texanum (A)*

3688 Flowers are light canary-yellow with a lighter colored center: single, daisy-like, with long, pointed petals. Stems are thin and strong, and although they are not very long, they are suitable for cutting. Does well in dry, open places. Bushy, erect plants, 1 1/2 feet high; very free blooming. **Pkt., 25c**

**STEVIA SERRATA (A)**

3700 The plants bear a profusion of pure white, fragrant flowers all summer and fall. **Per 1000 seeds, 50c; pkt., 10c**

**STATICE, Sea Lavender (A)**

These new varieties are used when dried for winter bouquets. They are also valuable for growing in rockeries; plants 2 feet high. branch freely for cutting. They are easily grown and are highly fragrant. **Pkt., 25c**

3692 Sinuata Atrocerulea, Dark blue.

3693 Bondiella, Lemon yellow.

3698 Sinuata Rose. Brilliant rose. **Price of above, per 1/4 oz., 40c; pkt., 10c**

**STOCK, ROSE STANDISH**

**Stocks (A)**

*“Beauty” or “Giant Nice”*

The plants in flower stand about 2 feet in height. The side branches each carry a tall spike, furnished with large, clove-scented flowers. They do not flower as quickly as Ten-week Stocks, requiring from 12 to 15 weeks. When grown for winter flowering, sow the seeds in July or August. As cut flowers they are unsatisfactory.

3703 Beauty of Nice. Exquisite flesh-pink.

3704 Crimson King. Brilliant velvety crimson.

3705 Light Violet. Extra fine.

3707 Madame Rivoire. Double white.

3708 Queen Alexandra. Roxy lavender.

3709 Rose of Nice. Carnation-rose.

3770 Mixed Colors. **Price of above, per 1000 seeds, 75c; pkt., 15c**

3771 Collection of 6 Giant Excelsior Stocks. **$1.00**

**DOUBLE GIANT EXCELSIOR (Improved Column)**

Non-branching, producing one flowering spike. A beautiful sort particularly adapted for greenhouse use. Producing one stem 2 to 2 1/2 feet long set with fine double flowers, the blooms appear when the plant is about 1 foot tall.

3772 Apple Blossom. 3776 Pink.

3773 El Dorado. Sulphur-yellow.

3774 Grand Rouge. Brilliant crimson.

3775 Mont Blanc. Purest white.

3777 Rosy Morn. Delicate rosy-flesh.

3740 Mixed. Brilliant colors. **Price of above, per 1000 seeds, 75c; pkt., 15c**

3741 Collection of Colossal Stocks. **Price of above, per each of the 5 separate varieties, 60c**

**Colossal Ten Weeks**

This is without rival for open-ground planting, producing a height of 2 1/2 feet; the spikes of bloom are long, and the individual flowers are very double. They are easily grown and are highly fragrant. They should be given good, rich soil to grow in.

3778 Blue Bells. Pretty shade of blue.

3779 El Dorado. Sulphur-yellow.

3784 Grand Rouge. Brilliant crimson.

3786 Mont Blanc. Purest white.

3797 Rosy Morn. Delicate rosy-flesh.

3740 Mixed. Brilliant colors. **Price of above, per 1000 seeds, 75c; pkt., 15c**

3741 Collection of Colossal Stocks. **Price of above, per each of the 5 separate varieties, 60c**

**Large-Flowering Ten Weeks**

Favorites for garden decoration; flowers double, of various colors and very fragrant.

3745 Cut-and-Come-Again Princess Alice. This branching plant, about 2 feet high, produce profusely from summer to double white flowers, splendid for cutting.

3750 Double Mixed. **Per 1000 seeds, 75c; pkt., 10c**

**Early Colonial Branching**

Here for the first time is a tall and really exclusively branching type of stock. This new strain grows about two weeks earlier than the perpetual branching class, and grows to a height of two to two and one-half feet.

Unlike many strains, the new early Colonial does not produce a center spike, and consequently does not require pruning back to make it branch. From the base of each plant eight to ten very 30-inch branches spread out and produce a plant 20 inches in diameter. The large florets are formed on spikes 12 to 15 inches long.

3755 Rose Standish. A magnificent large-flowered bright rose. A fine color for cutting and one that shows off to advantage under artificial light.

3755 Mayflower—Red Rose. 3753 Priscilla—White Rose.

3745 Lady Lavender. 3754 Perfect—Pure White.

3760 Mixed Colors. **Per 1000 seeds, 75c; pkt., 15c**

**Stock Gardenia**

3748 This remarkable, new Giant Column Stock is indeed the last word in perfection for its class. Shimmering glistening white, the flowers are the purest snow white of any Stock variety yet introduced. Producing only one flower spike to a plant, this spike will, however, be of enormous size, 12 inches to 15 inches of florets and nearly 3 feet in length, and 6 or even 4 1/2 inches in depth, with individual florets closely and compactly placed on the stem. The robust habit and uniformity of type, combined with a high percentage of doubles, places Gardenia definitely in a class by itself. Especially recommended for greenhouse culture.

Per 500 seeds, $1.00; pkt., 25c
Perennials renew their beauty every spring, and will keep a garden blooming all the season. This collection consists of 17 of the most popular and easily-grown sorts which will bloom the first year following the sowing of seed. A few often flower the same year, if the seed is sown early in spring. Perennial flower seed can be sown in the open ground from early spring to about August 1st in the latitude of New York.

Blaze O' Glory Collection
Sixteen New Giant Spencer Sweet Peas
See descriptions opposite page
Price 1 pkt. each $1.25
16 varieties
Giant Spencer ORCHID FLOWERED Sweet Peas (A)

Sweet Pea evolution is constantly producing additions to the glorified race of "Spencers" which have superseded the older types, and in this collection we include a number of the most recent.

The characteristics of the Spencer Sweet Peas, grown under congenial conditions are: robust growth, the plants attaining a height of from 6 to 10 feet, requiring for full development to be from 6 inches to a foot apart. The flowers are giants among Sweet Peas, measuring 2 to 2 1/2 inches across. They are beautifully formed, with huge standards, open and upright, and immense wings gracefully poised. Both standards and wings are daintily waved, the undulations reflecting high lights on dazzling shadows in the depths, thus showing a varied harmony of tones which greatly enhances the coloring. There and often four or these queenly blossoms are borne on long strong stems rendering them unsurpassable as cut flowers for vases, bouquets and other decorations. Their long-continued prolation of bloom is phenomenal but accounted for by the fact that a majority of the flowers of true Spencers fall as they fade—before the seed pod is formed—when Sweet Peas set pods, the flowering diminishes.

Condensed cultural instructions for garden culture under both northern and southern conditions and for winter flowering under glass are given in Henderson's "How to Grow Sweet Peas to Perfection," free to customers.

Standard Orchid-Flowered Varieties and Novelties

Price of the following named sorts per pkt. (40 to 50 seeds) 10c; per oz. (400 to 500 seeds) 25c. One ounce will sow a double row twenty feet long.

4046 Bonnie Lassie. Blush pink.
4050 Bridal Veil. Pure white.
4055 Chieftain. Beautiful deep mauve.
4061 Cissie. Pale cream pink.
4146 Highlander. Pure lavender.
4147 Hollyberry. Scarlet flushed orange.
4224 Mayfair. Shell pink.
4226 Melody. Light salmon pink on cream.
4249 Pinkie. Flowers of largest size rose pink.
4251 Pirate Gold. Golden orange.
4287 Thriller. Orange-scarlet.
4295 Warrior. Maroon.

GIANT EARLY FLOWERING

Bloom 4 Weeks Earlier Than the Late Spencers, Under Congenial Conditions Producing Profusely Immense Waved Flowers, "Fours" Predominating on Long Stems

Price of the following named sorts, 15c per Pkt.; 50c per Oz.
4310 Boon. Deep salmon pink on light cream ground.
4314 Bright Light. A flaming self scarlet. It is absolutely sunproof and, in fact, the brighter the sun, the brighter the color.
4315 Eleanor Blue. Bright blue with silver sheen.
4318 Florist's Blue. Fine clear blue.
4319 Florist's Rose. Pure rose-pink.
4322 Glitters. An attractive orange scarlet.
4339 Hope. Pure white.
4340 Lavanda. Uniform clear lavender.
4341 Marine. This is the clearest of all blues. Both standard and wings carry this truest blue evenly throughout the entire flower.
4346 Mother Machree. Coral rose.
4367 Redwood. Deep rich crimson.
4385 Top Hat. Deep violet blue.
4386 Treasure Island. Golden orange.

For best results with Sweet Peas, it is imperative to keep the plants free from Aphids. This is accomplished by spraying with Henderson's Nicotine Spray. (See page 144.)

Henderson's "Blaze O'Glory" Collection

Sixteen Giant Spencer Sweet Peas
(Shown in Colors on Opposite Page)

4301 One packet each 16 varieties—$1.25
4304 One oz. (400 to 500 seeds) each 16 varieties—$3.25

4300 Henderson's Mixed Giant Spencer Sweet Peas. An unsurpassable mixture. Composed exclusively of Giant Waved Spencer varieties, blended in proper proportions of bright colors, selfs and art tints, also including several new hybrids of exquisite colors and shades.

Price, pkt., (75 to 100 seeds) 10c; per oz., (400 to 500 seeds) 20c; per 1/4 lb., 60c; per lb., $2.00.

4400 Giant Early Flowering Spencer. Mixed. This exquisite strain contains the delightful, characteristic sweet pea colors in infinite variety. The flowers are identical in size and beauty to the named sorts.

Per pkt., 10c; per oz., 40c; per 1/4 lb., $1.25; per lb., $4.00.

SPECIAL OFFER

Collection of the following Six Popular Giant Early Flowering Spencer Sweet Peas:

Bright Light Hope
Eleanor Blue Lavanda
Exposition Pink Top Hat

4401 One pkt. each $0.50
4402 One oz. each $2.50
Stokesia (P)

Hardy Corn Flower

Stokesia blooms the first year from seed sown in an open, sunny position. The plants grow from 18 to 24 inches high, flowering from July till late in October. The flowers, 4 to 5 inches across on long stems, are popular for cutting.

3762 Cyanea Blue. Lavender-blue.

Per 500 seeds, 50c; pkt., 15c

Sunflower

HELIANTHUS

Annual Varieties

3777 Giant Russian. Immense, single yellow flower

Per oz., 15c; pkt., 10c

3779 "Lilliput Hybrids." Branching plants, 3 to 4 feet high, producing long-stemmed flowers, 3 to 4 inches across. Various shades of yellow and a percentage of flowers zoned with red, rose, purple, etc.

Per ½ oz., 35c; pkt., 10c

3781 Maroon Prince. Maroon Prince is a dwarf-growing strain, single, and the best red.

Per ½ oz., 50c; pkt., 15c

"CUT-AND-COME-AGAIN."

SINGLE Dwarf-Branching

The plants form bushes 3 to 4 feet high, bearing a succession of flowers from June until frost. The perfectly-formed, single flowers, 3 to 4 inches across, are poised on long stems, which "wave" beautifully. They commence to flower in a few weeks from seed.

3800 Mixed Colors Per ½ oz., 25c; pkt., 10c

DOUBLE SUNFLOWER

3806 Double Chrysanthemum-flow ered. Magnificent flowers 6 to 8 inches in diameter densely double; the petals long and fringed; color, rich orange; the plants grow 6 to 7 feet high.

Per ½ oz., 25c; pkt., 10c

SWEET ROCKET

Dame’s Violet (P)

Favorite, hardy plants for the garden border; 2 to 3 feet in height, covered with showy spikes of flowers. The colors range from white through lilac to pink and purple; splendid for cut flowers.

4440 Mixed Colors.

Per 1000 seeds, 25c; pkt., 10c

Explanation of the letters following the various species of flower seeds:

(A) Annual
(P) Perennial
(CA) Climbing Annual
(CP) Climbing Perennial
(B) Biennial
(TP) Tender Perennial

Cultural directions printed on back of seed packets.

Sweet William

Henderson’s New Annual

The old favorite Sweet William flowers the second year from seed, but this new type blooms in early summer from spring-sown seed. The plants produce fine heads of bloom of various colors—white, crimson, rose-pink, etc., many of which are broadly edged with white.

4450 Mixed Colors.

Per 1000 seeds, 50c; pkt., 10c

Henderson’s Perfection (B)

Sweet William (Dianthus Barbatus) is one of our finest hardy garden plants, thriving in any good garden soil and lasting years. The plants grow about 1 foot high and form fine clumps.

4455 Double, Large-flowering. Perfection, Mixed.

Extra choice from a fine collection.

Per 1000 seeds, 60c; pkt, 15c

4456 Double Dwarf, Mixed. Large-flowering variety, growing 9 inches high.

Per 1000 seeds, 75c; pkt., 15c

4459 Pink Beauty. (Newport Pink.) Large single flowers of pure pink.

4462 Scarlet Beauty. Large single flowers of intense scarlet.

4464 White Beauty. Pure white.

4470 Single Large-flowering Perfection, Mixed. Extra choice varieties.

Price of above,

Per 1000 seeds, 40c; pkt., 10c

Tagetes (A)

The Ideal Border Plant for a Bed of Marigold

4473 Signetum Pumilo. A dwarf marigold, growing 6 to 8 inches tall, covered with golden yellow flowers; splendid plant for edgings and rock gardens.

Per 1000 seeds, 35c; pkt., 10c
The Golden Flower of the Incas (A)

4476A Speciosa Early Flowering Strain. One of the most striking of the summer flowering annuals. Outstanding in the garden and a great favorite as a cut flower for artistic arrangements. The flowers are large, rich and velvety. The color is a brilliant orange scarlet. The plant is imposing, the foliage large. It is excellent for background planting or in combination with shrubbery; it attains a height of 4 feet. For best results, the seed should be started indoors in March or April in order to develop good-sized seedlings for setting outdoors in May.

Pkt., 25c

THUNBERGIA

Black Eye Susan Vine (A)

4476 Alata. Rapid-growing climber; height, 6 to 8 feet. A pretty vine for trellis, fences, rockwork, etc. The flowers are very attractive, being either orange, yellow or white with jet black centers. The leaf petioles are curiously ringed and the leaves deeply toothed. Though a tender perennial, it is usually grown as annual. Mixed Colors. Pkt., 15c

4480 New Hybrids. Mixed Colors. Per 1000 seeds, 75c; pkt., 25c

TRITOMA

Torch Lily (P)

Popularly known as “Torch Lilies,” “Red-hot Poker,” “Flame Flowers,” etc., and produce the brightest flowers of the autumn garden. The range in color is from pale lemon to orange and from salmon-pink, coral red, etc., to crimson. The plants vary in height from 2 to 3 feet. Pkt., 25c

VERONICA. Speedwell (P)

4516 Spicata. Has become very popular for the hardy border. It grows 18 inches high, and is covered all summer with spikes of bright blue flowers. Per 500 seeds, 50c; pkt., 15c

4483 Fastuosum. It suggests the exotic splendor of its native Africa, and luxuriates in the mid-summer sun. The plants grow about 2 feet high and bear golden-yellow sunflower-like blooms with black centers. Pkt., 25c

4483A Fastuosum Hybrids. The color range is varied and very interesting—apricot shades, pure white, canary yellow, golden yellow and the well-known orange. We find that the hybrids stand extreme heat better than the original orange. (See illustration.) Pkt., 25c
Verbena

See the American Beauty Collection on page 58

4487 Brilliant. Deep flame-rose with white eye.
4489 Royale. The color is a rich deep royal blue with a large yellow eye.
4490 Beauty of Oxford Hybrids. The giant hybrid, the flowers measure over 1 inch in diameter. The color shades from clear rose-pink to rose-red.
4491 Lavender Glory. A glorious color not hitherto known in Verbena—a true lavender, with cream white eye.
4512 Compacta Fireball. A dwarf variety 6 inches high, covered with bright scarlet blooms, excellent for borders, beds, or pot plants.
4513 Compacta Purple Bouquet. The plant is 8 inches high and 8 inches in diameter. The color is a deep violet tinged with garnet. The eye is cream.
4514 Spectrum Red. This magnificent Verbena is brighter than any other Verbena yet introduced, having no eye.
4515 White Beauty. The finest pure white variety.
Price of above, per 1000 seeds, $1.00; pkt., 25c
Price per 1000 seeds, 60c; pkt., 25c
Perennial Varieties
4484 Erinaides: A splendid hardy plant for rock gardens, producing moss-like foliage of a spreading habit; the flower heads are of a purplish blue color; height, 1 foot.
Per 1000 seeds, 50c; pkt., 10c
4486 Venosa. A lovely hardy, purplish-blue Verbena; fine for beds. The plants grow about 18 inches high and flower profusely.
Per 1000 seeds, 60c; pkt., 10c
4486A Venosa Lavendar.
Per 1000 seeds, 75c; pkt., 15c

Wall Flower

Double Early Wonder Annual
March and April sowings bloom in August. The main spike is covered with double fragrant blossoms. Height, 2½ feet.
4546 Mixed ..................................Per 1000 seeds, 75c; pkt., 25c
SINGLE FLOWERING ANNUAL
These flowers the first season from seed, making compact branching plants, 8 to 10 inches in height, covered with fragrant single flowers.
4556 Blood-red. Red, shaded orange. ..................................Pkt., 10c
4560 Mixed Colors.
Per 1000 seeds, 50c; pkt., 10c
PERENNIAL VARIETIES
They flower early and thrive in poor soil, but are not hardy and should be sown in a cold frame during the autumn and transplanted to the open ground in the spring.
4550 Large-Flowering Double, Mixed Colors.
Per 1000 seeds, $1.00; pkt., 25c
4565 Large-Flowering Single, Mixed Colors.
Per 1000 seeds, 50c; pkt., 15c

Vinca

Rosea. Madagascar Periwinkle (A)
Handsome bushy plants, producing freely round single flowers 1½ inches across, suitable for either pot culture or sunny flower beds; flowers the first season if sown early indoors; height, 1½ feet.
4522 Rosea. Bright rose.
4524 Rosea Alba. White with rose eye.
4526 Rosea Alba Pura. Pure white.
4530 Mixed Colors.
Price of above, per. 1000 seeds, 50c; pkt., 10c
Henderson’s Special Mixed Flower Seeds
4740 A garden may be made in any out-of-the-way place by broadcasting and raking in at the rate of 1 oz. per 100 square feet, mixed with sand or dry soil to secure an even distribution. Price, oz., 25c; ¼ lb., 75c; lb., $2.50

Viola

Pansy Violets. Tufted or Bedding (P)
This improved strain (Viola cornuta grandiflora hybrids) produces Pansy-like blossoms, about 1 inch across. They form perfect mats covered with flowers from spring until cold weather. They are hardy perennials, fine for permanent beds, edgings, etc. Many of them are highly violet scented.
4533 Arkwright Ruby. Ruby red with terra-cotta markings.
4533A Avalanche. Pure white, compact.
4534A Primrose Dames. Sulphur yellow.
4536 Apricot Gem. Apricot shading to a deep orange center.
Price of above, per pkt., 25c
4535 Mixed Colors..................................................Pkt., 15c
Those preixed by * are suitable for indoor culture in the window garden.

"CUT FLOWER" COLLECTION

Sixteen Packets of New and Improved Annual Flower Seeds

Shown in Colors on Page 77

Many occasions arise when it is desirable to go into the garden and gather huge armfuls of choice cut-flowers. Flowers purchased in a store can never be as interesting as a bouquet cut fresh from your own garden. The Helichrysums and Everlasting Flowers included in this collection may be dried, and will remain bright and attractive during the entire year. These varieties are just as suitable for beds and borders.

Myosotis Blue Spire. The popular blue Forget-me-not.

4761 Collection of 11 pkts., $2.00
If bought separately would cost $2.45

Summer Flowering Collection of Annuals for the Rock Garden

Unless annual flowers are used, the Rock Garden usually takes on a rather drab appearance during the summer months. In order to keep it bright and gay, we recommend planting the following group. These may be sown directly in the garden during the month of May or the seed may be started earlier indoors and the seedlings transplanted to the garden after the flowering of the early perennial material has completed its display.

Ageratum Blue Star. Light blue flowers; height 4 to 5 inches.

Alyssum Carpet of Snow. Grows only to 1 inch high; white fragrant flowers; blooms all summer.

Candytuft Dwarf Hybrid Mixed. Grows 4 to 6 inches high; bright colors.

Dianthus Crown of Perfection. Dainty double flowers; plants grow about 1 foot high.

Labelia Mixed Colors. Compact little plants grow 6 inches high; blooms profusely.

Mosebryanthemum. Dwarf trailing plants with single daisy-like flowers; height, 6 inches.

Nasturtium Giant Flowering Climbing. An excellent plant for covering rocks; very showy.

Nierembergia Hippomannica. An extremely satisfactory little annual; pale lavender flowers; height, 6 inches.

Phlox Drummondii. Fireball. Produces an abundance of bright scarlet flowers; height, 6 inches.

Portulaca Sempervirens. One of the most popular; clings to the surface; blooms profusely.

Tegetes Signata Pomila. A dainty plant growing from 6 to 8 inches high and covered with small yellow flowers.

Verbena Mammeth Mixed. Produces large clusters of gay flowers; height, 10 inches.

4762 Special Offer: Collection of 12 packets, $1.25
If bought separately would cost $1.70

Henderson's Guide and Record contains much practical information about gardening, including tactical instructions for all the popular annual and perennial flowers. Price 35c or sent on request, no charge, with orders amounting to $3.00 or over.

96
Henderson's Modern Zinnias (A)
The Glorified Youth and Old Age of Grandmother's Garden

These have made remarkable strides down the paths of evolution since Peter Henderson offered the first double Zinnia, almost a hundred years ago.

**CUPID TYPE**
Compact plants growing about 1 foot high, producing perfectly double dainty flowers about 1 inch in diameter. Extremely free flowering; blooms continuously from mid-summer to late fall. Very useful for bedding, border or rock garden planting. Also makes an exceptionally dainty cut flower.

4632 Pixie. Bright yellow.
4634 Tiny Tim. Brilliant scarlet.
4636 Snowdrop. Pure white.
4638 Mixed.
Price of above, per 500 seeds, 50c; pkt., 15c

**HAAGEANA**
4650 Dwarf Mexican. Very desirable dwarf growing plants about 1 foot high, producing double miniature blooms in shades of brown, red and yellow. Most suitable for edgings and low center pieces for table decorations.
Per 500 seeds, 50c; pkt., 10c

**LILLIPUT**
Compact plants growing about 3 inches high, producing double dainty flowers about 1 inch in diameter. Extremely free flowering; blooms continuously from mid-summer to late fall. Very useful for edging, border or rock garden planting. Also makes an exceptionally dainty cut flower.

Howard's New Giant Crested
See Color Plate Page 57
4700 This variety is the result of many years' selection work on a strain produced by crossing the Dahlia-flowered and Scabiosa-flowered types. The blossoms average 3 to 4 inches in diameter. They have a full rounded cushion center surrounded by broad guard petals. The colors are charmingly bright and include almost all colors to be found in this popular annual flower. Magnificent shades of orange, orange-scarlet, yellow, rose, mauve and crimson predominate
Per 500 seeds, 60c; pkt., 25c

**PIGOTEE**
4652 Giant Double. Very double, 4 inches in diameter; colors, orange, yellow, flesh and pink, each petal being tipped chocolate or maroon resembling a Picotee Carnation. Mixed Colors.
Per 10c

**LINEARIS**
4647 A dwarf early flowering form somewhat comparable to Zinnia Haageana. The single flowers are deep golden orange in color, with a delicate light yellow stripe. It is early flowering, and the plant reaches about a height of 8 to 10 inches with a spread of as much as 2 feet.
Per 500 seeds, 60c; pkt., 15c

THE CHILDREN'S GARDEN
A Dosen Annual Flowers
The following have been selected as being a sure-fire group suitable for a beginner's or a child's garden. All of these will grow in poor soil; all that they demand is an adequate amount of moisture and direct sunlight over the major part of the day.

4775 SPECIAL OFFER: The Children's Garden Collection. 1 packet each of the above 12 varieties, 75c. If bought separately would cost $1.25.
Henderson’s Modern Zinnias

In almost every popularity vote of annual flowers taken in recent years, the Zinnia has invariably headed the list. This popularity is indeed deserved, because there are few flowers that are more satisfactory. They grow in practically all soils and develop into flowering plants in about eight weeks’ time. They are obtainable in a great diversity of forms, from the dainty single Linneas type and the semi-double Scabious Flowered, to every conceivable form of double flowers, ranging from the diminutive low growing Hoogeana, with miniature blossoms about ½ inch in diameter to the Majestic Giant Dahlia Flowered, with flowers 4 to 5 inches across. Although they grow and flower in poor soil, for best results they should be planted in a well-prepared soil enriched with Henderson’s Garden Fertilizer. For early flowers, start seed indoors in March or April, or sow directly in the garden about the middle of May.

The Ultimate in Annual Flowers

HENDERSO’S GIANT "GOLD MEDAL"

DAHLIA FLOWERED ZINNIAS

(See Color Plate, Opposite)

The remarkable results obtained with this improved type of the popular flower, by thousands of our pleased patrons, has fully substantiated the claims advanced by us, for the New Dahlia Flowered Zinnia is undoubtedly a majestic and beautiful flower.

The plant is striking and spectacular in appearance and distinguished for its vigor and sturdy growth, reaching a height of from 3 to 4 feet. The large magnificent blooms that greatly resemble Decorative Dahlias, and average from 4 inches or over across, are borne on strong stems. Clear of foliage, which makes them very desirable for cut-flowers as well as garden decoration.

4680 Giant Dahlia Flowered Mixed. A magnificent blend of majestic giants in a wide range of colors, including many tints not found in the named varieties.

Price per 500 seeds, 50c; pkt., 15c

4682 Buttercup. A rare shade of deep creamy yellow. (See letter E.)
4684 Dream. A beautiful shade of soft lavender, turning to purple as flower grows older.
4686 Exquisite. An exquisite shade of light rose, deepening toward the center. (See letter B.)
4659 Meteor. A rich glowing red, suggesting the deep-toned shade of red velvet.
4672 Oriole. Immense blooms of deep orange, crimson and gold. (See letter D.)

4674 Polar Bear. A pure white. (See letter C.)
4676 Purple Prince. A fine deep purple. (See letter A.)
4678 Will Rogers. The new Zinnia Will Rogers is an outstanding and strikingly beautiful variety worthy of his name. The color is one of those vibrant and enlivening shades which calls vividly to mind the warmth of affection and esteem in which he is still held by all Americans—glowing intense scarlet. (See letter F.)

Price of above, per 500 seeds, 60c; pkt., 15c
4681 Collection, 1 pkt. each of the above 8 varieties, $1.00

ZINNIA CALIFORNIA GIANT

A very popular variety having large flat flowers giving a graceful effect, particularly for use as a cut flower also suitable for bedding. Height, 3 to 4 feet.

4602 Cerise Queen. Beautiful orange rose.
4603 Crimson Queen. Rich crimson.
4604 Golden Queen. Golden yellow.
4605 Rose Queen. Deep rose.
4607 Scarlet Queen. Deep scarlet.
4608 Violet Queen. Deep purple.
4609 White Queen. White.
4609A Yellow Queen. Canary yellow.
4670 Mixed.
Price of above, per 500 seeds, 60c; pkt., 15c
4611 Collection, 1 packet each of the above 8 varieties $1.00

FANTASY

The strikingly attractive, shaggy-petaled flowers, 3 inches in diameter, are borne on long, strong stems. Picking the blooms freely causes the plants to branch and increases the production of flowers, and those forming at an angle hold that position without drooping.

4684 Orange Lady. Bright orange.
4685 Rosalie. Bright rose.
4686 Star Dust. Golden yellow.
4687 White Light. Creamy white.
4688 Wildfire. A valuable addition to the range of colors in the shaggy-petaled Fantasy types. The flowers are rich dazzling scarlet. The plants are early blooming and exceptionally free flowering.

Price of above, per pkt., 15c
4690 Mixed. Per 500 seeds, 50c; pkt., 10c
4691 Complete collection, 5 separate colors, 60c

Henderson’s Modern Gladiolus

A Select List of Recently Introduced Sorts and the Better Standard Varieties

The list of named Gladiolus offered on this and the preceding pages comprises our choice in the fields after studying and comparing the merits of hundreds of varieties, consideration being given to healthy growth, size, form, coloring and substance of flowers, properly spaced and faced on strong, straight, upright spikes, etc. We believe that this selection of up-to-date named Gladiolus is unsurpassable. Every precaution is taken to supply clean stock; all of our bulbs are thoroughly cleansed, fumigated, and dipped to destroy thrip and other insects.

The “New Era” Group

OF TEN MODERN GLADIOLUS

Illustrated in Colors on Opposite Page and Described Below

Many of our customers frequently ask us to select a list of the ten best Gladiolus and never in our experience have we been in position to make a better selection than the group described here and shown in colors on the opposite page. We consider these the ten best not only for the garden but also for cutting and for exhibition purposes. The varieties included are among those indicated as favorites, and the most popular by the judges of the members of the New England Gladiolus Society. All are prize winners and will be found on exhibition in every Gladiolus Show during the coming year.

We hope our customers will avail themselves of this opportunity to beautify their gardens with this group of outstanding Gladiolus.

Price of the “New Era” Group

A. 10 Bulbs, one of each variety, $1.25
B. 30 Bulbs, three of each variety, $3.00.

Key to Plate

1. Rewi Fall. Beautiful blooms of deep blood red, tall spike, early flowering. Price 12c each; $1.25 doz., $9.00 per 100.
2. Rosa Van Lima. Color light rose with few lines in throat, a fine show variety. Price 15c each; $1.50 doz.; $12.00 per 100.
3. Margaret Beaton. A grand exhibition variety, color pure white, with small orange blotch in throat. Price 20c each; $2.00 doz.; $15.00 per 100.
4. Blue Beauty. Tall spikes having large flowers of a pleasing shade of light blue with darker markings. Price 15c each; $1.50 doz.; $12.00 per 100.
5. Sun God. Perfect blossoms of clear lemon yellow, tall spike, early flowering. Price 20c each; $2.00 doz.; $15.00 per 100.

C. 60 Bulbs, six of each variety, $5.50.
D. 120 Bulbs, twelve of each variety, $10.00.

Key to Plate

6. Beacon. A very tall brilliant variety, color bright scarlet with creamy throat. Price 12c each; $1.25 doz.; $9.00 per 100.
7. J. S. Bach. Large flowered, brilliant orange salmon. Price 12c each; $1.25 doz.; $9.00 per 100.
8. New Era. A grand ruffled pink of outstanding merit. Price 15c each; $1.50 doz.; $12.00 per 100.
9. Snow Princess. Pure white with milky throat, tall growing, considered the best. Price 20c each; $2.00 doz.; $15.00 per 100.
10. Troubadour. A strong grower producing beautiful blooms of glistening purple. Price 12c each; $1.25 doz.; $9.00 per 100.

GLADIOLUS—Modern and Best Standard Sorts

A few thoughts on the selection of Gladiolus varieties and tips on growing them.

1. Choose varieties that are known to be hardy and disease-resistant.
2. Plant bulbs in well-drained soil.
3. Water regularly but avoid overwatering.
4. Deadhead to encourage more blooms.
5. Apply a balanced fertilizer to promote growth.

GLADIOLUS CHOICE RAINBOW MIXTURE

A superb combination of all colors, tints and shades, including many unusual colors not found in named sorts.

Price, Dozen, 40c
Hundred, $3.00
Thousand, $27.50

Individual Bulbs Supplied at One-Tenth of the Dozen Rate; Six Bulbs of a Variety Sold at the Dozen Rate, 25 at the Hundred Rate.

Gladiolus Bulbs Are Delivered Transportation Paid in the U. S. A.

Our pamphlet "GARDEN CULTURE OF GLADIOLUS" free to customers on request
All of our bulbs are thoroughly cleaned, fumigated, and dipped to destroy thrip and other insects.

When planting in sections where Thrip is prevalent we recommend as an extra precaution, soaking the bulbs for six hours in a solution of Lysol disinfectant, mixing four teaspoonsful to one gallon of water. This treatment stimulates root growth in dormant bulbs.

Bulbs may be dipped and left for as long as three weeks before planting.

</tbody>
</table>

An effective method for controlling Thrip on growing plants.

Make careful examinations of plants when 3 to 8 inches high. If silvery spots are noticed on the foliage spray with the following solution: two ounces of Tobacco Emulsion, see page 145, 8 ounces brown sugar in three gallons of water, apply every ten days if necessary.

**GLADIOLUS Choice Rainbow Mixture**

Summer Flowering Bulbs

**CALADIUM ESQUILMENT**

"Elephant's Ear." Grand tropical-looking plant. A favorite for specimens on the lawn, or for bordering large sub-tropical groups. They produce enormous leaves, frequently 4 feet long by 3 feet wide; height, 4 to 5 feet. Plant after the ground has warmed up, and take up before frost.

**Extra Size. Price, 40c each; $4.00 doz.**

**CALLA (Elliotiana)**
The yellow Calla; large, rich, deep golden flowers often 4 to 5 inches across at the mouth; habit of growth and foliage like the old favorite white Calla excepting the leaves of Elliotiana are spotted with white.

**Dry bulbs. Price, 35c each; $3.50 doz.; $25.00 per 100.**

**CINNAMON VINE**
A beautiful, hardy climber for anything on which the vines can twine; it grows from 15 to 30 feet high, and when established the vines attain a much greater length. The leaves are green, thick and glossy, always clean, healthy and free from insects. The white flowers, white, insignificant, emit a delightful cinnamon-like perfume. The roots are quite hardy and, although the stems die down in winter, the vines shoot up with great rapidity in the spring.

**Price, extra large, 2-year-old roots, 25c each; $2.50 doz.**

**CHLIDANTHUS FRAGRANS (The Fragrant Lily)**
Of South American origin; it is a valuable addition to our summer flowering bulbous plants. The plant attains a height of about 1 foot, and the delightfully sweet-scented golden yellow miniature Lilies are held well above the foliage. Also adapted for pot culture.

**Price, 25c each; $2.50 doz.; $18.00 per 100.**

**CRINUM Kirkii**
Produces flowers of the greatest beauty. Usually two flower stalks of dark purplish color are sent up at the same time, each bearing a large umbel of enormous lily-like flowers of white, with a reddish purple stripe through the center.

**Extra large bulbs, 75c each; $7.50 doz.**

---

**Hardy Lilies LILIUM**

Lilies are stately and most beautiful bulbous plants — producing large flowers of exquisite outline and varied coloring. They are hardy even in cold locations with protection, usually surviving for many years. Ideal locations are in the shrubbery or herbaceous border where the roots are sheltered from the hot sun. Groups of 6 or more lilies of a kind, here and there, in such situations are most effective. Owing to conditions abroad, it is impossible for us to offer many of the old favorite varieties of Lilies this year.

**Regale ("A Royal Beauty").** The flowers are white, slightly suffused with pink, with a beautiful shade of canary-yellow at the center, blending out part way up the trumpet. The fragrance is fascinating. A splendid, hardy Lily for the garden, flowering in July. Well-grown bulbs often produce five to eight blooms.

**Price, 60c each; $6.00 per doz.; $45.00 per 100.**

**Tigrinum Splendens.** (Improved Tiger Lily.) The grandest of the Tigrins; black polished stem. Very large pyramids of flowers, orange-red, spotted with black. 3 to 5 feet high. Blooms in August.

**Price, 25c each; $2.50 per doz.; $18.00 per 100.**

**Tigrinum Flora Pleno.** (Double Tiger Lily.) Double, bright orange-red flowers spotted with black. Blooms in August.

**Price, 30c each; $3.00 per doz.; $20.00 per 100.**

**Umbellatum.** Of strong, sturdy habit, growing from 2 to 3 feet high, having large, showy flowers in clusters at the summit, flowering in June. The colors range through all shades of red, from rose to blackish-crimson, yellow, buff, orange, etc., many being spotted.

**Mixed Colors. Price, 30c each; $3.00 per doz.; $22.00 per 100.**

---

Follow the pageant of Spring Bulbous Flowers with Summer Flowering Bulbs. Our pamphlet, "Summer Flowering Bulbs," tells how easy it is to grow this brilliant group in any garden and what a boon they are to the belated gardener.

Six Bulbs of a Variety Sold at the Dozen Rate, 25 at the Hundred Rate.
Summer Flowering Bulbs

Many gardeners who have enjoyed the gay pageant of Spring Bulbous Flowers, will welcome the group offered here. It is a fascinating ensemble, ranging from the extreme daintiness of the Zephyranthes or Fairy Lily, to the bizarre brilliance of the Tigridia, or Shell Flower, and the pure gold of the Calla Elatior. The flowering period of this group ranges from June to September.

**MAKEIRA VINE**

The old favorite, "Climbing Mignonette," so much prized for porches and arbors on account of its rapid growth and freedom from insects. Thick, glossy leaves, and long, hanging stems of feathery, fragrant, white flowers. The tubers we offer are selected large size.

Price, 15c each; $1.50 doz.; $12.00 per 100.

**MONTBRETTA**

The Montbretia is one of the most floriferous and showy of summertime-flowering bulbous plants, producing in great numbers graceful spikes 8 to 12 inches long, each spike bearing from 18 to 30 exceedingly showy star-shaped flowers, 1½ to 2 inches across.

Fire King. Large flowers of a glowing scarlet red; decidedly one of the most beautiful. Price, 15c each; $1.00 doz.; $7.50 per 100.

Golden West. Produces tall, branching spikes and large, well-opened flowers of a most beautiful pure golden yellow, without the least spot or shade; strong grower. Price, 15c each; $1.00 doz.; $7.50 per 100.

His Majesty. A glorious variety; flowers measuring 6 inches or more across, very broad petalled, deep velvety scarlet shading down to gold, reverse of petals dark crimson. Price, 20c each; $2.00 doz.; $15.00 per 100.

Lady Hamilton. Very floriferous yellow; the center is suffused with a ray of rose-pink; strong grower; fine and distinct. Price, 15c each; $1.50 doz.; $12.00 per 100.

Lord Nelson. Deep orange-scarlet, externally crimson, eye yellow; large flowers, very beautiful; the stems are dark, much branched and 3½ ft. high. Price, 15c each; $1.50 doz.; $12.00 per 100.

Mejeri. New, pale orange with crimson markings. Price, 15c each; $1.50 doz.; $12.00 per 100.

Rosa. Bright salmon rose; distinct. Price, 15c each; $1.25 doz.; $9.00 per 100.

Mixed Hybrids. Containing a fine assortment of yellow, orange and scarlet shades. Price, 8c each; 80c doz.; $6.00 per 100.

**PERUVIAN DAFFODIL, Isonene Calathina**

Handsome clusters of large, very striking, fragrant pearly white flowers. Bulbs should be kept warm and dry and planted out in the middle of March. They will commence flowering in July. It is also admirably adapted for pot culture.

Price, 25c each; $2.50 doz.

**SUMMER HYACINTH, Hyacinthus Candicans**

(*Galtonia*)

A luxuriant-growing, summer-flowering plant, spreading 2 to 3 feet, throwing spikes 4 to 5 feet in height, each bearing 20 to 30 large, white, bell-shaped flowers, splendid for groups. If planted in the center of beds of scarlet Gladiolus, the effect is magnificent.

Price, 15c each; $1.50 doz.; $12.00 per 100.

**TIGRIDIA (Shell Flowers)**

Extremely handsome summer flowering bulbs, growing about 2 feet high, producing large, gorgeous flowers in shades of yellow, orange and red, exquisitely spotted, flowering very freely throughout the summer.

Price, 15c each; $1.50 doz.; $12.00 per 100.

Summer Flowering Bulbs thrive in a medium rich soil, where a fair amount of moisture can be provided during the flowering period. They also enjoy direct sunshine. In the latitude of New York, they should be planted about May 1st. As these are not hardy in this latitude, the bulbs should be lifted in the autumn after the tops have been killed by frost. The bulbs may be saved from year to year. Obtainable from February 1st to June 1st.

**TUBEROSE**

Albino. Single, Early Flowering. A single white tuberose. It commences to flower in July and August. Throwing from two to five flower spikes from a single bulb. Beautiful for gardens and a splendid cut flower.

Price, 8c each; 80c doz.; $6.00 per 100.

Pearl, Henderson's Double Dwarf. Plant in dwarf, growth stocky, the flower spikes attaining a height of about 2 feet, and are compactly filled for two-thirds their length with very large, perfectly double flowers 1½ to 2 inches across, or nearly twice the size of the old sort. The flowers have the wax-like substance of a camellia, are glistening white and delicately fragrant. The bulbs planted in the garden in May, in warm, rich soil, in a sunny position, flower with great certainty in the fall.

Price, extra large flowering bulbs, 8c each; 80c doz.; $6.00 per 100.

Silver Leaf. Showy and effective, even when not in bloom, the foliage being distinctly striped white and green. Each bulb frequently throws up two or more spikes. 3 to 4 feet high, each bearing several pure white, single, waxy flowers, deliberately perfumed. They flower several weeks earlier than double tuberoses.

Price, 8c each; 80c doz.; $6.00 per 100.

**ZEPHRANTHES ROSEA**

(Fairy Lily)

The graceful starry rose-pink flowers are produced freely throughout the summer. The smooth flower bearing scapes grow through the grass-like foliage to a height of from 8 to 10 inches. Extremely dainty for foreground plantings in the bulb border.

Price, 15c each; $1.50 doz.; $12.00 per 100.

Our pamphlet, "SUMMER FLOWERING BULBS," sent free on request and with orders, gives interesting facts and complete cultural instructions for this valuable group of bulbs.
Henderson's Quality Pot Grown Plants

Grown in Our Own Greenhouses Under the Most Improved Scientific Methods.

They Are Superior for Garden Beds and Borders, Window and Roof Gardens, etc.

**PLANT DEPARTMENT**

**SPECIAL NOTICE:** Purchaser pays transportation charges on plants. If you wish your order sent by Parcel Post, please add 10% to value of your order for shipments East of the Mississippi River, and 20% for points West of the Mississippi River.

We guarantee the safe arrival of all plants sent by Express or Parcel Post to all points in the United States. Should anything be injured in transit, we urge our customers to notify us at once on receipt of the goods, and in every case send us a list of what has been damaged so that we can replace them. But when they arrive in good condition our responsibility ceases, and if from inattention or other causes they fail and complaint is then made we cannot replace them.

**SHIPPING DATES.** We would appreciate it if our customers would specify a shipping date, otherwise we will ship at such time as in our judgment we deem most suitable. We ship direct from our Plant Department at Red Bank, N. J.

**PACKING.** We make no charge for packing domestic shipments. Special packing for export shipments charged for at cost.

---

**ASTER, Henderson's Invincible**

See Color Plate Page 60.

The plants are about 2 feet high—though under best culture often 3 feet—producing long stems, massive Chrysanthemum-like flowers of perfect form.

- **Carmine-rose, Crimson-brilliant, Deep Blue, Deep Pink, Pure White.**
  - Price, plants from 2-in. pots, 3 for 35c; $1.00 doz.; $6.00 per 100.

**BEGONIA, Tuberous Rooted (Bulbs)**

Nothing can exceed the brilliancy and richness of their flowers. From the time the first blossoms appear until all growth is stopped by frost they are never out of bloom.

- **Single.** Bulbs. Separate colors, scarlet, yellow, crimson, white, pink and salmon. Price, 30c each; set of six, $1.50.
- **Double.** Bulbs. Separate colors, scarlet, crimson, white, yellow, pink and salmon.

- **BEGONIA, Fibrous-Rooted Varieties**
  - **Prima Donna.** Bushy plants, 10 inches high by 12 inches across. The flowers are 1 to 1 1/2 inches in diameter, rose color shading to carmine in the center.
  - **Magnifica.** Glossy bright crimson flowers.

**CALADIUM.** Fancy-Leaved (Bulbs)

Useful for pot culture, window boxes, etc. Most of the varieties planted about June 1st in partially shaded borders succeed admirably as bedding plants. The richness of coloring is bewildering. Brilliant red and green, green with spots and red veins, etc.

- Price, Bulbs 50c each; $5.00 doz.

**CANNAS**

The popularity of the Canna as a bedding plant will never wane. There are few plants in cultivation that are more colorful or more majestic than the orchid-flowering types.

- **King Humbert.** A brilliant orange-scarlet with bright red shadings. Large trusses of blooms. Foliage a rich, reddish bronze with lighter shadings. Height 5 feet.
- **Little Gem.** The height rarely exceeds two feet. An early and continuous bloomer. Flowers orange scarlet with yellow edgings.
- **The President.** Green foliage. Color bright glistening scarlet. The individual florets often measure seven inches across when open. Height 5 feet.
- **Yellow King Humbert.** The flowers, bright yellow spotted with red, are of the largest size, heads full and borne well above the green foliage.

**FUCHSIA**

- **Favorites in the garden or as pot plants.**
  - **Black Prince.** Purple striped red, red sepals.
  - **Gloire de Marcellane.** Double white, scarlet sepals.
  - **Little Beauty.** Red sepals, double purple corolla, dwarf, free flowering.

- Price, plants from 3-in. pots, 25c each; $2.50 doz.; $18.00 per 100.
GERANIUM Double
Beauty Poitevine. Lively salmon pink semi-dwarf branching, deeply zoned leaves.
Improved Ricard. Semi-double flowers of a bright vermilion scarlet. Exceptionally fine.

IRVINGTON BEAUTY. A vigorous grower, free blooming, splendid foliage, color rose-pink.

Mme. Buchner. The finest double white.

Radio Red. Remarkable for the size and brilliancy of its flowers which are flame scarlet.

Rose Scented. The sweet scented favorite.

Price, any of above plants from 3-inch pots, 25c each; $2.50 doz.; $18.00 per 100. Plants from 4-inch pots, 35c each; $3.50 doz.; $35 doz.

GERBERA HYBRIDS. Transvaal Daisy
These, the most beautiful of all daisies, are half hardy perennials. They may be grown in the garden during the summer, or indoors during the winter months. Mixed colors.

Price, plants from 3-inch pots, 35c each; $3.50 doz.

GLOXINIA New Hybrid (Bulbs)
The handsomest of our summer-blooming plants. The rich coloring and speckling of the flowers are beautiful in the extreme.

Price, mixed colors, 35c each; 3 for $1.00; $3.50 doz.

HELIOTROPE
Royal Fragrance. The sweetest heliotrope grown. The plants are robust though dwarf, rich heliotrope color and very free blooming.

Price, plants from 3-inch pots, 25c each; $2.50 doz.; $18.00 per 100.

IVY
English. Popular for window boxes, etc. Plants from 4-inch pots.

Variegated. Leaves, edged, creamy white.

Plants from 3-inch pots.

Price, any of above, 50c each; $5.00 doz.

JASMINE GRANDIFLORUM
(Star Jassamine.) A lovely, sweet-scented house plant. White, star-shaped flowers.

Price, plants from 3-inch pots, 35c each; $3.50 doz.

LANTANAS
They always produce a magnificent show. M. Schmidt. Bright orange.

Price, plants from 3-inch pots, 25c each; $2.50 doz.; $18.00 per 100.

LEMON VERBENA
The leaves when dried will retain their fragrance for a long time.

Price, plants from 2-inch pots, 25c each; $2.50 doz.

MARIGOLDS
They flower from June till frost. We offer the following varieties. Guinea Gold. Robt. Beist (See descriptions, page 76).

Price, plants from 3-inch pots, 3 for 45c; $1.50 doz.; $10.00 per 100.

GIANT MOONFLOWER
Set out early in May will grow from 30 to 40 feet during the season. The flowers are pure glistening white, often over seven inches in diameter, they possess an enchanting fragrance reminiscent of Sweet Magnolia.

Price, 30c each; 3 for 75c; $2.50 doz.; $20.00 per 100.

PETUNIA Single Fluffy Ruffles.
The plants we offer are grown from our finest strain producing large single flowers, blotched, striped, netted, etc., including all the Petunia colors; height 1 foot. Mixed colors.

Price, plants from 2-inch pots, 3 for 35c; $1.25 doz.; $10.00 per 100.

PETUNIA Double Fringed Mixed
The flowers are double, exquisitely ruffled and fringed on the edges. The variety of colors, shades and markings in beautiful combination is remarkable.

Price, plants from 3-inch pots, 25c each; $2.25 doz.; $18.00 per 100.

SALVIA or Scarlet Sage
Blaze of Fire. Bred primarily for dwarfishness and for early flowering. This plant does not grow over 12 inches in height, and it begins blooming at least 10 days earlier than any other Salvia.

Price, plants from 3-inch pots, 3 for 45c; $1.50 doz.; $10.00 per 100.

VERBENA Henderson's American Beauty
Mixed Colors

Price, plants from 2-inch pots, 3 for 35c; $1.00 doz.; $8.00 per 100.

ZINNIA. Dahlia Flowered
(See Color Plate Page 99)
The plants grow from 2 1/2 to 3 feet high and are covered with densely double flowers measuring from 4 to 6 inches in diameter. Exquisite, rose pink. Orilce, orange and gold. Purple Prince, deep purple. Will Rogers, fiery scarlet.

Price, plants from 2-inch pots, 3 for 35c; $1.00 doz.; $6.00 per 100.
New and Select Hardy Perennial Plants

Purchaser pays transportation charges on plants. If you wish your order sent by Parcel Post, please add 10% to value of your order for shipments East of the Mississippi River, and 20% for points West of the Mississippi River.

**ASTERS**

**WARTBURG STAR, Early Flowering**
The plants grow about two feet high, and are a mass of bloom during May and June. The three-inch flowers are true lavender-blue. Marguerites with yellow centers.
Price, 35c each; $3.50 doz.

**FRIKARTI (Wonder of Stafa)**
The large, well-formed blooms are produced in great profusion from the middle of August until October. They are a lovely lavender-blue color.
Price, 50c each; $5.00 doz.

**AUTUMN FLOWERING ASTERS**

**Michaelmas Daisies**
Highly prized for their profusion of blooms during the late summer and early autumn.

**Harrington's Pink.** A lovely bright rose-pink, showing no trace of magenta. The plant is of good habit, attaining a height of about 3½ feet.
Price, 50c each; $5.00 doz.

**Skylands Queen.** Beautiful light blue; begins flowering in August. Height, 3 to 4 feet and spreading. Fine for cutting.
Price, 35c each; $3.50 doz.

**Snowdrift.** Branching pyramids of large, semi-double, snow-white flowers in early September. Height, 2 to 3 feet.
Price, 35c each; $3.50 doz.

**DELPHINIUM**

**Extra Select Pacific Hybrids**
An extra strain of regal Delphiniums. Truly the most imposing, the most majestic, the most beautiful subjects of the Hardy garden. The colors are a revelation of the sheer exquisiteness of the harmony of blues; from the most delicate porcelain blue to the deepest ultra-marine, through a delightful array of lavender, mauve and pink tones, to rich purplish hues. These Hybrids contain many double, semi-double, also single flowers, which are produced on plants which range from 4 to 6 feet high, with spikes frequently 2 feet long, and they bloom from June to late fall.
Price, 1-year plants, 50c each; $5.00 doz.; $40.00 per 100.

**New Perpetual Flowering Dianthus**

**OLD SPICE (Plant Patent 499)**
Our experience with this new Dianthus at our trial grounds last season convinces us that it is a plant of exceptional merit. It is extremely hardy. Its habit of growth is compact and cushion-like; flower stems are about 1 foot tall. It begins flowering in June and continues up to late Autumn. The perfectly formed flowers average two inches across and are a pleasing soft salmon pink in color; its fragrance is rich and spicy. It is a hardy border plant par excellence and an ideal cut flower.
Price 60c each; $1.50 for 3; $5.00 doz.

**GYPSONHILA, Baby's Breath**

Bristol Fairy. Double, Everblooming. A great improvement over the old types of Gypsophila; the individual blossoms are larger, the panicles are also larger, and they are produced in great abundance throughout the entire summer up to November.
Price, grafted plants, 40c each; $4.00 doz.

**Pink Veil.** Compact habit with flowers of a pronounced pink color.
Price, 40c each; $4.00 per doz.

**HEMEROCALLIS, New Giant Hybrid**

**Dover.** Bloomed at our Trial Grounds on May 25th. Deep gold flowers of large size produced very freely.

**Hyperion.** The flowers are a fine citron yellow produced in great numbers on stout stems about 40 inches tall. The buds open well in water and emit a most delightful fragrance. Perfectly hardy anywhere. Grows in dry, wet, sunny or shady places, and blooms throughout July and early August.

**Margaret Perry.** Buff orange lined with red. Blooms in July and August.
Price of above, 75c each; $7.50 doz.

**HIBISCUS, Large Flowering Mallows**
A greatly improved form of the popular marsh mallows; flowers 8 to 10 inches; plants 5 to 6 feet. Excellent for background and landscape planting. Bloom from July to October.
We offer Giant Pink, Red and White with Crimson Eye.
Price, 35c each; $3.50 doz. Set of 3, $1.00.

**DIANTHUS OLD SPICE**
Combines beauty, fragrance and an abundance of flowers.

**HOLLYHOCK, Hardy, Double**

**MAGNIFICENT STRAIN—WONDERFUL FORMATION**
We have for years selected those that show the most perfect form, largest size and purest color. In the whole range of hardy garden plants there are none more majestic.
We offer the following colors: Purple, White, Salmon, Yellow, Pink and Crimson.
Price, 30c each; $2.75 doz.; $21.00 per 100.
New and Select Hardy Perennial Plants

PENTSTEMON, FIREBIRD (New)
This beauty came to us from Switzerland, where it is known as Pentstemon Shonholzeri. The flowers are foxglove-like in size, on stems about 18 to 24 inches tall, and are a most beautiful crimson overlaid with an orange sheen. The plant is easily grown, is free from insect pests, flowers freely, creates a lovely effect in the flower garden, and is a cut flower par excellence.
Price, 60c each; $1.50 for 3 plants; $5.00 per doz.

SCABIOSA, HOUSE'S HYBRIDS
The flowers which average from 3 to 4 inches across, are produced on long strong stems and in profusion from July to October. The colors range from pure white, through lavender, mauve light and bright blue to deep blue and purple. We offer mixed colors only. Height, 2 1/2 feet.
Price, 40c each; $4.00 per doz.

GIANT STOKESIA, Blue Moon
A vigorous growing, perfectly hardy, and free-flowering variety of exceptional merit. Flowers often measure 5 to 6 inches in diameter. The stems are 12 to 18 inches long, bringing the large, vividly blue, disc-like flowers well above the plant.
Price, 45c each; $1.25 for 3 plants; $4.00 per doz.

TRITOMA SPRINGTIME (New)
(Plant Patent 318)
A fascinating new hardy Tritoma which flowers in late June and July. The upper part of the flower is rich coral red, the lower half ivory yellow. These sparkling and clear contrasting colors hold one's attention in a pleasing manner. Springtime has been tested for hardness for five winters in all kinds of soil, and has weathered these conditions without any protection. We heartily recommend this novelty. It combines beautifully in the garden with pale blue Delphiniums or Regale Lilies in flower at the same time. A well established plant will produce as many as 10 to 15 flower spikes about 3 feet tall. They are very graceful and superb for cutting.
Price, 65c each; $6.50 per doz.

TRITOMA, Golden Torch Lily
Tower of Gold
This new variety is startling and beautiful. The plant is very graceful and the golden yellow flowers are borne stalkily erect. Height, 3 feet. Produced from August to frost.
Price, 50c each; $5.00 per doz.

New Single Flowering Sweet Scented Violet,
ROYAL ROBE
This newcomer in the Violet world is by far the most beautiful we have ever seen. Unlike other varieties of violets, the plant itself is a perfect picture. It develops into a compact rounded plant about one foot in diameter, and about a foot in height. The foliage is magnificent, healthy and bold and about four inches in diameter.
Its chief attraction however are the glorious flowers which are the largest of any violet we have seen, they open flat like a panay and are produced on long stems. The color is lustrous deep violet-blue and its fragrance which of course is the principal characteristic of any violet is most delightful.
A few plants of Royal Robe in your garden will furnish quantities of lovely fragrant flowers for cutting in early Spring when flowers are most highly prized.
Price, 60c each; $1.50 for 3; $5.00 doz.

VIOLET, HARDY DOUBLE RUSSIAN
The Finest in Cultivation
This violet is entirely hardy, perfectly double, a deep violet-purple color and most deliciously fragrant. It is entirely free from disease of any kind, will grow and bloom in any garden and in any situation. Nothing is more appropriate for a partially shaded spot under trees, etc.
Price, 40c each; $4.00 per doz.

YUCCA FILAMENTOSA
Adams's Needle
One of the hardest and showiest plants we have. The flower spikes are borne in huge panicles above the sword-shaped foliage which in itself has a sub-tropical effect. The large, white, waxy blooms are drooping in habit.
Price, 50c each; $5.00 per doz.
FERNS, Hardy, for the Garden
Given a porous soil, rich in humus, shady or partially shaded position and moisture, and they luxuriate, coming up year after year.

Adiantum pedatum, Maiden Hair Fern, height, 2 feet.

Athyrium Filix-femina, Lady Fern, height, 2 to 3 feet.

Athyrium thelypterides, Silver Spleenwort Fern, height, 2 to 3 feet.

Dennstedia punctiloba, Hay Scented Fern, height, 1 foot.

Dryopteris filix-mas, Leather Fern, height, 1 to 1½ feet.

Dryopteris spinulosum, Spine Fern, height, 1½ to 1½ feet.

Osmunda cinnamomea, Cinnamon Fern, height, 3 to 4 feet.

Osmunda claytoniana,Interrupted Fern, height, 4 feet.

Polypodium vulgaris, Polyody Fern, height, 6 to 8 inches.

Polystichum acrostichoides, Christmas Fern, height, 1 to 2 feet.

Price, 3c each; $3.50 doz.; $25.00 per 100.
Set of 10 distinct sorts for $3.00.

HARDY PHLOX
Wonderful improvements have been made in the Phlox Decussata in recent years. They are of the easiest culture, and during the late summer and fall months make the garden bright with their wealth of bloom. Their perfume is enchanting.

STANDARD VARIETIES
Commander Koehl. Dark blood-red. Large clusters on stiff, upright stems. Flowers large, keeping their color in heat and rain. July and August. 2½ feet high.

Daily Sketch. Largest individual florets, and trusses of any Pink Phlox. It is a beautiful light salmon-carmine, with crimson eye. A lovely, dependable variety. Medium height. Price, 40c each; $4.00 doz.

Enchantress (Medium). The well-known bright salmon-pink with lighter shadings and dark red eye. Europa (Medium). A pure white with a very decided crimson carmine eye; large flowers in good compact trusses.

Leo Schlageter (Medium). Strong grower; large, individual trusses, brilliant scarlet-carmine flowers with darker center.

Mrs. Milly Van Hoboken (Medium). Color, bright pink with a slight and delicate mauve suffusion; strong grower and free flowering. The general color effect at a distance is a fine bright pink.

Mrs. Jenkins (Tall). The best tall, early white for massing.

New Bird (Medium). Deep crimson-red, almost vermilion, and purple eye. The flower heads are carried well above the foliage in well-branched spikes. A very brilliant and excellent variety.

Painted Lady (Medium). This delicate colored sort is one of the most pleasing in our entire collection. Strong upright growth and large masses of flower heads. Silver pink with salmon shadings and cherry eye.

Tigress. A truly remarkable Phlox. Vigorous grower; large healthy foliage grows 2½ to 3 feet. The trusses are huge pyramids of brilliant orange-scarlet. 40c each; $4.00 doz.
Price of above, except where specially priced. 3c each; $3.50 per doz. Set of 10 Standard Phlox, $3.00.

EVERBLOOMING HARDY PHLOX
Miss Lingard. Early flowering, this pure white variety is undoubtedly the most popular and most popularly massed Phlox grow. It begins blooming in May and continues up to late October. Height 2 feet.

Price, 3c each; $2.75 per doz.; $21.00 per 100.

Purchaser pays transportation charges on plants. If you wish your order sent by Parcel Post, please add 10% to value of your order for shipments East of the Mississippi River, and 20% for points West of the Mississippi River.

NEW PHLOX SALMON BEAUTY
GIANT BEARDED IRIS (Fleur de Lis)
For garden and landscape decoration, groups and masses of these May flowering Iris are most effective. Mixed colors 15c each; $1.50 doz.; $10.00 per 100.

POLYONIES
We offer strong divided roots. Double White, Double Crimson and Double Rose Pink.
Price, 15c each; $3.50 doz.

HARDY ROCK GARDEN PLANTS
These plants are specially selected to produce an attractive display in the rock garden from early spring and throughout the summer to fall.

The construction of a rock garden is very simple. An attractive garden may be built anywhere by following the instructions given in our pamphlet—sent free on application—entitled "The Rock Garden Garden.'*

ARABIS Alpina. 10 inches. White; a good plant for shade. Blooms April to June.

ARMERIA Maritima. 3 to 6 inches. Pale pink; flowers in May and June.

CAMPANULA Portenschlagiana. 8 inches. Clear blue flowers, June to October. Grows well in shady places.

CERASANTHEMUM Tomentosum. 10 inches. Silvery foliage and white flower. Blooms in June.

CRUCIANELLA Stylosa. 6 inches. Purple ball-shaped flowers. Flowers in early summer.

DIANTHUS Alpinus Allwoodi. The loveliest roockey pink. The rose-pink flowers are produced on 4-inch stems in July and August. Plant in open sun.

DINCERTRA Eximia. 15 inches. Pink flowers from April to fall.

HEUCHERA Sanguinea. 12 to 18 inches. Bright crimson flowers June to September.

IBERIS. 8 to 10 inches. A good rock plant with evergreen foliage and white flowers in May and June.

LYCHNIS Haageana. 1 foot. Flowers of orange-red, scarlet and crimson. June to August.

MERTENSIA Virginica. 12 to 18 inches. Light blue flowers, changing to clear pink in May and June.

NAPSA Mussels. 12 inches. Lavender flowers July and August.

PHLOX Divaricata Canadense. Fragrant lavender flowers in April and May. Grows well in shade. Height, 1 foot.

PHLOX Subulata. Mass pink 6 inches rose-pink vigorous grower flowers in Spring; precurs direct sun.

PLUMBAGO Larreneta. 6 to 8 inches. Of spreading habit. Deep blue, flowers from June to fall.

PRIMULA Veris. 8 inches, assorted colors. Apricot, Pink, in sun or part shade.

SAPONARIA Ocymoides Splendens. 8 inches. Bright rose-pink flowers May to August.

SEDUM Acre (Golden Moss). 2 inches. A moss-like, spreading plant with bright-yellow flowers in spring.

VIGOR. 6 inches flowers all summer in sun or part shade.

Price, any of above Rock Garden Plants 30c each; $2.75 doz.; $21.00 per 100. SPECIAL OFFER: One plant each of the 21 Selected Rock Garden Plants, $5.00.

A QUINTET OF AMERICA'S FINEST NEW PHLOX
American Beauty Red AUGUSTA
(U. S. Plant Patent No. 252): A strong growing plant, about 3½ feet when fully grown, with rich bronzy green foliage. The color is a brilliant cherry-red, intense and sparkling.
Price, 4c each; $4.50 doz.

Brilliant Carmine-Crimson FLASH
Gorgeous large Carmine-Crimson flowers with orange scarlet centers. They are produced freely on vigorous plants of medium height. Very showy.
Price, 4c each; $4.50 doz.

Pure White MARY LOUISE
Pure glistening snow-white heads of unusually large size. The individual flowers are twice as big as any other White Phlox. A perfectly beautiful variety. It is a good grower, with clean foliage.
Price, 4c each; $4.50 doz.

Majestic Salmon Pink SALMON BEAUTY
Giant bright salmon-rose florets with white centers combining into immense masses on dwarf plants very appealing.
Price, 4c each; $4.50 doz.

Finest Lavender Blue SILVERTON
Clear pale lavender-blue, eye light phlox purple with halo. Of medium height and a strong grower. Individual florets reach 1¼ inches. One of the loveliest.
Price, 4c each; $4.50 doz.

SPECIAL OFFER: The Quintet of America's Finest Phlox $2.00
**GENERAL LIST OF HARDY PERENNIAL PLANTS**

The following list of varieties was selected for their ease of culture as well as for the profusion and beauty of their flowers. The tabulation was made to simplify the selection of varieties. The heights given include the flower spike. Please also note the novelties and specialties offered on the two preceding pages, as well as the combinations shown on the opposite page. Send for our free pamphlet, "Henderson Planting Plans for Perennial Borders."

THE "IMPERISHABLE" PERENNIAL FLOWER BORDER FOR $20.00

A sketch plan for a typical hardy perennial border is shown below. To make one like it, 5 by 50 feet would require 100 plants. We list below 30 varieties of contrasting heights and colors and the number of plants for each group. The number after each variety gives the position in which they should be planted.

Special Offer—The Imperishable Border Collection, 100 plants, as listed above for $20.00. Should any of the above varieties be sold out when order is filled we will substitute similar sorts unless instructed to the contrary.

---

Our pamphlet "Henderson's Planting Plans for Perennial Borders" sent on request when ordering.
Henderson’s New and Recently Introduced Everblooming Roses

Our Roses are the finest quality No. 1 Stock. They are all Northern grown under the most sanitary and scientific conditions, and must not be compared with inferior, cheaply grown plants. We offer a select list of varieties.

We furnish these plants in a dormant condition in Spring up to May 1st and in the Autumn from October 25th up to as long as the ground is open. Owing to restricted labor conditions, we are unable to furnish pot grown plants this year. Send for pamphlet “Garden Culture of the Rose.”

The All America Prize Winners for 1943

New Everblooming Rose
MARY MARGARET McBRIDE
(Plant Patent 537)

Received Top Rating—1943 All America Rose Selections Committee (Shown in colors on Page 118)

Named by the originators for the gracious Mary Margaret McBride, noted author and radio personality. This new Everblooming Rose is admired particularly for its perfect form. The double blooms are large and high-centered. The pointed buds open gradually, always keeping their beautiful high center. The color, borrowed from the radiant glow of a summer sunset, is a clear, deep coral-pink suffused with shimmering gold at base of petals. As the flowers age, the pink gradually lightens to that of Eternal Youth. Blooming in queenly dignity, Mary Margaret McBride will remain in never-fading glory throughout the hottest summer weather. Very generous in heavy spring bloom and continued all summer and fall. Luxuriant, smooth, leathery, deep green foliage. Aromatic alluring fragrance.

Price, 2-year-old dormant plants, $1.75 each; $19.25 doz.

New Everblooming Rose
HEART’S DESIRE (Plant Patent 501)

The All-America Gold Medal Winner for 1942 (Shown in Colors on Page 118)

Heart’s Desire possesses all of the good qualities that are desired in a rose. Originating from a fine lineage of dependable garden roses, it has inherited a strong constitution which results in a vigorous growing plant, with beautiful rich green foliage that is strongly disease-resistant. The color is an attractive deep red, which does not take on a purplish tint, nor is in any other way adversely affected by hot sunshine. The formation of the flowers is ideal, the buds are long and pointed. Its fragrance is that of an exquisite haunting perfume.

Price, 2-year-old dormant plants $1.75; each; $19.25 doz.

APRICOT QUEEN
(Plant Patent 464.) A lovely combination of colors is to be noted in this glorious new Rose. Orange and apricot at the base of the petals, merging to salmon-pink and peach-pink in the fully developed bloom is descriptive. The bud is long pointed. The fully developed flower shows a regular, well placed petal arrangement. A good strong grower, with handsome, leathery foliage which serves as a splendid foil to the perfectly formed buds and open bloom.

Price, 2-year-old dormant plants, $1.50 each; $16.50 doz.

CALIFORNIA
(Plant Patent 443.) This sensational novelty is outstanding among the numerous varieties in cultivation today. The color is a glorious shade of ruddy orange toned with saffron yellow; the exterior of the broad petals overlaid with Saturn rose—a dual tone effect of indescribable richness and beauty. Buds long and pointed; flowers of enormous size, reaching a diameter of 5 inches. Growth vigorous, with healthy glossy deep green foliage.

Price, 2-year-old dormant plants, $1.50 each; $16.50 doz.

New Everblooming Rose
GRANDE DUCHESSE CHARLOTTE
(Plant Rights Reserved)

This Magnificent Rose Won Second Place for 1943 Among the Most Beautiful New Roses in Cultivation

Grande Duchesse Charlotte brings us an entirely new color shade in Roses. This would be classed with the reds, a claret shade that reminds one of sundown in the Grand Canyon of the Colorado, or as may be seen in some handsome old tapestries. The long stream-lined buds of rich chestnut-claret open to very large, firm-petaled flowers of geranium red, changing to begonia-rose. In unfolding the petals recurve to an informal, artistic form, with a hint of carnation perfume. Leaves are large, glossy and dark green.

Price, 2-year-old dormant plants, $1.75 each; $19.25 doz.

New Everblooming Rose
SANTA ANITA (Patent Rights Reserved)

The Finest Pink Introduction for 1942 (Shown in Colors on Page 118)

In every way Santa Anita must be considered a lovely rose. The plant has the splendid habit and vigorous constitution so much desired in a garden rose. The flowers are perfectly formed and the buds are long and graceful. Its color is most appealing, being a crystal clear peach-blossom pink. It also possesses an enchanting delicate sweet fragrance that adds much to its loveliness. By combining all these qualities, Santa Anita easily merits its place as the finest pink rose of the year.

Price, 2-year-old dormant plants $1.50 each; $16.50 doz.

CHARLOTTE ARMSTRONG
(Plant Patent 455.) A 1941 All-America Award Winner. Acclaimed the finest rose introduction in recent years. The color is most unusual, blood-red in the bud, opening to cerise in hot weather and to spectrum-red in cool weather. Buds long and pointed; flowers 3 or 4 inches in diameter. The plant is extremely vigorous, semi-spreading to upright, and is continuously in bloom, producing flowers singly and occasionally in clusters. The foliage is leathery, semi-glossy, deep green and highly resistant to mildew.

Price, 3-year-old dormant plants, $1.50 each; $16.50 doz.
Henderson's Famous Everblooming Roses

We furnish these plants in a dormant condition in Spring up to May 1st and in the Autumn from October 25th up to as long as the ground is open. Owing to restricted labor conditions, we are unable to furnish pot grown plants this year. Send for pamphlet "Garden Culture of the Rose."

AMI QUINARD
Priced for the deep velvety luster of the buds and the crimson maroon tones in the open flower; fragrant. The plant is vigorous and upright.

BETTER TIMES (Plant Patent 22)
Vivid cerise pink, a color that fairly scintillates in the sunlight. The texture of the flower is very firm, thereby insuring good lasting qualities, and the foliage is luxuriant and leathery. Extremely popular as a cut flower.

BETTY UPRICHARD
A popular garden variety, on account of its perfectly-shaped, long-pointed bud, its long-lasting qualities when open, and its persistent blooming qualities. The buds are copper-red and open to a brilliant orange-carmine on outer petals with salmon reflexes. The fragrance is rich and spicy.

CALEDONIA
Full, fragrant pure white blooms. Upright and vigorous grower. Very popular and a favorite for cut flowers.

CHRISTOPHER STONE
In a nation-wide poll of rose growers, this variety ranked second in a list of ten best varieties. It is a bright scarlet red with perfectly formed flowers.

CONDESA DE SASTAGO
Rich yellow buds unfold into copper-colored blooms, with the yellow on the reverse, making a conspicuous and startling effect as the flowers reach different stages. Blooms are fully double with alluring raspberry fragrance. An exceptionally vigorous and bushy grower.

CRIMSON GLORY
(Plant Patent 105)
The plant is of spreading habit, so desirable for garden planting. The large buds are of typical urn shape. They open into full, well formed blooms of a deep vivid crimson shaded ox-blood red with a soft velvety nap.

Price, 2-year-old dormant plants, $1.00 each; $11.00 doz.

CROWN OF GOLD
The stems are slender but rigid. The bud is ideal in form, long and pointed; the open flower of splendid form with a rich, spicy perfume. The color, a heart of rich chrome-yellow shading cream at outer edges of the petals.

Price, 2-year-old dormant plants $1.00 each; $11.00 doz.

DAME EDITH HELEN
This grand rose is quite distinct and delightfully fragrant. Its petals turn back with that beautiful reflex peculiar to La France. Color a brilliant yet soft Rose du Barri pink.

DOUBLE WHITE KILLARNEY
The buds and flowers are beautiful beyond description; many consider it easily the finest white garden rose.

EDEL
The plant is robust and well branched; the flowers are borne in great profusion throughout the entire season. They are large and full, sparkling white in color, with ivory shading in the center.

E. G. HILL
This variety produces beautiful long buds of dazzling scarlet. The flower is high-centered; the plant is strong, vigorous and free flowering.

ETOILE DE HOLLANDE
Rosarians agree that this is the most popular red, everblooming garden rose in cultivation today. Its color is brilliant crimson, it does not turn bluish like many other red roses. The flowers are large and very fragrant.

GOLDEN CONDESA DE SASTAGO
A pure golden yellow sport of the lovely and popular Condesa. It enjoys the same habits of vigorous growth and bushiness. The flowers are large, full, rich and deep. Its fragrance is also most alluring.

Price, 2-year-old dormant plants $1.25 each; $13.75 doz.

GOLDEN RAPTURE
A splendid yellow rose of upright growth. The pure yellow buds are of ideal form. Beautiful large, double-flowers which last without fading. A splendid variety for cutting and for bedding. Highly perfumed.

Price, 2-year-old dormant plants $1.00 each; $11.00 doz.

GLOWING CARMINE
The name appropriately describes this beautiful new rose. It is a strong grower, producing big roses with many petals that last well when cut. A splendid, brilliant and attractive color.

Price, 2-year-old dormant plants, $1.00 each; $11.00 doz.

GRUSS AN TEPLITZ
Deep crimson. Noted for its perva-sive fragrance that is especially delightful. The flowers come in clusters, each one perfect, but on slender stems. Rich crimson, changing to bright scarlet, shading to velvety fiery red.

HEINRICH WENDLAND
Large, long, pointed buds and very large double, full, high-centered, intensely fragrant flowers of unfading Nasturtium red. Reverse of the petals deep golden yellow.

HINRICH GAÈDE
Truly a most unusual Rose, for there is nothing to equal it in color, which is a rich, luminous vermilion shaded golden yellow, such as is found in the modern Zinnias. It is a very free continuous bloomer, with a rich fruity fragrance. One of the most charming garden varieties.
Henderson’s Famous Everblooming Roses

We furnish these plants in a dormant condition in Spring up to May 1st and in the Autumn from October 25th up to as long as the ground is open. Owing to restricted labor conditions, we are unable to furnish pot grown plants this year. Send for our pamphlet ‘Garden Culture of the Rose.’

JOANNA HILL. The buds are long and pointed. They open into large, full, semi-double flowers. The color is clear yellow, orange-yellow at the heart.

KAISERIN AUGUSTE VICTORIA. For over 40 years this has been the favorite, pure white of rose lovers. Form perfect, fragrance delightful, and plant is moderately vigorous and hardy.

MARGARET McGREDY. Beautifully shaped, full, double flowers, distinct from all others in its rich coloring, which is a brilliant shade of Turkish or Oriental red, passing as the flowers age to a beautiful carmine-rose.

MCGREDY’S SCARLET. The fragrant, full, double flowers are of good size. They are brilliant scarlet, orangy-yellow at base of petals, the upper portions of same being lightly touched with crimson.

MRS. SAM McGREDY. A scarlet coppery-orange, heavily flushed with Lincoln red, which is particularly brilliant in sunshine. The flowers are large and full, and are delicately scented. Awarded Certificate of Merit of the National Rose Society of England.

MRS. WAKEFIELD CHRISTIE-MILLER. Color inside of petal soft pearly-blush shaded salmon, outside of petal clear vermilion-rose—a marvelous and delightful scheme of coloring. The blooms are of enormous size, retaining their wonderful bright coloring in the hottest sun.

PINK DAWN. A very pretty Rose of exceptional merit. Perfectly full, double flowers of a deep rose opening to lovely pink with an orange base. The showy blooms have a sweet fragrance. Of sturdy upright habit.

Price, 2-year-old dormant plants. $1.00 each; $11.00 doz.

PRESIDENT HOOVER. Strong, vigorous growth. Flowers large and full. Color, a combination of cerise-pink, flame, scarlet and yellow, in beautiful contrast which brings out the strong individuality of this charming rose.

PRESIDENT PLUMECOCQ. Coppery buff with a salmon overglow; flowers long lasting and fragrant; extremely beautiful.

R. M. S. QUEEN MARY. (Plant Patent 249). Its color is a glorious combination of vivid shades, blending rich glowing salmon with an exquisite pure pink and an orange base. The buds are long and pointed and the flowers large and of beautiful form. They are full enough for all purposes, freely produced on strong vigorous plants, and delicately perfumed.

Price, two-year-old dormant plants up to April 15th, $1.00 each; $11.00 doz.;

RADIANCE. “Radiance” is a brilliant rosy-carmine, displaying beautiful, rich and opaline pink tints in the open flower; the form is fine, largest size and full, with cupped petals. The bud is large, brilliant, radiant; the stems are long, buds and flowers borne erect.

RED RADIANCE. It is a clear red sport of the well-known and popular garden Rose “Radiance.” It inherits all the fine qualities of the latter—vigorously growing, erect branching habit, and healthy dark green foliage. The stems are long and rigid. Delightfully fragrant.

SOEUR THERESE. Named in honor of Sister Therese, the famed French Saint of Lisieux, who is popularly known as The Little Flower. The bud and bloom are large, golden yellow, changing to cadmium-yellow, the edges are spotted carmine. It is very hardy and vigorous, and blooms freely all season.

SOUVENIR DE CLAUDIUS PERNET. A popular variety supplying a long-wanted yellow Rose; fine buds of clear yellow, the edge of the petals being somewhat lighter. A strong growing plant with glossy foliage.

TALISMAN. A strikingly beautiful Rose. In the bud it is particularly attractive. The color is a combination of gold yellow, apricot and deep pink or old rose. The outside of the petals is bright yellow gold and pink; as the flowers expand they become bright apricot gold and deep rose pink.

THE DOCTOR. A clear rose-pink of enormous size, with large stiff petals. Plant moderately vigorous, but very floriferous, delightful Verbena fragrance, and good foliage. A variety that was awarded the National Society Gold Medal.

Price, 2-year-old dormant plants, $1.00 each; $11.00 doz.

Prices for the above except where specially noted 2-year-old dormant plants up to April 15th, 85c each; $9.00 doz.

Purchaser pays transportation charges on plants. If you wish your order sent by Parcel Post, please add 10% to value of your order for shipments East of the Mississippi River, and 20% for points West of the Mississippi River.
Popular Hardy Climbing Roses

We furnish these plants in a dormant condition in Spring up to May 1st and in the Autumn from October 25th up to as long as the ground is open. Owing to restricted labor conditions, we are unable to furnish pot grown plants this year. Send for our pamphlet “Garden Culture of the Rose.”

EASLEA’S GOLDEN RAMBLER Plant Patent 114
Easlea’s Golden Ramblor is not a rambler in the accepted sense of producing clusters of small roses, but on the contrary the flowers are large, perfectly formed and almost 4 inches in diameter, and are fully double, containing from 30 to 40 petals. The color is rich, deep yellow, with splashes of crimson in the center of the flower. The rich olive glow of the foliage and the red flowering wood present a striking and lovely contrast when the plant is covered with flowers.

Price, 2-year-old dormant plants, $1.00 each; $11.00 doz.

APRICOT GLOW Plant Patent 200
A truly magnificent climber with medium sized flowers of a light apricot color shading yellow at the base. Produced in large trusses. The flowers are double, nicely formed of a pleasing fruity fragrance.

Price, 2-year-old dormant plants, $1.25 each; $13.75 doz.

BLAZE Plant Patent 10
It is a vigorous climber of extreme hardiness. Blaze must be established in the ground one year for it to begin flowering freely, when its brilliant scarlet flowers are produced in succession over an extended period.

Price, 2-year-old dormant plants, $1.00 each; $11.00 doz.

CLIMBING AMERICAN BEAUTY
The rosy crimson flowers, 3 to 4 inches in diameter, are identical with its pollen parent, the American Beauty, and have the same exquisite fragrance, a quality rare in climbing roses. Of strong habit of growth, making shoots of from 10 to 15 feet in one season; hardy as an oak. Disease proof, glossy foliage.

CLIMBING TALISMAN
A climbing type of the popular Talisman. Requires winter protection in the North.

DR. W. VAN FLEET
The color is a remarkably delicate shade of flesh pink on the outer surface, deepening to rosy flesh in the center. The flowers are full and double, of delicate perfume, buds pointed, stems 12 to 18 inches and fine for cutting. The foliage is a peculiar shade of bronze-green, large and glossy.

EMILY GRAY
Color clear golden yellow, all flowers are double, with long buds, and attractive, dark green foliage. Very free flowering, splendid growing habits.

MARY WALLACE
A Pillar Rose growing 6 to 8 feet high, with large, glossy foliage blooming with great freedom in the Spring, and bearing quantities of flowers in the Spring and early Summer. Flowers about four inches across, semi-double, bright clear rose pink.

PAUL’S SCARLET CLIMBER
The flowers, a vivid scarlet, are of good size, semi-double, very freely produced in clusters of from 3 to 20 flowers each on much branched canes, the plants being literally covered from top to bottom with bloom. It is of strong climbing habit.

SILVER MOON
The flowers run 4½ inches and over in diameter, clear silver white in color, petals, of great substance and beautifully cupped. The center is filled with bright yellow stamens, a very attractive feature. It is very floriferous; foliage glossy bronze-green.

Prices for any of the above, except where specially noted, 2-year-old dormant plants, 85c each; $9.00 doz.

EVERBLOOMING CLIMBERS

NEW DAWN Plant Patent 1 Everblooming Pink Climber
A sport from the Dr. W. Van Fleet. The color is a delicate shade of flesh pink on the outer surface, deepening to rosy flesh in the center like the Dr. W. Van Fleet. It is also identical with its parent in size and formation of its flowers and habit of growth. In addition, it blooms continuously through the summer and fall months.

Price, 2-year-old dormant plants, $1.50 each; $16.50 doz.

PROSPERITY White Climbing or Pillar Rose
Prosperity is a true Everbloomer with extra large clusters of lasting white flowers tinted pink in the bud. When fully developed, it will attain a height of about 8 feet; it is the best adapted for a pillar rose or for covering walls or fences. It blooms during June and July on the old wood and continues flowering to late fall on the wood produced during the current year.

Price, 2-year-old dormant plants, $1.00 each; $11.00 doz.

Purchaser pays transportation charges on plants. If you wish your order sent by Parcel Post, please add 10% to value of your order for shipments East of the Mississippi River, and 20% for points West of the Mississippi River.
In this group, we have brought together six of the most beautiful Roses in cultivation, distinguished for their vigor, and free-flowering qualities—for the loveliness of the coloring and formation of the flowers and for the delightful fragrance of most of them. We can heartily recommend them as being six of the finest garden roses we have ever offered. Our pamphlet "Garden Culture of the Rose" sent with every group. We furnish these plants in a dormant condition in Spring up to May 1st and in the Autumn from October 15th up to as long as the ground is open. Owing to restricted labor conditions, we are unable to furnish pot grown plants this year.

1. MRS. PIERRE S. DUPONT
Nicely formed buds and double flowers of rich red-gold, almost orange in the depths of petals; spicy fragrance. A yellow Rose which blooms all the time and supplies good flowers. The plants are bushy and the glossy foliage is attractive. Highly recommended.
Price. 2-year-old dormant plants, 85c each; $9.00 doz.

2. CONTRAST
The combination of colors in this exquisite bi-colored rose catches the eye at once, this variety of the petals is a mixture of deep red from the base, the upper face is a superb shade of orange red. The flowers are large, full petalled, fairly fragrant and produced in enormous quantity over the full rose season, grand for cutting purposes.
This new rose was widely tried and received much praise from all parts of the U.S. A., England and Australia.
Price. 2-year-old dormant plants, $1.00 each; $11.00 doz.

3. PRESIDENT MACIA
The longest soft pink rosebud you ever saw, with heavy veins of darker pink on splendid stems for cutting. The open flowers are great and billyow blooms nearly 6 inches across. The face of the petals is pale flesh, warmed with a yellow flush toward the base, the reverse rich pink. Fruity fragrance.
Price. 2-year-old dormant plants, $1.00 each; $11.00 doz.

5. MADAME JOSEPH PERRAUDA
This rose, which was awarded a medal as "The Most Beautiful Rose In France," is carrying on its tradition in America for unusual coloring and habit of growth. The introducer speaks of it as "an enchanting Nasturtium buff straying to a luminous shell pink at the petal edges."
It is the nearest approach to a pure buff.
Price. 2-year-old dormant plant, 85c each; $9.00 doz.

Special Offer: The Triumphant Group of Six Everblooming Roses 2-year-old dormant plants, $5.50.

EVERBLOOMING FLORIBUNDA ROSES
This new group has achieved almost instantaneous popularity for its many uses in the garden. Floribunda Roses are extremely hardy, also extremely free flowering. They are valuable for planting in the foreground of shrubbery, also for hedge purposes and for border plantings along driveways, etc. We offer the following varieties:

BABY CHATEAU. Large, semi-double flower clusters of velvety dark red not unlike Chateau de Clos Vougeot.
DAGMAR SPATH (WHITE LAFAYETTE). White. Large trusses of pure white flowers produced freely all summer. A sport of Lafayette and a good bedding Rose.
FLUFFY RUFFLES. Lovely, semi-double, silvery pink flowers enhanced with a rich rose color on the reverse.
IMPROVED LAFAYETTE. A profuse bloomer with flowers of a deep glowing red, suffused with vivid crimson. Plants are taller than most, and are a fiery show in mass.

EVERBLOOMING POLYANTHA ROSES
They range from 1 1/2 to 2 feet high and produce large clusters of small flowers in abundance throughout the summer. Very desirable for bedding, borders, etc.

CECIL BRUNNER (Sweetheart or Fairy Rose). Dainty, perfectly formed buds and flowers, light pink with a yellow base, blooms prolifically.
CHATILLON. A lovely clear pink, the large clusters of semi-double flowers are produced in great abundance.
GLORIA MUNDI. Orange scarlet, a brilliant color unexcelled for bedding.

MARIE PAVIE. Charming, fully double, pure white flowers produced with the greatest freedom. Valued for its lovely and delightful fragrance.
Price, any of above 2-year-old dormant plants, 85c each; $9.00 doz.

SELECT HYBRID PERPETUAL ROSES
Popular June Flowering Roses distinguished for their hardiness and for this reason are largely planted in the North.

AMERICAN BEAUTY. A Hardy Rose of the largest size, having the ever-blooming qualities of the Tea Rose, with the delicious odor of the Damask Rose, consequently equally valuable for winter or summer flowering. In color, it is a deep, brilliant rose-carmine.

FRAU KARL DRUSCHKI. This beautiful, large snow-white variety is now very popular, sometimes being called the White American Beauty. Splendid buds and immense flowers, 4 to 5 inches across; perfectly double and delightfully fragrant; large, thick petals.

GEN. JACQUEMINOT. The popular hardy crimson "Jack" Rose. It is a strong, vigorous grower, entirely hardy; an early and abundant bloomer. Its brilliant crimson is the standard of color by which other Roses are judged; flowers full and fragrant.

MAGNA CHARTA. Vigorous constitution, freedom of bloom and handsome foliage. Flowers bright, deep pink; very large and fragrant.

PAUL NEYRON. Probably the largest of all Roses. Color, clear dark pink shaded carmine. Flowers, bold and handsome; very fragrant.
ULRICH BRUNNER. Large and cupped; bright cherry-red, and very fragrant. Long flower stalks almost devoid of thorns.

HYBRID RUGOSA ROSES
Shrub roses, more vigorous and hardier than most other types grown. Excellent for hedges, also as specimens in a shrub border.

BLANC DOUBLE DE COUBERT. It produces hundreds of double white flowers throughout the summer.

ROSA RUGOSA RUBRA. This is not a hybrid, but the old fashioned Single Red variety that is so popular for the dainty formation of the flowers which are followed later in the season with brilliant red hips or seed pods.

MAX GRAF (Trailing Hybrid Rugosa Rose). Valuable as a ground cover or for planting on steep banks. The foliage resembles the Rosa Rugosa and remains green until late fall. Flowers are single, bright pink, with pretty crimped petals. Grows well in partial shade under trees.

Price any of above 2-year-old dormant plants, 85c each; $9.00 doz.

HENDERSON'S SPECIAL BONE FOR ROSES (see page 146), is an ideal plant food for Roses. It promotes a strong, vigorous growth and an abundance of flowers.

Purchaser pays transportation charges on plants. If you wish your order sent by Parcel Post, please add 10% to value of your order for shipments East of the Mississippi River, and 20% for points West of the Mississippi River.

Chrysanthemums, New and Improved Varieties

EARLY, LARGE FLOWERING

We offer a group of new and recently introduced, early-flowering hardy varieties that begin to flower right after October 1st and produce quantities of good sized flowers. Very desirable for cutting.

BURGUNDY—Wine Red. Great Double flowers, perfect form and depth in that rarest of colors—glowing wine-red. A strong stemmed, branching plant.

CYDONIA—Orange Bronze. It has the rich orange-red color of Quince with bronze overcast. Fine sprays.

JEAN CUMMING—White. When well grown easily the most perfect pure white. Large, very double.

KING MIDS—Golden Yellow. From September on it produces large, double, bronze-yellow blossoms without letup in surprising profusion—everyone perfect. A sturdy 2½ ft. plant.

LAVENDER LADY—Lavender. Breath-taking pure lavender. Full double blossoms, everyone a model of perfection. Without question the most distinct and popular Mum ever introduced.

Price 50c each; $5.00 per doz.

MANDARIN—Coppery Bronze. Unique and lovely in its exotic color blend. Glowing coral, salmon, and coppery-bronze.

MRS. PIERRE S. DU PONT, III. An indescribable blend of peach-pink, rose-salmon, and fawn. No double Mum compares with this truly magnificent creation. A glorious cut flower.

Price 50c each; $5.00 per doz.

PALE MOON—Pale Yellow. Large, fluffy blossoms on big sprays. Soft, lovely yellow and perfect to blend with other colors. Remarkably profuse.

ROSE GLOW—Lovely raspberry, rose-pink blossoms in glorious profusion from September on. Lovely combined with soft yellow.

Price 30c each; $3.00 per doz. except where specially priced.

Set of 10 Early, Large Flowering for $3.00.

THE CUSHION MUMS

Develop into perfect mounds or cushions about twelve inches high, and spread over two feet. In the latitude of New York, they are usually in full bloom by the first of September, and continue from them on up to frost. The plants are perfectly hardy.

PINK CUSHION—(Amelia). Original Pink Cushion. Variable shades of pink. Hardy and very early.

BRONZE—Coppery bronze to dull red. Also healthy but one of the best.

WHITE—Occasionally shaded lavender.

YELLOW—Golden yellow tipped bronze.

Price 30c each; $3.00 per doz.; Set of 4 for $1.00.

Henderson’s New Bird Chrysanthemums

A Superior Strain of Early Flowering Pompones

(Shown in Colors on Opposite Page)

This new early flowering strain is fully from two to three weeks earlier than the standard sorts, and is consequently certain to produce a beautiful display before killing frosts set in. The flowers are produced in loose, finely proportioned sprays, which make them ideal for cutting for decorative arrangements. The Plants are perfectly hardy and require no protection in the latitude of New York.

1. ROBIN. An extremely showy variety. The flowers are somewhat quilled; the outer petals being bright yellow and the center deep crimson. Height 24 inches.

2. SNOWBIRD. Lovely pure white with creamy center. A magnificent cut flower.

3. ORIOLE. A fine dwarf variety. The flowers are bright yellow and are produced in abundance. Compact habit.

Price, 30c each; $3.00 per doz.

Special: Set of six, $1.50

Purchaser pays transportation charges on plants. If you wish your order sent by Parcel Post, please add 10% to value of your order for shipments East of the Mississippi River, and 20% for points West of the Mississippi River.

Popular Single Varieties

The popularity of the Single Chrysanthemums is ever mounting. For flower arrangements they are unsurpassed.

AUTUMN LIGHTS—Copper. Hardest, most permanent and the loveliest of all the bronzes. Autumn at its best is immediately suggested in the gleaming coppery bronze tints. Fine, compact, free flowering plant.

CLARA CURTIS. Produces masses of fragrant pink daisy-like blossoms when well established. Very hardy. It spreads rapidly.

Early September.

GOOD MORNING—Creamy Yellow. Very Profuse.

SILVER MOON—White. New. This gleaming white Chrysanthemum has a degree of warmth and intensity that is entirely new, and for which there is a real need. No other kind like it! No other attains such early perfection! 50c each; $5.00 per doz.

Price 30c each; $3.00 per doz., except where specially noted.

Set of 5 Single Chrysanthemums for $1.50.

KOREAN HYBRIDS

Famed as the hardest of all the lovely types of chrysanthemums. These are all single or semi double and the colors are most exquisite.

APOLLO—Orange Bronze. Soft yellow sparkling orange bronze.

CERES—Soft Yellow. Shade of ripening grape.

DAPHNE—Old Rose. Lovely old rose when open.

LOUISE SCHLING—Salmon-red, toned bronze.

Price 30c each; $3.00 per doz.; Set of 4 for $1.00.

Standard Pompon Varieties

These beautiful colors liven up the autumn garden.

CLORINDA. Bronze; back of petals old gold.

COMETO. Pink, fine, rounded flower.

OCTOBER BRONZE. One of the finest bronze varieties.

SCARLET BEAUTY. Scarlet, shaded crimson.

VERA VICTORIA. A splendid variety; glowing bronze-yellow.

WANDA. Pure white; fine form.

Price, 25c each; $2.50 per doz. Set of 6 for $1.25.
Hardy Vines for Garden Draperies

**AMPELOPSIS**

**VEITCHII “Boston Ivy”**

Entirely hardy, attaining a height of 20 to 30 feet in two or three years, clinging to houses, brick or wooden work with the greatest tenacity. It is a great protection to houses, as the leaves, lapping over each other like slates on a roof, effectually prevent rain from penetrating the walls. For covering dead trees, boundary walls, etc. Beautiful autumn foliage.

Price, strong one-year pot-grown plants, 35c each; $3.50 doz.; $25.00 per 100.

**QUINQUEFOLIA—Virginia Creeper or American Ivy**

Where a fast-growing, rampant and extremely hardy vine is desired, plant this variety. Ideal for covering boulders, stumps of trees, etc.

Price, 2-year-old plants, 50c each; $5.00 doz.; $35.00 per 100.

**BIGNONIA RADICANS Trumpet Creeper**

Well adapted for covering walls, arbors, and unsightly places where a showy flowering vine is desired. It is a rapid grower, perfectly hardy and thrives well in exposed places. The flowers are trumpet-shaped and a brilliant orange scarlet.

Price, 50c each; $6.00 per doz.

**CELASTRUS SCANDENS Bitter Sweet**

A rapid growing climber with ornamental light green foliage, yellow flowers in June and bright orange, yellow and crimson fruit in the autumn. It is known by the popular name Bitter Sweet.

Price, 50c each; $6.00 per doz.

**CHINESE FLEECE OR SILVER LACE VINE**

**Polygonum Auberti**

It is our experience that this hardy vine will thrive better in windows exposed places such as roof gardens, than any other known vine, and it does well in direct sunlight or in the shade.

The Chinese Fleece will attain a height of about 25 feet during the season, and in late summer it produces panicles of small white flowers that resemble strings of silver beads. The foliage is bright, shiny green and profuse; the vine is ideal for covering porches, pergolas, trellises, etc.

Price, 75c each; 3 for $2.00; $7.50 per doz.

**CLEMATIS**

**Jackmani.** The best-known and most valued variety. Color rich, dark, royal purple. The flowers average three inches across.

Price, strong plants, $1.00 each; $10.00 per doz.

**Henryi.** The most beautiful pure white of the large-flowering group. The flowers of this variety also average 3 inches across.

Price, strong plants, $1.00 each; $10.00 per doz.

**Paniculata.** Blooms in the early fall and is one mass of feathery white fragrant flowers. These are succeeded by the silken seed vessels almost as ornamental as the flowers. It will grow 15 to 20 ft. in a season. It is insect-proof, it is perfectly hardy, it adapts itself to all situations, thrives everywhere and need only be seen to be admired.

Price, strong 2-year-old plants, 50c each; $5.00 doz.; $35.00 per 100.

**ENGLISH IVY**

Its value for outdoor window boxes is recognized widely. It is also a good climbing plant for the covering graces in many places it is unsurpassed, being evergreen. Used extensively also as a hardy climber.

Price, strong plants, 4 in. pots, 50c; $5.00 doz.

**EUONYMUS Radicans Varg.**

A low variegated trailing plant with small green leaves edged with white. The branches will cling to stone or root along the ground, making it useful as a ground cover or for covering low walls.

Price, 50c each; $5.00 doz.

**HONEYSUCKLE Lonicera**

**Halleana Hall's Honeysuckle.** Pure white flowers, changing to yellow. Very free blooming and fragrant. It produces its main crop of flowers in early summer and again scatteringly during September. It is excellent for porches, trellises fences or hedge-rows.

Price, 40c each; $4.00 doz.; $30.00 per 100.

**LONICERA SEMPERVIRENS MAGNIFICA**

New Everblooming Coral Honeysuckle

Beautiful tubular flowers of a striking orange-scarlet color. Blooms continuously from early June until October. Magnificent foliage and brilliant flowers. Perfectly hardy. One of the most satisfactory vines ever offered.

Price, 75c each; 3 for $2.00; $7.50 doz.

Purchaser pays transportation charges on plants. If you wish your order sent by Parcel Post, please add 10% to value of your order for shipments East of the Mississippi River, and 20% for points West of the Mississippi River.
New Hardy Flowering Shrubs

This is the first time in a number of years, that it has been our privilege to bring before our Customers a group of New Hardy Flowering Shrubs, which for sheer beauty should command a central position in every garden. Two of them—the Daphne Somerset and Viburnum Burkwoodi—possess an enchanting fragrance which alone would merit a place for them. Plant as early in spring as possible.

CARYOPTERIS
(Blue Spirea)

This charming plant is a real contribution to the nursery list of summer and fall flowering shrubs. It is covered from August till late autumn with clusters of powder-blue fringed flowers. This shrub grows about 18 to 24 inches tall and is perfectly rounded, making a small mound about two feet in diameter. The foliage is silvery green in color. A truly worthwhile plant for the foreground of the shrubby border.

Price, strong 2-year plants, 12 to 15 inches high, $1.75 each; $17.50 doz.

NEW HARDY DAPHNE
SOMERSET (Plant Patent 315)

This deliciously fragrant and easy-to-grow Hybrid Daphne originated in England a few years ago. It has received the highest honors from The Royal Horticultural Society. It has been on test in this country for five years, and has successfully wintered without protection, through all kinds of weather. During May and early June the plants are covered with delightfully scented blush-pink, star shaped flowers. The fragrance is similar to that of Daphne Camerum.

The foliage is rich, dark green, giving the plants the effect of Boxwood, and it remains green until the beginning of March, when the new leaves push the old ones off the branches. Daphne Somerset may be used as a hedge. Spaced 18 inches apart, it will grow into a tight fine mass. It may be clipped formally, and can also be pruned informally, if the wavy Boxwood effect is desired. Left unpruned, it grows about 3 feet high and 2½ feet wide. Can be kept 24 inches high and 18 inches wide without difficulty.

It is a lovely low shrub for the foreground of the shrub border, and blends happily with hardy plants in the flower border. Mr. F. F. Rockwell, Horticultural Editor of the New York Times and writer of many horticultural books, remarked when he first saw it in bloom, “Here is one of those rare things that happens once every 25 years or so.” It is a choice plant with a great future.

Price, strong 2-year plants, 15 to 18 inches high, $2.15 each; $22.50 doz.

VIBURNUM BURKWOODI

Waxy bluish white and deliciously fragrant, the flowers of this new fragrant Viburnum are produced in early spring when the leaves are unfolding. They form round, domed clusters, and the garden-like fragrance is so sweet, as to pervade a large area. The plant grows about 4 feet high, and 3 to 6 feet in diameter. It likes a well drained, sunny place, with plenty of moisture throughout the season.

This is a new jewel for the garden—a real aristocrat. For the small garden where there is room for only the choicest shrubs, the new Viburnum above, all others that should be grown is Viburnum Burkwoodi. Foliage brilliant in autumn and persists till late winter. In the southern states, it is semi-evergreen.

Price, strong 2-year plants, 18 to 24 inches high, $3.00 each; $30.00 doz.

NEW SCARLET WEIGELA

BRISTOL RUBY (Plant Patent 492)

It makes a shapely thrifty plant with attractive rich green foliage. Color is a soft ruby red shading to garnet crimson; extremely pleasing in effect and without harsh tone. Attaining a height of 6 to 7 feet at maturity, it makes a perfectly formed, well rounded specimen requiring very little pruning because it flowers well from old wood; no die-back or uneven growth at any time. It has been widely tested, and has proven perfectly hardy. Excellent reports from Vermont and other difficult regions, fully substantiate our own estimate of its unusual hardness. Bristol Ruby is definitely superior to Eva Rathke in every respect.

Price, strong 2-year plants, 2 to 3 feet high, $1.50 each; $15.00 doz.

CARYOPTERIS
BLUE SPIREA
AMYGDALUS, Flowering Almond
Double Pink. The miniature double, rose-like blossoms cover the entire shrub. Very hardy, very graceful; blooms in May. Height, 3 to 5 feet.
Price, 5¢ each; $0.25 doz.

ALTHEA, Rose of Sharon
Valuable for their late blooming. Grows to a height of 10 to 12 feet. Flowers in August and September. We offer Double White and Double Red.
Price, 75¢ each; $0.25 doz.

BERBERIS, Barberry
Thunbergii. Of low, spreading growth, forming a dense, impene- trable bush. The branches are set with sharp thorns. Small yellow flowers in the spring, followed by bright scarlet berries in the late summer and fall. The foliage turns orange and scarlet in the autumn. A valuable hedge plant. Height, 4 to 6 feet.
Price, 35¢ each; $0.35 doz.; $2.50 per 100.

Thunbergii Atropurpurea (Red-leaved Barberry). Similar in all respects to the green-leaved Barberry, except that the foliage is bronze red. As the season advances the color changes to vivid orange-scarlet. Plant in full exposure to the sun for best color.
Price, plants 12 to 15 inches high, 75¢ each; $4.00 doz.; $30.00 per 100.

Buddleia, Butterfly Shrub Pink Butterfly Bush; Charming
Vigorous and very free flowering, producing a profusion of large lavender pink trusses continuously throughout the summer. Not only a striking ornament for the garden, but also extremely valuable as a late summer cutflower. Small young plants set out in the spring quickly grow to a height of 4 to 6 feet and of about the same diameter.
Price, 85¢ each; $0.95 doz.

*Ilex verticillata, Winterberry
A deciduous member of the Holly family which develops into a spreading bush 6 to 8 feet high and bears brilliant red berries throughout the winter.
Price, strong plants 2 to 3 feet high, $1.25 each; $8.25 doz.

*Calycanthus, Strawberry Shrub
Floridus. Also frequently referred to as Sweet Shrub or Carolina Spicewood. A strong, upright grower with large, handsome foliage. Produces clusters of fish-brown, sweet-scented flowers in May. It grows to a height of 4 to 6 feet, and will thrive either in sunny or shady places. Price, 75¢ each; $0.25 doz.

*Cornus Florida, Dogwood
Florida, White Flowering. They are lovely in springtime when covered with the large single white flowers and also when the foliage turns in fall. Height, 15 to 25 feet.
Price, 3 to 4-foot plants, $1.50 each; $15.00 doz.

Florida Rubra. Similar to the white form except the flowers are bright pink.
Price, 3 to 4-foot plants, $3.00 each; $30.00 doz.

Cytisus
Flowering Quince. Dense, spreading habit; thorny, irregular branches with bright pink scarlet flowers on short stems in April and May, before the leaves appear; conspicuous yellow fruit. Height, 6 to 8 feet.
Price, 85¢ each; $0.95 doz.

*Deutzia
Very ornamental when planted either singly or in a border. They thrive in any good soil and are profuse bloomers.
Gracilis. Covered with white flowers in May and June. Graceful and attractive at all times. Height, 2 to 4 feet.
Price, any of above, 75¢ each; $0.85 doz.

*Euonymus Europaeus, Burning Bush
Distinguished for the magnificence of its brilliant red autumn foliage and its bright pink flowers, which hang from tiny threads. As winter advances the fruits burst open and display their bright scarlet seeds. It attains a height of about 20 feet.
Price, strong 3-foot plants, $1.25 each; $13.75 doz.

*Forsythia, Golden Bell
Spectabilis. The showiest of all; makes a fountain-like growth. Every twig densely covered with golden yellow bells. Height, 6 to 8 feet.
Flowers in March or early April, before the foliage appears.
Vulgarissima. A little later than the preceding. Vigorous, upright growth. Height, 10 to 12 feet.
Price, any of above, 75¢ each; $0.85 doz.

Hydrangea, Hardy, Shrubby
Arborescens Grandiflora. The heads of flowers are snowy white. Begins to bloom in early summer and continues to the fall. Height, 6 feet and the same width, and is literally loaded with its grand panicles of large snowy-white flowers.
Price, strong two-year-old plants, 2 to 3 feet high, 75¢ each; $8.25 doz.

Paniculata Grandiflora. This is the most popular hardy shrub in cultivation. Height, 8 to 10 feet. The flowers are white when first open, but change to pink and russet brown. They are borne in immense pyramidal panicles, nearly a foot in length. It commences flowering in August.
Price, strong plants, 2½ to 3 feet high, 75¢ each; $8.25 doz.

*ile de France. The richest, the loveliest, the most beautiful of its race. The flower spikes are a foot long and their color is a glowing, claret-purple. Very free blooming and vigorous. It attains a height of 4 to 6 feet. An exquisite cut flower.
Price, $1.00 each; $11.00 doz.

Magnifica. The long, graceful spikes of flowers are of a pleasing, rich violet-rose and are produced in profusion from early June until late autumn.
The plant dies down in winter, but comes up again every spring. Height, 6 to 8 feet.
Price, 75¢ each; $0.85 doz.

Spirea Van Houten. The popular double flowered variety. Plants 3-to-4 feet high, 75¢ each; $10.25 doz.

White Flowering, 10¢ each; $1.00 doz.

Hydrangea paniculata. The Double White Shrub with its long, perfect panicles of white flowers is a most attractive addition to the garden.
Price, 35¢ each; $2.50 per 100.

HYDRANGEA, Pancyulata Grandiflora, Double White. The heads of flowers are white, each with a red or pink center. Height, 5 to 8 feet. A most striking shrub.
Price, 50¢ each; $5.00 per 100.

PANICULATA Grandiflora, double white. This variety is used as a specimen shrub. Height, 5 to 8 feet. Blooms very profusely.
Price, 50¢ each; $5.00 per 100.

*ILEX VERTICILLATA, Winterberry
A deciduous member of the Holly family which develops into a spreading bush 6 to 8 feet high and bears brilliant red berries throughout the winter.
Price, strong plants 2 to 3 feet high, $1.25 each; $8.25 doz.
HENDRICKS'S HARDY FLOWERING SHRUBS

KOLKWITHIA AMABILIS, Beauty Bush
A recent introduction from Asia, discovered by the late E. H. Wilson. Proclaimed the perfect shrub. In early June it is a veritable fountain of tiny, foxtail-like blossoms. Height, 15 to 20 feet. Price, $2.00 each; $15.00 doz.

MALUS, Flowering Crab Apple
This group is one of the loveliest of our dwarf-flowering trees, in springtime and again in fall when their glimmering clusters of fruit are in evidence.

IOENSIUS BECHTELI, Bechtel's Crab. It is a robust, round-headed tree with double pale pink flowers about 2 inches across, delicately scented. Height, 15 to 18 feet.
Price, 3 to 4-foot plants, $2.00 each; $20.00 doz.

MAPLE, Bloodleaf
(Acer palmatum atropurpureum)
A high-grade stock of these popular plants. Ours is a true blood-red strain that retains its color throughout the entire summer. Height, 6 to 8 feet. It is probably the most beautiful or more suitable for a lawn specimen. Our plants are well shaped and bushy.
Price, 1½ to 2-foot, pot-grown, grafted plants, $3.50 each.

PHILADELPHUS, Mock Orange
Very desirable free-blooming shrubs of erect habit and easiest culture in any common soil.
Virginal. Rated by many as the finest. Flowers are semidouble; two inches across; very prolific; delightfully fragrant. Main crop of flowers is produced in late May and June. Price, 3-foot plants, $1.25 each.
Price, for any of above, 85c each; $9.25 doz.

SPIREA
Anthony Waterer. Carmine crimson flowers from June to November. Height, 2 to 3 feet.
Price, for any of above, 85c each; $9.25 doz.

PRUNIFOLIA. (Bridal Wreath). In May the branches are covered with small white flowers. Height, 6 to 8 feet.
Price, for any of above, 85c each; $9.25 doz.

THUNBERGII. Of dwarf, bushy habit; rarely exceeding 3 feet in height. White flowers in April and May.
Price, for any of above, 85c each; $9.25 doz.

Van Houttei. Flowers of pure white, borne in greatest profusion in June. Very showy. Height, 8 to 10 feet.
Price, for any of above, 75c each; $8.25 doz.

SYMPOHICARPS
Racemosus, Snowberry. An old favorite. In July and August it has small pink flowers, which are followed by great numbers of large, pure white, wax-like berries in clusters that remain until freezing weather.
Price, for any of above, 75c each; $8.25 doz.

HEDGE PLANTS
BARBERY. (See description, page 122.)
It is ideal as a hedge plant on account of its dense bushy growth, also because it requires but little pruning to keep it in shape.

PRIVATE, Ligustrum ovalifolium
California Privet. Of all the shrubs which have been tried for hedges, none can compare with this. Of easy growth, and splendid foliage; free from insects.
Price, strong shrubs, 1½ feet to 2 feet high, $1.50 doz.; $8.00 per 100. Extra strong, 2 to 3 feet high, $2.00 per doz.; $12.00 per 100.

Our Pamphlet on the Pruning and Care of Hardy Shrubs and California Privet sent free on application.

SYRINGA, Lilac
Everyone wants lilacs in May; they add beauty and sweetness to any surroundings.

Jan Van Tol. A new French Lilac with pure white, single flowers in long trusses. One of the finest in cultivation.
Price, $1.25 each; $13.75 doz.

Hugo Koster. Single. A superb, soft pinkish Lilac. The trusses are beautifully formed; the contour of the shrub is perfect.
Price, $1.25 each; $13.75 doz.

Ruhm Von Horstein. It is perfectly glorious in the richness of its magnificently formed, large, single royal purplish-red flowers.
Price, $1.25 each; $13.75 doz.

VULGARIS. (Common Purple Lilac). The popular, old-fashioned purple variety. Height, 12 to 14 feet.

Vulgaris Alba. (Common White Lilac.) Beautiful pure white flowers.
Price, 100 each; $12.00 per doz.

VIBURUM
Carlesi, Fragrant Viburnum. One of the choicest shrubs of recent introduction. It is a native of Korea and extremely hardy. Sometimes called the Fragrant Viburnum on account of its deliciously fragrant clusters of waxy, pink flowers, which are produced in early spring. It likes an abundance of sunshine. Height, 4 feet. Dr. Wilson rated this viburnum as a "real aristocrat."
Price, $2.50 each. $25.00 doz.

Plicatum, Snowball. The pure white, perfectly round 3 to 4-inch balls, produced in great quantities during June, above the artistic waxy clusters of flowers, are produced in early spring. It likes an abundance of sunshine. Height, 6 feet.
Price, 50 each; $25.00 per doz.

*WEIGELA, Diervilla
There is no shrub more deservedly popular. All of the varieties are very ornamental and should be found in every collection.

Candida. White flowers in great profusion from June to November. Height, 6 to 8 feet.
Price, 50 each; $25.00 per doz.

Price, 50 each; $25.00 per doz.

Truehedge Columnberry
(C. S. Plant Patent No. 110)
Berberis Thunbergii pluriflora erecta.
A most remarkable new Berberis of dense upright growth with extra-heavy foliage giving a splendid upright hedge of a rich green color that changes to brilliant autumn tints. Perfectly hardy bearing an abundance of berries. Immune to rust.
Price, plants 12-15 ins. high, $1.50 doz.; $12.50 per 100.

Purchaser pays transportation charges on plants. If you wish your order sent by Parcel Post, please add 10% to value of your order for shipments East of the Mississipi River, and 20% for points West of the Mississipi River.
New and Recently Introduced Dahlias

They are the Prize and Praise Winners of the Honor Rolls

AMERICAN VICTORY—F. D. Rich oxblood red 10-inch flower. A solid color extending through the petals. This means it stands the sun without shading. A splendid 5-ft. bush with dark green foliage. Strong, well proportioned stems. Achievement Medal Winner.

Price, strong divisions, $2.00 each; $20.00 doz.

DIR. MARSHALL A. HOWE—F. D. Named in honor of Dr. Marshall A. Howe, who, up to the time of his decease, was the Director of the New York Botanical Gardens, and a foremost authority on Dahlias. It is a very attractive Tyrian-rose. The petals fall back to the stem, thereby producing a magnificent effect.

Price, strong divisions, $2.00 each; $20.00 doz.

EVENTIDE—I. D. True purple with violet purplish shadings. A seedling of Thomas A. Edison, which retains the staghorn petal formation of its parent. Stems strong and sturdy; plant 4 ft. flowers 10 inches.

Price, strong divisions, $2.00 each; $20.00 doz.

HILLSIDE GOLD—C. A golden yellow with an apricot glow of sheer beauty. Bushes grow 3½ ft. high and branch naturally and the 6½ inch flowers are held well above foliage. A fine keeper for exhibition and cutting.

Price, strong divisions, $1.50 each; $15.00 doz.

JOYCE LOUISE—I. D. Tyrian-pink shading lighter. The bush grows to a height of about 3 feet; blooms measure up to 10 inches. Achievement Medal Winner. A Dahlia which showed considerable promise. Bush growth satisfactory.

Price, strong divisions, $1.50 each; $15.00 doz.

LOIS WALKER—F. D. A true purple with outer third of petals chocolate white. A bi-gold Medal winner; has won six American Home Achievement Medals. The blooms are 7 inches, produced on plants about 4½ feet high. Sturdy growth and good stems.

Price, strong divisions, $1.50 each; $15.00 doz.

MAFFIE—S. C. Intense carmine of stupendous size. The 12-inch specimens of Maffie led the list of Futurity Medal Winners in 1940, and was unquestionably one of the most spectacular exhibition dahlias shown. Bush growth is very rugged 6 ft. high and foliage exceptionally heavy.

Price, strong divisions, $2.50 each; $25.00 doz.

RUDOLF'S GIANT—I. D. The 12-inch size, and a striking color combination gives this creation real prestige. Of live buff with apricot and pink suffusions, makes it glow in the garden.

Price, strong divisions, $1.50 each; $15.00 doz.

SILVER LADY—I. D. Ivory white, lightly flushed and edged violet rose. This 10-inch flower is one of the most meritorious of the newer dahlias. The delicate shadings seem to grow in beauty the more the flower is examined. A rugged bush, with vigorous foliage and long, strong stems add the finishing touches to a really great creation.

Price, strong divisions, $2.00 each; $20.00 doz.

SUNRAYS—I. D. Adjectives fail to do this flower justice. In color, it is a clear buff, suffused apricot with a distinct peach red on reverse side of petals. The bush grows to a height of 4½ feet, flowers measure up to 11 inches. It wins everywhere and also wins its place on the "All-American Team." Its faults are hard to find.

Price, strong divisions, $1.50 each; $15.00 doz.

Special Offer: One of each of the Ten New and Recently Introduced Dahlias $15.50.

Henderson's Select Cactus Dahlias

FRAU O. BRACHT—S. C. It is a clear, light primrose-yellow in color. The flowers are of good size but refined in appearance; the stems are strong, and the plant grows five feet high.

GOLDEN STANDARD—I. C. The flowers are warm buff shaded amber and gold. It is very pleasing in form, with full, evenly arranged petals. It will produce flowers up to 9 inches across. The plant attains a height of about 4½ feet.

JERSEY'S DAINTY—C. It is extremely dainty in color, being white, with a faint tinge of lavender. During late summer it is almost pure white.

KAY FRANCIS—S. C. A prize winner, having eleven first prizes and an American Home Achievement Medal to its credit. The beautiful deep flowers with high, full centers and numerous petals are soft lemon yellow.

Price, strong divisions, 75c each; $7.50 doz.

MRS. HERBERT O'CONNOR—I. C. Long, slender, yet erect stems and flowers of good size, measuring 9 inches across and 5 inches deep, of an unusually bright color, which is soft rose-pink, deepening at center. Dark, healthy open foliage. Bush 5½ feet high; profuse and continuous bloomer.

Price, strong divisions, 75c each; $7.50 doz.

ROBERT E. LEE—S. C. Acclaimed for its brilliant cardinal-red color that does not fade or burn in a scorching sun; perfect full center.

ROYAL PURCHASE—I. C. An extremely beautiful shaggy incurved Dahlia. The color is a beautiful straw yellow, outer petals suffused pink. It begins flowering early and the flowers frequently grow to 10 inches in diameter. It attains a height of about 4½ feet.

Price, strong divisions, 75c each; $7.50 doz.

SATAN—S. C. A sensation for its striking beauty, formation and coloring. Blooms average 10 to 12 inches in diameter and 6 inches in depth; color, flaming scarlet with orange-salmon at base of each petal.

SON OF SATAN—I. C. This beautiful cactus, a decided improvement over the variety Satan, both in color and size, is of real exhibition quality. The plants are tall and the very large blooms are held high on long, strong stems.

Price, strong divisions, $1.00 each; $10.00 doz.

STAR OF BETHLEHEM—S. C. The pure white perfectly shaped flowers, with their numerous pointed petals, stand above the dense, dark green foliage, which makes it a most beautiful plant.

Price, except where specially priced, strong divided roots, 50c each; $5.00 doz.

Special Offer: Set of ten Select Cactus Dahlias $6.00.

Henderson's Dahlia Roots are strong divisions. Dahlia Roots are Delivered Transportation Paid in the U. S. A.
DECOI'ORATIVE DAHLIAS

Recently Introduced and Standard Varieties

They are the Prize and Praise Winners of the Honor Rolls

I. D. Informal Decorative varieties. F. D. Formal Decorative varieties.

Dahlia, History and Cultivation, is the name of our eight-page booklet, which gives complete cultural instructions, how to store roots, etc., sent with orders, if asked for.

ANNA BENEDICT— I. D. This is considered to be one of the best of the newer dark red varieties. Exceptionally fine form, with perfectly full center. The color is very rich, being a deep garnet with black shadings in center. The flowers are very large, bloom from 4 to 5 inches across being not unusual. The plant grows about 5½ feet.

BALLEGRO'S GLORY—F. D. A beautiful Dahlia much admired for its distinctive color, which is mahogany red with gold bordered petals. The colors vary somewhat with weather conditions. Medium in height and compact in growth.

CALIFORNIA IDOL— I. D. An exceptionally large clear lemon yellow with finely developed full centers. This variety is comparable with the popular Lorrya in Autumn, but is in our opinion better adapted for average garden cultivation.

Price, strong divisions, 75c each; $7.50 doz.

CLARA BARTON— I. D. An immense bloom which faces slightly upward on long, straight stems. The face of the petals is silvery orchid with the reverse of deep lavender, giving a general effect of lavender. A very prolific bloomer, and one we can well recommend. Bush of medium height.

CHAUTAUQUA SALUTE—F. D. Good whites are very few but this one is fine. Pure white with absolutely no shading, an early and continuous bloomer and perfect grower.

Price, strong divisions, 75c each; $7.50 doz.

Price, strong divisions, 75c each; $7.50 doz.

FORT MONMOUTH— I. D. A wonderful giant variety. The color is a rich crimson-maroon with a hue of bluish violet at the tips.

FRANCIS LA ROCCO— F. D. A very popular and dependable bright sulphur yellow variety. The flowers are perfectly formed, and are very dependable for growth and color. In the usual cut flower variety. The plant attains a height of about 4 feet.

INCANDESCENT—I. D. Soft orange, with coral red reverse and shadings. The plant grows to a height of 3½ feet, producing blooms up to 7 inches across. The plant is vigorous and of medium height.

Price, strong divisions, 75c each; $7.50 doz.

JAMES KIRBY— I. D. Like a glowing ruby, this superb Dahlia possesses a dazzling brilliance unlike that of any other red Dahlia in cultivation. Its exact color may be described as a crimson-scarlet with a touch of purple in the center, all perfectly blended to produce a flower that almost scintillates like a rare jewel. In size the flowers average 8 inches or over in diameter, with a depth of 5 inches.

Price, strong divisions, 75c each; $7.50 doz.

JANE COWL— I. D. An impressively beautiful Dahlia. The color is warm buff and old gold, blending to apricot and rose in the center. The plant is vigorous, the stems are strong.

JERSEY BEAUTY—F. D. The most popular cut flower Dahlia in cultivation because of its exquisite color and fine form. The color is a vivid, glowing pink. Large flowers of great depth.

JERSEY WHITE BEAUTY—F. D. It possesses many of the outstanding qualities that made the Jerseys so famous. It is not a massive flower, as it is rarely over seven inches across, but it makes up in prolificacy. It begins flowering early and continues throughout the summer. The flowers are pure glistening white, of perfect formal design, with perfect centers. The flowers also have wonderful keeping qualities when cut. The plant is healthy and vigorous and grows about five feet high.

KATHLEEN NORRIS— I. D. Although this lovely soft, rose-pink with creamy-pink center has been on the market for a number of years, it is still the leading pink. Its petals are broad and overlap each other. The blooms are held erect on long-stemmed, slender stems. The plant is vigorous and of medium height. When grown for exhibition it will produce blossoms ten inches across.

KEMP'S VIOLET WONDER— I. D. A magnificent Dahlia, bright violet-purple in color, the tips of the petals shading into a faint bluish-violet. The flowers are large and deep, of perfect form, and keep well when cut. The stems are stiff, holding the flowers well.

MISS OAKLAND— F. D. A pure white that is of exhibition quality. The perfectly formed blooms are large and held erect on good, long stems. Plants are strong growers, and are very prolific.

Price, except where specially noted, strong divided roots, 50c each; $5.00 doz.

Special Offer: Complete Set of 25 Decorative Dahlias $12.50

Henderson's Dahlia Roots are strong divisions. Dahlia Roots are Delivered Transportation Paid in the U. S. A.
In this group, we have combined five lovely Dahlias that should be found in every garden.

It contains a beautiful range of colors and forms which are not only superb in the garden, but also ideal for cut flowers.

1. CLARA CARDER. One of the grandest pink decorative Dahlias we have ever grown. Its formation is on the border line between formal and informal decorative, and is in a color class by itself, being a beautiful shade of clear Cyclamen pink, the only Dahlia we know of this color. The blooms are produced in the greatest profusion from early season until cut down by frost.

   Price, strong divisions, 75c each; $7.50 dozen.

2. FOREST FIRE—J. D. As its name indicates, this is a very spectacular variety, the color being a combination of lemon yellow and brilliant scarlet. Height of plant about 4½ ft.

   Price, strong divisions, 50c each; $5.00 dozen.

3. SULTAN OF HILLCrest—F. D. This variety produces immense flowers, frequently 11 inches across; bright lemon yellow in color with a rosy-pink reverse. The plant is very vigorous, and the flowers are produced on strong stiff stems. This is a favorite exhibition dahlia.

   Price, strong divisions, 75c each; $7.50 dozen.

4. RED JERSEY BEAUTY—F. D. This the newest development in the Jersey clan is indeed a most welcome addition, for the fine qualities that have made the Jerseys famous are found in a superlatив degree in this new-comer. It is brilliant deep red in color. The flowers are of good size and are produced abundantly over a long season.

   Price, strong divisions, 75c each; $7.50 dozen.

SPECIAL OFFER. One of each of the five varieties described above. A $3.50 value for $3.00.

MODERN POMPON DAHLIAS

BABY. Beautiful shade of pink; most attractive for cutting and border display. An outstanding color in this particular class.

PETIT STONE. 1½”-inch. This is an exceptionally strong growing variety, with attractive foliage that sets off the rich red blooms. Satisfactory for cutting and exhibition. Strong divisions.

BOBBY. Plum purple of the deepest shade in the dahlia field. Can make a wonderful color combination when grown with the lighter or pastel shades.

EDITH MUELLER. This is a new variety of unusual merit. The rosy red which blends with a golden yellow lends to the flower a refinement seen in no other Pompon. Long stems and free habit. 1½ in. blooms. Strong divisions.

HONEY. Blooms 1¼ in. bush, 3 feet. Primrose yellow with faint suffusion of red on edge of petal. Free flowering on long stems.

LITTLE HERMAN. Maroon and pink, makes a most attractive planting in any garden border, bright and cheerful.

MORNING MIST. 2 inches: White ground, heavily shaded with lavender at center and with each petal bordered with lavender. This variety is of great value for cutting, owing to its very long stems and free blooming habit, together with its beautiful blend of color.

JOE FETTE. Pure white, fine form, good stems. 1½ in. blooms.

LITTLE EDITH. Primrose yellow, with an edging of carmine. Very free and a perfect exhibition variety. 1½ in. blooms.

TITIAN. Bright scarlet flowers supported on strong stems; upright and perfectly formed flowers.

TOM THUMB. For the amateur gardener who is really looking for something unusual, this pompon produces the smallest yet most perfectly formed red flowers. Most attractive, ideal for cutting or bunching.

YELLOW GEM. We believe this to be the best yellow Pompon. Very free, long stems, perfect formation. 1½ in. blooms.

Price for any of the above, 35c each; $3.50 dozen.

MINIATURE DAHLIAS

The introduction of the Miniature opens up a new field of usefulness for Dahlias. They are extremely attractive in the garden; the plants grow 2½ to 3½ feet high, they are covered with flowers during the summer.

BABY ROYAL. Bush 3 ft. A gem for any garden of salmon pink shaded apricot with yellow at base of petal.

BABY SAGAMORE. Excellent long stems and a golden yellow color that is always popular. It will cut more blooms per plant than any other variety.

BISHOP OF LANDAFF. A miniature duplex. The brilliant scarlet flowers stand gaily above the bronze-red foliage. Excellent for landscape work.

CORALETT. One of the finest. A glowing coral pink.

CORINA. Excellent for border work, its brilliant salmon pink coloring adds beauty and charm to the flower bed.

DAY BREAK. A beautifully shaped flower that should be included in the collection. Color bronze, good habit and strong.

ECLIPSE, JR. Light orange, shading to deep orange at center. One of the most perfect miniatures produced to date.

FAIRY. Soft violet rose shading mauve at tips. Early, continuous bloomer. Keeps wonderfully well when cut.

HENRIETTA. Color orange and white, ideal for cutting. Fine bushy habit. Flowers held upright on strong stems.

RED HEAD. Scarlet orange with blooms facing up on nice stems. Fine keeper.

ROBIN. As arresting as the first robin in spring. Prolific bright red or scarlet. Holds its color in the sun and blooms are small.

SANHICAN’S SWEETHEART. Pale apricot, suffused with shrimp-pink.

Price for any of the above strong divisions, 50c each; $5.00 doz.

SINGLE FLOWERED DAHLIAS

BIG CHIEF. Brilliant cherry red, margined with rich velvety maroon.

LUSIUS. Rich burnt orange.

NEWPORT WONDER. The soft pink blooms keep well.

PURITY. A pure white of fine form.

YELLOW TREASURE. The best clear yellow.

Price of above, strong divisions, 50c each; $5.00 doz.

BALL DAHLIAS

JOAN KERR. Beautiful white. A popular cut flower variety.

JERSEY’S BEACON. Orange and buff. Lovely for artistic arrangements.

MAUDE ADAMS. Blush-pink and white. A delicate pastel color.

Price of above, strong divisions, 50c each; $5.00 doz.

Special Offer of Dahlias (Our selection). We offer our selection of named varieties, made at the time the order is filled, of good contrasting colors. Price, field-grown roots, 3 for 75c; 6 for $1.25; 12 for $2.25; $18.00 per 100.

The Garden Fruit De Luxe
HENDERSON'S HIGH QUALITY
CULTIVATED
BLUEBERRIES

INDIAN SUMMER The Finest Everbearing Raspberry

The Phenomenal
BOYSENBERRY

BLACKBERRY JOY
Recommended for the Home Garden
Henderson's Bush and Vine Fruits for the Home Garden

These occupy an important place in the Victory Garden Program.

BLUEBERRIES Cultivated Varieties

**Improved Large Fruiting**

**Dormant Plants Supplied up to May 1st**

These are unquestionably a garden fruit de luxe, and are the result of years of labor by plant hybridizers connected with the U. S. Department of Agriculture. Blueberries not only occupy an important place in the berry patch, but also, on account of their beauty, welcome additions to the ornamental border (they are also frequently used for hedge purposes). They are somewhat related to the laurels and rhododendrons; they thrive in soils which, while they do well but require sunlight. The plants are attractive at all times. In spring when the new leaves have pinkish and bronzy tones; later when covered with waxy white blossoms; then these are followed with the bluish fruit; and finally when the plants take on the rich crimson tones of autumn.

Aside from the beauty of the plants, the chief value of the cultivated Blueberries lies in the size, texture, and flavor of their remarkable fruit. Blueberries grow best in a well drained, sandy, peaty soil, with a good supply of underground moisture. The soil should also be on the acid side, the best pH range being from 4.5 to 5. If the desired natural conditions do not exist in the garden, the soil can be built up by adding peat moss, sand, dust, or apple pomace, together with coarse sand. The latter importance is in order to produce aeration in the soil. This is necessary to keep the micro-organisms alive, which are required by the roots during the active growing season.

The plants are perfectly hardy and bear profusely for many years. Their fruiting season in the vicinity of New York usually extends throughout July.

**CONCORD, Early**

An upright growing variety which, under favorable conditions, will attain a height of six feet. The fruit is large (about the size of a Concord grape); it is very attractive in color and possesses a fine flavor.

**RANCOCAS, Midseason**

Of vigorous upright growth; the plant is very attractive and its rich red twigs give it an added winter interest. The large fruit is borne in clusters; berries firm, of excellent sweet flavor.

**JERSEY, Midseason to late**

It produces a majestic and ornamental bush, very vigorous in habit. One of the largest fruiting varieties in cultivation, and it is not unusual to find berries up to three-quarters of an inch in diameter. Flavor is superb.

**RUBEL, Late**

Vigorous, productive and very popular. Considered to be the most productive cultivar Blueberry. Fruit is large, of attractive bright blue color, borne in clusters.

**Prices of above, strong 3-year-old bearing size plants, ranging from 15 to 18 inches high, $1.50 each; $15.00 per dozen.**

**SPECIAL OFFER: One plant each of the four Superb Cultivated Blueberries described above for $5.00.**

**BLACKBERRIES**

**Selected Varieties for the Home Garden**

**JOY**

An excellent variety for the home garden. The berries are of large size and superb quality, with a flavor that is rich, sweet and luscious. They are almost as thick as they are long, and coal black. The canes are ironclad, hardy, of stocky, vigorous habit; so stout and strong that they do not need staking.

**Price, $1.00 per doz.; $7.50 per 100.**

**MACATAWA**

The fruit is very large and handsome, intense black with a very high polish and without any core. Juicy, high flavored.

**Price, $1.00 per doz.; $7.00 per 100.**

**MERSEREAU**

A very early, ironclad hardy berry. Exceptionally sweet and melting, being without core.

**Price, 90c per doz.; $6.00 per 100.**

**BLOWERS**

Berries very large, attractive and of superb quality.

**Price, 90c per doz.; $6.00 per 100.**

**ELDORADO**

Very large, jet black, borne in clusters and ripen well together.

**Price, 90c per doz.; $6.00 per 100.**

**DEWBERRIES or Creeping Blackberry**

The Dewberry is a trailing plant and for this reason must be trained on supports or trellis. It can be used for covering fences, stone walls, etc.

**LUcretia**

Berries firm, sweet and luscious throughout. Very early.

**Young's**

A splendid sort producing fruit the first year. The fruit is large, of good flavor, and rich wine color.

**Price for above, 90c per doz.; $6.00 per 100.**

**BLUEBERRIES BEAR PROFUSELY**

**BOYSEN BERRY** Phenomenal New Hybrid

A distinct new variety of vine berry produced by a cross between Loganberry, Cuthbert Raspberry and three Blueberries of unknown origin. Very hardy, having withstood temperatures of fifteen degrees below zero, near drought-resistant. A heavy producer of immense size, sweet and delicious berries, with but very few seeds. Fruit hangs on many days when ripe. Vines start bearing the year after planting and continue many years.

**Price, $2.00 per doz.; $15.00 per 100.**

**HANSEN BUSH CHERRY**

A very hardy and very productive Bush Cherry, bearing annual, heavy crops of fruits which resemble plums. They come massed in clusters from the ground up and at times almost completely cover the branches. They are excellent for jam, jelly or cordial. They grow from 4 to 5 feet tall.

**Price, plants, 1½ to 2 feet high, $1.00 each; $10.00 per doz.**

"The Garden Culture of Small Fruits," a pamphlet giving practical instructions on the planting and subsequent care of Garden Fruits, will be sent free to customers on application.
Hardy Grapes

Grape Vines are a life time investment, plant as many varieties as your space will permit. No grapes can compare with those grown and ripened to perfection in your own garden.

GOLDEN MUSCAT New Golden Grape
Possesses all the delicious flavor and delightful aroma of the finest greenhouse grapes. Golden Muscat produces immense bunches of large oblong fruit. Its lovely golden color is most appealing. It is extremely hardy and is an ideal grape for the home garden or for the roadside market.
Price, $1.50 each; $15.00 doz.

VAN BUREN New Early Blue Grape
This is the newest and most improved of the popular blue grapes. The bunches are large and compact and ripen earlier than any other variety. It has a rich sweet flavor and has proven perfectly hardy in Northern New York.
Price, $1.50 each; $15.00 doz.

CACO Famous Hardy Red Grape
Rapid growth and very hardy. The color is a rich, sparkling wine-red, with abundant bloom. Bunch large; berry medium to large and almost round. The crowning merit, however, is its quality, surpassing in tenderness of pulp, luscious flavor and aroma, while it is as prolific as Concord.
Price, 75c each; $7.50 per doz.

CAMPBELL'S EARLY
Vigorous hardy vine, with thick, heavy, mildew-resisting foliage, and bearing abundant clusters; very large, compact and handsome. Berries large, often an inch or more in diameter; black with light purple bloom; skin thin, but very tenacious; flesh firm but tender, parting easily from its few and small seeds. Flavor rich, sweet, slightly vinous, free from pithiness. Its season is very early.
Price, 75c each; $7.50 per doz.

ONTARIO
A new early white Grape, the result of a cross between Green Mountain and Diamond. The berries are round, medium in size, juicy, soft and of delicious flavor, far superior to Green Mountain. Price, 75c each; $7.50 per doz.

CONCORD. The most popular American Grape. Bunch and berries large; color black with a rich bloom. A strong grower, very hardy, healthy and productive. Used for grape juice and for general cultivation.
Price, 50c each; $5.00 per doz.

DELAWARE. An old standard red variety. Berries small and compact, skin thin but firm, flesh juicy, very sweet and refreshing. A moderate grower — it responds quickly to good culture. Price, 50c each; $5.00 per doz.

NIAGARA. The old favorite White Grape. Bunch large and handsome. Berries medium size, round, skin thin, tough, does not crack and ships well. Sweet with a flavor and aroma, peculiarly its own. Price, 50c each; $5.00 per doz.

Special offer: One plant each of the eight Hardy Grapes. $5.50

Raspberries

LATEST INTRODUCTIONS AND BEST STANDARD SORTS

EVERBEARING VARIETIES

INDIAN SUMMER New Everbearing Red Raspberry
This finest and most delicious Everbearing Red Raspberry may be enjoyed from June to November. In addition to its outstanding ever-bearing qualities it has size, flavor and unusual beauty. The large, glossy red berries are conical in shape and also have wonderful keeping qualities. It has no comparison for the home garden.
Price, strong, 1-year-old plants, $2.00 per doz.; $15.00 per 100.
ST. REGIS
It succeeds upon all soils, and the canes are absolutely hardy. Its fruits on the old canes until late in August, after which the young canes continue to produce until severe frost. The berries are a bright crimson, of large size and rich, sugary, full Raspberry flavor.
Price, $1.00 per doz.; $7.50 per 100.

STANDARD RED VARIETIES

MARCH New Red Raspberry
This is the newest and most improved variety of Red Raspberry. An extremely vigorous grower with strong canes and large, rich foliage. It was developed at the N. Y. Agricultural Experiment Station and is consequently extremely hardy. Marcy produces the largest and most beautiful bright red berries of any variety on the market. It has a delicious flavor and is, we believe, one of the most valuable Raspberries ever developed.
Price, 1-year-old plants, $1.50 per doz.; $10.00 per 100.

TAYLOR
Taylor was recently originated at the New York Experiment Station, and after extensive tests, has proven to be an outstanding Raspberry. Its flavor is superb; the flesh is thick and firm, color rich red, and the cavity very small. Desirable variety for the home garden; also a profitable market berry. Season same as Latham.
Price, 1-year-old plants, $1.00 per doz.; $7.50 per 100.

LATHAM
Large, round and firm berries of rich, brilliant red are borne in great profusion from late June till well into July. The plant is very hardy and the fruit holds up well for shipping.
Price, 90c per doz.; $6.00 per 100.

BLACK RASPBERRIES

BLACK BEAUTY
A new hardy and disease-resistant variety, recommended for the home garden or for the commercial grower. It is very prolific, and the fruit is large and attractive.

CUMBERLAND
The berries measure seven-eighths of an inch in diameter, but in spite of this, the fruit is possessed of unusual firmness.

NEW LOGAN
Probably the most prolific of all the early Raspberries. It is of the highest quality.
Price for the above Black Raspberries, 90c per doz.; $6.00 per 100.

EVERBEARING STRAWBERRY

MASTERDON The Wonder-berry
For its prolificacy, Mastodon has frequently been referred to as the Wonderberry. It is a strong and vigorous grower, and produces large, juicy, bright-red berries of delicious flavor. The caps are bright green, which add considerably to the appearance of the fruit.
Mastodon begins fruiting in ninety days after the plants are set out. It bears a full crop in June, and continues to bear from then on throughout the summer and fall. The following season it is again ready to begin bearing with the standard varieties in spring.
Price, 60c per doz.; $4.00 per 100.
**STARBRIGHT**

### STRAWBERRY PLANTS

These Strawberries were transplanted into cold frames in the fall, and if planted out any time before May 5th, will, under proper conditions, fruit some in the present year.

The Strawberry plants offered in this catalog cannot usually be supplied after May 5th. Our summer list of Pot-grown Strawberries is ready about June 15th, and is mailed free to customers, or may be had upon application by mail.

**Henderson’s Triumvirate of New Strawberries**

**MAYTIME.** (Very Early, Perfect Flowering)

This brand new introduction to the U.S. Dept. of Agriculture is the sweetest and most attractive of the early strawberries ever been developed. In size it is slightly smaller than Dorsett, but it makes up in prolificity. The plant develops a vigorous, healthy growth.

From the results obtained at various test plots, Maytime, is highly acclaimed for its extreme earliness, its high quality and its sweet and delicious flavor.

Price 60c doz.; $4.00 per 100.

**STARBRIGHT.** (Medium Early to Late)

Developed by Dr. George M. Darrow, of the U.S. Department of Agriculture, under whose direction were originated the popular varieties. Fairfax and Dorsett we believe that this new variety possesses everything that could be desired in a garden fruit. It is beautiful in appearance, of fine form, extra large and uniform, with a bright brilliant color that inspired its name. Its flavor is, however, its chief attraction—a true rich strawberry flavor, with a sweetness that should preclude the necessity of any additional sugaring.

The plant is very vigorous, the foliage deep rich green and leathery.

Price 60c doz.; $4.00 per 100.

**RED STAR.** (Very Late, Perfect Flowering)

Commercial growers and home gardeners alike are demanding an extremely late strawberry of good quality. From the commercial angle because, very late berries bring good prices; and, from the home gardener’s standpoint because, whetted appetites demand more and more delicious fruit. Extensive tests have proven that Red Star is the latest variety in cultivation, surpassing all of the popular late sorts.

The berries average large and are bright red and glossy. The plant makes a luxuriant large growth.

Price 60c doz.; $4.00 per 100.

**Select Standard Strawberries**

**DORSETT.** (Early to Mid-season, Perfect Flowering)

The plants are very vigorous, the deep rich green foliage, runners are produced in abundance. The flower stalks are strong, and the fruit is held well above the ground. The beautifully mounded, conically shaped, bright red berries are large and uniform in appearance.

The outstanding merit of this berry, however, is not its size, or appearance, but its delicious flavor.

Price 50c per doz.; $3.50 per 100; $20.00 per 1,000.

**FAIRFAX.** (Early to Mid-season, Perfect Flowering)

The plants are very hardy and disease resistant. The flower stalks are strong, and produce quantities of perfect heavily pollened flowers that are larger than most strawberry blossoms. The berries are very large, somewhat blunt in shape, and bright red with prominent yellow seed. When over-ripe, the fruit turns dark red but still retains its firmness and delicious flavor.

Price 50c per doz.; $3.50 per 100; $20.00 per 1,000.

**PATHFINDER.** (Mid-season, Perfect Flowering)

It is an ideal Strawberry for the home garden, because its texture is soft and luscious. It also possesses a tantalizing aroma which bespeaks a delightful pigment flavor. It is disease resistant and can be grown successfully in areas where the Red Seede types is prevalent.

Price 50c doz.; $3.50 per 100; $20.00 per 1,000.

**BLAKEMORE.** (Early, Perfect Flowering)

The ideal strawberry for the Southern states, surpassing by far the old Missionary variety. It is not recommended for cultivation North of Baltimore.

Blakemore, produces attractive fruit of medium size in great abundance. The flesh is very firm which makes it ideal for shipping. It’s flavor is a little rich slightly tart. The plant is extremely vigorous and disease resistant.

Price 40c doz.; $2.75 per 100; $15.00 per 1,000.

**CHESAPEAKE.** (Mid-season to Late, Istillate)

A splendid grower making just enough runners for a matted row. The plants root deeply, are vigorous and healthy, with large foliage. One of the best in flavor, shape, size, color and appearance.

Price 40c doz.; $2.75 per 100; $15.00 per 1,000.

---

**Garden Herbs**

There are a vast number of varieties suitable for garden cultivation; those that follow are among the most popular and most useful. They all succeed in average garden soil; they can be planted in the flower or vegetable garden. As stocks of herbs are extremely limited we urge our customers to order early.

**CATNIP.** Used for seasoning, etc. Price, pot-grown plants, 30c each; $1.00 doz.

**CHIVES.** Priced for soups and seasoning; also makes an attractive border plant. Price, clumps, 25c each; $3.50 doz.; $18.00 per 100.

**HOP.** An herbaceous vine; often makes a growth of 20 to 25 feet in a season. Excellent for covering fences; pods ornamental and useful. Price, roots, 20c each; $2.00 doz.

**LAVENDER.** Grows about 18 inches high; produces an abundance of blue fragrant flowers. Price, pot-grown plants, 30c each; $3.57 doz.

**MARJORAM, SWEET.** One of the most pleasantly scented of all the herbs; used in perfumes, also for seasoning.

Price, pot-grown plants, 25c each; $2.50 doz.

**MINT (Spearmint).** The popular green mint used for mint sauce, for flavoring cold drinks, etc. Price, pot-grown plants, 25c each; $2.50 doz.; $18.00 per 100.

**PARSLEY, EMERALD.** A beautiful, bright green, curled variety; very decorative; excellent flavor. Price, pot-grown plants, 15c each; $1.50 doz.; $8.00 per 100.

**ROSEMARY.** A very compact and dainty plant with fragrant foliage; used in perfumes, seasoning, etc. Price, pot-grown plants, 30c each; $3.00 doz.

**SAGE.** One of our most popular seasoning plants. Price, pot-grown plants, 25c each; $2.50 doz.

**SAVORY, WINTER.** One of our most ornamental herbs. Very hardy and produces a delightful pink color. Can be used in medicines and cookery. Price, pot-grown plants, 30c each; $3.00 doz.

**THYME, BROAD-LEAVED.** Much prized for seasoning; very attractive; used in rock gardens. Price, pot-grown plants, 25c each; $2.50 doz.

**WORMWOOD.** A handsome, furry, grayish-leaved plant that is very ornamental and very hardy. It is used in medicines and cookery. Price, pot-grown plants, 30c each; $3.00 doz.

**Rhubarb Roots**

**MacDONALD.** (New). Developed by MacDonal College of McGill University, Montreal, Canada. It is a distinct improvement on the older types of Rhubarb. The plants are exceptionally vigorous, and produce a large yield. The stalks are large, and of a bright crimson color—very tender and of the highest quality. Due to the bright crimson exter- nal color of the stalks, it is used in making jam and jelly. Seasoned MacDonald Rhubarb have a most attractive rich pink color. We can only supply roots of this variety.

Price, Large Root Divisions, 50c each; $5.00 doz.

St. Martin’s. It is not only immensely produc- tive, but it is also one of the earliest and has a rich spicy flavor. Price, 30c each; $3.00 per doz.

**Horse Radish Roots.** Price, 35c per doz.; $2.00 per 100.

For Asparagus Roots see page 8.

---

**SEND FOR OUR LIST OF POT-GROWN AND TRANSPLANTED VEGETABLE PLANTS.**

**READY IN APRIL.**

The harder varieties of vegetable plants, like Broccoli, Cabbage, Cauliflower and Lettuce are ready for delivery after April 1st.

The more tender sorts, like Egg Plants, Peppers and Tomatoes, after May 1st.

Purchaser pays transportation charges on plants. If you wish your order sent by Parcel Post, please add 10% to value of your order for shipments East of the Mississippi River, and 20% for points West of the Mississippi River.

NOTICE TO CUSTOMERS

"No price for any article listed or described herein exceeds the ceiling price for the article as determined under the applicable Maximum Price Regulation issued by the Office of Price Administration. As required by that office, we will upon request, furnish you with a statement of our maximum prices on any of the commodities about which you inquire."

PETER HENDERSON & CO.

SPECIAL NOTE.—We prepay transportation charges on Lawn Mowers, Fertilizers, and Insecticides where noted, by parcel post, express, or freight at our option within the first and second zones (150 miles of New York City). Purchasers beyond these zones pay transportation charges. Purchaser pays transportation charges on implements, except where noted. We guarantee the safe delivery of all implements and requisites shipped by parcel post or express in

Important.—In remitting postage, always add it to the foot of order as a separate item—this will help to avoid mistakes.

LAWN MOWERS

The Henderson Improved Model "A"

Equipped with self-adjusting ball bearings to the wiper shaft, and blades which shear the edge of the stationary knife at an acute angle, thus cutting the grass by drawing it across the edge of the stationary cutting knife instead of pushing it across.

Specifications. Ten-inch Traction Wheels; six-inch wiper cylinder with five drawout spiral blades to wiper shaft; flexi-rigid, twin-edge cutting knife; handsomely decorated in colors.

Prices

14-inch cut, $14.00
16-inch cut, $15.00
18-inch cut, $16.00
20-inch cut, $18.00
With rubber tires, $1.00 extra.

Grass Catchers

14-inch, $1.50; 16-inch, $1.65; 18-inch, $2.00; 20-inch, $2.25.

Delivered transportation paid. See Special Notice above.

The manufacture of all types of Lawn Mowers has been discontinued for the duration. While we have a limited supply on hand, we suggest writing us for definite information regarding your requirements.

HENDERSON'S E-Z Fertilizer Spreader

Scientific distribution, uniform application. No portion of your lawn neglected—none receives excess. The wide container assures complete coverage of entire lawn speedily, efficiently, effortlessly.

To operate, fill container, and guide like a carpet sweeper. Distributes quickly without waste or mess. Instructions for assembling accompany each spreader. Price, $1.25. Postpaid 150 miles.

PLANET, JR.

Seeder and Fertilizer Spreader

Expert hand sowing cannot equal the accuracy of this new invention. It sows grass seed rapidly and uniformly at any rate desired; also spreads fertilizers, lime and top dressing materials. The Spreader is 14 in. wide. Holds about 25 lbs. of fertilizer. Price, $6.95; transportation paid.

Above stocks are limited—Order early.

Henderson's Seeder and Fertilizer Distributor

A sturdy, practical machine for the small lawn. Equipment includes 3 plates for regulating flow of seed, fertilizers or top dressing. Shut off control at handle. Constructed of pre-war metals which are now unobtainable.

Capacity, 30 lbs. fertilizer, Disc Wheels, 18 inch spread. Price, $7.50.
24 in., Disc Wheels .................$17.50
36 in., Disc Wheels .................24.25

Purchaser pays transportation.

The positive agitator keeps the materials flowing evenly, assuring distribution without waste. Cannot clog.

CRAB GRASS ELIMINATOR

IMPROVED CRAB GRASS ELIMINATOR

Adjustable to fit all mowers. Lifts the seed spikes from the surface ready to be cut in the normal operation of the mower.

14-18 inch size .................$1.90
20 inch size .................. 2.15
Postpaid.

"FLEX" LAWN MOWER BLADES

Golf course architects and engineers endorse these blades as a valuable accessory for shearing grass. Eversharp, unbreakable, they triple the life of the mower. Easily attached to any mower by reversing the cutting edge of your present blade and inserting the Flex blade. Price: 14 to 22 in. lengths, $2.00; Power Models, 19 to 25 in., $5.00. Postpaid.

TO ORDER:

Order by name of article, with code letters and number of items (if more than one). Specify no. 6d. for enameled steel; 2d. for galvanized steel. Include 5c. for each additional pound over 25 lb. weight. Make checks payable to Henderson & Co., at New York, N.Y. When remitting, refer to catalog.

NOTE:

Domestic Parcel Post Rates:

Within the U. S. and Possessions, Weight limit, 70 lb.; size limit, 100 inches for combined length and largest girth; minimum 10 lbs. for sizes between 84 and 100 inches.

**Lawn Equipment**

For a complete line of implements and equipment for the making and maintenance of large lawns or sports fields—Send for our sports turf price list.

## Spike-Tamp
An indestructible combined sod perforator and tamper made of malleable iron. quickly converted from spike to tamper and reverse by loosening one nut. 9 inches square, spikes 12" inches long, tapered. Overall length, 4 feet. Weight, 13 lbs. Price, $5.50. Purchaser pays transportation.

## Henderson's Sod Tamper
Cast iron. 8 x 8 inches. Wooden handle. 48 inches. Weight 14 lbs. Price $2.25 each. Purchaser pays transportation.

## Midget Spike Roller
A spike roller for small and medium size lawns. For aerating the sod when right. Weight, 70 lbs. Crated 100 lbs. 2 sections, 9 in. dia., width 18 in. Price $11.50. Purchaser pays transportation.

## The Henderson Spike Roller
Reasonably priced for cultivating and aerating large lawns. Light to handle but heavy enough to do the work required. Additional weight may be added in frame box if desired. Rolls of steel and filled closely with spikes of proper length for perforation. Weight, 70 lbs. Crate 100 lbs. 2 sections, 9 in. dia., width 18 in. Price $11.50. Extra for 2 handles, 2 sections. 2.50. Purchaser pays transportation.

## Wheelbarrow Leaf Rack
A handy device for collecting leaves and litter. Fits on any wheelbarrow with removable sides. It is made of galvanized wire, bolted to a wooden base; capacity about 10 bus. Price (rack only), $12.00. Purchaser pays transportation.

## Gem Nozzle Holder
The hose is held firmly and can be adjusted to any elevation. Price, 50c. Transportation paid.

## Foldabarrow (Folding Wheelbarrow)
The collapsible feature is entirely new and exclusive. When space is at a premium storing the old type barrow is a problem. The Foldabarrow is more than strong enough for any construction or gardening job. It can easily carry any weight a workman can manage. Carrying handle conveniently placed. It is only a matter of seconds to fold the barrow and store it in a convenient place.

## Water Wand
Attaches to garden hose. 12 inches in length enables reaching back of flower beds without inconvenience. Discharge 134 inches in diameter and 153 inches long. Discharge area 10 square inches. Capacity 13 gallons per minute which is approximately 4 times the discharge rate from the ordinary sprinkler. Furnished in bright cadmium finish. Resistant to corrosion. Price, $2.50. Postpaid.

## Automatic Nozzle
For sprinkling lawns, shrubbery, flower beds and for washing automobiles, etc. Shut off and 3-inch face nozzle. Screws on to any standard 3-inch garden hose coupling. Price $1.50. Transportation paid.

## Brass Graduating Spray Nozzle
Will throw a coarse or fine spray or a solid stream. Price, 3/4-in., 75c; 1-in., $1.00. Transportation paid.

## Bull Dog Hose Mender
Simply cut the hose apart where a leak occurs, insert the tube and hammer down the staples. Price, 12 and 14-in., 15c each; $1.65 per doz. Transportation paid.

## Bull Dog Hose Coupler

## Rubber Hose Washers
For 3/4-inch standard size hose, also for 1-inch hose, 10c per doz. Transportation paid.

## Order early—Stocks are limited

---

**Soil-Soaker**

Water seeps through entire length gently—no spray—puts water where you want it—all soaks to the roots. Made of scientifically treated mildew resistant canvas, one end screws to water hose, other end closed. Water seeps through every pore, soaks directly into the soil over an area of several feet on all sides. No spray—no waste on walkways, driveways, in street—never excessive evaporation. Ideal for lawns, terraces, flower and vegetable gardens, hedges, shrubs, trees, etc. Savings on water bills, as much as 25%.

Three home sizes: 12-foot, $1.50; 18-foot size, $2.00; 30-foot size, $3.00. Transportation paid.

---

**Henderson's Iron Hand Roller**

Made in two and three sections. The faces are ground smooth, so that they will not pick up and carry large lumps of earth; the outer edges are beveled to prevent marking. Purchaser pays transportation.

Planet Jr. No. 8
Combined Horse Hoe and Cultivator

The No. 8 is probably the most famous one-horse cultivator. It is the most complete of the Planet Jr. horse hoes, and adapted to the widest variety of work.

The frame is extra strong, extra long, and higher. It closes to 10 inches and opens to 25. The new lever expander combines strength and stiffness with simplicity. The change in width is easy and almost instantaneous. The wheel and depth regulator operate with the same lever and combine to make an exceptionally steady running cultivator.

The handle adjustment is complete—up or down and an important side adjustment for use in vineyards, berries or corn.

The standards are made of U-shaped steel, the upper portion enclosing the frame mutually stiffening it and being strengthened by it. They are high carbon steel and polished beautifully in use. They are high and round in the throat to prevent clogging.

The two side standards swivel, making it possible to turn the hillers or steeds to any angle desired, for hilling or cutting away from the row.

The hillers are reversible. Price $20.00. Purchaser pays transportation.

Star Pulverizer, Leveler & Weeder

It has revolving star shaped discs ideal for pulverizing the surface. Price, 5 inch, $3.50. 7/4 inch, $5.00. Purchaser pays transportation.

Planet Jr. equipment is restricted by Government order. Parts are available under reduced production. Write us regarding your requirements.

Henderson “Allover” Sprinkler

Made entirely according to Government regulations. Each length is fitted with regulation 3/4 inch coupling without extra charge. 3/4 inch standard. $3.25 per 25 feet length; $6.00 per 50 feet length. Transportation paid.

Square Fountain Sprinkler

It sprinkles a Square Area
As gentle and even as raindrops. Sprinkles to the edge of your walk or house—Not over it.
Extra large brass—5 inches in diameter—Price, $1.10 Postpaid.

Henderson’s Garden Hose

The Henderson “Allover” Sprinkler

Three patented square sprinkler nozzles are attached to two sections of hose, each 12 1/2 feet long. This permits great flexibility, allowing the sections to be laid straight, in a circle or at any angle desired.

When laid straight—with average pressure—it will sprinkle thoroughly an area about 50 feet long and 20 feet wide. The nozzles break the water into a very fine mist which will penetrate into but not wash the soil. It is therefore safe to use even on a newly planted lawn.

Price complete, $7.50. Extra 12 1/2-foot section of hose with couplings, $2.50; extra Connecting Nozzles, 90c each; extra End Nozzles, $1.00 each. Transportation paid.

“Garden City” Revolving Lawn Sprinkler

The Garden City revolving sprinkler distributes evenly, thoroughly and efficiently.

New modernistic highly polished brass head. 3/4 inch octagon swivel hose connection with sharp Cut threads. The base and stem are attractively finished in bright glossy red enamel BAKED-ON. An added touch is the shiny brass ferrule that conceals the threads where the nipple screws into the base.

Price, $2.00. Purchaser pays transportation.

Fan Shower Sprinkler

Throws a wide, fan-shaped, gentle shower. Valuable for hot-beds, greenhouses and gardens. Price, $1.00. Transportation paid.

Fiorists’ and Gardeners’ Hose Sprinkler

A wide face brass nozzle. Price, for 3/4-in. hose, 3-in. face, $1.00; 4-in. face, $1.25. Transportation paid.

The “C. B. G.” Sprinkler

One of the most popular low-cost sprinklers made. Very practical and satisfying in operation. Price, 60c each. Transportation paid.

Ring Sprinkler

No revolving parts to wear and get out of order or leak. Made of polished brass. Price, $1.25. Transportation paid.

Half Circle Sprinkler

Heavy brass sheet. 10 1/2 inches long; 1 1/2 inches high. Price, $1.00. Transportation paid.

Cortlandt Sprinkler

One of the best distributors of water. Sprays evenly.

Mounted on stand 2 feet, $1.75; 4 feet, $2.25; 6 feet, $2.75. Transportation paid.

The manufacture of sprinklers has been discontinued—limited stock suggests early orders.
Henderson's Hot Bed and Cold Frames

Made of best cypress lumber planked and painted. The corners join by bolting on angle irons. 8 inches deep in front, 16 inches deep at back. We ship them "knocked down," but they are quickly and easily assembled.

Prices. Cost of crating sash extra. $1.00 per crate from one up to four sash. Purchaser pays transportation.

Frames are furnished with or without Extra Fine Glazed Sash.
AA frame with 1 extra fine 3 x 6 ft. glazed sash, $17.50; without sash, $12.50.
A frame with 2 extra fine 3 x 6 ft. glazed sash, 28.50; without sash, 15.00.
B frame with 3 extra fine 3 x 6 ft. glazed sash, 39.00; without sash, 18.00.
C frame with 4 extra fine 3 x 6 ft. glazed sash, 50.50; without sash, 21.50.
D frame with 5 extra fine 3 x 6 ft. glazed sash, 62.50; without sash, 26.00.

Half-length Hot Bed and Cold Frames

(36 inches wide)
Made of Cypress lumber, and painted the same as the full-sized frames described above, excepting that they are 12 inches above ground at the back which gives the same pitch to 3 x 3-foot sash as a 16-inch back does to full 6-foot length sash. Our frames are all shipped "knocked down," but are quickly and easily assembled by anyone.

Purchaser pays transportation. Cost of crating extra. $0.75 per crate from one up to four sash.
Half-length Frame with 1 glazed sash 3 x 3 ft. $11.50; without sash, $7.50.
Half-length Frame with 2 glazed sash 3 x 3 ft. 19.00; without sash, 10.00.
Half-length Frame with 3 glazed sash 3 x 3 ft. 27.00; without sash, 13.50.

Sash for Hot Beds and Cold Frames

Extra Fine Without Glass—Not Painted
Made of selected Red Gulf Cypress, free from knots and sap. They have finished edges and an iron crossbar in the center.
Size. 3 x 6 ft. 1½ inches thick, and will require 3 rows of 10 x 12 glass. They are unpainted except the joints, which are white lead before being put together.

Price. Three 75 each; $42.50 per doz.

The Adaptable Plant Support

A heavy wire hoop is skillfully attached to the stout square stakes so that it may be raised or lowered in the spaced notches provided. The stakes are 4 feet high, made from durable wood and are painted green.

The hoops are made from heavy iron wire, are coated with a rust resisting paint, and can be hooked together.

Price, $2.75 doz. Packaged weight, 16 lbs. Extra Hoops for Stakes, $1.50 doz. Extra stakes only $1.50 doz. Purchaser pays transportation.

Time Saver Plant Support

Support consists of a round, steel, galvanized looped and pointed stake on which is a galvanized sliding clip with a green java twine end. To operate, place stake solidly into ground, grasp sliding clip and pull to any height desired, then place java end around plants, draw to any diameter desired and pull inside clip which holds until released for readjustment.

30 in., doz. $1.00; per 100, 80c; 75c.
36 in., doz. 1.20; per 100, 90c.
48 in., doz. 2.20; per 100, 1.75.
Purchaser pays transportation.

Henderson's Extension Tomato and Peony Support

Made of a very heavy No. 8 gauge galvanized wire. The two circles are supported by three legs. The bottom circle is stationary while the top one may be raised or lowered as desired.

Suitable for tomatoes, peonies and other heavy plants.

Last indefinitely. Dimensions: Total height, 46 inches; top circle, 13 inches; bottom circle, 14 inches. Price, 50c; each $1.75 per doz. Transportation paid 1st and 2nd zones (150 miles of New York City).

Plant Setter and Bulb Planter

Will be found very efficient for planting all kinds of small plants and bulbs. Junior Model.

Price, 60c; Transportation paid.

The Senior Model, used from a standing position has an adjustable feature that accurately controls various planting depths. An excellent tool for planting bulbs, plants or seedlings.

Price, $4.00; postpaid in 1st and 2nd zones (150 miles from N. Y. City).

Henderson's Superior Draw Hoes

Extra quality cast steel, oil tempered thin, elastic polished blade, Swan's neck, socket Shank, 9-inch. Ladies 95c; and the following sizes: 6-inch, $1.10; 7 and 8-inch blades, $1.25. Purchaser pays transportation.

Gardex Scuffle Hoe

Made of special high grade steel, will keep edge indefinitely. Polished 7 inch blade, painted green, 5 inch handle. Price, $1.20. Purchaser pays transportation.

DIAMOND POINT PUSH HOE

Among roses, hardy shrubs, or annual flowers, it will be found superior to all others. It is just the thing for the rock garden and a labor saver in the vegetable garden. The Diamond Point Push Hoe will also keep the lawn trim and free from weeds. The secret of its efficiency is its simplicity of construction, the high quality of its steel and the serrated edge of the hoe.

**MISCELLANEOUS**

**Sudbury Soil Test Kits**

These kits test for Nitrogen, Phosphorus, Potash and Acidity.

Hit-and-miss methods are no longer popular with the thrifty, skillful gardener. He is unwilling to risk good seed by planting in soil that may be unsuited to their needs—until he knows by test that he is doing the right thing.

Successful crops are based upon a knowledge of plant requirements. Analysis of the soil that will make possible intelligent adjustment to plant needs.

The Sudbury Soil Test Kits are designed to make this essential information instantly available. The quick practical tests will show the pH acidity of soil and any deficiency in nitrogen, phosphorus and potash. Each kit is accompanied by complete instructions and tables of plant needs.

**SUDBURY CLUB MODEL**

- **Home Gardener Kit (Model D) (Gives 20 tests)** $2.00
- **Club Model (Model C) (Gives 50 tests)** $4.75

- **Horticultural Soil Test Kit (Model B) (Gives 60 tests)** $9.75

Henderson's Perfecto Window Box

Recognized by scientific gardeners and florists as the correct idea in construction for growing house plants and porch plants. The problem is solved by means of the patented self irrigating and air circulating system.

Water can be poured in either end of box and quickly seeks the level of the connecting troughs and rises into the earth to the root of the plants.

The material used in construction is copper steel, with a lead coat, which will neither rust nor deteriorate like plain galvanized iron and is the best material procurable for a long-life flower box to be continually under moisture. It is light in weight. The finish is enamel, in green. Each box shipped or delivered is packed in an individual carton to insure preservation of finish and safe delivery to purchaser.

No. 1. 26 inches long, 6 inches deep, 7 inches wide. Price, $1.75.
No. 2. 26 inches long, 6 inches deep, 7 inches wide. Price, $2.00.
No. 3. 32 inches long, 6 inches deep, 7 inches wide. Price, $2.50.
No. 4. 38 inches long, 6 inches deep, 7 inches wide. Price, $3.25.
No. 5. 44 inches long, 6 inches deep, 7 inches wide. Price, $4.25.

Transportation paid to 1st and 2nd zones, 150 miles from New York City.

WEEDERS

Chisel Blade Weed or Dock Cutter, Long handled, with foot rest. See cut. Price, $2.00. Transportation paid.

Easy Way Weeder. It has a long handle and measures 49½ inches over all. Is very strong and durable. See cut below. Price, 35c. Transportation paid.

Eureka Hand Weeder. Short handle, 6 inches, 60c each. Transportation paid.

Finger Weeder. Price, 25c each. $2.75 doz. Transportation paid.

Hazeltine's Hand Weeder. Peculiar shape permits a wide range of work. 35c each. Transportation paid.

Lawn Weeder, Cleveland. Curved blade edges the soil—leaves plants without disturbing surrounding soil. Price, $1.75. Postpaid.

Magic Weeder. The hoe is useful in loosening hard ground. Price 63c each, Transportation paid.

Speedy Weed Cutter 13-inch, double edge blade, 2½ inches wide. Made sufficiently strong to cut heavy weeds and light bushes. Price, $1.50. Transportation paid.

Vyn Tach Hooks

Attaches climbing Roses and other vines to masonry and wooden surfaces.

Hanks, 25- Shells, Drill and Holder, $2.25. Without Drill and Holder, $1.75.

For Wood:

25 for $1.25. Postpaid.

Rifle Weeder

Constructed of best metal materials. The six pointed prongs sink three inches deep to get the root. A twist of the wrist and by lifting the weed it can be ejected by a finger trigger operation which deposits the weed 8 feet or more.

The tempered tool. Weed Cutter steel used in these prongs is practically unbreakable and will not wear.

Price, $2.85. Postpaid 150 miles.

Chisel Weed Cutter

Easy Way Weeder

Ladies' and Youths' Set of Garden Tools

Set comprises a long handled hoe with 4-in. blade, a long handled garden rake with 6 teeth, a round pointed spade, 8 x 4 1/2-in. blade, a 5-in. trowel, a Finger Weeder. Price, set of 5 tools, $3.50. Transportation paid.

Transportation paid to 1st and 2nd zones, 150 miles from New York City.

141
SPRAYING AND DUSTING EQUIPMENT

HENDERSON'S Streamline SPRAYER

Compressed Air Atomizer and Sprayer

Delivers a continuous fog-like spray. It is fitted with straight and adjustable nozzles, making it a perfect under-lea sprayer. In fact, spray can be delivered at any angle or position desired. Made in solid sheet copper; handles 1 quart. Price, $2.50. Transportation paid.

Continuous Sprayer U.T.K.

Henderson's Spraymaster

Three quart galvanized tank with twin nozzle. Slow pumping keeps up a continuous, unbroken strong fog. Straight or angle spray as desired. All working parts brass and easily removed without tools for cleaning purposes. Price, $2.00 postpaid.

Henderson's Handy Sprayer

It is substantially built of heavy tin and can be used for spraying all sorts of insecticides. Tank will hold one quart. Price, 50c. Transportation paid.

Henderson's Improved Compressed Air Sprayer

Best for the Medium Sized Garden or Small Orchard

Tanks are manufactured of heavy gauge brass and are galvanized, coated steel, electrically welded. Is equipped with automatic shut-off with hold open feature. 2 stage safety lock, easy grip rubber handles, large open head for easy filling. 2 inch diameter seamless brass pump and 24 inch brass extension.

The E-Z Knapsack Sprayer

Capacity Five Gallons

A large air chamber gives a continuous flow and an even pressure on spray nozzle which sprays at any angle.

Perfect valve action is assured, for there is only one solid bronze ball valve, which is readily accessible by unscrewing the air chamber.

Regularly equipped with 3 feet of hose, 2 feet extension, automatic trigger shut-off and nozzle.

Price, Brass tank, $30.00. Galvanized tank, $23.50. Shipping weight about 18 pounds. Purchaser pays transportation.

Garden Hose Sprayer

The Garden Hose Sprayer attaches to your garden hose in place of the regular nozzle.

Complete Sprayer consists of non-leak shut-off, transparent cartridge chamber with metal threaded ends, and 12-inch angle spraying nozzle. All metal parts chromium plated. Price, $4.50.

36-inch Angle Extension Nozzle, chromium finish. Price, $1.75.
36-inch Straight Extension, chromium finish. Price, $1.75.
Extra Transparent Cartridge Chamber with metal threaded ends, chromium plated and chromium plated Coupling to form double chamber for dual spraying. Price, $1.75.

Complete combination of sprayer and 6 assorted cartridges. Price, $6.25.

Harco Sprayer

This brand-new, efficient, easy-to-use Harco sprayer plus good liquid insecticide means quick, certain death to garden-destroying insects and destructive fungus pests. Harco's conveniently-long extension rod quickly seeds a penetrating spray right where it is most needed for effective garden pest control.

Price, $2.35 complete.

Cartridges for Hose Sprayer

Arsenate of Lead
Colloidal Sulphur
Bordeaux
Dormold (Dormant Oil Spray)
Price, 35¢ each; 3 for $1.00. Postpaid.

Rotenone
Nicotine
Pyrethrum
All Purpose

Dust Master Duster

CYANO-GAS FOOT PUMP DUSTER—for pumping CYANO-GAS A-DUST into rat burrows, mole runways, etc. Made of non-corrosive metal. Price, $7.00.

CYANO-GAS HAND DUSTER. Ideal for gardeners, farmers and poultrymen. Especially designed for the application of CYANO-GAS A-DUST TO RODENT BURROWS. Price, $3.00.

Flame Gun

Patented Flat Flame of 2,000 degrees. F. Burns Kerosene, Range Oil, Stove or Light Furnace Oil. For hundreds of uses: Spring, Summer, Fall, Winter.

A gallon heavy galvanized Fuel and Air tank, 2 inch diameter brass air pump. Adjustable carrying strap, pressure gauge, 7 feet oil resisting hose with brass couplings. Overall length of burner including control valve, 38½ inches. Price, $19.00 Postpaid.
Hand Bucket Pump

For spraying small trees, shrubbery, garden vegetables, washing automobiles, wagons, windows, and for spraying whitewash, disinfectants, sheep dip and all insecticides. Price, $6.00.

Spray Pump Discharge Hose

Cut any length, 10 feet up to 50 feet, 1/2-inch bore, 14c per foot, coupling extra, 30c per set; M-inch, 15c per foot cut any length 10 to 50 feet; couplings extra, 30c per set. Purchaser pays transportation.

Spray Pump

This solid brass double acting pump will generate 300 pounds pressure; nozzle equipment provides a variety of sprays. Can be used for agricultural or general spraying with any bucket or barrel. Furnished with 3-ft. 1/2-inch hose, strainer pipe. Price, $8.75 postpaid.

Hayes Jr. Spray Gun

Famous all-purpose sprayer makes 3 gallons of mixed spray material at a time. Sprays liquids and most wettable powders up, down, sideways. Light, easy to use. Just attach HAYES JR., garden hose, turn on the hydrant, lightly press the conveniently long lever—and HAYES JR. sprays. Gives efficient performance of heavy, expensive equipment. Operates on water pressure from 30 to 175 pounds. No moving parts to wear out or break—insures long life and satisfactory service.

Price, $5.95. Purchaser pays transportation.

Hayes-ette Sprayer

A compact, little bantamweight that efficiently does the work of many larger sprayers. Weighs just a little over a pound, filled. Simply attach to garden hose, lightly press the new No-Leak Thumb Button that’s all. Operates on 20 to 150-pound water pressure. Capacity 1 1/2 gallons of mixed spray material. Sprays all modern liquid spray materials. Ideal for use with spray kits.

Price, $2.95. Purchaser pays transportation.

Adjustable Duster

A plunger type duster having a feed adjustment with which to control dosage and to eliminate waste. Easily operated—accurate feed control—positive action. The answer to a long felt need for a highly efficient plunger duster for use with the new concentrated dust formulas.

Price, $1.75. Postpaid.

Henderson's Streamline Wheelbarrow Sprayer

One of the Best Wheelbarrow Sprayers

Length overall, 61 inches; height 38 inches. Tank, Galvanized or Brass. Capacity 18 gallons. Entire pump solid brass; ball valves. Pump develops pressure 250 lbs. on nozzle; capacity 1/2 gallon per minute. Brass Pump Cylinder, 8 x 1 1/2 inches; 12-foot hose; Nozzle Brass. Shut-off control. Two spray Discs, for mist or solid stream. Wheel height 20 inches; rim 2 1/2 inches wide. Agitator Dasher; keeps liquid thoroughly mixed.

Price, for Galvanized Tank, $25.00; for Copper Tank, $35.00.

No. 50, 12 gal. capacity, round Galvanized tank 8-feet hose and nozzle, $20.00. Copper $38.00. Purchaser pays transportation.

Henderson's Double Spray Barrel Pump

Two outlets with brass cap for using one or two leads of hose and four nozzles if desired.

300-lb. pressure

This is an unusually large, powerful sprayer pump, with all-brass working parts; carefully machined and ground together, making all parts air-tight and non-rusting. The large air chamber develops extra heavy pressure with slow, easy pumping. Capacity 4 gallons per minute. One of the most powerful hand sprays made.

Price, complete with one lead of hose, nozzle and truck...$57.00

Or sold separately:

Pump..................................................$20.00
12 1/2-foot hose and nozzle..............$3.00
50-gallon double head barrel...........$10.00
Trunnions, per pair......................1.00
Truck, 3-inch tire, 30-inch steel wheels...24.00

SEEDS.
Not mailable. Purchaser pays transportation.

SEMESAN. A disinfectant for seeds. Controls damping off. Applied in solution. 2 ozs. 40c; 1 lb., $2.50; 5 lbs., $11.40. Larger quantities, price on application. Transportation paid; see note on top of page.

TARTAR EMETIC. Recommended for control of Dogs and Cats. Applied in solution. 4 lbs. Tartar Emetic with 16 lbs. brown sugar per 100 gallons water.
Price, ½ lb., 40c; ½ lb., 75c; gal., $1.00.

A 4½-oz. bottle of Formaldehyde Dust.
GARDEN FERTILIZER

Contains all the Food Elements Required for Quality Vegetables.

A perfectly balanced, complete fertilizer, free from objectionable odor which contains all the food elements essential to plant life. Its use insures strong healthy vegetation. It should be applied after plowing or digging and just before harrowing or raking at the rate of 1/4 to 1 ton per acre or 10 lbs. for plot 10 x 20 or 200 square feet. A light top-dressing at intervals while the crop is growing will prove advantageous.

Prices:
- 5 lbs. $0.55
- 10 lbs. $1.00
- 25 lbs. $2.50

See Special Notice on top of page regarding Transportation.

TREE and SHRUB FOOD

For Fruit and Shade Trees, Shrubs, Evergreens, Bush Fruits, Grape Vines and Hedges

This food should be applied over the area covered by the overhanging of the tree. Where the ground is covered with grass, holes may be made with a crow bar and these holes filled with the food. When setting out young trees mix 1 to 5 lbs. to each tree in the soil where they are to be planted. When planting a hedge allow from 1/4 to 1/2 lb. to each plant. Directions for applying with each package.

From 1 to 2 lbs. each will suffice for most shrubs and vines. Trees with a spread of about 10 feet require from 10 lbs. to 50 lbs. Up to 30 feet, 20 lbs. Up to 40 feet, 35 lbs. Up to 50 feet, 50 lbs.

Prices:
- 5 lbs. $1.00
- 10 lbs. $1.75
- 25 lbs. $4.50

Prices on larger quantities quoted on request.

See Special Notice on top of page regarding Transportation.

BONE MEAL, MEDIUM FINE

Very desirable for fertilizing all hard wooded plants, including flowering shrubs, fruit bushes, trees, bulbs, etc.

For Lawns it is a dependable fertilizer, as it contains the essential elements that grass requires. It may be broadcast as a top-dressing at any time either in early spring or during the growing season.

Quantity required. For lawns, pasture and mowing lands 10 lbs. to 200 square feet or 1/4 to 1 ton per acre. For trees and vines, 2 to 4 lbs. each. For field and garden crops, 1/4 to 1 ton broadcast and harrowed in. For rose beds, pot plants, etc., one part to about fifty of soil.

Prices:
- 1 lb. $0.25
- 5 lbs. $1.00
- 10 lbs. $1.25
- 25 lbs. $5.00

See Special Notice on top of page regarding Transportation.

SPECIAL BONE FOR ROSES

Used by Rose Growers for both outdoor and greenhouse growing. Contains no concentrates or added chemicals.

Prices:
- 1 lb. $0.30
- 5 lbs. $7.50
- 10 lbs. $15.00
- 25 lbs. $50.00

See Special Notice on top of page regarding Transportation.

CATTLE MANURE (Shredded)

A strictly organic fertilizer—weed free.

An ideal soil builder and mulch. Clean with no offensive odor. Easy to apply as a top dressing. When applied to lawns of poor soil texture it has the decided advantage of binding a sandy soil and breaking up a clayey condition.

Broadcast at the rate of 100 lbs. per 1,000 sq. ft. Prices:
- 25 lbs. $3.25
- 100 lbs. $10.00

See note regarding transportation.

HOUSE PLANT FOOD

A safe, clean and high-grade fertilizer free from disagreeable odor; prepared especially for feeding plants grown in pots. It is a wonderful invigotator, producing luxuriant, healthy growth, foliage of rich texture and large flowers. A concentration of 2 parts to 100 parts water.

Price, 12-oz. carton with pouring spout, sufficient for 25 ordinary sized plants for one year, 30c.

Transportation paid.
PLANT FOODS—FERTILIZERS—HORMONES

SPECIAL NOTICE—We prepay transportation charges on Fertilizers by parcel post, express or freight at our option within the first and second zones (150 miles of New York City). Purchasers, beyond these zones, pay transportation charges.

ADCO—Super
Dry leaves mixed with Adco and kept moist, turn into excellent manure. So do flower stalks, vines, and almost any other kind of non-woody vegetable waste.
Price. 25 lb. $1.00; 25 lb. bag, $2.25.

ALUMINUM SULPHATE
Gives the soil the acidity necessary for the successful culture of Rhododendrons and similar plants.
Prices. lb., 25c; 5 lbs., 75c; 10 lbs., $1.35; 25 lbs., $2.25.

ASHES, HARDWOOD
Apply 1,000 lbs. per acre. Indispensable for all crops requiring potash; excellent for mixed crops, poor soils. For top dressing lawns and grass fields it is applied to best advantage either in very early Spring or late Fall.
Prices. 25 lbs., $1.25; 50 lbs., $2.25; 100 lbs., $4.00. Larger Quantities Price on Application.
See Special Notice on top of page regarding Prepayment.

COTTON SEED MEAL
An organic fertilizer containing Nitrogen, Phosphoric Acid and Potash. Valuable for acid-loving plants. Use 5 lbs. per 1000 square feet. Price. 25 lbs., $1.25; 50 lbs., $2.00; 100 lbs., $3.50; 250 lbs., $7.00.

DRAMIONE
Ideal for Flowers, Lawns, Vegetables and Shrubs. Absolutely safe. Will not burn. Contains dehydrated cow and poultry manure and peat moss. Clean and free from weed seed, insect life and fungus. Practically odorless and always ready for use. All organic—2 bushel (50 lb.) bag will dress approximately 1,000 sq. ft. of lawn. Price. 20 lb. bag (2 bushels), $2.25. Prepaid

ELectra
America's Finest Plant Food for the Grower who wants the best. The organics upon which the Industry was built are supported by more recently developed organics of complete food type, all properly balanced for quick and complete action.
Contains 80% organic matter. Thirty ingredients are used to incorporate every food element and condition necessary to grow specimen plants. 75c; 10 lbs., $1.25; 25 lbs., $2.00; 50 lbs., $3.50; 100 lbs., $6.00.

HYponex
A complete and balanced Plant Food. Diluted with water and applied to transplants makes 1 gallon; 1 lb. makes 100 gallons for soil culture or 50 gallons for soilless culture.
Clean, odorless and harmless. Will not cake, spoil or lose its vitality. Price. 1 lb., $1.00. Prepaid.

HORMONIN POWDER
This hormone powder produces better roots faster. Simply dip stems of cuttings in "Hormoind Powder" and place in usual propagating mediums. For house, garden and greenhouse plants, use "Hormoind Powder" No. 1.
Price. 1'5 ozs., 50c; 1 lb., $3.00.
"Hormoind" Powder No. 2 for semi-woody types. Price. 1'5 ozs., 75c; 1 lb., $4.50.
"Hormoind" Powder No. 3 for resistant species. Price. 1 oz., $1.00; 1'4 lbs., $4.50.
A convenient Combination package is available for combining all three powders in one box.
Price. 1 oz., 75c.
Plant name lists are included in every package.
"Hormoind 'A'" Liquid. Price. 5c, 50c bottle; 15c. $1.00 bottle. Prepaid

INOCULANT—Legume—Aid
Prices for Alfalfa and Clovers: 1/2 bush., size, 10c; 1 bu. bush., 50c; 2 bu. bush. size, $1.00.
Prices for Vetch, Peas, Beans, Cowpeas, Lepidium etc.: 1 bu. bush., size, 30c; 2 bu. bush. size, $1.50; 3 bu. bush., $1.00.
Garden size for Peas, Beans and Sweet Pea, 25 cents each, Dressed with package.

KEM-LELIQUID PLANT FOOD
Makes plants grow faster, indoors or outdoors—produces harder plants, finer foliage, flowers and vegetables. To use, merely dilute with tap water. One gallon makes up to 90 gallons nutrient solution.
Price. quart, 50c; gallon, $1.00; 5 gals., $4.25; Purchaser pays transportation.

LIME, Hydrated Finely Pulverized
Improves the mechanical condition of the soil, for grass, farm crops, etc.
Broadcast 10 lbs. to 100 square feet or 1 ton to the acre.
Prices. 5 lbs., 35c; 10 lbs., 60c; 25 lbs., $1.25; 50 lbs., $2.00; 100 lbs., $2.75; 500 lbs., $9.50; 2000 lbs. (1 ton), $30.00.
Larger quantities on application. See Special Notice on top of page regarding Prepayment.

LIMESTONE Pulverized
Not as quick soluble as hydrated lime.
Prices. 5 lbs., 35c; 10 lbs., 60c; 25 lbs., $1.25; 50 lbs., $2.00; 100 lbs., $2.75; 500 lbs., $9.50; 2000 lbs. (1 ton), $30.00.

NITRATE OF SODA
For food production only. Apply around but not on the plants at the rate of 2 lbs. per 1,000 sq. ft. or dissolved in water 1 oz. to 2 gals. Water in thoroughly to prevent burning.
Prices. 1 lb., 25c; 5 lbs., 75c; 10 lbs., $1.25; 25 lbs., $2.00; 100 lbs., $2.75; 500 lbs., $9.50; 2000 lbs., $30.00.

NITROGEN Fertilizer
Product of pure, organic source.

WATSON MURIATE
For Corn, Grains and Potatoes, etc., quantity 350 to 700 lbs. to the acre.
Prices. 5 lbs., 85c; 10 lbs., $1.50; 25 lbs., $3.00; 50 lbs., $4.50; 100 lbs., $7.00.
See Notice on top of page regarding Prepayment.

ROOTONE
Roots Cuttings. Stimulates Seeds and Bulbs. Price. 2 oz., jar, $1.00. 1 lb. can $5.00. Prepaid.

SALT, AGRICULTURAL
Price. 100 lbs., $2.25.

SOIL POTTING, Prepared
Fertilized—ready for immediate use in repotting house plants. 4-lb. carton sufficient for 2-4 inch pots, 25c. Postpaid 35c. within 150 miles of New York City.
Soil. (Fertilized Top Soil.) Price. 100 lbs., $2.50. Write for quantity prices.

VITAMIN B1 (Thiamin Chloride)
For larger more substantial blooms. For the reduction of root shock in transplanting. Healthier, faster growing seedlings. Regular weekly treatments with Vitamin B1 Solutions will result in sturdier plants and roots.
Recommended specially for house plants.
Liquid form—sufficient for 1,000 gallon of finished material. Price. $1.00. Prepaid.
Chemistry Comes to the Aid of the Gardener

HENDERSON’S
FLUID WEED DESTROYER

KILLS
POISON IVY

Kills all vegetation it comes in contact with including poison ivy and prevents growth for a period of one year. Complete directions on every can.

A sure killer of weeds, grass, etc, on tennis courts, paths and driveways. 5 gallons is sufficient for tennis courts. Easily applied with sprinkling pot or cart. Dilute with water according to directions. A quart can makes 7 to 10 gallons. 100 gal makes 10 to 17 gals.
